SUMMARY

The following summary is qualified in its entirety by the more detailed information appearing elsewhere in this Prospectus. Certain terms used herein are defined under "Glossary".

THE FUND

The Fund is a Philippine corporation registered as an open-end investment company under R. A. 2629 and R. A. 8799, on November 3, 2004 under SEC Registration No.CS200417434. The Company was organized and incorporated in order to engage in the sale of its shares of stock and in the investment of the proceeds of these sales in fixed income instruments denominated in US Dollars issued by the Philippine government, other major economies, or corporations operating therein. The Company's foreign investments may either be purchased directly or through one or more securities issued by diversified investment companies invested in such types of securities.

The investments of the Company will be primarily in US Dollars, while it may, subject to prevailing investment conditions, hold fixed income instruments denominated in other major world currencies. The Company's objective is to provide regular returns through investments in a diversified portfolio of US Dollar-denominated fixed income instruments issued by the Philippine government, other major economies, or corporations operating therein or through diversified investment companies invested in such securities. The Company's investment category is moderate risk.

- Foreign Currency Risk
- Fund Manager Risk
- Liquidity Risk

For a more detailed discussion of these risks to be considered in connection with an investment in the Fund's shares, see "Risk Factors".

TERMS OF THE OFFER

Offer Price	The Offer Price per Offer Share is the current NAVPS.
Voting Rights	Each Holder of a share in the Fund is entitled to one vote, in person or by proxy, for each share held by such shareholder.
Dividends	The Board of Directors of the Fund has the power to fix and determine the amount to be reserved or provided for declaration and payment of dividends from the Fund's unrestricted retained earnings. The amount of such dividends (either in cash, stock, property or a combination of the foregoing) will depend on the Fund's profits, cash flows, capital expenditure, financial condition, and other factors and will follow SEC's guidelines on determining retained earnings available for dividend declaration. The existence of surplus profit is a condition precedent before a dividend can be declared. The surplus profits or income must be a bona fide income founded upon actual earnings or profits. Actual earnings or profits shall be the net income for the year based on the audited financial statements, adjusted for unrealized items, which are considered not available for dividend

	declaration. Taking into account the Fund's cash flows, capital expenditure, investment objective and financial condition, at least 10% of the actual earnings or profits may be declared by the Board of Directors as dividends.
Automatic Reinvestment of Dividends	Cash dividends so declared will be automatically reinvested in additional shares on behalf of the shareholders, without sales charges, at the NAVPS on the payment date established for such dividends. As such, shareholders realize their gains when shares are redeemed. Shareholders may also elect not to have dividends reinvested and receive payment in cash, net of tax.

For purposes of facilitating transactions, the completed documents may be submitted electronically through fax or on-line, or any mode of transmittal which SLAMC may establish and deem acceptable from time to time. All payments to be forwarded to and received by SLAMC should come with and must be supported by the appropriate documents. Payments must also be forwarded and received by SLAMC through mediums recognized and accredited by SLAMC. The investor's account will be credited for the subscription only when the payment is in the form of cash, cheque or electronic transfer. The subscription will not be processed into the investor's account until the funds have become available to the Fund for investment deployment. Investors should inquire with their banks the clearing time required for each form of payment and when their investments will be available to the Fund. Applicable bank charges will be deducted from the investible amount. To reduce the adverse effect to existing investors of large redemptions in the Fund, a subscription may be amended or rejected if it makes the investor a holder of 10% or more of the Fund's net assets on subscription date. Investments in the Fund shall only be accepted in US Dollars (US$).
Sales Loads	The investor may choose to buy shares of the Funds on a "front-end" (Option A) or a "back-end" (Option B) basis, as described below:

