PART I - BUSINESS AND GENERAL INFORMATION

Item 1. Business

The Sun Life of Canada Prosperity Balanced Fund, Inc. (the “Fund”) is a registered open-end investment company under the Investment Company Act (R.A. 2629) and the Securities Regulation Code (R.A. 8799). It was incorporated on December 21, 1999 under SEC Registration No. A199908713. The Fund’s investment objective is to provide moderate growth and a steady income stream through investments in high quality equity securities and high quality corporate and government debt securities.

Sun Life Asset Management Company, Inc. (“SLAMCI”), a wholly owned subsidiary of Sun Life of Canada (Philippines), Inc. (“SLOCP”), acts as the Fund Manager and Principal Distributor.

For 2025, income of the Fund is composed of the following:

Interest income from fixed income securities	134.64%
Trading losses	-125.10%
Dividend income	78.64%
Interest income from corporate loans	10.78%
Interest income from cash in banks	0.16%
Other income	0.89%

The Fund was incorporated on December 21, 1999 with 200,000,000 registered shares at an initial par value of P1.00 per share. The SEC approved the change in the par value on October 10, 2008.

On May 13, 2005 and February 12, 2006, the shareholders and the Board of Directors, respectively, approved the reduction of the par value per share from P1.00 to P0.01.

On May 12, 2006, the shareholders approved the blanket increase of the Fund’s authorized share capital up to 100,000,000,000 shares.

On April 24, 2007, the Board of Directors approved the first tranche of share capital increase by 3,800,000,000 (from 200,000,000 shares to 4,000,000,000 shares both with par value of P0.01). The SEC approved the increase on October 10, 2008 and the registration statements on November 24, 2010.

On March 22, 2013, the Board of Directors approved the second tranche of share capital increase by 1,000,000,000 (from 4,000,000,000 shares to 5,000,000,000 shares both with par value of P0.01).

On December 26, 2013, the Fund filed its application to increase its authorized share capital by 1,000,000,000 shares. Said application was favorably endorsed by the SEC’s Corporate Finance Department to the Company Registration and Monitoring Department.

The SEC approved the increase of authorized share capital on January 14, 2014 and the registration statements on July 3, 2014.

As at December 31, 2025, the Fund has 1,420,710,084 issued and outstanding shares out of 5,000,000,000 ACS with a par value of P0.01 per share.

The Fund’s common shares are available through SLAMCI’s registered representatives and eligible securities dealers that have entered into an agreement with SLAMCI to sell shares.

The Fund is part of the seventeen (17) Sun Life Prosperity Funds which offer excellent value to investors as a result of SLAMCI’s collective experience in fund management, strong investment philosophy, remarkable investment performance and strong organizational structure. However, it should be noted that past performance of any fund manager is no guarantee of future results. It is only an indication of their capabilities to deal with rapid changes in the economy and market conditions in the future.

The Sun Life Prosperity Funds make investing simple, accessible and affordable. The Sun Life Prosperity Funds offer a unique “family of funds” to choose from. The “family of funds” concept allows investors to modify their investment strategies over time, by letting them transfer from one fund to another, as their needs dictate, as much as ten times a year without paying documentary stamp taxes.

The financial statements have been prepared on the historical cost basis, except for certain financial assets measured at fair value. Fair value movements on financial assets are taken through the statement of comprehensive income. The change to marked-to-market thus provides equitable treatment between investors coming in and out of the Fund.

The Fund participates in the mutual funds sector which is a sub-sector of the financial services industry. In recent years, this industry has seen increased liberalization and an influx of competition principally begun during the Ramos administration but carried on with varying intensity during succeeding administrations. There are no national geographical boundaries as the nature of the industry and prevailing technology make it possible for the various players to offer their services to almost any place in the country.

The Fund principally competes directly with other mutual funds in the Philippines and with the Unit Investment Trust Funds (“UITFs”) offered by commercial banks, in terms of returns and the associated risks of the return. The Fund’s market strength is its wide distribution network that provides strategic distribution of Fund shares and the financial stability and reputation of its Investment Company Adviser, SLAMCI. The Fund intends to compete principally based on the reputation of SLAMCI for superior investment performance and corporate governance coupled with its distribution network and superior backroom operations.

The Fund participates in the mutual funds sector, which is a sub-sector of the financial services industry. There are no national geographical boundaries as the nature of the industry and prevailing technology make it possible for the various players to offer their services to almost any place in the country.

There are many potential advantages to investing in mutual funds and in the Offer Shares. However, in deciding to invest, the investor is strongly advised to also consider the risks involved in investing in mutual funds, and in the Offer Shares, as well as the risks that the Fund faces, given its underlying assets whose respective values essentially affect the Fund’s overall net asset value.

Market Risk: Market risk is a risk of possible decline in the value of the Fund due to fluctuations in prices of the fund’s assets. Since the fund may in both equity and fixed income securities, it is subject to two types of market risks: (1) Interest Rate Risk applicable to fixed income securities of the Fund; and (2) Equity Price Risk applicable to the equity investments of the Fund.

Interest Rate Risk: Interest Rate Risk is a type of Market Risk which is applicable to the Fund’s investments in bonds, if any. This refers to the increase/decrease of a bond price due to movement in market factors such as changes in interest rates. A change in interest rates is the period when interest rates rise or fall thus causing the decline or increase in the market price of the bonds held by the Fund, if any. This risk is minimized by closely monitoring the direction of interest rates and aligning it with the appropriate strategy of the Fund.

Equity Price Risk: For equity investments, changes in prices of equity refer to the equity investments held by the Fund either for strategic or trading purposes. These equity investments, if any, are subject to the daily price fluctuations, as determined by market forces. Hence, prices may vary as a result of the general economic and political conditions, as well as developments in the fund’s operations and overall profitability. To manage this risk, the equity investments included in the Fund’s portfolio are carefully selected based on their fundamental soundness.

