OUTLOOK AND STRATEGY

Market Review

The Bangko Sentral ng Pilipinas has kept policy rates unchanged at 6.5%, citing improvements in local inflation. For the month of March, inflation settled within expectations with a headline print of 3.7% year-on-year. This was primarily driven by unfavorable base effects, while rice prices remain elevated. Nonetheless, core CPI decelerated for the 12th consecutive month to 3.4% year-on-year from 3.6% year-on-year in February.

Overall, yields for securities with tenor of less than 1 year remained stable. For the first quarter of 2024, total BSP Bills awarded reached PHP 1.09 trillion for the 28-day tenor and PHP 568 billion for the 56-day tenor. Average awarded yields were in the range of 6.70% to 6.77% for both tenors. 30-day time deposit rates were seen between 5.50% to 5.90% during the quarter.

The Fund will maintain strategy of deploying inflows and maturities to BSP Bills via auctions.
