VALERIE N. PAMA

President / Director (March 2022 – present)

Ms. Valerie N. Pama is currently the Chief Asset Management Officer ("CAMO") of Sun Life of Canada (Philippines), Inc. Since November 1, 2019, Ms. Pama, in her capacity as CAMO, has been responsible for the expansion and development of the various initiatives to drive the profitability and growth of Sun Life's overall asset management business providing strategic direction and development of long-term plans and policies.

Ms. Pama is also the Chairman and Director of Grepalife Asset Management Corporation (December 2021 to present). She is the President and Director of eighteen (18) Sun Life Prosperity Funds, i.e. Sun Life of Canada Prosperity Balanced Fund, Inc., Sun Life of Canada Prosperity Philippine Equity Fund, Inc., Sun Life of Canada Prosperity Bond, Inc., Sun Life Prosperity Dollar Advantage Fund, Inc., Sun Life Prosperity Peso Starter Fund, Inc., Sun Life Prosperity Dollar Abundance Fund, Inc., Sun Life Prosperity GS Fund, Inc., Sun Life Prosperity Dynamic Fund, Inc., Sun Life Prosperity Philippine Stock Index Fund, Inc., Sun Life Prosperity Dollar Wellspring Fund, Inc., Sun Life Prosperity World Voyager Fund, Inc., Sun Life Prosperity Dollar Starter Fund, Inc., Sun Life Prosperity World Equity Index Feeder Fund, Inc., Sun Life Prosperity Achiever Fund 2028, Inc., Sun Life Prosperity Achiever Fund 2038, Inc., Sun Life Prosperity Achiever Fund 2048, Inc., Sun Life Prosperity Peso Voyager Feeder Fund, Inc. (March 2022 to present) and Sun Life Prosperity World Income Fund, Inc. (August 2022 to present).

Currently, Ms. Pama is a Trustee and Vice President of Sun Life Financial-Philippines Foundation, Inc. (October 2020 and December 2022, respectively, to present), Member and Trustee of Filipina CEO Circle (2015 and 2018, respectively to present), Member of Management Association of the Philippines (2015 to present), Financial Executives of the Philippines (2013 to present) and Makati Business Club (August 2019 to present).

Ms. Pama was previously the Director and President of Sun Life Investment Management and Trust Corporation (September 2020 to June 2021), responsible for its establishment and preparations for operations. She was a Director and President of Sun Life Asset Management Company, Inc. ("SLAMCI") and Director and/or President of thirteen (13) Sun Life Prosperity Funds (2011 to 2020). She was also a Director and/or President of three (3) Grepalife Funds i.e. Grepalife Dollar Bond Fund Corporation, Grepalife Balanced Fund Corporation (formerly, "Grepalife Bond Fund Corporation"), and Grepalife Fixed Income Fund Corporation (2011 to 2018). Ms. Pama was formerly the President of the Sun Life Prosperity Funds and the Grepalife Funds (2011 to 2013). She was also a Director of BESTSERVE Financial Ltd. (HKG) (2021 to 2022).

She also served as the Chief Operating Officer of SLAMCI (2011 to 2012) before being appointed as its President in 2013. With over seven years as President of SLAMCI, Ms. Pama has made tremendous contributions by leading it into becoming the number one non-bank asset management company. Under her vision and leadership, the company achieved great milestones: growing from three (3) mutual funds to sixteen (16) mutual funds to over Php100 Billion in Assets Under Management, launch of the Sun Life Prosperity Card, expanding the sales force into having the most number of Mutual Fund-licensed advisors in the industry and garnering numerous awards from the Philippine Investment Funds Association (PIFA). Another noteworthy recognition for SLAMCI under her management was being named the best asset management company for the Philippines from Euromoney's 2018 Private Banking and Wealth Management survey.

Ms. Pama is a veteran banker, having been in the industry for 20 years. She started her career with Citibank N.A. in 1990 as a Management Associate, wherein she obtained exposure in various segments of the business, assuming progressively senior roles over the years. She had worked in treasury/capital markets, loans, equity sales, customer funding sales, brokerage and money market sales. By the time she retired from Citibank N.A. in 2009, Ms. Pama was the President of Citicorp Financial Services and Insurance Brokerage Inc.

Prior to joining Sun Life, Ms. Pama was a Product Development consultant for ING Bank's Investment Management Group.

Ms. Pama was a member of the Board of Trustees of PIFA from 2011 to 2020 and served as its Chairman from 2013 to 2015. This enabled her to represent the mutual fund industry in advocating investor literacy, customer protection and regulatory advancements to government agencies, key market players and the general public.

Ms. Pama is a graduate of the Ateneo de Manila University with a Bachelor of Science degree in Management Engineering. She obtained her Masters in Business Administration in International Business and Finance, with a minor in Business Economics from Katholieke Universiteit Leuven in Belgium. She was awarded With Distinction by the university for her exemplary academic performance on her final year.

She is also an Independent Director of Grepalife Balanced Fund Corporation, Grepalife Dollar Bond Fund Corporation and Grepalife Fixed Income Fund Corporation, Inc. (December 2021 to present). Recently, she was elected independent director of the Philippine Bank of Communications effective November 2022.

She was the Chairperson of the Securities and Exchange Commission (“SEC”) from May 2011 to June 2018, and as such occupied other positions such as member of the Anti-Money Laundering Council, Chairperson of the Credit Information Corporation, the Microfinance NGO Regulatory Council, and the Capital Market Development Forum.

As SEC Chairperson, Atty. Herbosa was involved in the Asean Capital Markets Forum as Chair of its Committee on Corporate Governance responsible for the first Asean Top 50 Publicly Listed Companies. She initiated and proposed significant amendments to the Corporation Code of 1985 to Congress culminating in the enactment of the Revised Corporation Code in February 2019. She also participated in the passage of the Personal Property Securities Act.

As a consequence of the various reforms under Atty. Herbosa’s leadership, for two consecutive years, 2015 and 2016, SEC emerged, based on two nationwide surveys, as no.1 in the sincerity rating particularly in the fight against corruption among 35 government agencies.

Prior to her SEC Chairmanship post, she engaged in the private practice of law at the Angara Abello Concepcion Regala & Cruz Law Offices (“ACCRALAW”) specializing in litigation and dispute resolution for 33 years and often cited by foreign legal publications as one of the top litigation lawyers of the country.

In July 2019, she re-joined ACCRALAW as Of Counsel, and continues as MCLE and PHILJA lecturer, on corporation and other commercial laws and has been teaching commercial laws at DLSU COL BGC and LPU COL Makati.

Atty. Herbosa co-authored in 2019 “The Revised Corporation Code of the Philippines Its Theories and Applications,” and relatedly gives lectures. In line with her advocacy, she participated in the UNICEF-sponsored lecture series

“Trainers’ Course on Child Sensitive Investigation” for three years for more than 1,500 policemen and in the preparation of the video-taped materials shown at the PHILJA training of Family Court judges. She still lectures for PHILJA but this time on financial crimes and corporate and securities fraud.

She has written numerous law articles such as “Comments involving Crimes of Moral Turpitude” and the Foreword Vol 92 July 2019, for the Philippine Law Journal, others on various legal topics for the Philippine Star and contributed “Balancing Ethics and Regulation” for the FINEX anniversary publication “Ethics Black While or Gray” in 2018 and “Cyber Ethics and Data Privacy” for its second publication “Ethics: Enduring or Evolving?”. From October 2019 to March 2020, she wrote a comprehensive training module for the investigation and prosecution of violations of the Securities Regulation Code in connection with the Anti-Money Laundering Act.

Atty. Herbosa finished AB Political Science cum laude at the University of the Philippines – Diliman, and her Bachelor of Laws cum laude and class salutatorian from the UP College of Law. She also has a Master of Comparative Law degree from the University of Michigan. In 2014, she was awarded the UP Distinguished Alumni Award for Public Service.

1. **Independent Directors.** Nominees for Independent Directors were nominated by Ms. Valerie N. Pama to the Corporate Governance Committee. The nomination is in accordance with the guidelines and requirements set in the Securities and Exchange Commission (SEC) Memorandum Circular Nos. 24 (s. 2019) and SRC Rule 38. Qualifications of Directors as enumerated in said circulars are strictly followed.

2. **Nomination Process.** The Corporate Governance Committee, composed of Atty. Quirino as Chairman and Mr. Sison and Mr. Bate as Members, pre-screens and shortlists all candidates nominated to become a member of the Board of Directors in accordance with the qualifications and disqualifications of the regulations named above and in accordance with the procedure outlined in the Company's Manual on Corporate Governance ("Manual").

Except for committee members who are independent directors themselves, none of the members of the Corporate Governance Committee are related to the independent directors. The following Final List of Candidates to the 2023 Board of Directors has been approved:

- 2.1 Ms. Valerie N. Pama
- 2.2 Mr. Benedicto C. Sison
- 2.3 Atty. Aleli Angela G. Quirino
- 2.4 Atty. Teresita J. Herbosa
- 2.5 Mr. Oscar S. Reyes

Unless marked otherwise, proxies received will be voted for the election of each of the nominees stated in the proxy form.

b. **Incorporators.** The incorporators of the Company are: Rizalina G. Mantaring, Benedicto C. Sison, Valerie N. Pama, Oscar M. Orbos , and Aleli Angela G. Quirino.

c. **Significant Employees.** The Company has no significant employees.

d. **Family Relationships.** There are no family relationships up to the fourth civil degree either by consanguinity or affinity among directors, executive officers, or persons nominated by the Company to become its directors or executive officers.

e. **Involvement in Certain Legal Proceedings.** None of the directors or persons nominated to become directors or executive officers of the Company has been involved during the past five (5) years in any legal proceeding which is material to an evaluation of their ability or integrity to serve as such, including, bankruptcy petition, conviction by final judgment, being subject to any order, judgment or decree, or violation of a securities or commodities law.

f. **Certain Relationships and Related Transactions.** The Company is not involved in any transaction or series of similar transactions, proposed or otherwise, with or involving any of its subsidiaries in which a director, executive officer, or stockholder owns ten percent (10%) or more of total outstanding shares and members of their immediate family had or is to have a direct or indirect material interest during the last two (2) years.

g. **Parent of the Company.** The Company does not have a parent company.

h. **Disagreement of Directors and Executive Officers.** None of the directors has resigned or declined to stand for re-election to the Board of Directors since the date of the last annual meeting of security holders because of a disagreement with the Company on any matter relating the Company's operations, policies, or practices.

i. **Compliance with Leading Practices on Corporate Governance.** All of the directors and officers of the Company have attended a seminar on corporate governance given by a SEC-accredited provider. They attend a yearly training on Corporate Governance by a reputable provider, including topics global trends and best practices.

The Board reviews and updates its Manual on Corporate Governance at least annually to ensure that it is kept abreast of global leading practices and principles on good corporate governance. On a yearly basis, the Board Directors each accomplishes a Board Effectiveness Questionnaire to evaluate themselves as individual Directors and as a Board, to determine their skills and level of compliance with the Manual, as well as recommend changes to the Manual and Committee charters. This ensures that they remain independent and effective in implementing their respective mandates and discharging their duties and responsibilities. As a result of the recommendations from the Board on how to better improve Corporate Governance, they now hold a confidential meeting to discuss strategy every year.