Subscription Process	Subscriptions received by SLAMCI or its authorized distributors by 12 o'clock noon on a business day will be processed at the NAVPS determined at the close of business that day. SLAMCI reserves the right to reject any specific subscription or to restrict purchases by a particular investor, for example, when such purchase is contrary to the best interests of the other shareholders or would otherwise disrupt the management of the Fund. This decision will be made within two (2) business days after receipt of the subscription and, in the event of a rejection, the subscription amount will be returned as soon as possible to the investor without interest and after deducting applicable bank charges.
Cut-off Period	If received after 12 o'clock noon, subscriptions will be processed at the NAVPS calculated for the next business day.
Redemption Process	Shares are redeemable at any time at their NAVPS. 	redeemed. The redemption price is the NAVPS at the close of business day if order ticket is received on or before 12 o'clock noon. After 12 o'clock noon, the order ticket is deemed to have been received the following business day, and the redemption price will be the NAVPS determined at the close of business on the next business day. Payment upon redemption will be made either by issuing a cheque to the registered shareholder or through bank remittance. Payments for shares redeemed, less any redemption charges and taxes applicable, will be made by the Fund within seven (7) business days from its receipt of the request for redemption. Payment made through bank remittance may be subjected to applicable bank charges, subject to client's arrangement with the remitting and receiving bank. SLAMCI reserves the right to deduct any applicable bank charges from the redemption value. For payment made through cheque issuance, investor will receive payment within seven (7) banking days from date of redemption for the amount redeemed. The Fund may suspend redemptions or postpone the date of payment for a redemption in accordance with R. A. No. 2629 and/or the Implementing Rules and Regulations of the Investment Company Act upon approval of the Securities and Exchange Commission. The SEC may, whenever necessary or appropriate, in the public interest or for the protection of investors, suspend the redemption of securities of open-end companies. No deferred sales charge or redemption fee is imposed on redemptions on transferred shares under Option in case of death of the investors. In order to qualify for this waiver, redemption must be made within 1 year of a shareholder's death. SLAMCI must be notified in writing of such death at the time of the redemption request either by the legal heir or administrator of the estate appointed by the court. RISK DISCLOSURE STATEMENT

1. GENERAL WARNING

The price of securities can and does fluctuate, and any individual security may experience upward or downward movements, and may even become valueless. There is an inherent risk that losses may be incurred rather than profit made as a result of buying and selling securities.

Past performance is not a guide to future performance.

There is an extra risk of losing money when securities are bought from smaller companies. There may be a big difference between the buying price and the selling price of these securities.

An investor deals in a range of investments each of which may carry a different level of risk.

2. PRUDENCE REQUIRED

The risk of disclosure does not purport to disclose all the risk and other significant aspects of investing in these securities. An investor should undertake his own research and study on the trading of securities before commencing any trading activity. He may request information on the securities and issuer thereof from the Commission which are available to the public.

3. PROFESSIONAL ADVICE

The investor should seek professional advice if he is uncertain or has not understood any aspect of the securities or the nature of risks involved in trading of securities, especially high risk securities.

RISK FACTORS

The Fund Manager's overall risk management framework establishes policies, operating guidelines, risk tolerance limits and practices for risk management. Its risk management program is designed to:

- avoid risks that could materially affect the value of the Fund,
- contribute to sustainable earnings,
- take risks that the Fund can manage in order to increase returns, and
- provide transparency of the Fund's risks through internal and external reporting.

The Fund is in the business of accepting risks for appropriate return and takes on those risks that meet its investment objectives. The program design aligns risk management with the Fund's vision and strategy and embeds it within the business management practices of the business groups. In pursuing its investment objectives, the Fund Manager is responsible for ensuring that all significant risks are appropriately identified, assessed, managed, reported and monitored.

The Board of Directors of the Fund is ultimately responsible for ensuring that risk management policies and practices are in place. The Board has oversight role with respect to ensuring the identification of major areas of risk and development of strategies to manage those risks, and to review compliance with risk management policies implemented by the Fund. The Fund's Risk Officer reports to the audit and compliance committee of the Board of Directors. Her duties and responsibilities include, among others:

- Monitoring the investments of the Fund to ensure that all identified gaps in management's risk and management processes are resolved on a timely basis;
- Provide leadership to facilitate management's understanding of the risk management framework, policies and processes;
- Ensuring that the Philippine risk management organization is appropriately staffed with individuals who have the requisite skills and competencies, and that the organization structure and reporting relationships are appropriate and sufficiently independent;
- Organizing and participating in the risk workshops of the annual risk identification process; ensuring that business units identify plausible risk scenarios;
- Ensuring that risk-based measurement and reporting metrics, including risk limits and exception reporting are established; assigning risk category to the final risk lists;
- Providing expertise in the development of action plans to address the risks identified;
- Reviewing and updating the risk report quarterly; identifying and escalating as appropriate any missed target dates for key risk action plans; and
- Providing documented quarterly status updates on key risks to the audit and compliance committee.