Credit Risk: Investments in bonds carry the risk that the issuer of the bonds might default on its interest and principal payments. In the event of default, the Fund’s value will be adversely affected and may result in a write-off of the concerned asset held by the Fund. To mitigate the risk, each Issuer/Borrower/Counterparty passes through a stringent credit process to determine whether its credit quality complies with the prescribed standards of the Fund. Further, the credit quality of the Issuer/Borrower/Counterparty is reviewed periodically to ensure that excellent credit standing is maintained.

Fund Manager Risk: The performance of the Fund is also dependent on the Fund Manager's skills. Hence, the Fund may underperform in the market and/or in comparison with similar funds due to investment decisions made by the Fund Manager and may also fail to meet the Fund's investment objectives. The Board of Directors of the Issuer, however, shall ensure that all investment policies and restrictions enumerated in this Prospectus are strictly followed.

Dilution Risk: Being an open-end mutual fund, various investors may effectively subscribe to any amount of shares of the Fund. As such, investors face the risk of their investments being diluted as more investors subscribe to shares of the Fund. The influence that the investors can exert over the control and management of the Fund decreases proportionately.

Liquidity Risk: The Fund is usually able to service redemptions of investors within seven (7) banking days after receipt of the notice of redemption by paying out redemptions from available cash or near cash assets in its portfolio. However, when redemptions exceed the Funds available cash or near cash assets in its portfolio, the Fund will have to sell its other security holdings; and during periods of extreme market volatility, the Fund may not be able to find a buyer for such assets. Consequently, the Fund may not be able to generate sufficient cash from its sale of assets to meet the redemptions within the normal seven (7) banking day period. To mitigate this, the Fund maintains adequate highly liquid assets in the form of cash, cash equivalents and near cash assets in its portfolio. As the Fund's portfolio is composed of liquid assets, liquidity risk is deemed low.

Large Transaction Risk: If an investor in a Fund makes a large transaction, the Fund's cash flow may be affected. For example, if an investor redeems a large number of shares of a Fund, that Fund may be forced to sell securities at unfavorable prices to pay for the proceeds of redemption. This unexpected sale may have a negative impact on the net asset value of the Fund. To mitigate this risk, the Fund may impose single investor limits to the ownership of the fund, when necessary. This limits the extent to which redemptions from any single investor can impact the Fund's cash flow. The Fund may also impose an anti-dilution levy or fee for significant orders, to protect the interest of the remaining investors of the Fund, when necessary.

Non-guarantee: Unlike deposits made with banks, an investment in the Fund is neither insured nor guaranteed by the Philippine Deposit Insurance Corporation ("PDIC"). Hence, investors carry the risk of losing the value of their investment, without any guaranty in the form of insurance. Moreover, as with any investment, it is important to note that past performance of the Fund does not guarantee its future success.

Regulatory Risk: The Fund's investments and operations are subject to various regulations affecting among others, accounting of assets and taxation. These regulations occasionally change and may result in lower returns or even losses borne by the investors. For example, a higher tax imposed on the sale or purchase of underlying assets of the Fund may result in lower net asset value of the Fund. To mitigate this risk, SLAMCI adopts global best practices. Further, it maintains regular communications with the relevant government agencies to keep itself abreast of the issues giving them concern, and to have the opportunity to help them set standards for good governance. SLAMCI also takes an active participation in the Philippine Investment Funds Association, Inc. ("PIFA"), an association of mutual fund companies in the Philippines.

Operational Risk: This is the risk of loss resulting from inadequate or failed internal processes, controls, people and systems. Categories of operational risks may fall under: sales and distribution, human resources, information technology, processes and people, accounting and finance, model risk, legal and regulatory and third party relationships. The Fund ensures that the internal controls and practices are consistent with enterprise wide policies supporting the management of operational risks. The Fund has established business specific guidelines. Comprehensive investment program, including appropriate level of self-insurance, is maintained to provide protection against potential losses.

The above risk factors are by no means exhaustive. New and/or unidentified risks may arise given the fast changing financial markets and economic environment.

Classification of the Fund into high, moderate or low risk investment: In furtherance of its investment objective, that is, to generate income in Philippine Pesos consistent with prudent management of the Fund's assets, the Fund's portfolio may consist of fixed income and other related securities of the Philippine Government, and commercial papers issued by corporations within the Philippines, certificates of deposits, and other short-term instruments. Considering the nature of the aforementioned investments, the Fund is classified as a balanced risk investment.

Item 2. Properties

The Fund has financial assets in the form of cash and cash equivalents, fixed income securities, listed equity securities, and corporate loans only. As prescribed by SEC Rules, all of its assets are held by its custodian bank, Citibank, N.A..

Office space of the Fund is provided by SLAMCI pursuant to the Management Agreement between them. The Fund does not intend to acquire any real property in the course of its business.

Item 3. Legal Proceedings

There is no material pending legal proceeding to which the Fund or any of its affiliates is a party, or of which any of their property is the subject.

Item 4. Submission of Matters to a Vote of Security Holders

PART II - OPERATIONAL AND FINANCIAL INFORMATION

Item 5. Market for Issuer's Common Equity and Related Stockholder Matters

1. Market Information

The shares of the Fund are traded over-the-counter. The Fund's common stocks are available through registered representatives and eligible securities dealers that have entered into an agreement to sell shares with the Fund's Principal Distributor, SLAMCI.

The following table shows the ranges of high and low prices (NAVPS) of the Fund's common shares for each quarter within the last two calendar years:

	2025		2024	
	High	Low	High	Low
Q1	3.5272	3.3419	3.5800	3.4068
Q2	3.5609	3.3502	3.5848	3.3403
Q3	3.5636	3.4201	3.7765	3.3986
Q4	3.4794	3.3509	3.7922	3.4667

The Fund's NAVPS is published daily through Business World, Business Mirror and Sun Life Websites.

Below table shows the investment company return information of the Fund in the last five (5) recently completed fiscal years:

Year on year yield (1-year)	-1.7117%
3 Year - Simple	3.1264%
5Year - Simple	-3.9066%

2. Holders

The Fund has approximately 54,806 shareholders as of December 31, 2025.