The Company also has robust and effective risk management policies and procedures in place to identify, mitigate and manage risks arising from the Company's operations. On a yearly basis, the Company's Compliance Officer issues a Certification which confirms that the Company substantially adopted all the provisions in the Manual of Corporate Governance, as prescribed by the SEC. Accounts of deviation, if any, are duly reported by the Compliance Officer, as necessary.

Item 6. Compensation of Directors and Executive Officers

a. **Compensation of Executive Officers.** The executive officers of the Company do not receive any form of compensation from their appointment up to the present.

b. **Compensation of Directors.** The Fund's executive officers and directors who are officers and/or employees of SLOCPI and/or SLAMCI do not receive any form of compensation as such from the time of their appointments up to the present.

The Fund's directors who are not officers and/or employees of SLOCPI and/or SLAMCI (i.e., "Independent Directors") receive a per diem for their attendance at regular or special meetings of the Board at the rate of PHP 20,000.00 per meeting per Independent Director (the Fund has three [3] Independent Directors). There are no other forms of compensation which such Independent Directors are entitled to receive for meetings attended, other than said per diem and a retainer's fee not to exceed PHP 15,000.00 per quarter. Payment of such retainer's fee shall be shared by the Fund with the other Sun Life Prosperity Funds which the Independent Director also serves, provided that each Independent Director shall receive only a maximum of PHP 15,000.00 per quarter from all the Sun Life Prosperity Funds combined. There are no standard arrangements, employment contracts, termination of employment, change-in-control or other arrangements with the directors. Such remuneration to be paid for by the Fund may be adjusted in the future as may be warranted by existing fund levels and other factors.

Total per diem received by the Fund's directors for the year 2022 and 2021 are \$4,286 and \$7,976, respectively.

The Board has four (4) regular quarterly meetings for 2022, including the organizational board meeting after the annual shareholders' meeting. For the four (4) meetings and with three (3) members of the Board who are external directors entitled to receive per diem, the Fund forecasts a total directors' per diem of PHP 240,000 (approximately US\$ 4,300) for the year 2023. The external directors are also forecasted to receive a total of P17,857 (approximately \$320) as retainer's fees for 2023.

c. **Employment Contracts and Termination of Employment and Change-in-Control Arrangements.** Other than that previously stated, there are no other standard or consulting arrangements or any compensatory plan relating to resignation/retirement by which directors and officers are to be compensated.

Item 7. Independent Public Accountants. Navarro Amper and Co./Deloitte Touche Tohmatsu served as the Company's principal accountants and external auditors since its incorporation. The signing partner Mr. Joeffrey Mark Ferrer, who has served in said capacity since 2020. The same auditors are being recommended for re-election at the scheduled annual shareholders' meeting. Representatives of the said firm are expected to be present at the upcoming annual shareholders' meeting to respond to appropriate questions and to make a statement if they so desire.

In compliance with SRC Rule 68, As amended, the Company intends to change external auditors or audit engagement partners, at least once every five (5) years.

Audit and Audit-Related Fees. For 2022 and 2021, aggregate fees billed for professional services rendered by the external auditor for the audit of the Fund's annual financial statements and services normally provided by external auditors in connection with statutory and regulatory filings amounted to \$6,829 and \$2,936, respectively, inclusive of VAT and out-of-pocket expenses. Audit Fees include payments for agreed-upon procedures and legal assistance for the application of ACS Increase of the Fund. There were no other payments made to the auditor for any other service, including assurance, tax and related services.

The Company's Audit and Compliance Committee hears the client service plan and service fee proposal presented by the external auditor and recommends such for the approval of the Board of Directors if found acceptable. Said Committee is composed of the following: Atty. Herbosa as Chairman and Atty. Quirino and Mr. Reyes as Members.

Item 8. Compensation Plans. No action is to be taken with respect to any plan pursuant to which cash or non-cash compensation may be paid or distributed to its directors or employees.

C. ISSUANCE AND EXCHANGE OF SECURITIES

Item 10. Modification or Exchange of Securities. No action is to be taken with respect to the modification of any class of securities of the Company, or the issuance or authorization for issuance of one class of securities of the Company in exchange for outstanding securities of another class.

Item 11. Financial and Other Information. No actions to be taken with respect to items 9 or 10. Report on Management's Discussion is attached as part of the annexes to SEC Form Definitive 20-IS.

Item 12. Mergers, Consolidations, Acquisitions and Similar Matters. No action is to be taken with respect to any transactions involving the: 1. merger or acquisition of the Company into or with any other person or any other person into or with the Company; 2. acquisition of the Company or any of its security holders of securities of another person; 3. acquisition by the Company of any other going business or of the assets thereof; 4. sale or other transfer of all or any substantial part of the assets of the Company; or 5. liquidation or dissolution of the Company.

Item 13. Acquisition or Disposition of Property. No action is to be taken with respect to the acquisition or disposition of any property.

Item 14. Restatement of Accounts. No action is to be taken with respect to the restatement of any asset, capital or surplus account of the Company.

D. OTHER MATTERS

Item 15. Action with Respect to Reports. The minutes of the meeting and related records are available for inspection by any shareholder at the office of the Company during business hours. Management recommends a vote FOR the approval of the minutes of the 2022 Stockholders' Meeting held on 13 July 2022. Also submitted for approval is the Annual Report (SEC Form 17A) and the audited Financial Statements for the year ended 31 December 2022 and the Quarterly Report for the First Quarter (SEC Form 17Q1).

Item 16. Matters Not Required to be Submitted. No action is to be taken with respect to any matter which is not required to be submitted to a vote of security holders.

Item 17. Amendment of Charter, Bylaws, or Other Documents. Management proposes that stockholders approve the following amendments to the Articles of Incorporation and the By-Laws:

1. Article II, paragraph 6 of the Articles of Incorporation to align with regulations. The proposed amendment is as follows:

"SECONDARY PURPOSES

XXX

6. Subject to the borrowing limitations set forth in the Implementing Rules and Regulations of the Investment Company Act, to borrow or raise money from not more than nineteen lenders, including its stockholders, necessary to meet the financial requirements of the corporation by the issuance of bonds, promissory notes, and other evidences of indebtedness, and to secure the repayment thereof by mortgage, pledge, deed of trust or lien upon the properties of the corporation, or to issue, pursuant to law, shares of the capital stock, debentures, bonds, warrants, notes, or other evidences of indebtedness in payment for the properties acquired by the corporation or for money borrowed in the prosecution of its business."

2. Article II paragraphs 8 (Secondary Purpose) of the Articles of Incorporation to clarify the wording. The Proposed amendment is as follows:

"8. To carry on any other lawful activities business whatsoever which may seem to the corporation capable of being carried on in connection with the foregoing purposes and powers, or calculated directly or indirectly to promote the interest of the corporation or to enhance the value of its properties, and to have, enjoy, and exercise all the rights, powers, and privileges which are now or which may hereafter be conferred upon similar corporations organized under the laws of the Republic of the Philippines."

3. Article I, Section 1 (Annual Meetings) of the By-Laws to change the schedule of holding the Annual Meeting. The Proposed amendment is as follows:

“SECTION 1. Annual Meetings. – The annual meeting of the stockholders shall be held at the principal office of the Corporation, or via remote communication, every second week of July ~~fourth Wednesday of June~~ of each year or on such other date as the board of directors may determine, unless such day is a legal holiday, in which case it shall be held on the next business day following.”

4. Article I, Section 6 (Voting) of the By-Laws to align the proxy requirement with the Revised Corporation Code. The Proposed amendment is as follows:

“SECTION 6. Voting. – At every stockholders’ meeting, every stockholder entitled to vote shall be entitled to one vote for each share of stock registered in his name in the books of the Corporation; provided, however, that in the case of the election of directors, every stockholder entitled to vote shall be entitled to cast his vote, at his option, in accordance with the provisions of the law or regulations. Every stockholder entitled to vote may vote personally, by remote communication or *in absentia*, or by proxy. Proxies shall be in writing, signed and filed, by the stockholder and received by the Corporate Secretary within a reasonable time before the scheduled meeting. ~~The instrument authorizing a proxy to act shall be exhibited to the secretary of the Corporation, and shall be lodged with the said secretary if so required.~~ The proxy instrument shall have the same legal effect or validity, regardless of whether it is accomplished, transmitted, recorded, processed, or stored as a physical or electronic document.

xxx”

5. Article II, Section 2 (Meetings) of the By-Laws is being reworded for clarity. The Proposed amendment is as follows:

“SECTION 2. Meetings. – The board shall hold meetings when necessary, upon call of the Chairman of the board or upon request of at least three of its members. Notice of the meeting shall be mailed to each director at his last known address, or delivered to him personally, or left at his office, or transmitted by fax, telephone or electronically at least two (2) days prior the meeting ~~and in the case of members of the board residing abroad, notice of the meeting shall be given by fax or e-mail.~~ The notice shall specify the date, hours, and place of the meeting.

xxx”

6. Article II, Section 4 (Compensation) of the By-Laws to ensure that the director compensation is granted by the stockholders. The proposed amendment is as follows:

“SECTION 4. Compensation. – For each attendance at any meeting of the board, a member of the board is entitled to a fee in such amount ~~as may be determined by the board~~, which shall take the industry practice into consideration. The Director/s shall not participate in the determination of their own per diems or compensation.”

7. Article VI, Section 2 (Distribution Contracts) of the By-Laws to clean up the section. The proposed revision is as follows:

“SECTION 2. Distribution Contract. – (a) The Board of Directors may, at any time and from time to time, contract with any or more than one corporation or firm, appointing it or them as the distributor(s) or underwriter(s) for the securities issued by the Corporation in a manner not to contravene the applicable laws and regulations. If deemed beneficial to the Corporation by the Board of Directors and subject to applicable laws and regulations, such distribution contract and the management contract referred to in Section 1 of this Article VI may be entered into with any one corporation or firm. Any outsourcing or delegation of the fund distributor duties shall be subject to compliance with the requirements of the Implementing Rules and Regulations (IRR) of the Investment Company Act (ICA), as may be amended from time to time.

“(b) Except where allowed by the applicable laws or regulations, the Corporation shall not issue or sell any of the shares of stock of the Corporation, before paying any taxes in connection with such issue or sale, less than the net asset value thereof determined and in effect at the time when the sale or contract of sale is made. [The rest of the section is deleted]

~~No shares of its stock shall be sold by the Corporation during any period when the Philippine banks are closed, except to a distributor under a contract or arrangement as aforesaid to cover sales made by the distributor prior to the closing at the net asset value computed in accordance with the Investment Company Act and its Implementing Rules and Regulations, as may be amended from time to time, other applicable issuances of the Securities and Exchange Commission, and other applicable laws and regulations.”~~

Item 18. Other Proposed Action. Aside from the foregoing, there is no other proposed action.

Item 19. Voting Procedures. All elections and all questions, except as otherwise provided by law, shall be decided by the plurality vote of the shareholders present in person or by proxy; provided that a quorum (10% of the voting stock) is present. In case of election of directors, a majority vote (50% of the voting stock + 1) is required.