Key Risk Processes

The Fund has established a formal risk identification program whereby key risks that may impact its business are identified. Exposure to these risks is assessed on a qualitative and quantitative basis. Risk control programs and action plans are established for mitigating the exposure.

The Fund has adopted risk management policies to provide a consistent approach to measurement, mitigation and control, and monitoring of risk exposures.

Risk Categories

The Company's activities expose it to a variety of operational and financial risks such as market risk, credit risk, fund manager risk, liquidity risk, dilution risk, large transaction risk, non-guarantee, regulatory risk, operational risk, foreign investment risk, and geographic concentration risk.

Market Risks: The Fund is invested in fixed income securities. Interest Rate Risk is applicable to fixed income investments of the Fund when the value of an investment of the Fund decreases due to movement in market factors such as changes in interest rates. Changes in interest rates, applicable to fixed income investments refer to the period when interest rates rise, the market price of the bonds held by the Fund, if any, may fall. The longer the overall maturity of the bonds held by the Fund, the more sensitive the prices of the bonds will be to changes in interest rates. This risk is minimized by closely monitoring the direction of interest rates and aligning it with the appropriate strategy of the Fund for fixed income investments.

The fund will manage interest rate risk by actively monitoring the prevailing interest rate environment and spreads on Philippine bonds. During periods of rising rates and widening of credit spreads, the fund manage will reduce the duration of the portfolio. During periods of falling rates and narrowing credit spreads, the fund manager will increase the duration of the portfolio.

Credit Risk: Investments in bonds carry the risk that the issuer of the bonds might not be able to meet its interest and principal payments. In which case, the value of the bonds will be adversely affected and may result in a write-off of the concerned asset held by the Fund, resulting to a significant decrease in its

NAVPS. To mitigate the risk, each Issuer/Borrower/Counterparty passes through a stringent credit process to determine whether its credit quality complies with the prescribed standards of the Fund. The credit quality of the Issuer/Borrower/Counterparty is reviewed periodically to ensure that excellent credit standing is maintained.

Foreign Exchange Risk: The investments of the fund will be held in fixed income securities denominated in US Dollars. The value of the USD fluctuates constantly against the Philippine peso due to a myriad of factors, principally interest rates and inflation rates in their respective domiciles. These in turn will affect the value of the fixed income instruments, ultimately impacting the NAVPS of the fund.

Fund Manager Risk: The performance of the Funds is also dependent on the Fund Manager's skills. Hence, the Fund may underperform in the market and/or in comparison with similar funds due to investment decisions made by the Fund Manager, and may also fail to meet the Fund's investment objectives. The Board of Directors of the Funds, however, shall ensure that all investment policies and restrictions enumerated in this Prospectus are strictly followed.

Liquidity Risk: The Fund is usually able to service redemptions of investors within seven (7) banking days after receiving the notice of redemption by paying out redemptions from available cash or cash equivalents. When redemptions exceed these liquid holdings, the Funds will have to sell less-liquid assets, and during periods of extreme market volatility, the Funds may not be able to find a buyer for such assets. As such, the Funds may not be able to generate sufficient cash from its sale of assets to meet the redemptions within the normal seven (7) banking day period. To mitigate this, the Fund maintains adequate highly liquid assets in the form of cash, cash equivalents and near cash assets in its portfolio.

Dilution Risk: Being an open-end mutual fund, various investors may effectively subscribe to any amount of shares of the Fund. As such, investors face the risk of their investments being diluted as more investors subscribe to shares of the Fund. The influence that the investors can exert over the control and management of the Fund decreases proportionately. To mitigate this risk, the Fund may impose single investor limits to the ownership of the fund, when necessary. This limits the extent to which any single investor can exercise control of the Fund. The Fund may also impose an anti-dilution levy or fee for significant orders, to protect the interest of the remaining investors of the Fund, when necessary.

Large Transaction Risk: If an investor in a Fund makes a large transaction, the Fund's cash flow may be affected. For example, if an investor redeems a large number of shares of a Fund, that Fund may be forced to sell securities at unfavorable prices to pay for the proceeds of redemption. This unexpected sale may have a negative impact on the net asset value of the Fund. To mitigate this risk, the Fund may impose single investor limits to the ownership of the fund, when necessary. This limits the extent to which redemptions from any single investor can impact the Fund's cash flow. The Fund may also impose an anti-dilution levy or fee for significant orders, to protect the interest of the remaining investors of the Fund, when necessary.

