Market Review and Outlook

- The Philippine Stock Exchange Index (PSEi) continued its upward momentum this January, rising 3.04%, just below the 6,700 key resistance level. Sentiment was driven by improving key macro indicators as both GDP and inflation beat market expectations.
- Foreign funds continued to flow into the Philippines to the tune of \$80 million.
- Philippine government bond yield curve shifted higher over the month of January as appetite for duration was held back by the weekly Dutch auctions of the Bureau of the Treasury (BTr) and the correction in US Treasuries. News that there will be a Retail Treasury Bond (RTB) issuance within the first quarter also affected sentiment.
- The PSEi has been attempting to break above the 6,700 level, a successful break above this opens up the index to a rally to the 7,000 level.
- On a gross-of-fees basis, the Fund is in-line with its benchmark year-to-date.