The right to vote of investors as of the Record Date may be exercised in person, through proxy, or so when so authorized in the By-laws or when approved by the majority of the Board of Directors, through remote communication or in absentia. The Fund will accept proxy votes from its stockholders by emailing SunLifeFunds@sunlife.com until Saturday, 01 July 2023 (at least 10 days prior to the ASHM). The same shall be remotely validated by the Fund before the close of business hours on or before 06 July 2023 (at least 5 days prior to the ASHM). Investors who will decide to attend the ASHM via Zoom may also exercise their right to vote in absentia via the Zoom poll functionality available during the conduct of the ASHM. Client identification may be verified during the pre-registration process.

Thereafter, the Corporate Secretary will proceed to count and tabulate the votes casted via remote communication or in absentia, and those who voted through proxy.

PART II. INFORMATION REQUIRED IN A PROXY FORM

Item 1. Identification. The solicitation of proxies is made for and on behalf of Ms. Pama, President of the Company, and the proxy given will be voted in accordance with the authority contained therein. Atty. Anna Katrina C. Kabigting-Ibero, Corporate Secretary, will cast the votes in case of her absence.

Item 2. Instruction. Proxy forms attached to the notice of the annual shareholders' meeting appoint Ms. Pama, President of the Company, to represent and vote all shares registered in the name of the shareholder. The following need to be indicated by the shareholder on the form: a. Date and place the form was signed; b. Shareholder's complete name; and c. Signature.

Upon receipt of a duly completed proxy form through courier, regular mail, fax, or email (sent using the shareholder's registered email address with the Company), the Company will ensure that the forms are in order and that the above requirements have been complied with. Shareholder names and signatures appearing on the proxy form that are irreconcilable against Company records will be considered void.

Should defects be noted on a duly completed proxy form with regard to items (a) and (b) above, the Company has the option to determine ways and means by which the defect could be corrected, in which case the proxy form would be considered valid. Proxy forms not meeting the above requirements would not be counted.

Item 3. Revocability of Proxy. A shareholder giving a proxy has the power to revoke it at any time prior to its exercise by voting in person at the Annual Meeting, by giving written notice to the Corporate Secretary prior to the Annual

Meeting, or by giving another proxy with a later date provided it is received by the office of the Corporate Secretary not later than ten (10) days prior to the Annual Meeting.

Item 4. Persons Making the Solicitation.

a. The proxy solicitation is conducted on behalf of the Company by SLAMCI as part of its management services and is to be made through registered mail and courier service. No director of the Company has informed the Company in writing that he intends to oppose any action intended to be taken.

b. Proxies may also be solicited by SLAMCI employees assigned to Investor Services, without additional compensation, personally or by written communication, telephone or other electronic means. **Ms. Marleen Kaye Simbillo** has been designated as the contact person for all inquiries related hereto at contact number (632) 8849-9888 with address at 8th Floor Sun Life Centre, 5th Avenue corner Rizal Drive, Bonifacio Global City, Taguig City 1634, and email address **marleen.kaye.simbillo@sunlife.com**.

c. Likewise, no especially engaged employee or paid solicitors are to be involved in this exercise.

d. The Company will bear the cost of preparing and mailing this proxy statement and other materials furnished to shareholders in connection with the proxy solicitation. The foregoing is estimated to cost about PHP1,000,000.00 for all the Sun Life Prosperity Funds.

Item 5. Interest of Certain Persons in Matters to be Acted Upon. As of 31 March 2023, records show that SLAMCI owns 0% of the Company's outstanding capital stock. Mr. Gerald L. Bautista, President of Sun Life Asset Management Company, Inc. ("SLAMCI"), has the power to vote of the shares or direct the voting of the shares.

SHAREHOLDERS OF RECORD ENTITLED TO NOTICE OF AND VOTE AT THE MEETING SHALL BE FURNISHED WITHOUT CHARGE, A COPY OF THE COMPANY'S ANNUAL REPORT OR SEC FORM 17-A, UPON WRITTEN REQUEST ADDRESSED TO:

("Dollar Starter Fund") which are collectively known as the Sun Life Prosperity Funds (the "Funds"). He thereafter presided over the same. Atty. Frances Ianna S. Canto, Assistant Corporate Secretary, recorded the minutes thereof.

2. PROOF OF NOTICE OF MEETING

Atty. Anna Katrina Kabisig-Ibero, Corporate Secretary, confirmed that the holding of the virtual annual stockholders meeting is in accordance with the requirements set forth by the Securities and Exchange Commission. Likewise, the necessary approvals from the Board of Directors have been obtained and all requirements have been complied with in order to protect the interests of the stockholders.

Thereafter, she certified that the stockholders of record as of 30 April 2022 were duly notified of the meeting. The notices were sent electronically, posted on the Sun Life Asset Management Corporation, Inc. ("SLAMCI") website, and likewise published in newspapers of general circulation

3. CERTIFICATION OF QUORUM

The Corporate Secretary reported the attendance based on the Attendance Sheet as well as the proxies received before the meeting. The attendance is set forth in Annex "A" of the minutes.

4. CHAIRMAN'S ADDRESS

Through a pre-recorded video, Sun Life Prosperity Funds Chairman, Mr. Benedicto C. Sison, welcomed the stockholders to the Sun Life Prosperity Funds' annual meeting.

He reported that for 2021, the Funds had important milestones notwithstanding the challenges during the year. For example, he shared that the World Equity Index Feeder Fund, Peso Starter Fund, and Philippine Equity Fund had impressive returns of 23.78%, 1.44% and 1.78%, respectively. In addition, he reported that WEIFF is expected to hit the Php3billion mark within the first year since its launch. For the Dollar-denominated Funds, Mr. Sison reported that the World Voyager Fund, Dollar Advantage Fund, and Dollar Starter Fund had returns of 10.42%, 6.38%, and 0.68%, respectively. He likewise shared that the Dollar Advantage Fund was recognized by the CFA Society Philippines as the Best Managed Dollar Balanced Fund

Given these achievements, Sun Life Asset Management Company, Inc. (SLAMCI) is eager to come up with more mutual funds for investors and example of which is the Peso Voyager Fund. Mr. Sison also reported that the Funds added BDO Securities and InvestaFinancials as its distributors for the Funds.

In 2021, SLAMCI's Assets Under Management (AUM) reached Php179.5billion, which is a 41% Year-on-Year (YoY) growth. To further strengthen this, it was reported that SLAMCI continues to hold events such as Bright Talks and Market Outlook webinars for investors, and Kapihan sessions for the advisors. SLAMCI also continuously improves its transaction processes such as the Digitally-Enabled Selling forms, Online Payment page, and the mobile application.

Finally, Mr. Sison mentioned that amid the many developments locally and globally, Sun Life remains steadfast as the partner to prosperity to the 189,000 investors of the Funds.

5. REVIEW OF 2021 OPERATIONS

Ms. Candy S. Esteban, (Officer-In-Charge) Treasurer of the Funds, presented a review of the Funds' operations and financial performance in 2021.

6. 2021 FUND PERFORMANCE

The Fund Managers presented a video on the 2021 Fund Performance. After the video presentation, the stockholders were invited to join the Market Outlook Forum which will be held right after the Stockholders' Meeting.

11. OTHER MATTERS

Amendments of the Articles of Incorporation

With the affirmative vote of at least 2/3 of the outstanding capital stock, the following amendments to the Articles of Incorporation of the Peso Starter Fund, Dollar Starter Fund, and Index Funds were **approved**:

- a. Article (Primary Purpose) and Article 2, paragraph 1 (ii), and paragraph 6 (Secondary Purpose) to align with the Investment Company Act and its Implementing Rules and Regulations;
- b. Article 2, paragraph 9 (Secondary Purpose) to change the use of "Corporation Law" to "Revised Corporation Code";
- c. Article 7 in relation to the conditions for the redemption of shares by a shareholder, to align with the Investment Company Act, its Implementing Rules and Regulations, and other applicable issuances of the Securities and Exchange Commission; and
- d. Article 8 in relation to adding a description of the features of the Company's shares.

For the Index Fund, an additional amendment on Article 6 of the Articles of Incorporation to increase the number of directors to six (6) was likewise **approved** by at least 2/3 of its Outstanding Capital Stock.

The same items (a) to (d) above were also submitted to the stockholders of the World Voyager Fund for approval. However, due to the failure to obtain the required affirmative vote of at least 2/3 of the Outstanding Capital Stock, the same were **not approved** for the World Voyager Fund.

In addition, due to the failure to meet the requirement of an affirmative vote of 2/3 of the outstanding capital stock, the agenda to amend Article VI of the Balanced Fund, Dollar Abundance Fund, Dollar Advantage Fund, Philippine Equity Fund, GS Fund, Dynamic Fund, and World Voyager Fund's respective Articles of Incorporation to increase the number of directors to six (6), remain **unapproved**.

Finally, due to the failure to meet the requirement that 2/3 of the outstanding capital stock should be present in person or by proxy, the agenda to amend Article III of the Balanced Fund, Dollar Abundance Fund, and Philippine Equity Fund's respective Articles of Incorporation to amend the date and time of the annual stockholders meeting, remain **unapproved**.

Amendments of the By-Laws

Due to the failure to meet the requirement that majority of the outstanding capital stock should be present in person or by proxy, the agenda to amend Section 1, Article 1 of the By-Laws on the date and time of Annual Stockholders Meeting, and the delegation of power to amend Articles 1, 2, 3, 4 and 6 of the By-Laws of Sun Life of Canada Prosperity Balanced Fund, Inc.'s, remain **unapproved**.

For the Peso Starter Fund, Dollar Starter Fund, and Index Funds, the following amendments to their respective By-Laws were **approved** after obtaining the affirmative vote of a majority of their outstanding capital stock:

- a. of Article I, Sections 1 (Annual Meetings) and 2 (Special Meetings) in relation to allowing the holding of the stockholders' meeting via remote communication; and Section 2 (Special Meetings) to align with the Revised Corporation Code;
- b. Article I, Section 6 (Voting) in relation to the use of remote communication or in absentia in the conduct of regular and special stockholders' meetings and on the manner of voting, in accordance with the Revised Corporation Code;
- c. Article 2, Section 1 (Board of Directors) in relation to the inclusion of the requirement that at least twenty percent (20%) of the Board of Directors must be composed of independent directors;

- d. Article 4, Section 1 (Committees) in relation to complying with applicable rules on the composition of committees, changing or discharging of its members, and filling in vacancies;
- e. Article 4, Section 2 (Advisory Board) in relation to the deletion of the Advisory Board;
- f. Article 6, Section 1 (b) (Management Contracts) to align with the Investment Company Act and its Implementing Rules and Regulations;
- g. Article 6, Section 2 (Distribution Contracts) to align with the Investment Company Act and its Implementing Rules and Regulations;
- h. Article 7, Section 3 (Lost or Destroyed Certificates) in order to refer the applicable section of the Revised Corporation Code;
- i. Article 7, Section 6 (Closing of the Stock and Transfer Book) to align with the period specified in the Revised Corporation Code;
- j. Article 8, Section 1 (Investment Policy) to clarify that the Prospectus is as filed with and approved by the Securities and Exchange Commission;
- k. Article 8, Sections 2 (a) (b) and (c) (Restrictions) to align with the Investment Company Act and its Implementing Rules and Regulations;
- l. Article 9, Section 1 (Net Asset Value) to clarify that the Prospectus is as filed with and approved by the Securities and Exchange Commission;
- m. Article 10, Section 1 (Procedure for Redemption) to align with the grounds for suspension under the Investment Company Act and its Implementing Rules and Regulations;
- n. Article 10, Section 2 (Payment on Redemption) to align with the Investment Company Act and its Implementing Rules and Regulations;
- o. Article 11, Section 1 (Custodian) to align the definition of a Custodian with the definition and qualifications provided by the Investment Company Act and other applicable issuance of the Securities and Exchange Commission;
- p. Article 11, Section 2 (Auxiliary Custodian) to align it with the Investment Company Act and its Implementing Rules and Regulations on outsourcing or delegation of functions of the Custodian;
- q. Article 11, Section 3 (Auditors) to align it with the Investment Company Act and its Implementing Rules and Regulations and the Securities Regulation Code on the qualifications and appointment of an auditor; and
- r. Article 14, Section 1 (Amendments) to align with the applicable provision of the Revised Corporation Code.