On 7 March 2013, SEC *en banc* approved the confidential treatment of the list of Top 20 shareholders of the Fund, including its 5% and 10% beneficial owners. This is to protect the investors' privacy, which is a privilege they enjoy when they invest in other shared investment vehicles, such as unit investment trust funds, and when they invest in bank deposits.

The following table shows the number of institutional and retail investors and the percentage of their investments, and the geographic concentration of investments as of December 31, 2025.

% Ownership of Institutional Investors	% Ownership of Retail Investors
41.51%	58.49%

Area	Percentage of Investments
LUZON	95%
VISAYAS	3%
MINDANAO	2%
TOTAL	100%

3. Dividends

The Fund has not declared cash or stock dividends to date, but it has no restrictions that may limit its ability to pay dividends in the future.

The Board of Directors of the Fund has the power to fix and determine the amount to be reserved or provided for declaration and payment of dividends from the Fund's unrestricted retained earnings. The amount of such dividends (either in cash, stock, property or a combination of the foregoing) will depend on the Fund's profits, cash flows, capital expenditure, financial condition, and will follow SEC's guidelines on determining retained earnings available for dividend declaration. The existence of surplus profit arising from the operation of the Fund is needed before a dividend can be declared. The surplus profits or income must be a bona fide income founded upon actual earnings or profits. Actual earnings or profits shall be the net income for the year based on the audited financial statements, adjusted for unrealized items, which are considered not available for dividend declaration. Taking into account the Fund's cash flows, capital expenditure, investment objectives and financial condition, at least 10% of actual earnings or profits may be declared by the Board of Directors as dividends.

Cash dividends and property dividends may be declared by the Board of Directors and no stockholder approval is required. Stock dividends paid on the Offer Shares are subject to approval by both the Board of Directors and the stockholders representing at least two-thirds (2/3) of the outstanding capital stock of the Fund at a stockholders' meeting called for such purpose.

Under the Revised Corporation Code, Corporations with surplus profit in excess of 100% of its paid-in capital stock are required to declare dividends (cash or stock) and distribute it to its stockholders.

Dividends so declared will be automatically reinvested in additional shares on behalf of the shareholders, without sales charges, at the NAVPS on the payment date established for such dividends. As such, shareholders realize their gains when shares are redeemed. Shareholders may also elect not to have dividends reinvested and receive payment in cash, net of tax.

Item 6. Management's Discussion and Analysis or Plan of Operation.

The Performance of the Fund could be measured by the following indicators:

1. **Increase/Decrease in NAVPS.** NAVPS is computed by dividing net assets (total assets less total liabilities) by the total number of shares issued and outstanding plus for conversion to shares, if any, as of the end of the reporting day. Any increase or decrease in NAVPS translates to a prospective capital gain or capital loss, respectively, for the Fund's shareholders.
2. **Net Investment Income.** Represents the total earnings of the Fund from its investment securities, less operating expenses and income tax. This gauges how efficiently the Fund has utilized its resources in a given time period.
3. **Assets Under Management (AUM).** These are the assets under the Fund's disposal. This measures investor confidence (increase/decrease brought about by investor subscriptions/redemptions) as well as the growth of the Fund (increase/decrease brought about by its operational income and market valuation of its assets and liabilities).
4. **Cash Flow.** Determines whether the Fund was able to achieve the optimal level of liquidity by being able to meet all its scheduled payments, while maintaining at the same time the maximum investments level and minimum cash level.

Accounting Policies for Financial Assets at Fair Value through Profit and Loss

Financial assets

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Fund commits to purchase or sell the asset.

At initial recognition, the Fund measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss (FVTPL), transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs of financial assets and financial liabilities carried at FVTPL are expensed in profit or loss.

Classification and Subsequent Measurement

The Fund classifies its financial assets in the following measurement categories:

- FVTPL
- Amortized cost

Classification of financial assets will be driven by the entity's business model for managing the financial assets and the contractual cash flows of the financial assets.

A financial asset is to be measured at amortized cost if: a) the objective of the business model is to hold the financial asset for the collection of the contractual cash flows, and b) the contractual cash flows under the instrument represent solely payment of principal and interest (SPPI).

All other debt and equity instruments must be recognized at fair value.

All fair value movements on financial assets are taken through the statement of comprehensive income, except for equity investments that are not held for trading, which may be recorded in the statement of comprehensive income or in reserves (without subsequent recycling to profit or loss).

Debt instruments

Subsequent measurement of debt instruments depends on the Fund's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the group classifies its debt instruments:

- Amortized cost. Assets that are held for collection of contractual cash flows where those cash flows represent SPPI are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- FVTPL. Assets that do not meet the criteria for amortized cost are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of comprehensive income within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in finance income.

Amortized cost and effective interest method

For financial instruments, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses (ECL), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

Interest income is recognized using the effective interest method for debt instruments measured subsequently at amortized cost. For financial instruments, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

Equity instruments

Equity instruments do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Fund subsequently measures all equity investments at FVTPL, except where the Fund's Management has elected, at initial recognition, to irrevocably designate an equity instrument at FVTOCI. The Fund's policy is to designate equity investments as FVTOCI when those investments are held for the purposes other than to generate investment returns.

As at December 31, 2025 and 2024, the Fund does not have financial assets classified as FVTOCI.

Changes in the fair value of financial assets measured at FVTPL are recognized in the statements of profit or loss. These changes are reported as either net realized gains (losses) or unrealized gains (losses) on investments, as appropriate.

FINANCIAL MARKETS REVIEW (2025)

INVESTMENT APPROACH

The Fund is designed to provide optimum returns consisting of current income and capital growth through investment in a mix of fixed income and equity securities. The fund ended the year with an equity exposure of 40.67% while 59.33% was in cash and fixed income securities.

PERFORMANCE REVIEW

Equity Portion

The Philippines Stock Exchange Index (PSEi) endured a volatile 2025, ending the year down by 7.29% to 6,052.92. Despite a robust easing cycle from the Bangko Sentral ng Pilipinas (BSP), the market was weighed down by disappointing GDP prints, index rebalancing, US President's Trump tariffs, and flood control scandal.