Non-Guarantee: Unlike deposits made with banks, an investment in the Fund is neither insured nor guaranteed by the Philippine Deposit Insurance Corporation ("PDIC"). Hence, investors carry the risk of losing the value of their investment, without any guaranty in the form of insurance. Moreover, as with any investment, it is important to note that past performance of the Fund does not guarantee its future success.

Regulatory Risk: The Funds' operations are subject to various regulations, such as those affecting accounting of assets and taxation. These regulations do change, and as a result, investors may experience lower investment returns or even losses depending on what such a regulatory change entails.

For example, higher taxes would lower returns, and a mandated precautionary loan loss provisions could result in the Fund experiencing a loss in the value of assets. To mitigate this risk, the Fund adopts global best practices. Further, it maintains regular communications with the relevant government agencies to keep itself abreast of the issues giving them concern, and to have the opportunity to help them set standards for good governance. The Fund's investment manager, SLAMCI, also takes an active

participation in the Philippine Investment Funds Association, Inc. ("PIFA"), an association of mutual fund companies in the Philippines.

Operational Risk: This is the risk of loss resulting from inadequate or failed internal processes, controls, people and systems. Categories of operational risks may fall under: sales and distribution, human resources, information technology, processes and people, accounting and finance, model risk, legal and regulatory and third party relationships. The Fund ensures that internal controls and practices are consistent with enterprise wide policies supporting the management of operational risks. The Fund has established business specific guidelines. Comprehensive investment program, including appropriate levels of self-insurance, is maintained to provide protection against potential losses.

Foreign Investment Risk: The Fund invests in securities issued by corporations in, or governments of, countries other than the Philippines. Investing in foreign securities can be beneficial in expanding your investment opportunities and portfolio diversification, but there are risks associated with foreign investments, including:

- companies outside of the Philippines may be subject to different regulations, standards, reporting practices and disclosure requirements than those that apply in the Philippines;
- the legal systems of some foreign countries may not adequately protect investor rights;
- political, social or economic instability may affect the value of foreign securities;
- foreign governments may make significant changes to tax policies, which could affect the value of foreign securities; and
- foreign governments may impose currency exchange controls that prevent a Fund from taking money out of the country.

Geographic Concentration Risk: Some Funds may invest a relatively large portion of their assets in issuers located in a single country, a small number of countries, or a particular geographic region. As a result, the performance of these Funds could be closely tied to the market, currency, economic, political, regulatory, geopolitical or other conditions in such countries or region, and could be more volatile than the performance of funds with more geographically-diversified holdings.

Underlying Fund Risk: Some Funds may pursue its investment objectives indirectly by investing in shares of other mutual funds, including exchange traded funds, in order to gain access to the strategies pursued by those underlying funds. There can be no assurance that any use of such multi layered fund of fund structures will result in any gains for a Fund. If an underlying fund that is not traded on an exchange suspends redemptions, a Fund will be unable to value part of its portfolio and may be unable to redeem shares. Underlying funds that are traded on an exchange are subject to the following risks that do not apply to conventional mutual funds: (i) an exchange-traded fund's units often trade on the exchange at a premium or discount to the net asset value of such units; (ii) an active trading market for an exchange-traded fund's units may not develop or be maintained, and (iii) there is no assurance that the exchange-traded fund will continue to meet the listing requirements of the exchange.

The Fund Manager and its employees are required to take reasonable steps to identify and disclose existing material conflicts of interest as well as material conflicts of interest that would be expected to arise between the Fund Manager and the Fund. In compliance with local and foreign regulatory requirements, the Fund requires the investor to notify the Fund in writing and provide the required details or documents within thirty (30) days from a change of your circumstances. Effect of Existing or Probable Governmental Regulations on the Business

Senate and congressional bills amending R. A. 2629, which is the main law that regulates the mutual fund industry, have been filed. The most prominent of these are the bills on the proposed Collective Investment Schemes Law ("CISL"). One of the noteworthy provisions of the CISL bills is the exemption of mutual fund companies from certain requirements of the Corporation Code as regards increasing ACS. If passed into law, this would be of possible benefit to the mutual fund companies which, with their numerous stockholders, find it difficult to obtain the votes of stockholders representing at least 2/3 of the outstanding capital stock to approve certain corporate actions. SLAMCI, through PIFA, participates in the hearing and deliberation of the CISL bill. SLAMCI expects the regulatory environment to improve with the passage of the CISL bill to the benefit of investors.