However, the above items were **not approved** for the World Voyager Fund.

For the Dollar Starter Fund and Index Fund, the following amendments to their respective By-Laws were **approved** after obtaining the affirmative vote of a majority of their outstanding capital stock.

- a. Article 2, Section 2 (Meetings) to align the period for the notice of meeting of the directors with the Revised Corporation Code;
- b. Article 2, Section 4 (Compensation) to expressly state that directors are prohibited from participating in the determination of their own per diems or compensation; and
- c. Article 2, Section 5 (Vacancy) to align with the Revised Corporation Code on the vacancies in the Board of Directors.

However, the above items were **not approved** for the World Voyager Fund.

The amendments of Article 3 (Sections 1 and 6), in relation to the election of a Compliance Officer as one of the corporate officers, and Article 1 (Section 3), in relation to the sending of notices electronically, of the By-Laws of the Index Fund were likewise **approved** by at least a majority of the Fund's authorized capital stock. However, due to the failure to obtain the required

number of votes, the amendment of Article 3 (Sections 1 and 6) of the By-Laws of the World Voyager Fund was **not approved**.

Finally, the following amendments to By-Laws of the Peso Starter Fund were **approved** after obtaining the affirmative vote of a majority of its outstanding capital stock:

- a. Article 2, Section 2 (Nomination and Review Committee) to include the requirement that the Committee must have at least one (1) member who is an independent director in compliance with the Securities Regulation Code and its Implementing Rules and Regulation;
- b. Article 2, Section 6 (Compensation) to expressly state that directors are prohibited from participating in the determination of their per diems or compensation;
- c. Article 1, Section 3 (Notices) to align the notice period for stockholders' meetings with the issuances of the Securities and Exchange Commission and to allow for the sending of the notices electronically; and
- d. Article 2, Section 7 (Vacancy) to align with the Revised Corporation Code on the vacancies in the Board of Director.

The respective resolutions were passed by the Stockholders, as documented through Sun Life Prosperity Funds ASHM Resolution Nos. 5 to 36-2022.

A continuation of the Annual Stockholders' Meeting will be held on 09 September 2022 at 9:00 a.m. via Zoom Conference to re-submit these matters for the approval of the Stockholders.

12. QUESTIONS FROM THE STOCKHOLDERS

The meeting host chose the four most-asked questions from the stockholders and started with a question on the developments that SLAMCI implemented since the last stockholders' meeting held in 2021. Mr. Sison took the question and replied that at the start of 2021, SLAMCI endeavored to provide the investors with a more pleasant investing journey and launched the Digitally-Enabled Selling Forms and Process. He explained that these forms are fillable/interactive versions of SLAMCI's client forms, which can be digitally accomplished and submitted. With these forms, there is no need for hard copy submissions allowing those based in areas far from Sun Life's major service centers nationwide to invest. Mr. Sison added that SLAMCI launched the Online Payment Page where existing clients can add to their funds through the website. This payment page was further improved with the partnership of SLAMCI with Paynamics. Mr. Sison also mentioned the availability of the US Dollar Funds in SLAMCI's application platform, the partnership with InvestaFinancial and BDO Securities, and the reduction in the required amounts to invest using US Dollars in the Funds.

The second question is how the various local and global events, such as the Russia-Ukraine conflict and inflation, have impacted the Funds' sales. Ms. Candy S. Esteban, OIC Treasurer, answered the questions and shared that the year has indeed been challenging. Despite this however, Ms. Esteban stated that inflows are still being observed in the Peso and Dollar Starter Funds as they provide decent returns comparable or even higher than regular bank deposit products. There was also increased sales for the Equity and Index Funds as long-term investors take advantage of the low PSEi levels to capitalize on the reopening and growth of the local market. She also commented that for long-term investors, now might be a good time to take advantage of the lower prices of equities.

As to the third question on what investors can look forward to from SLAMCI in the coming months/years, Mr. Gerald L. Bautista, SLAMCI President, responded and shared that SLAMCI is

exploring more strategic partnerships with several financial institutions and payment partners to make investing with Sun Life more accessible and convenient. Mr. Bautista also acknowledged that there are pain points in the investing experiencing with SLAMCI and that they are continuously improving its services to elevator the client experience. In terms of products, Mr. Bautista shared that there are several new offerings in the pipeline which includes the Sun Life Prosperity Peso Voyager Feeder Fund using Philippine Pesos, and other income-paying/dividing-paying funds.

Finally, Ms. Valerie N. Pama, the Funds' President, took the question on what investment advice can Sun Life give to its investors given the market conditions. Ms. Pama first asked the investors not to succumb to the initial reaction of panicking and selling one's portfolio. She suggested that instead, investors should remain calm and consult their Sun Life Mutual Fund Advisor for the latter's guidance on the next steps. Reassessing one's risk tolerance before any additional investment or redemption is made is also recommended. For example, if the investor's need has become more immediate and he/she being defensive at this time is best, a shift to the Starter Funds would be good. However, if the investor still requires higher returns and he/she is able to absorb the market volatility, then adding to the equity-laced funds may be based. Ms. Pama also encouraged investors to consider doing asset allocation which is investing in both equity and fixed income funds (both locally and globally) to diversify one's portfolio and minimize volatility. She then invited the stockholders' to attend the Market Outlook Forum with the Fund Managers to discuss in more detail investment advice during this time.

13. ADJOURNMENT

NOTES TO FINANCIAL STATEMENTS

1. FINANCIAL REPORTING FRAMEWORK AND BASIS OF PREPARATION AND PRESENTATION

Statement of Compliance

These unaudited condensed consolidated interim financial statements of the Company as at and for the three-month period ended March 31, 2023 have been prepared in accordance with PAS 34, Interim Financial Reporting. These unaudited condensed consolidated interim financial statements do not include all the notes normally included in an annual audited financial report. Accordingly, these unaudited condensed consolidated interim financial statements are to be read in conjunction with the annual audited financial statements of the Company for the year ended December 31, 2022, which have been prepared in accordance with the Philippine Financial Reporting Standards (PFRS).

Basis of Preparation and Presentation

The financial statements of the Company have been prepared on the historical cost basis, except for certain financial assets measured at fair value.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In preparing the condensed consolidated interim financial statements, the significant accounting estimates and judgments made by the Company in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those applied to the financial statements as at and for the year ended December 31, 2022.

Functional and Presentation Currency

These financial statements are presented in United States Dollar (USD), the currency of the primary economic environment in which the Company operates. All amounts are recorded to the nearest dollar, except when otherwise indicated.

2. ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS

Adoption of New and Revised Accounting Standards Effective in 2022

The Company adopted all accounting standards and interpretations effective as at December 31, 2022. The new and revised accounting standards and interpretations that have been published by the International Accounting Standards Board (IASB) and approved by the FSRSC in the Philippines were adopted by the Company and were assessed as not applicable and have no impact on the Company's financial statements.

New Accounting Standards Effective as at Reporting Period Ended December 31, 2022

Amendments to PFRS 3, References to the Conceptual Framework

The amendments update PFRS 3 so that it refers to the 2018 Conceptual Framework instead of the 1989 Framework. They also add to PFRS 3 a requirement that, for obligations within the scope of PAS 37, an acquirer applies PAS 37 to determine whether at the acquisition date a present obligation exists as a result of past events. For a levy that would be within the scope of IFRIC 21 Levies, the acquirer applies IFRIC 21 to determine whether the obligating event that gives rise to a liability to pay the levy has occurred by the acquisition date.

The amendments also add an explicit statement that an acquirer does not recognize contingent assets acquired in a business combination.

The amendments are effective for business combinations for which the date of acquisition is on or after the beginning of the first annual period beginning on or after January 1, 2022. Early application is

permitted if an entity also applies all other updated references (published together with the updated Conceptual Framework) at the same time or earlier.

The adoption of the amendments did not have an effect on the Company's financial statements as the Company did not acquire a business nor in the process of entering into any business combination.

Amendments to PAS 16, Property, Plant and Equipment – Proceeds before Intended Use

The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced before that asset is available for use, i.e. proceeds while bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Consequently, an entity recognizes such sales proceeds and related costs in profit or loss. The entity measures the cost of those items in accordance with PAS 2, Inventories.

The amendments also clarify the meaning of 'testing whether an asset is functioning properly'. PAS 16 now specifies this as assessing whether the technical and physical performance of the asset is such that it is capable of being used in the production or supply of goods or services, for rental to others, or for administrative purposes.

If not presented separately in the statement of comprehensive income, the financial statements shall disclose the amounts of proceeds and cost included in profit or loss that relate to items produced that are not an output of the entity's ordinary activities, and which line item(s) in the statement of comprehensive income include(s) such proceeds and cost.

The amendments are applied retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments.

The entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented.

The amendments are effective for annual periods beginning on or after January 1, 2022 with early application permitted.

The adoption of the amendments did not have an effect on the Company's financial statements as the Company did not have property, plant and equipment recorded in its financial statements.

Amendments to PAS 37, Onerous Contracts – Cost of Fulfilling a Contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract consist of both the incremental costs of fulfilling that contract (examples would be direct labour or materials) and an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

The amendments apply to contracts for which the entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which the entity first applies the amendments. Comparatives are not restated. Instead, the entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate, at the date of initial application.

The amendments are effective for annual periods beginning on or after January 1, 2022 with early application permitted.

The adoption of the amendments did not have an effect on the Company's financial statements as the Company did not issue and enter into onerous contract.

Annual Improvements to PFRS Standards 2018-2020 Cycle

Amendments to PFRS 1 – Subsidiary as a first-time adopter

The amendment provides additional relief to a subsidiary which becomes a first-time adopter later than its parent in respect of accounting for cumulative translation differences. As a result of the amendment, a

subsidiary that uses the exemption in PFRS 1:D16(a) can now also elect to measure cumulative translation differences for all foreign operations at the carrying amount that would be included in the parent's consolidated financial statements, based on the parent's date of transition to PFRS Standards, if no adjustments were made for consolidation procedures and for the effects of the business combination in which the parent acquired the subsidiary. A similar election is available to an associate or joint venture that uses the exemption in PFRS 1:D16(a).

The amendment is effective for annual periods beginning on or after January 1, 2022, with early application permitted.

Amendments to PFRS 9 – Fees in the '10 per cent' test for derecognition of financial liabilities

The amendment clarifies that in applying the '10 per cent' test to assess whether to derecognize a financial liability, an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf.

The amendment is applied prospectively to modifications and exchanges that occur on or after the date the entity first applies the amendment.

The amendment is effective for annual periods beginning on or after January 1, 2022, with early application permitted.