The year began with a sharp 10% drop in January, triggered by lower-than-expected Q4 2024 gross domestic product (GDP) and PSEi rebalancing (adding CBC and AREIT; removing WLCON and NIKL). Markets recovered slightly in February following a reserve requirement ratio (RRR) cut to 5% and easing inflation.

During the second quarter, market sentiment turned positive as global trade tensions brought about by Trump's tariffs eased and inflation cooled to 1.4%. Likewise, the BSP began its easing cycle with two 25-bps cuts. While Q1 GDP print of 5.4% missed estimates, private consumption and government spending remained resilient.

For the third quarter, the flood control corruption scandal spooked investors, leading to more foreign outflows. In response to economic uncertainty and a lowered GDP outlook, the BSP delivered two more 25-bps cuts.

For the final quarter, the index stabilized above 6,000 psychological level. While Q3 GDP slowed further to 4%, a final December rate cut brought the policy rate to 4.5% (totaling 125 bps for the year).

Fixed Income Portion

PHP bond funds delivered positive returns for 2025 as the Philippine central bank (BSP) cut policy rates by 125 basis points (bp). In the first half of the year, disinflation from a weaker USD and lower commodity prices shifted BSP's focus on its growth mandate amid external risks from global trade and US tariffs. This led the BSP to cut its policy rate from 5.75% to 5.00% by their August meeting. Later in the year, political turmoil from the flood control corruption scandal further exacerbated the risks towards their growth mandate with 3Q GDP falling sharply to 4% year-over-year. By year end, the BSP cut its policy rate by another 50bp to support growth amid a benign inflationary backdrop. PHP government bond yields ended the year lower by 10-65bps with shorter maturities outperforming.

For the year, the Fund posted a decline of 1.74% y-o-y in its NAVPS to PHP 3.4339 /share.

OUTLOOK

Equity portion

We expect the PSEi to remain challenged as investors wait for the recovery of the country's GDP which was hampered by the flood control corruption scandal. Though market valuations look reasonable at 9x P/E, both consumer and business confidence must improve to see a meaningful recovery in the local bourse. Other factors to watch out for are foreign flows, trade tariffs, and geo-political uncertainties.

Fixed income portion

With both inflation and growth below government targets, we expect the BSP to maintain its easing bias. We project 2-3 more 25bp rate cuts for 2026, which will drive capital gains for PHP bond funds in 2026.

VALERIE N. PAMA

President / Director (March 2022 – present)

Ms. Valerie N. Pama is the President and Director of eighteen (18) Sun Life Prosperity Funds, i.e. Sun Life of Canada Prosperity Balanced Fund, Inc., Sun Life of Canada Prosperity Philippine Equity Fund, Inc., Sun Life of Canada Prosperity Bond, Inc., Sun Life Prosperity Dollar Advantage Fund, Inc., Sun Life Prosperity Peso Starter Fund, Inc., Sun Life Prosperity Dollar Abundance Fund, Inc., Sun Life Prosperity GS Fund, Inc., Sun Life Prosperity Dynamic Fund, Inc., Sun Life Prosperity Philippine Stock Index Fund, Inc., Sun Life Prosperity Dollar Wellspring Fund, Inc., Sun Life Prosperity World Voyager Fund, Inc., Sun Life Prosperity Dollar Starter Fund, Inc., Sun Life Prosperity World Equity Index Feeder Fund, Inc., Sun Life Prosperity Achiever Fund 2028, Inc., Sun Life Prosperity Achiever Fund 2038, Inc., Sun Life Prosperity Achiever Fund 2048, Inc., Sun Life Prosperity Peso Voyager Feeder Fund, Inc. (March 2022 to present) and Sun Life Prosperity World Income Fund, Inc. (August 2022 to present).

Ms. Pama also is a Member (2015 to present) and Trustee (2018-2023) of Filipina CEO Circle, Member of Management Association of the Philippines (2015 to present), Financial Executives of the Philippines (2013 to present) and Makati Business Club (August 2019 to present).

Ms. Pama was previously the Director and President of Sun Life Investment Management and Trust Corporation (September 2020 to June 2021), responsible for its establishment and preparations for operations. She was a Director and President of Sun Life Asset Management Company, Inc. (“SLAMCI”) and Director and/or President of thirteen (13) Sun Life Prosperity Funds (2011 to 2020). She was also a Director and/or President of three (3) Grepalife Funds i.e. Grepalife Dollar Bond Fund Corporation, Grepalife Balanced Fund Corporation (formerly, “Grepalife Bond Fund Corporation”), and Grepalife Fixed Income Fund Corporation (2011 to 2018). Ms. Pama was formerly the President of the Sun Life Prosperity Funds and the Grepalife Funds (2011 to 2013). She was also a Director of BESTSERVE Financial Ltd. (HKG) (2021 to 2022).

She also served as the Chief Operating Officer of SLAMCI (2011 to 2012) before being appointed as its President in 2013. With over seven years as President of SLAMCI, Ms. Pama has made tremendous contributions by leading it into becoming the number one non-bank asset management company. Under her vision and leadership, the company achieved great milestones: growing from three (3) mutual funds to sixteen (16) mutual funds to over Php100 Billion in Assets Under Management, launch of the Sun Life Prosperity Card, expanding the sales force into having the most number of Mutual Fund-licensed advisors in the industry and garnering numerous awards from the Philippine Investment Funds Association (PIFA). Another noteworthy recognition for SLAMCI under her management was being named the best asset management company for the Philippines from Euromoney’s 2018 Private Banking and Wealth Management survey.

Ms. Pama is a veteran banker, having been in the industry for 20 years. She started her career with Citibank N.A. in 1990 as a Management Associate, wherein she obtained exposure in various segments of the business, assuming progressively senior roles over the years. She had worked in treasury/capital markets, loans, equity sales, customer funding sales, brokerage and money market sales. By the time she retired from Citibank N.A. in 2009, Ms. Pama was the President of Citicorp Financial Services and Insurance Brokerage Inc.