Shareholder's Privileges

Certain privileges granting reduced sales charge and waivers may be extended by SLAMCI to qualified investors who will apply for them.

The investor must notify SLAMCI at the time of transaction about his qualification and intention to avail and apply for specific privileges. Failure to notify SLAMC ahead of time about his eligibility and intention to avail will allow SLAMCI to process the transaction subject to normal sales load charges.

SLAMCI reserves the right to approve or deny a shareholder's application for certain privileges according to the criteria it has set. These privileges may be revised or discontinued by SLAMCI at any time.

1. **Waiver of Front End Sales Load (Option A) for qualified investors**

   Front-end zero load may be granted by SLAMCI to former participants in a benefit or retirement plan, who will convert his mutual fund retirement benefit and contribution into an individual, joint or ITF account with Sun Life Prosperity Funds. The same benefit may also be granted to participants of a retirement plan with at least 100 members and PHP5 Million or dollar equivalent in total asset value or any other requirements or qualifications that may be established by SLAMCI.

2. **Free 10% Back End Redemption**

   An investor may be entitled to redeem up to 10% of his total shares under back-end without the application of a redemption fee or DSC subject to certain conditions as established by SLAMCI. An investor's free redemption entitlement shall be based on the total number of shares owned under Option B as of December 31 of the prior calendar year. This privilege may be extended only to partial redemptions and is not applicable to full redemptions of back-end investments. Redemption in excess of the allowed 10% will be subject to regular Back-End Fees.

   This one-time privilege per year is not automatic and should be exercised by the investor. Free redemption entitlement is not cumulative. Unexercised entitlement cannot be carried forward to future redemptions within the same year or succeeding calendar years.

   If redeemed after five (5) years, the investment shall no longer be subject to any redemption fee.

3. **Reduced Sales Charge Plan**

   Combination Privilege

   Investors may qualify for a reduced sales load by combining subscriptions to one or more of the Sun Life Prosperity Funds, under the following conditions:

1. The total AUM of the investor is at least PHP100,000.00 or its dollar equivalent, and this can be obtained by adding:
    - The current subscription made by the investor and "member/s of the immediate family", as defined below; and
    - The aggregate net asset value of all the outstanding subscriptions (at the close of the business day preceding the date of the current subscription) made by the investor and member/s of the immediate family.

2. The total subscription of the investor is at least PHP100,000.00 or its dollar equivalent, and this can be obtained by adding:
    - The current subscription made by the investor and member/s of the immediate family; and
    - The original value of all previous subscriptions, net of redemptions, made by the investor and member/s of the immediate family.

3. "Member of the immediate family" is defined as:
    - Spouse
    - Child
    - Grandchild
    - Parent
    - Sibling
    - Grandparents

4. The following accounts are not included for purposes of determining whether an investor qualifies under this privilege:
    - Shares or investments held by an investor through a Retirement Plan/Defined Benefit Plan or other employer-employee sponsored benefit plan
    - Shares held through a Trust Account under Institutional Dealers (account held in the name of the Financial Intermediary on the investor's behalf)
    - Shares held by Corporations or business establishments of the investors.

This privilege is not automatic and should be exercised by the investor. Investors should provide all necessary information AT THE TIME OF PURCHASE regarding accounts eligible to be combined under this plan. Otherwise, SLAMCI will not retroact the privilege. SLAMCI reserves the right to revise or discontinue this privilege at any time.

Letter of Intent

Investors are given the privilege to purchase "A" and "C" shares of a Fund over a 12-month period and receive the same sales charge as if all shares had been purchased at once. An investor can use a Letter of Intention (LOI) to qualify for reduced sales charges during the next twelve (12) months.

Investors may qualify for this privilege if the resulting total is at least PHP 100,000.00 or its dollar equivalent. The calculation of this amount would include as well the investments under the Combination Privilege.

When an investor signs the LOI, SLAMCI agrees to charge the investor a reduced sales charge. The LOI does not obligate the investor to purchase additional shares. However, upon failure to comply with the LOI at the end of the 12-month period, SLAMCI will redeem enough shares equivalent to the additional sales charge to reflect the recalculated amount reflecting the actual purchase level.