Amendments to PFRS 16 – Lease Incentives

The amendment removes the illustration of the reimbursement of leasehold improvements. As the amendment to PFRS 16 only regards an illustrative example, no effective date is stated.

Amendments to PAS 41 – Taxation in fair value measurements

The amendment removes the requirement in PAS 41 for entities to exclude cash flows for taxation when measuring fair value. This aligns the fair value measurement in PAS 41 with the requirements of PFRS 13 Fair Value Measurement to use internally consistent cash flows and discount rates and enables preparers to determine whether to use pretax or post-tax cash flows and discount rates for the most appropriate fair value measurement.

The amendment is applied prospectively, i.e. for fair value measurements on or after the date an entity initially applies the amendment.

The amendment is effective for annual periods beginning on or after January 1, 2022, with early application permitted.

The adoption of the amendments did not have an effect in the Company's financial statements as the Company did not have subsidiary as a first-time adopter; did not derecognize any liabilities; did not have lease contracts and leasehold improvements; and did not have biological assets covered by PAS 41 that need to exclude its cash flows for taxation on its financial statements.

New Accounting Standards Effective after the Reporting Period Ended December 31, 2022

The Company will adopt the following standards when these become effective:

PFRS 17 – Insurance Contracts

PFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts and supersedes PFRS 4, Insurance Contracts.

PFRS 17 outlines a general model, which is modified for insurance contracts with direct participation features, described as the variable fee approach. The general model is simplified if certain criteria are met by measuring the liability for remaining coverage using the premium allocation approach.

The general model uses current assumptions to estimate the amount, timing and uncertainty of future cash flows and it explicitly measures the cost of that uncertainty. It takes into account market interest rates and the impact of policyholders' options and guarantees.

An amendment issued in June 2020 and adopted by FSRSC on August 2020 addresses concerns and implementation challenges that were identified after PFRS 17 was published.

PFRS 17 must be applied retrospectively unless impracticable, in which case the modified retrospective approach or the fair value approach is applied.

For the purpose of the transition requirements, the date of initial application is the start of the annual reporting period in which the entity first applies the Standard, and the transition date is the beginning of the period immediately preceding the date of initial application.

The standard (incorporating the amendments) is effective for periods beginning on or after January 1, 2025, as amended by the FSRSC from January 1, 2023. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB. Earlier application is permitted.

The future adoption of the standard will have no effect on the Company's financial statements as the Company does not issue insurance contracts.

Amendments to PFRS 10 and PAS 28, Sale or Contribution of Assets between an Investor and Its Associate or Joint Venture

The amendments to PFRS 10 and PAS 28 deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or a joint venture that is accounted for using the equity method, are recognized in the parent's profit or loss only to the extent of the unrelated investors' interests in that associate or joint venture. Similarly, gains and losses resulting from the remeasurement of investments retained in any former subsidiary (that has become an associate or a joint venture that is accounted for using the equity method) to fair value are recognized in the former parent's profit or loss only to the extent of the unrelated investors' interests in the new associate or joint venture.

The effective date of the amendments has yet to be set by the Board; however, earlier application of the amendments is permitted.

The future adoption of the amendments will have no effect on the Company's financial statements as the Company is not in the process and has no plan to acquire such investments.

Amendments to PAS 1, Classification of Liabilities as Current or Non-current

The amendments to PAS 1 affect only the presentation of liabilities as current or non-current in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items.

The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period, and introduce a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The amendments are applied retrospectively for annual periods beginning on or after January 1, 2023, with early application permitted.

Management does not anticipate that the application of the amendments in the future will have an impact on the financial statements since the current classification is not expected to change and that the existing liabilities of the Company are all current.

Amendments to PAS 1 and PFRS Practice Statement 2, Disclosure Initiative – Accounting Policies

The amendments are as follows:

- An entity is now required to disclose its material accounting policy information instead of its significant accounting policies
- several paragraphs are added to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material;
- the amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial;

- the amendments clarify that accounting policy information is material if users of an entity's financial statements would need it to understand other material information in the financial statements; and
- the amendments clarify that if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information

The amendments are applied prospectively. The amendments to PAS 1 are effective for annual periods beginning on or after January 1, 2023. Earlier application is permitted.

Management does not anticipate that the application of the amendments in the future will have an impact on the financial statements as all material accounting policy information are already disclosed in the notes to the financial statements.

Amendments to PAS 8, Definition of Accounting Estimates

With the amendment, accounting estimates are now defined as "monetary amounts in financial statements that are subject to measurement uncertainty."

The amendment clarified that a change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.

A change in an accounting estimate may affect only the current period's profit or loss, or the profit or loss of both the current period and future periods. The effect of the change relating to the current period is recognized as income or expense in the current period. The effect, if any, on future periods is recognized as income or expense in those future periods

The amendments are effective for annual periods beginning on or after January 1, 2023 and changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted.

The future adoption of the amendments will have no effect on the Company's financial statements as the clarification in the amendment does not change the Company's definition of an accounting estimate.

Amendments to PAS 12 Income Taxes—Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments introduce a further exception from the initial recognition exemption. Under the amendments, an entity does not apply the initial recognition exemption for transactions that give rise to equal taxable and deductible temporary differences.

Depending on the applicable tax law, equal taxable and deductible temporary differences may arise on initial recognition of an asset and liability in a transaction that is not a business combination and affects neither accounting nor taxable profit. For example, this may arise upon recognition of a lease liability and the corresponding right-of-use asset applying PFRS 16 at the commencement date of a lease.

Following the amendments to PAS 12, an entity is required to recognize the related deferred tax asset and liability, with the recognition of any deferred tax asset being subject to the recoverability criteria in PAS 12.

The Board also adds an illustrative example to PAS 12 that explains how the amendments are applied.

The amendments apply to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period an entity recognizes:

- A deferred tax asset (to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized) and a deferred tax liability for all deductible and taxable temporary differences associated with:

- Right-of-use assets and lease liabilities
- Decommissioning, restoration and similar liabilities and the corresponding amounts recognized as part of the cost of the related asset

- The cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at that date

The amendments are effective for annual reporting periods beginning on or after January 1, 2023, with earlier application permitted.

The future adoption of the amendments will have no effect on the Company's financial statements as the Company does not have transactions that give rise to the recognition of deferred tax asset and liability.

Amendment to PFRS 17, Initial Application of PFRS 17 and PFRS 9 – Comparative Information

The amendment is a transition option relating to comparative information about financial assets presented on initial application of IFRS 17.

The main amendment in Initial Application of PFRS 17 and PFRS 9 – Comparative Information (Amendment to PFRS 17) is a narrow-scope amendment to the transition requirements of PFRS 17 for entities that first apply PFRS 17 and PFRS 9 at the same time. The amendment regards financial assets for which comparative information is presented on initial application of PFRS 17 and PFRS 9, but where this information has not been restated for PFRS 9.

Under the amendment, an entity is permitted to present comparative information about a financial asset as if the classification and measurement requirements of PFRS 9 had been applied to that financial asset before. The option is available on an instrument-by-instrument basis. In applying the classification overlay to a financial asset, an entity is not required to apply the impairment requirements of PFRS 9.

There are no changes to the transition requirements in PFRS 9.

The amendment is effective for annual periods beginning on or after January 1, 2025, as amended by the FSRSC from January 1, 2023. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB. Still subject to approval of the BOA.

The future adoption of the amendment will have no effect on the Company's financial statements as the Company does not issue insurance contracts.

Amendments to PFRS 16, Lease Liability in a Sale and Leaseback

The amendments to PFRS 16 require a seller-lessee to subsequently measure lease liabilities arising from a sale and leaseback transaction in a way that does not result in recognition of a gain or loss that relates to the right of use it retains.

The amendments add subsequent measurement requirements for sale and leaseback transactions that satisfy the requirements in IFRS 15 Revenue from Contracts with Customers to be accounted for as a sale.

The amendments require the seller-lessee to determine 'lease payments' or 'revised lease payments' such that the seller-lessee does not recognize a gain or loss that relates to the right of use retained by the seller-lessee, after the commencement date. The amendments do not affect the gain or loss recognized by the seller-lessee relating to the partial or full termination of a lease.

The amendments are applied retrospectively for annual periods beginning on or after January 1, 2024, with early application permitted. Still subject to approval of the Board of Accountancy and Financial and Sustainability Reporting Standard Council.

The future adoption of the amendments will have no effect on the Company's financial statements as the Company does not have lease liability recorded in its financial statements.

Amendments to IAS 1, *Non-current Liabilities with Covenants*

The amendments to PAS 1 to specify that only covenants an entity must comply with on or before the reporting period should affect classification of the corresponding liability as current or non-current.

The amendments specify that only covenants that an entity is required to comply with on or before the end of the reporting period affect the entity's right to defer settlement of a liability for at least twelve months after the reporting date (and therefore must be considered in assessing the classification of the liability as current or non-current). Such covenants affect whether the right exists at the end of the reporting period, even if compliance with the covenant is assessed only after the reporting date (e.g. a covenant based on the entity's financial position at the reporting date that is assessed for compliance only after the reporting date).

The amendments specify that the right to defer settlement is not affected if an entity only has to comply with a covenant after the reporting period. However, if the entity's right to defer settlement of a liability is subject to the entity complying with covenants within twelve months after the reporting period, an entity discloses information that enables users of financial statements to understand the risk of the liabilities becoming repayable within twelve months after the reporting period. This would include information about the covenants (including the nature of the covenants and when the entity is required to comply with them), the carrying amount of related liabilities and facts and circumstances, if any, that indicate that the entity may have difficulties complying with the covenants.

The amendments are applied retrospectively for annual periods beginning on or after January 1, 2024, with early application permitted. Still subject to approval of the BOA and FSRSC.

The future adoption of the amendments will have no effect on the Company's financial statements as the Company does not have non-current liability with covenants recorded in its financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

Financial assets

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Company commits to purchase or sell the asset.

At initial recognition, the Company measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss (FVTPL), transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs of financial assets and financial liabilities carried at FVTPL are expensed in profit or loss.

Classification and Subsequent Measurement

The Company classifies its financial assets in the following measurement categories:

- FVTPL
- Fair value through other comprehensive income (FVTOCI); and
- Amortized cost

As at March 31, 2023 and December 31, 2022, the Company does not have financial assets classified as FVTOCI.

Classification of financial assets will be driven by the entity's business model for managing the financial assets and the contractual cash flows of the financial assets.

A financial asset is to be measured at amortized cost if: a) the objective of the business model is to hold the financial asset for the collection of the contractual cash flows, and b) the contractual cash flows under the instrument represent solely payment of principal and interest (SPPI).

All other debt and equity instruments must be recognized at fair value.

All fair value movements on financial assets are taken through the statement of comprehensive income, except for equity investments that are not held for trading, which may be recorded in the statement of comprehensive income or in reserves (without subsequent recycling to profit or loss).

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the group classifies its debt instruments:

- **Amortized cost.** Assets that are held for collection of contractual cash flows where those cash flows represent SPPI are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **FVTPL.** Assets that do not meet the criteria for amortized cost are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of comprehensive income within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in finance income.

The business model reflects how the Company manages the assets in order to generate cash flows. That is, whether the Company's objective is solely to collect the contractual cash flows from the assets or to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable, then the financial assets are classified as part of 'other' business model and measured at FVTPL. Factors considered by the Company in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Company assesses whether the financial instruments' cash flows represent SPPI. In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at FVTPL.