Prior to joining Sun Life, Ms. Pama was a Product Development consultant for ING Bank’s Investment Management Group.

Ms. Pama was a member of the Board of Trustees of PIFA from 2011 to 2020 and served as its Chairman from 2013 to 2015. This enabled her to represent the mutual fund industry in advocating investor

literacy, customer protection and regulatory advancements to government agencies, key market players and the general public.

Ms. Pama is a graduate of the Ateneo de Manila University with a Bachelor of Science degree in Management Engineering. She obtained her Masters in Business Administration in International Business and Finance, with a minor in Business Economics from Katholieke Universiteit Leuven in Belgium. She was awarded With Distinction by the university for her exemplary academic performance on her final year.

Presently, she is a Director of Telecommunications Connectivity Inc. (December 2019 to present). She was an Independent Director of Grepalife Balanced Fund Corporation, Grepalife Dollar Bond Fund Corporation and Grepalife Fixed Income Fund Corporation, Inc. (December 2021 to July 2025). She has been an independent director of the Philippine Bank of Communications since November 2022 to the present.

She was the Chairperson of the Securities and Exchange Commission (“SEC”) from May 2011 to June 2018, and as such occupied other positions such as member of the Anti-Money Laundering Council, Chairperson of the Credit Information Corporation, the Microfinance NGO Regulatory Council, and the Capital Market Development Forum.

As SEC Chairperson, Atty. Herbosa was involved in the Asean Capital Markets Forum as Chair of its Committee on Corporate Governance responsible for the first Asean Top 50 Publicly Listed Companies. She initiated and proposed significant amendments to the Corporation Code of 1985 to Congress culminating in the enactment of the Revised Corporation Code in February 2019. She also participated in the passage of the Personal Property Securities Act.

As a consequence of the various reforms under Atty. Herbosa’s leadership, for two consecutive years, 2015 and 2016, SEC emerged, based on two nationwide surveys, as no.1 in the sincerity rating particularly in the fight against corruption among 35 government agencies.

Prior to her SEC post, she engaged in the private practice of law at the Angara Abello Concepcion Regala & Cruz Law Offices (“ACCRALAW”) specializing in litigation and dispute resolution for 33 years and often cited by foreign legal publications as one of the top litigation lawyers of the country. One year after her stint as SEC Chairperson, in July 2019, she re-joined ACCRALAW as Of Counsel and continues as such up to the present

She is an accredited MCLE lecturer and has been teaching commercial law at private law schools. In the 2022 bar examinations, she was one of the examiners for commercial law.

Atty. Herbosa co-authored in 2019 “The Revised Corporation Code of the Philippines Its Theories and Applications,” and relatedly gives lectures on the recent amendments to the law. In line with her advocacy, she participated in the UNICEF-sponsored lecture series “Trainers’ Course on Child Sensitive Investigation” for three years for more than 1,500 policemen and in the preparation of the video-taped materials shown at the PHILJA training of Family Court judges. She lectured for PHILJA on financial crimes and corporate and securities fraud.

She has written numerous law articles such as “Comments involving Crimes of Moral Turpitude” and

the Foreword Vol 92 July 2019, for the Philippine Law Journal, others on various legal topics for the Philippine Star and contributed "Balancing Ethics and Regulation" for the FINEX anniversary publication "Ethics Black While or Gray" in 2018 and "Cyber Ethics and Data Privacy" for its second publication "Ethics: Enduring or Evolving?". From October 2019 to March 2020, she wrote a comprehensive training module for the investigation and prosecution of violations of the Securities Regulation Code in connection with the Anti-Money Laundering Act.

Atty. Herbosa finished AB Political Science cum laude at the University of the Philippines – Diliman, and her Bachelor of Laws cum laude and class salutatorian from the UP College of Law. She also has a Master of Comparative Law degree from the University of Michigan. In 2014, she was awarded the UP Distinguished Alumni Award for Public Service.

Item 10. Executive Compensation

1. Compensation of Executive Officers.

The executive officers of the Fund do not receive any form of compensation from their appointment up to the present.

2. Compensation of Directors.

The directors do not receive any form of compensation from inception up to the present other than a PHP 20,000 per diem for meetings attended. Only the members of the Board who are “external directors”, *i.e.*, those who are not officers and/or employees of SLOCPI, receive remuneration for their attendance in regular or special meetings of the Board at the rate of PHP 20,000 to each director for every meeting attended. Their contributed efforts to the Fund are on a voluntary basis only. Also, the directors or executive officers of the Fund will not participate in any bonus, profit sharing or other compensation plan, pension or retirement plan, contract or arrangement.

However, starting on January 01, 2010, each external director, as defined above, shall also receive a retainer’s fee not to exceed PHP 15,000 per quarter. Please note that payment of such retainer’s fee shall be shared by the Fund with the other Sun Life Prosperity Funds which the external director also serves, provided that each external director shall receive only a maximum of PHP 15,000 per quarter from all the Sun Life Prosperity Funds which he serves as director.

Total per diem received by the Fund’s directors for the year 2025 and 2024 are PHP 494,399 and PHP 254,905 , respectively.

The Board had four (4) regular quarterly meetings for 2025, including the organizational board meeting after the annual shareholders’ meeting. For the four (4) meetings and with four (4) members of the Board who are external directors entitled to receive a per diem, the Fund forecasts a total directors’ per diem of PHP 320,000 for the year 2026. The external directors are also forecasted to receive a total of PHP 13,333 retainer’s fee for 2026.

Item 11. Security Ownership of Certain Beneficial Owners and Management

¹ Number of shares held in their capacity as Director or Chairperson

Item 12. Certain Relationships and Related Transactions

The Fund is not involved in any related transactions.

