## What does the Fund invest in?

The Dollar Money Market Fund is offered as a fund option exclusive to existing policy holders of Sun FlexiDollar, Sun FlexiDollar1, and Sun MaxiLink Dollar One, which are investment-linked life insurance products regulated by the Insurance Commission. The Fund is designed to maximize yields on short to medium-term placements, while ensuring adequate liquidity for holders of the Fund.

The Fund is suitable for clients with a **conservative risk profile** and short-term investment horizon. This is for existing clients who are looking for relatively safe and stable investment options, where they can park their money and still earn modest potential returns.

## Market Review

- Returns on U.S. dollar-denominated money market and short-term instruments were mostly unchanged in March despite the volatility.
- Time deposits and other short-term dollar outlets saw steady yields with the market not expecting the Fed to change interest rates in the foreseeable future.
- Money market yields are expected to remain little changed from current levels as policymakers assess the impact of the conflict in the Middle East. This may delay rate cuts given heightened risks to inflation.