Amortized cost and effective interest method

The effective interest method is a method of calculating the amortized cost of a financial asset and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired (POCI) financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses (ECL), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for any loss allowance.

Interest income is recognized using the effective interest method for debt instruments measured subsequently at amortized cost. For financial instruments other than POCI financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognized by applying the effective interest rate to the amortized cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognized by applying the effective interest rate to the gross carrying amount of the financial asset.

Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective, that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Company subsequently measures all equity investments at FVTPL, except where the Company's Management has elected, at initial recognition, to irrevocably designate an equity instrument at FVTOCI. The Company's policy is to designate equity investments as FVTOCI when those investments are held for the purposes other than to generate investment returns. When the election is used, fair value gains and losses are recognized in other comprehensive income (OCI) and are not subsequently reclassified to profit or loss, including disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in profit or loss as other income when the Company's right to receive payment is established.

Changes in the fair value of financial assets at FVTPL are recognized in net realized gains (losses) on investments in the statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

As at March 31, 2023 and December 31, 2022, the Company does not have financial assets at FVTOCI.

Impairment of financial assets

The Company recognizes a loss allowance for ECL on investments in debt instruments that are measured at amortized cost. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

ECLs are a probability-weighted estimate of the present value of credit losses. These are measured as the present value of the difference between the cash flows due to the Company under the contract and the cash flows that the Company expects to receive arising from the weighting of multiple future economic scenarios, discounted at the asset's effective interest rate.

The Company measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. The measurement of the loss allowance is based on the present value of the asset's expected cash flows using the asset's original effective interest rate, regardless of whether it is measured on an individual basis or a collective basis.

With the exception of POCI financial assets, ECLs are required to be measured through a loss allowance at an amount equal to:

- 12-month ECL, i.e. lifetime ECL that result from those default events on the financial instrument that are possible within 12 months after the reporting date, (referred to as Stage 1); or
- full lifetime ECL, i.e. lifetime ECL that result from all possible default events over the life of the financial instrument, (referred to as Stage 2 and Stage 3).

A loss allowance for full lifetime ECL is required for a financial instrument if the credit risk on that financial instrument has increased significantly since initial recognition. For all other financial instruments, ECLs are measured at an amount equal to the 12-month ECL.

ECLs are a probability-weighted estimate of the present value of credit losses. These are measured as the present value of the difference between the cash flows due to the Company under the contract and the cash flows that the Company expects to receive arising from the weighting of multiple future economic scenarios, discounted at the asset's effective interest rate.

The Company measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. The measurement of the loss allowance is based on the present value of the asset's expected cash flows using the asset's original effective interest rate, regardless of whether it is measured on an individual basis or a collective basis.

The Company recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Significant increase in credit risk

The Company monitors all financial assets that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk the Company will measure the loss allowance based on lifetime rather than 12-month ECL.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognized. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

Forward-looking information considered includes the future prospects of the industries in which the Company's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Company's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument (e.g., a significant increase in the credit spread, the credit default swap prices for the debtor, or

the length of time or the extent to which the fair value of a financial asset has been less than its amortized cost);

- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Company presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Company has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Company assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

A financial instrument is determined to have low credit risk if:

- it has a low risk of default;
- the borrower is considered, in the short term, to have a strong capacity to meet its obligations; and
- the Company expects, in the longer term, that adverse changes in economic and business conditions might, but will not necessarily, reduce the ability of the borrower to fulfill its obligations.

The Company considers a financial asset to have low credit risk when the asset has external credit rating of 'investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Company regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Default

The Company considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Company, in full (without taking into account any collateral held by the Company).

Irrespective of the above analysis, the Company considers that default has occurred when a financial asset is more than 90 days past due unless the Company has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default (PD) which affects both the measurement of ECLs and the identification of a significant increase in credit risk.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence of credit-impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization;
- the disappearance of an active market for a security because of financial difficulties; or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

It may not be possible to identify a single discrete event—instead, the combined effect of several events may have caused financial assets to become credit-impaired. The Company assesses whether debt instruments that are financial assets measured at amortized cost or FVTOCI are credit-impaired at each reporting date. To assess if debt instruments are credit impaired, the Company considers factors such as bond yields, credit ratings and the ability of the borrower to raise funding.

Write-off

The Company writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, such as when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner.

Financial assets written off may still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the PD, LGD (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the PD and LGD is based on historical data adjusted by forward-looking information.

As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate.

If the Company has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Company measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Company recognizes an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognized in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

Presentation of allowance for ECL in the statements of financial position

Loss allowances for ECL are presented in the statements of financial position as a deduction from the gross carrying amount of the assets.

Derecognition

The Company derecognizes a financial asset only when the contractual rights to the asset's cash flows expire or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognized in OCI and accumulated in equity is recognized in profit or loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognized in OCI is not subsequently reclassified to profit or loss, but is transferred to retained earnings.

Financial Liabilities and Equity Instruments

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Financial liabilities

All financial liabilities are measured subsequently at amortized cost using the effective interest method or at FVTPL. Financial liabilities are classified as either financial liabilities 'at FVTPL' or 'other financial liabilities'.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is (i) held for trading, or (ii) it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial liabilities at FVTPL are measured at fair value, with any gains/losses arising on remeasurement recognized in profit or loss to the extent that they are not part of a designated hedging relationship. The net gain/loss recognized in profit or loss incorporates any interest paid on the financial liability and is included in profit or loss.

However, for financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognized in OCI, unless the recognition of the effects of changes in the liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. The remaining amount of change in the fair value of liability is recognized in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognized in OCI are not subsequently reclassified to profit or loss; instead, they are transferred to retained earnings upon derecognition of the financial liability.

In making the determination of whether recognizing changes in the liability's credit risk in OCI will create or enlarge an accounting mismatch in profit or loss, the Company assesses whether it expects that the effects of changes in the liability's credit risk will be offset in profit or loss by a change in the fair value of another financial instrument measured at FVTPL. This determination is made at initial recognition.

As at March 31, 2023 and December 31, 2022, the Company does not have financial liabilities classified at FVTPL, hence, all financial liabilities are subsequently measured at amortized cost.

Financial liabilities measured subsequently at amortized cost

Financial liabilities that are not (i) contingent consideration of an acquirer in a business combination, (ii) held-for-trading, or (iii) designated as at FVTPL, are measured subsequently at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

The Company's financial liabilities classified under this category include accrued expenses and other payables, and payable to fund manager.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statements of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

A right to offset must be available today rather than being contingent on a future event and must be exercisable by any of the counterparties, both in the normal course of business and in the event of default, insolvency or bankruptcy.

Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Share capital

Share capital consisting of ordinary shares is classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax. Any excess of proceeds from issuance of shares over its par value is recognized as additional paid-in capital.

Retained earnings

Retained earnings represent accumulated profit attributable to equity holders of the Company after deducting dividends declared. Retained earnings may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Repurchase, disposal and reissuance of share capital (treasury shares)

When share capital recognized as equity is repurchased, the amount of the consideration paid, which includes directly attributable cost, net of any tax effects, is recognized as a reduction from equity. Repurchased shares are classified as treasury shares and are presented in the reserve for own share account. When treasury shares are sold or reissued subsequently, the amount received is recognized as increase in equity, and the resulting surplus or deficit on the transaction is presented as additional paid-in capital.

Deposit for future share subscriptions

DFFS is recorded at historical cost. According to Financial Reporting Bulletin (FRB) No. 6 as issued by SEC, it is classified as equity when all of the following criteria are met:

- the unissued authorized capital share of the entity is insufficient to cover the amount of shares indicated in the contract;
- there is Board of Directors' approval on the proposed increase in authorized capital share (for which a deposit was received by the Company);
- there is shareholders' approval of said proposed increase; and
- the application for the approval of the proposed increase has been presented for filing or has been filed with the SEC.

DFFS is classified as liability, when the above criteria are not met.

Prepayments

Prepayments represent expenses not yet incurred but already paid in cash. Prepayments are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit or loss as these are consumed in operations or expire with the passage of time.

Prepayments are classified in the statements of financial position as current asset when the cost of services related to the prepayments are expected to be incurred within one (1) year or the Company's normal operating cycle, whichever is longer. Otherwise, prepayments are classified as non-current assets.

Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are recognized when the Company has a present obligation, either legal or constructive, as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized is the best estimate of the consideration required to settle the present obligation at the end of each reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation; its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

If it is no longer probable that a transfer of economic benefits will be required to settle the obligation, the provision should be reversed.

Contingent Liabilities and Assets

Contingent liabilities and assets are not recognized because their existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent liabilities are disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent assets are not recognized, but are disclosed only when an inflow of economic benefits is probable. When the realization of income is virtually certain, asset should be recognized.

Revenue Recognition

Revenue is measured based on the consideration to which the Company expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Company recognizes revenue when it transfers control of a product or service to a customer.

Dividend income

Dividend income from investments is recognized when the shareholders' rights to receive payments have been established, usually at ex-dividend rate, provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Realized gains or losses

Gains or losses arising on the disposal of investments are determined as the difference between the sales proceeds and the carrying amount of the investments and is recognized in profit or loss.

Fair value gains or losses

Gains or losses arising from changes in fair values of investments are disclosed under the policy on financial assets.

Other income

Other income is income generated outside the normal course of business and is recognized when it is probable that the economic benefits will flow to the Company and it can be measured reliably.

Expense Recognition

Expenses are recognized in profit or loss when a decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably. Expenses are recognized in profit or loss on the basis of: (i) a direct association between the costs incurred and the earning of

specific items of income; (ii) systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association with income can only be broadly or indirectly determined; or, (iii) immediately when an expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify, or cease to qualify, for recognition in the statements of financial position as an asset.

Expenses in the statements of comprehensive income are presented using the function of expense method. Investment expenses are transaction costs incurred in the purchase and sale of investments. Operating expenses are costs attributable to the administrative and other business expenses of the Company including management fees and custodianship fees.

Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such basis.

In addition, for financial reporting purposes, fair value measurements are categorized into Levels 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Related Party Transactions

A related party transaction is a transfer of resources, services or obligations between the Company and a related party, regardless of whether a price is charged. Parties are considered related if one party has control, joint control, or significant influence over the other party in making financial and operating decisions. An entity that is a post-employment benefit plan for the employees of the Company and the key management personnel of the Company are also considered to be related parties.

Taxation

Income tax expense represents the sum of the current tax, final tax and deferred tax expense.

Current tax

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statements of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's current tax expense is calculated using 25% regular corporate income tax (RCIT) rate or 1% minimum corporate income tax (MCIT) rate, whichever is higher.

Final tax

Final tax expense represents final taxes withheld on interest income from cash and cash equivalents, special savings deposits and fixed-income securities and final taxes withheld on proceeds from sale of listed equity securities.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and these relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred taxes for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in OCI or directly in equity, in which case, the current and deferred taxes are also recognized in OCI or directly in equity, respectively.

Earnings per Share

The Company computes its basic earnings per share by dividing profit or loss for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the period.

For the purpose of calculating diluted earnings per share, profit or loss for the year attributable to ordinary equity holders of the Company and the weighted average number of shares outstanding are adjusted for the effects of deposits for future share subscriptions which are dilutive potential ordinary shares.