PART IV - CORPORATE GOVERNANCE

Item 13. Corporate Governance

Compliance with Leading Practice on Corporate Governance

The Fund is committed to performing its obligations following sound standards of business and financial practices and assesses the level of compliance of the Board of Directors and top-level management with its Manual on Corporate Governance through the Corporate Governance Self-Rating Form.

Likewise, the Fund requires the directors to answer a Board Effectiveness Questionnaire to determine their outlook on current practices and further enhance their performance. Internal audit and compliance units of the Fund also actively ensure that the Fund meets its regulatory and moral obligations to the government agencies and the general public, respectively.

There has been no reported incident of any deviation from the Fund's Manual on Corporate Governance. A strong ethical business culture in the performance of duties is continuously upheld and promoted. Nonetheless, the Fund makes an effort to improve corporate governance of the fund by holding training sessions for its Board and officers whenever possible.

Compliance with Foreign Account Tax Compliance Act (FATCA)

In accordance with the requirements of the US Internal Revenue Service ("IRS") and the Intergovernmental Agreement ("IGA") between the Government of the United States of America and the Government of the Republic of the Philippines to Improve International Tax Compliance and to Implement FATCA which was signed last July 13, 2015, the Fund has registered with the Internal Revenue Service (IRS) and has obtained its own Global Intermediary Identification Number ("GIIN") as a sponsored entity. Sun Life Asset Management Company, Inc. ("SLAMCI") continues to assume responsibilities for the Fund's FATCA compliance as the Sponsoring Entity and has implemented FATCA onboarding processes and procedures as well as system enhancements to monitor its new and pre-existing account holders who are U.S. Persons and have U.S. Indicia.

The Fund, together with its Sponsoring Entity, SLAMCI, is preparing to comply for FATCA reporting on the date which will be set by the Bureau of Internal Revenue as soon as the IGA has been ratified by the Senate.

Market Review and Outlook

- The Philippine Stock Exchange Index (PSEi) gained 0.51% in December to close at 6,052.92. For full year 2025, the local stock market declined by 7.29%.
- Peso government bond prices slightly declined during the month as yields went up for 5Y to 10Y maturities, following the uptick in US yields. Overall, peso fixed income returns were positive for the year.
- December inflation came in at 1.8%, higher than previous month but still below the 2-4% target range of the BSP. The BSP cut rates by 25 bps in December to support economic growth and as inflation may remain low in the coming months.
- The Peso hit an all-time low of P59.22:\$1 during the month, finishing among the weakest in the region for 2025.
- Foreign funds were again net sellers in December amounting to \$210 million, bringing foreign ownership to an all-time low of 18.7%.
- With the PSEi holding above 6,000 and local investors supporting the market, the local bourse may try to make a run to 6,400 level. However, the risk of lower economic growth due to lower public spending, coupled with low consumer and business sentiment may cap the market recovery.
- Gross of fees, the fund was slightly below its benchmark for December and on a year-to-date basis due to drags in Telecommunications, Property, and underweight in fixed income.

 Bloomberg Sovereign Bond Index 1 to 5 Year, net of tax (adjusted by Sun Life): March 1, 2017 to present

Market Review and Outlook

- The Philippine Stock Exchange Index (PSEI) saw a volatile November. Buying towards the end of the month brought the index to 6,022.24, gaining 1.6% MoM.
- Peso government bond yields fell by around 20 basis points at the short end. Longer tenor bonds lagged, dropping by only 5-10 basis points. Overall, peso fixed income returns were positive for the month.
- Third quarter GDP growth came in at 4%, significantly lower than both previous quarters and estimates. The GDP miss drove the PSEI to a new YTD low before recovering later in the month.
- Corporate earnings for 3Q were mostly in line with expectations. Consumer names were generally weaker in November as a handful of consumer companies reported weakening demand and margin pressure.
- Inflation remained benign, supporting further rate cuts by the Bangko Sentral ng Pilipinas (BSP). Likelihood of a rate cut in December increased after the disappointing GDP print. Despite this, the Peso appreciated slightly P58.64: \$1.
- The local bourse may trade between 5,800 to 6,100 in the short run as investors wait for developments on the flood control corruption controversy. Peso fixed income will continue to be bullish as growth and inflation remain below government targets. Global developments will also be a catalyst for the rest of the year.
- Given lower economic growth forecasts and further rate cuts, the fund will be overweight on fixed income. On equities, the fund will remain defensive, favoring companies that have stable earnings or those that pay dividends higher than PSEI.
- Gross of fees, the fund was in-line its benchmark on a year-to-date basis.

Market Review and Outlook

- The Philippine Stock Exchange Index (PSEI) went through another tough month as a host of negative catalysts affected the market. The index ended at 5,929.68, losing 0.40% during the month. Bond yields fell with shorter maturities outperforming long bonds. Yields on maturities 5Y and in fell by ~20 basis points, while those on longer tenors fell by 2-10 basis points. With accruals, this still led to positive returns for investors.
- October inflation remains benign at 1.7%, slightly lower than the 1.8% market expectation. Meanwhile, the Philippine peso continued to depreciate during October, hitting P59:\$1. Foreign investors were once again net sellers of \$100m for the month. Total YTD outflows now stand at \$774m.
- Political risk continued to weaken market sentiment as investigations into ghost projects under the DPWH remained slow. Despite several lawmakers implicated in the corruption probe amounting to billions of pesos of taxpayer's funds, nobody has been charged by the Department of Justice.
- Moving forward, third quarter corporate earnings and GDP print will be key catalysts for the local stock market. Lower-than-expected GDP could keep the index below 6,000 and test previous low of 5,700. So far, weighted 3Q corporate earnings among PSEI members grew by +12%, driven by International Container Terminal Services Inc (ICT), the largest index member. Stripping off ICT, earnings growth was at +5% with most of the companies reporting in-line earnings.
- Gross of fees, the fund was ahead of its benchmark on a year-to-date basis.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Sun Life of Canada Prosperity Balanced Fund, Inc. (the Company), which comprise the statements of financial position as at December 31, 2025 and 2024, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for the years ended December 31, 2025, 2024 and 2023, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025 and 2024, and its financial performance and its cash flows for the years ended December 31, 2025, 2024 and 2023, in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), as applicable to audits of financial statements of public interest entities, together with the ethical requirements that are relevant to audits of the financial statements of public interest entities in the Philippines. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. Other Information

Management is responsible for the other information. The other information comprises the information included in the Securities and Exchange Commission (SEC) Form 17-A Annual Report submission to the SEC, which is prepared by the Management and submitted after the issuance of the audited financial statements with our auditor's report attached thereon.