SLAMCI will notify the client under this program at least one (1) month prior to the expiration of the LOI. SLAMCI reserves the right to revise or discontinue this privilege at any time.

Dividends

The Board of Directors of the Fund has the power to fix and determine the amount to be reserved or provided for declaration and payment of dividends from the Fund's unrestricted retained earnings. The existence of surplus profit arising from the operation of the Fund is needed before a dividend can be declared. The surplus profits or income must be a bona fide income founded upon actual earnings or profits. Actual earnings or profits shall be the net income for the year based on the audited financial statements,

adjusted for unrealized items, which are considered not available for dividend declaration. Dividends so declared will be automatically reinvested in additional shares on behalf of the shareholders, without sales charges, at the NAVPS on the payment date established for such dividends. As such, shareholders realize their gains when shares are redeemed. Shareholders may elect not to have dividends reinvested and receive payment in cash, net of tax.

Functional Currency

Top 5 Key Performance Indicators

The performance of a fund is important to its investors. Oftentimes, it is used when making investment decisions. That is why Key Performance Indicators (KPI), a set of quantifiable measures, is necessary to gauge its performance in terms of meeting the Fund's investment objective while consistently following its investment policy.

I. Total Return

The performance of a mutual fund is always expressed in terms of its total return, which is the sum of the change in a fund's net asset value (NAV), its dividends and its capital gains distributions over a given period of time, net of its expenses.

II. Market Conditions

A fund's true performance potential needs to be evaluated within the context of the market environment prevailing during the different periods used.

It is most relevant to investors to measure the performance of a fund within a 10-year time frame as it will most likely cover a mix of market conditions that may be translated into a more reliable long-term indicator of the fund manager's investment management abilities.

III. Benchmarks

Benchmarking is one of the most important aspects of a mutual fund's total return performance. A fund's performance metrics only have meaning if they are compared to appropriate "guideposts," or benchmarks.

As for the Fund, considering that it is invested in fixed income instruments denominated in US Dollars issued by the Philippine government, other major economies, or corporations operating therein, its performance is measured against 95% J.P. Morgan Asia Credit Index + 5% 30-day Dollar Deposit Savings Rate.

Total Return	Benchmark: 95% J.P. Morgan Asia Credit Index + 5% 30-day Dollar Deposit Savings Rate	Sun Life Prosperity Dollar Abundance Fund
YTD Return*	13.25%	10.16%
1-Year Return	14.68%	9.33%
3-Year Return	13.03%	3.13%
5-Year Return	32.75%	16.55%

*as of September 30, 2019

Effective January 1, 2020, the Fund will be measured against 95% Bloomberg Barclays EM Asia USD Credit Philippines Index + 5% 30-day Dollar Deposit Savings Rate.

The benchmark may be changed by the Fund's Board of Directors from time to time.

IV. Peer Comparisons

Mutual funds are also compared to their peers, or peer groups, and relevant fund categories. For example, it is common for investment research materials to compare a balanced fund, like the Sun Life Prosperity Dollar Advantage Fund, to funds similar in nature (peers or peer group). While this information is made available to the Fund's investors, the same may be found in the website of PIFA at www.pifa.com.ph.

V. Asset Size

Open-ended mutual funds grow their asset size in two ways:

- Increase in the value of the underlying assets as a result of the strong performance of equity securities and/or bonds in the fund's portfolio. When the underlying assets in a portfolio increase in value, the fund's asset size increases.
- The inflow of investors' money. This is why a fund's asset size will continue to grow even if it has a negative return.

The increase in a fund's asset size signifies solid fund management skills which combined with favorable market conditions backed by a strong economic outlook illustrates how effectively a fund manager has performed and the extent to which value has been added through active management.

The second indicates investor confidence in the fund manager, the Fund, or both.

Most analysts check whether the performance of a mutual fund is attributable to personnel who have since left the fund. While there is no magic number when it comes to fund manager tenure, it should provide some investor comfort to know that with respect to the Fund, the Fund Manager and the Fund's top management have been with the Fund for at least five (5) years. Furthermore, the company, having been in the business for decades combined with a record of consistent strong performance indicates a stability and resilience capable of withstanding the different stages of the business cycle.