Net Asset Value per Share (NAVPS)

The Company computes its NAVPS by dividing the total net asset value as at the end of the reporting period by the number of issued and outstanding shares and shares to be issued on deposits for future share subscriptions.

Events After the Reporting Period

The Company identifies events after the end of the reporting period as those events, both favorable and unfavorable, that occur between the end of the reporting period and the date when the financial statements are authorized for issue. The financial statements of the Company are adjusted to reflect those events that provide evidence of conditions that existed at the end of the reporting period. Non-adjusting events after the end of the reporting period are disclosed in the notes to the financial statements when material.

4. CASH AND CASH EQUIVALENTS

	March 2023	December 2022
Cash in banks	\$ 1,507,665	\$1,760,376
Cash equivalents	11,118,613	18,336,487
	<u>\$ 12,626,278</u>	<u>\$20,096,863</u>

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. The Company classifies an investment as cash equivalent if that investment has a maturity of three months or less from the date of acquisition.

There were no transfers between Levels 1, 2 and 3 in 2023 and 2022.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Performance of the Company could be measured by the following indicators:

- 1. Increase/Decrease in Net Assets Value Per Share (NAVPS).** NAVPS is computed by dividing net assets (total assets less total liabilities) by the total number of shares issued and outstanding plus the total number of shares outstanding due to deposit for future subscriptions (DFFS) and for conversion to shares, if any, as of the end of the reporting day. Any increase or decrease in NAVPS translates to a prospective capital gain or capital loss, respectively, for the Fund's shareholders.
- 2. Net Investment Income.** Represents the total earnings of the Fund from its investment securities, less operating expenses and income tax. This gauges how efficiently the Fund has utilized its resources in a given time period.
- 3. Assets Under Management (AUM).** These are the assets under the Fund's disposal. This measures investor confidence (increase/decrease brought about by investor

subscriptions/redemptions) as well as the growth of the Fund (increase/decrease brought about by its operational income and market valuation of its assets and liabilities).

4. **Cash Flow.** Determines whether the Fund was able to achieve the optimal level of liquidity by being able to meet all its scheduled payments, while maintaining at the same time the maximum investments level and minimum cash level.

PART II – RISK MANAGEMENT

Item 1. Financial Risk Exposures of the Company

1. Financial Risk Management Objectives and Policies

The Company's activities expose it to a variety of financial risks: interest rate risk, credit risk, and liquidity risk. The Fund Manager exerts best efforts to anticipate events that would negatively affect the value of the Company's assets and takes appropriate actions to counter these risks. However, there is no guarantee that the strategies will work as intended. The policies for managing specific risks are summarized below:

- 1.1 **Market Risk:** Market risk is a risk of possible decline in the value of the Fund due to fluctuations in prices of the fund's assets. Since the fund may in both equity and fixed income securities, it is subject to two types of market risks: (1) Interest Rate Risk applicable to fixed income securities of the Fund; and (2) Equity Price Risk applicable to the equity investments of the Fund.
- 1.2 **Interest Rate Risk:** Interest Rate Risk is a type of Market Risk which is applicable to the Fund's investments in bonds, if any. This refers to the increase/decrease of a bond price due to movement in market factors such as changes in interest rates. A change in interest rates is the period when interest rates rise or fall thus causing the decline or increase in the market price of the bonds held by the Fund, if any. This risk is minimized by closely monitoring the direction of interest rates and aligning it with the appropriate strategy of the Fund.

- 1.3 **Credit Risk:** Investments in bonds carry the risk that the issuer of the bonds might default on its interest and principal payments. In the event of default, the Fund's value will be adversely affected and may result in a write-off of the concerned asset held by the Fund. To mitigate the risk, each Issuer/Borrower/Counterparty passes through a stringent credit process to determine whether its credit quality complies with the prescribed standards of the Fund. Further, the credit quality of the Issuer/Borrower/Counterparty is reviewed periodically to ensure that excellent credit standing is maintained. Moreover, a 10% exposure limit to a single entity is likewise observed.
- 1.4 **Liquidity Risk:** The Fund is usually able to service redemptions of investors within seven (7) banking days after receipt of the notice of redemption by paying out redemptions from available cash or near cash assets in its portfolio. However, when redemptions exceed the Funds available cash or near cash assets in its portfolio, the Fund will have to sell its other security holdings; and during periods of extreme market volatility, the Fund may not be able to find a buyer for such assets. Consequently, the Fund may not be able to generate sufficient cash from its sale of assets to meet the redemptions within the normal seven (7) banking day period. To mitigate this, the Fund maintains adequate highly liquid assets in the form of cash, cash equivalents and near cash assets in its portfolio. As the Fund's portfolio is composed of liquid assets, liquidity risk is deemed low.
- 1.5 **Regulatory Risk:** The Fund's investments and operations are subject to various regulations affecting among others, accounting of assets and taxation. These regulations occasionally change, and may result in lower returns or even losses borne by the investors. For example, a higher tax imposed on the sale or purchase of underlying assets of the Fund may result in lower net asset value of the Fund. To mitigate this risk, SLAMCI adopts global best practices. Further, it maintains regular communications with the relevant government agencies to keep itself abreast of the issues giving them concern, and to have the opportunity to help them set standards for good governance. SLAMCI also takes an active participation in the Philippine Investment Funds Association, Inc. ("PIFA"), an association of mutual fund companies in the Philippines.
- 1.6 **Non-guarantee:** Unlike deposits made with banks, an investment in the Fund is neither insured nor guaranteed by the Philippine Deposit Insurance Corporation ("PDIC"). Hence, investors carry the risk of losing the value of their investment, without any guaranty in the form of insurance. Moreover, as with any investment, it is important to note that past performance of the Fund does not guarantee its future success.
- 1.7 **Dilution Risk:** Being an open-end mutual fund, various investors may effectively subscribe to any amount of shares of the Fund. As such, investors face the risk of their investments being diluted as more investors subscribe to shares of the Fund. The influence that the investors can exert over the control and management of the Fund decreases proportionately.
- 1.8 **Large Transaction Risk:** If an investor in a Fund makes a large transaction, the Fund's cash flow may be affected. For example, if an investor redeems a large number of shares of a Fund, that Fund may be forced to sell securities at unfavorable prices to pay for the proceeds of redemption. This unexpected sale may have a negative impact on the net asset value of the Fund.
- 1.9 **Fund Manager Risk:** The performance of the Fund is also dependent on the Fund Manager's skills. Hence, the Fund may underperform in the market and/or in comparison with similar funds due to investment decisions made by the Fund Manager, and may also fail to meet the Fund's investment objectives. The Board of Directors of the Issuer, however, shall ensure that all investment policies and restrictions enumerated in this Prospectus are strictly followed.
- 1.10 **Operational Risk:** This is the risk of loss resulting from inadequate or failed internal processes, controls, people and systems. Categories of operational risks may fall under: sales and distribution, human resources, information technology, processes and people, accounting and finance, model risk, legal and regulatory and third party relationships. The Fund ensures that the internal controls and practices are consistent with enterprise wide policies supporting the management of operational risks. The Fund has established business specific guidelines. Comprehensive investment program, including appropriate level of self-insurance, is maintained to provide protection against potential losses.

2. Capital Risk Management

The Company manages its capital to ensure that the Company will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the mix of high-quality debt from domestic issuers.

The Company is guided by its Investment Policies and Legal Limitations. All the proceeds from the sale of shares, including the original subscription payments at the time of incorporation constituting the paid-in capital, is held by the pertinent custodian banks.

The Company manages Capital and NAVPS, to ensure that the Company's net asset value remains competitive and appealing to prospective investors.

The Company is also governed by the following fundamental investment policies:

- It does not issue senior securities.
- It does not intend to incur any debt or borrowing. In the event that borrowing is necessary, it can do so only if, at the time of its incurrence or immediately thereafter, there is asset coverage of at least 300% for all its borrowings.
- It does not participate in any underwriting or selling group in connection with the public distribution of securities, except for its own share capital.
- It generally maintains a diversified portfolio. Industry concentrations may vary at any time depending on the investment manager's view on the prospects.
- It does not invest directly in real estate properties and developments.
- It does not purchase or sell commodity futures contracts.
- The proportion of the Fund's assets that shall be invested in each type of security shall be determined from time to time, as warranted by economic and investment conditions.
- Subscribers are required to settle their subscriptions in full upon submission of their application for subscriptions.
- The Fund may use various techniques to hedge investment risks.
- It does not change its investment objectives without the prior approval of a majority of its shareholders.

The Investment Policies refer to the following:

- Investment Objective - to generate income in Philippine Pesos consistent with prudent management of the Fund's assets.
- Benchmark - 30-day special savings deposits.
- Asset Allocation Range - the Company allocates its funds available for investments among cash and other deposit substitutes and fixed-income securities based on certain proportion as approved by Management.

Other matters covered in the investment policy include the fees due to be paid to the Fund Manager with management and distribution fees each set at an annual rate of 0.25% of the net assets attributable to shareholders on each valuation day.

In compliance to SEC Memorandum Circular No. 21, Series of 2019 signed on September 24, 2019 in relation to independent Net Asset Value (NAV) calculation, SLAMCI (Fund Manager) engaged Citibank, N.A. Philippines to service its fund accounting functions including calculation of its NAV every dealing day. In December 2020, SLAMCI implemented the outsourced fund accounting to all Sun Life Prosperity Funds.

As of March 31, 2023 and December 31, 2022, the Company is consistently in compliance with the minimum paid-in capital requirement of the SEC of P 50,000,000.

The amount and description of the company's investment in foreign securities:

4. The significant judgments made in classifying a particular financial instrument in the fair value hierarchy.

CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments in Applying Accounting Policies

The following are the critical judgments, apart from those involving estimates, that Management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements.

Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortized cost that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

The Company measures its financial assets at amortized cost if the financial asset qualifies for both SPPI and business model test. The Company's business model is to hold the asset and to collect its cash flows which are SPPI. All other financial assets that do not meet the SPPI and business model test are measured at FVTPL.

Significant increase of credit risk

ECL is measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. PFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Company takes into account qualitative and quantitative reasonable and supportable forward looking information.

The Company considers a financial instrument to have experienced a significant increase in credit risk when one or more of the qualitative and quantitative criteria have been met.

As at March 31, 2023 and December 31, 2022, the Company's financial instrument measured at amortized cost has not experienced a significant increase in its credit risk.

Models and assumptions used

The Company uses various models and assumptions in measuring the fair value of financial assets as well as in estimating ECL. Judgment is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk.

Functional currency

Based on the economic substance of the underlying circumstances relevant to the Company, the functional currency of the Company has been determined to be the USD. The USD is the currency of the primary economic environment in which the Company operates. It is the currency being used to report the Company's results of operations.

Puttable shares designated as equity instruments

The Company's share capital met the specified criteria to be presented as equity. The Company designated its redeemable share capital as equity instruments since the Company's share capital met the criteria specified in PAS 32, Financial Instruments: Presentation, to be presented as equity.