The SEC Form 17-A is expected to be made available to us after the date of this auditor's report. Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. When we read the other information identified above which have not yet been received, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with PFRS Accounting Standards, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

Report on Other Legal and Regulatory Requirements

Report on the Supplementary Information Required by the Bureau of Internal Revenue

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information in Note 21 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such supplementary information is the responsibility of Management and has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

**AS AT DECEMBER 31, 2025 AND 2024 AND FOR THE YEARS ENDED
December 31, 2025, 2024 and 2023**

1. CORPORATE INFORMATION

Sun Life of Canada Prosperity Balanced Fund, Inc. (the "Company") was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on December 21, 1999 and started commercial operations on May 1, 2000. The Company is a registered open-end investment company under the Investment Company Act (Republic Act "R.A." No. 2629) and the Securities Regulation Code (R.A. No. 8799), formerly known as the Revised Securities Act (B.P. No. 178). It is engaged in the sale of redeemable shares and is designed to provide total returns consisting of current income and capital growth through investment in a mix of debt and equity securities from both domestic and foreign issuers. As an open-end investment company, its shares are redeemable anytime based on the Net Asset Value Per Share (NAVPS) at the time of redemption.

The Company appointed Sun Life Asset Management Company, Inc. (SLAMCI), an investment management company incorporated in the Philippines and a wholly owned subsidiary of Sun Life of Canada (Philippines), Inc. (SLOCPI), as its fund manager, adviser, administrator, distributor and transfer agent and provider of management, distribution and all required operational services, as disclosed in Note 11.

The Company's registered office address and principal place of business is at the Sun Life Centre, 5th Avenue corner Rizal Drive, Bonifacio Global City, Taguig City.

The Company is considered a public company under Rule 3.1 of the Implementing Rules and Regulations of the Revised Securities Regulation Code (SRC), which, among others, defines a public corporation as any corporation with assets of at least P50,000,000 and having 200 or more shareholders, each of whom holds at least 100 shares of its equity securities.

As at December 31, 2025 and 2024, the Company has 54,806 shareholders and 54,620 shareholders, respectively, each holding at least 100 shares of the Company's common shares.

2. FINANCIAL REPORTING FRAMEWORK AND BASIS OF PREPARATION AND PRESENTATION

Statement of Compliance

The financial statements of the Company have been prepared in accordance with the Philippine Financial Reporting Standards (PFRS) Accounting Standards. PFRS Accounting Standards include all applicable PFRS Accounting Standards, Philippine Accounting Standards (PAS) and interpretations of the Philippine Interpretations Committee (PIC), Standing Interpretations Committee (SIC) and International Financial Reporting Interpretations Committee (IFRIC) as approved by the Financial and Sustainability Reporting Standards Council (FSRSC) and the Board of Accountancy and adopted by the SEC.

Basis of Preparation and Presentation

The financial statements of the Company have been prepared on the historical cost basis, except for certain financial assets measured at fair value.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Functional and Presentation Currency

These financial statements are presented in Philippine peso, the currency of the primary economic environment in which the Company operates. All amounts are recorded to the nearest peso, except when otherwise indicated.

3. ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS

Adoption of Amended Accounting Standards Effective in 2025

In the current year, the Company has applied all amendments to PFRS Accounting Standards that are mandatorily effective for accounting periods beginning on or after January 1, 2025. Their adoption had no material impact on the disclosures or the amounts reported in these financial statements.

Amendments to PAS 21, The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability

The amendments clarify how an entity determines whether a currency is exchangeable in another currency and how it estimates the spot exchange rate when exchangeability is lacking. The amendments also introduce additional disclosure requirements relating to currencies that are not exchangeable.

The Company applied the amendments prospectively from January 1, 2025. The adoption of the amendments did not have a material impact on the Company's financial statements.

New and Revised Accounting Standards Effective after the Reporting Period Ended December 31, 2025

At the date of authorization of these financial statements, the Company has not applied the following PFRS Accounting Standards pronouncements that have been issued but are not yet effective:

Effective for annual period beginning or after January 1, 2026

- Amendments to PFRS 9, *Financial Instruments* and PFRS 7, *Financial Instruments: Disclosures - Classification and Measurement of Financial Instruments*
- Annual Improvements to PFRS Accounting Standards—Volume 11
- Amendments to PFRS 9, *Financial Instruments* and PFRS 7 *Financial Instruments: Disclosures - Contracts Referencing Nature-dependent Electricity*

Effective for annual period beginning or after January 1, 2027

- PFRS 17, *Insurance Contracts*
- Amendments to PFRS 17, *Insurance Contracts*
- Amendment to PFRS 17, *Insurance Contracts - Initial Application* and PFRS 9, *Financial Instruments - Comparative Information*
- PFRS 18, *Presentation and Disclosure in Financial Statements*
- PFRS 19, *Subsidiaries without Public Accountability: Disclosures*
- Amendments to PAS 21, *The Effects of Changes in Foreign Exchange Rates - Translation to Hyperinflationary Presentation Currency*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements* and PAS 28, *Investments in Associates and Joint Ventures—Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

Management anticipates that the adoption of the new or revised PFRS Accounting Standards in future periods will not have a material impact on the financial statements in the period of their initial adoption.

PFRS 18, Presentation and Disclosures in Financial Statements

PFRS 18 replaces PAS 1, carrying forward many of the requirements in PAS 1 unchanged and complementing them with new requirements. In addition, some PAS 1 paragraphs have been moved to PAS 8 and PFRS 7. Furthermore, the FSRSC has made minor amendments to PAS 7 and PAS 33 Earnings per Share.