A puttable financial instrument includes a contractual obligation for the issuer to repurchase or redeem that instrument for cash or another financial asset on exercise of the put. As an exception to the definition of a financial liability, an instrument that includes such an obligation is classified as an equity instrument if it has met all the following features:

- a. it entitles the holder to a pro rata share of the entity's net assets in the event of the entity's liquidation. The entity's net assets are those assets that remain after deducting all other claims on its assets;
- b. it is in the class of instruments that is subordinate to all other classes of instruments;
- c. all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- d. apart from the contractual obligation for the issuer to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any contractual obligation to deliver cash or another financial asset to another entity, or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the entity, and it is not a contract that will or may be settled in the entity's own equity instruments; and
- e. the total expected cash flows attributable to the instrument over the life of the instrument are based substantially on the profit or loss, the change in the recognized net assets or the change in the fair value of the recognized and unrecognized net assets of the entity over the life of the instrument (excluding any effects of the instrument).

As at March 31, 2023 and December 31, 2022, the recognized amount of share capital representing puttable shares in the statements of financial position amounted to \$797,312.

Key Sources of Estimation Uncertainty

The following are the Company's key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Probability of default (PD)

PD constitutes a key input in measuring ECL. PD is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

As at March 31, 2023 and December 31, 2022, the Company assessed a probability of default of 0.18% and 0.14% respectively, for all of its financial assets measured at amortized cost.

Loss Given Default (LGD)

LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements. The Company uses portfolio averages from external estimates sourced out from Standard and Poor's (S&P) as the LGD estimates.

Estimating loss allowance for ECL

The measurement of the expected credit loss allowance for financial assets measured at amortized cost and FVTOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior.

A number of significant judgments are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL; and
- Establishing the number and relative weightings of forward-looking scenarios and the associated ECL.

As at March 31, 2023 and December 31, 2022, the Company has recorded expected credit losses for its financial assets measured at amortized cost amounting to \$109,210 and \$118,738, respectively as disclosed in Note 5.

Deferred tax assets

The Company reviews the carrying amount at the end of each reporting period and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Total deferred tax asset recognized as at March 31, 2023 and December 31, 2022 amounted to \$47,074 and \$49,021, respectively.

Compliance with Foreign Account Tax Compliance Act (FATCA)

In accordance with the requirements of the US Internal Revenue Service ("IRS") and the Intergovernmental Agreement ("IGA") between the Government of the United States of America and the Government of the Republic of the Philippines to Improve International Tax Compliance and to Implement FATCA which was signed last July 13, 2015, the Fund has registered with the Internal Revenue Service (IRS) and has obtained its own Global Intermediary Identification Number ("GIIN") as a sponsored entity. Sun Life Asset Management Company, Inc. ("SLAMCI") continues to assume responsibilities for the Fund's FATCA compliance as the Sponsoring Entity and has implemented FATCA onboarding processes and procedures as well as system enhancements to monitor its new and pre-existing account holders who are U.S. Persons and have U.S. Indicia. The Fund, together with its Sponsoring Entity, SLAMCI, is preparing to comply for FATCA reporting on the date which will be set by the Bureau of Internal Revenue as soon as the IGA has been ratified by the Senate.

What does the Fund invest in?

The **Sun Life Prosperity Dollar Starter Fund** aims to generate consistent and stable returns for your US Dollar investment, potentially exceeding those of traditional bank deposits and money market funds over time. The Fund may also serve as a parking facility prior to investment in other Dollar Funds.

The Fund is suitable for investors with a **conservative risk profile** and short-term investment horizon. This is for investors who seek higher yields for their US Dollars compared to conventional bank deposits but do not want to assume a significant amount of risk. These investors may also be considering to invest in other dollar funds but are not yet able or ready to do so.

- Benchmark data were based on available information as of extraction date.

Market Review and Outlook

- The Federal Reserve (Fed) hiked policy rates by 25 basis points to a target rate of 4.75% to 5.00%. Yields of short-term outlets increased slightly as further monetary policy tightening to combat inflation remain on the table.
- Local short-term USD time deposit rates rose after the hike by the Fed and towards the end of the quarter, as local banks sought to boost their deposit base.
- The Fund will take advantage of elevated USD rates by investing maturities to short-term outlets.
- Accruals continued to be the primary driver for the Sun Life Prosperity Dollar Starter Fund's year-to-date return of 54 basis points.

MANAGEMENT REPORT

- a. **Management's Discussion and Analysis (MD&A) or Plan of Operation.**

CORPORATE INFORMATION

Sun Life Prosperity Dollar Starter Fund, Inc. (the "Company") was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on January 16, 2017. The Company is a registered open-end investment company under the Investment Company Act (Republic Act "R.A." No. 2629) and the Securities Regulation Code (R.A. No. 8799), formerly known as the Revised Securities Act (B.P. No. 178). It is engaged in the sale of and distribution of mutual fund shares, and seeks to provide higher yields than conventional bank deposits, short-term corporate and government debt and other fixed income instruments denominated in US Dollars. As an open-end investment company, its shares are redeemable anytime based on the Net Asset Value Per Share (NAVPS) at the time of redemption.

1. **Plan of Operation.** For the next twelve (12) months, management will continue its current plan of operation, with a focus on improving cost efficiency.
2. **Management's Discussion and Analysis.** The performance of the Company could be measured by the following indicators:
 - 2.1 **Increase/Decrease in Net Assets Value Per Share (NAVPS)** NAVPS is computed by dividing net assets (total assets less total liabilities) by the total number of shares issued and outstanding plus the total number of shares outstanding due to deposit for future subscriptions (DFFS) and for conversion to shares, if any, as of the end of the reporting day. Any increase or decrease in NAVPS translates to a prospective capital gain or capital loss, respectively, for the Company's shareholders.
 - 2.2 **Net Investment Income.** Represents the total earnings of the Company from its investment securities, less operating expenses and income tax. This gauges how efficiently the Company has utilized its resources in a given time period.
 - 2.3 **Assets Under Management (AUM).** The assets under the Company's disposal. This measures the profitability of the Company (increase/decrease brought about by its operational income) as well as investor confidence (increase/decrease brought about by investor subscriptions/redemptions).
 - 2.4 **Cash Flow.** Determines whether the Company was able to achieve the optimal level of liquidity by being able to meet all its scheduled payments while at the same time maintaining the maximum level of investments and minimum level of cash.

Top 5 Key Performance Indicators

The performance of a fund is important to its investors. Oftentimes, it is used when making investment decisions. That is why Key Performance Indicators (KPI), a set of quantifiable measures, is necessary to gauge its performance in terms of meeting the Fund's investment objective while consistently following its investment policy. The following are the top 5 KPIs related to the Fund:

1. **Total Return.** The performance of a mutual fund is always expressed in terms of its total return, which is the sum of the change in a fund's net asset value (NAV), its dividends and its capital gains distributions over a given period of time, net of its expenses.
2. **Market Conditions.** A fund's true performance potential needs to be evaluated within the context of the market environment prevailing during the different periods used.
3. It is most relevant to investors to measure the performance of a fund within a 10-year time frame as it will most likely cover a mix of market conditions that may be translated into a more reliable long-term indicator of the fund manager's investment management abilities.
4. **Benchmarks.** Benchmarking is one of the most important aspects of a mutual fund's total return performance. A fund's performance metrics only have meaning if they are compared to appropriate "guideposts," or benchmarks.

Given the Fund's objective to invest in a composition of cash, long-term bank deposits, short-term corporate and government debt and other fixed income instruments, its performance is measured against the average Philippine Dollar Deposit Rate - Savings (PPSDUS\$) index. The source of the average is the Bangko Sentral ng Pilipinas (BSP).

	Total Return vs Benchmark	
	Benchmark: 100% 30-day Dollar Deposit Rate	Sun Life Prosperity Dollar Starter Fund, Inc.
5-Year Return	0.86%	7.41%
3-Year Return	0.42%	3.47%
1-Year Return	0.14%	1.28%
YTD Return	0.06%	0.54%

*As of March 31, 2023

The benchmark may be changed by the Fund's Board of Directors from time to time.

5. **Peer Comparisons.** Mutual funds are also compared to their peers, or peer groups, and relevant fund categories. For example, it is common for investment research materials to compare a short-term bond fund, like the Sun Life Prosperity Dollar Starter Fund, to funds similar in nature (peers or peer group). While this information is made available to the Fund's investor, the same may be found in the website of the Investment Company Association of Philippines at www.pifa.com.ph.

*As of March 31, 2023

6. **Asset Size.** Open-ended mutual funds grow their asset size in two ways:
 - i. Increase in the value of the underlying assets as a result of the strong performance of equity securities and/or bonds in the fund's portfolio. When the underlying assets in a portfolio increase in value, the fund's asset size increases.
 - ii. The inflow of investors' money. This is why a fund's asset size will continue to grow even if it has a negative return.

The increase in a fund's asset size signifies solid fund management skills which, combined with favorable market conditions backed by a strong economic outlook, illustrates how effectively a fund manager has performed and the extent to which value has been added through active management.

The second indicates investor confidence in the fund manager, the Fund, or both.

Most analysts check whether the performance of a mutual fund is attributable to personnel who have since left the fund. While there is no magic number when it comes to fund manager tenure, it should provide some investor comfort to know that with respect to the Fund, the Fund Manager and the Fund's top management have been with the Fund for at least five (5) years. Furthermore, SLOCPI having been in the business for decades combined with a record of consistent strong performance indicates a stability and resilience capable of withstanding the different stages of the business cycle.

3. **Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.** There have been no changes in and/or any disagreement with accountants on any accounting and financial disclosures and/or on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure.
 - a. Registrant's Common Equity and Related Stockholder Matters

1. **Market Information.** Being an investment company that is not listed with the PSE and required to follow rules specific to mutual funds, shares are distributed through its principal distributor, SLAMCI.

The Fund is not listed in the PSE. It is registered as an open-end investment company and follows rules specific to mutual funds. The NAVPS, or the price at which investors may purchase or sell shares of this Fund is available daily, on any business day.

The following table shows the ranges of high and low prices (NAVPS) of the Fund's common shares for 2023, 2022, and 2021:

	2023		2022		2021	
	HIGH	LOW	HIGH	LOW	HIGH	LOW
1 st Quarter	\$1.0757	\$1.0701	\$1.0621	\$1.0606	\$1.0552	\$1.0525
2 nd Quarter	-	-	\$1.0639	\$1.0621	\$1.0577	\$1.0553
3 rd Quarter	-	-	\$1.0668	\$1.0639	\$1.0588	\$1.0577
4 th Quarter	-	-	\$1.0700	\$1.0668	\$1.0606	\$1.0588

2. **Holders.** There are approximately 3,490 stockholders as of 31 March 2023.

c. **Dividends.** Each shareholder has a right to any dividends declared by the Board of Directors. Dividends must be declared out of surplus. Except for the condition prescribed for the declaration of stock dividends, there are no restrictions that limit the ability to pay dividends on common equity or that are likely to do so in the future. The Company has not declared cash dividends to date.

Each shareholder is entitled to vote on matters taken up in the annual shareholders' meeting. Shares held by a shareholder can be redeemed anytime at the shareholder's discretion. However, the shareholders do not enjoy pre-emptive rights.

There are no provisions in the charter or by-laws that would delay, defer or prevent a change in control of the registrant.

a. **Sale of Unregistered or Exempt Securities.** There has been no sale of unregistered or exempt securities nor has there been a recent issuance of securities constituting an exempt transaction.

e. **Top 20 Shareholders.** Please refer to Item 4 (d) (2).