PFRS 18 introduces new requirements to:

- present specified categories and defined subtotals in the statement of profit or loss
- provide disclosures on management-defined performance measures (MPMs) in the notes to the financial statements
- improve aggregation and disaggregation.

An entity is required to apply PFRS 18 for annual reporting periods beginning on or after January 1, 2027, with earlier application permitted. The amendments to PAS 7 and PAS 33, as well as the revised PAS 8 and PFRS 7, become effective when an entity applies PFRS 18. PFRS 18 requires retrospective application with specific transition provisions.

The Company is currently assessing the impact of adopting these standards on its financial statements.

4. MATERIAL ACCOUNTING POLICIES

Financial Assets

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Company commits to purchase or sell the asset.

At initial recognition, the Company measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss (FVTPL), transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs of financial assets and financial liabilities carried at FVTPL are expensed in profit or loss.

Classification and Subsequent Measurement

The Company classifies its financial assets in the following measurement categories:

- FVTPL
- Amortized cost

Classification of financial assets will be driven by the entity's business model for managing the financial assets and the contractual cash flows of the financial assets.

A financial asset is to be measured at amortized cost if: a) the objective of the business model is to hold the financial asset for the collection of the contractual cash flows, and b) the contractual cash flows under the instrument represent solely payment of principal and interest (SPPI).

All other debt and equity instruments must be recognized at fair value.

All fair value movements on financial assets are taken through the statement of comprehensive income, except for equity investments that are not held for trading, which may be recorded in the statement of comprehensive income or in reserves (without subsequent recycling to profit or loss).

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the group classifies its debt instruments:

- Amortized cost. Assets that are held for collection of contractual cash flows where those cash flows represent SPPI are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- FVTPL. Assets that do not meet the criteria for amortized cost are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of comprehensive income within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in finance income.

Amortized cost and effective interest method

For financial instruments, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses (ECL), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

Interest income is recognized using the effective interest method for debt instruments measured subsequently at amortized cost. For financial instruments, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

Equity instruments

Equity instruments do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Company subsequently measures all equity investments at FVTPL, except where the Company's Management has elected, at initial recognition, to irrevocably designate an equity instrument at FVTOCI. The Company's policy is to designate equity investments as FVTOCI when those investments are held for the purposes other than to generate investment returns.

As at December 31, 2025 and 2024, the Company does not have financial assets classified as FVTOCI.

Changes in the fair value of financial assets measured at FVTPL are recognized in the statements of profit or loss. These changes are reported as either net realized gains (losses) or unrealized gains (losses) on investments, as appropriate.

Impairment of financial assets

The Company recognizes a loss allowance for ECL on investments in debt instruments that are measured at amortized cost.

The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Company recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Significant increase in credit risk

The Company monitors all financial assets that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Company will measure the loss allowance based on lifetime rather than 12-month ECL.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognized. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

Forward-looking information considered includes the future prospects of the industries in which the Company's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Company's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument (e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortized cost);
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Company presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Company has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Company assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

A financial instrument is determined to have low credit risk if:

- The financial instrument has a low risk of default;
- The debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- Adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Company considers a financial asset to have low credit risk when the asset has external credit rating of investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there are no past due amounts.

The Company regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL are presented in the statement of financial position as a deduction from the gross carrying amount of the assets.

Derecognition

The Company derecognizes a financial asset only when the contractual rights to the asset's cash flows expire or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognized in OCI and accumulated in equity is recognized in profit or loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognized in OCI is not subsequently reclassified to profit or loss, but is transferred to retained earnings.

Financial Liabilities and Equity Instruments

Financial liabilities

All financial liabilities are measured subsequently at amortized cost using the effective interest method or at FVTPL. Financial liabilities are classified as either financial liabilities 'at FVTPL' or 'other financial liabilities'.

Financial liabilities measured subsequently at amortized cost

Financial liabilities that are not (i) contingent consideration of an acquirer in a business combination, (ii) held-for-trading, or (iii) designated as at FVTPL, are measured subsequently at amortized cost using the effective interest method.

The Company's financial liabilities classified under this category include accrued expenses and other payables, due to brokers and payable to fund manager.

Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Share capital

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax. Any excess of proceeds from issuance of shares over its par value is recognized as additional paid-in capital.

Retained earnings

Retained earnings may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Repurchase, disposal and reissuance of share capital (treasury shares)

When share capital recognized as equity is repurchased, the amount of the consideration paid, which includes directly attributable cost, net of any tax effects, is recognized as a reduction from equity. Repurchased shares are classified as treasury shares and are presented in the reserve for own share account. When treasury shares are sold or reissued subsequently, the amount received is recognized as increase in equity, and the resulting surplus or deficit on the transaction is presented as additional paid-in capital.

Revenue Recognition

Revenue is measured based on the consideration to which the Company expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Company recognizes revenue when it transfers control of a product or service to a customer.

Dividend income

Dividend income from investments is recognized when the shareholders' rights to receive payments have been established, usually at ex-dividend rate, provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Interest income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Realized gains or losses

Gains or losses arising on the disposal of investments are determined as the difference between the sales proceeds and the carrying amount of the investments and is recognized in profit or loss.

Expense Recognition

Expenses in the statements of comprehensive income are presented using the function of expense method. Investment expenses are transaction costs incurred in the purchase and sale of investments. Operating expenses are costs attributable to the administrative and other business expenses of the Company including management fees and custodianship fees.

Fair Value

In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such basis.

In addition, for financial reporting purposes, fair value measurements are categorized into Levels 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Related Party Transactions

An entity that is a post-employment benefit plan for the employees of the Company and the key management personnel of the Company are also considered to be related parties.

Taxation

Income tax expense represents the sum of the current tax, final tax and deferred tax expense.

Current tax

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statements of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

The Company's current tax expense is calculated using 25% regular corporate income tax (RCIT) rate or 2% minimum corporate income tax (MCIT), whichever is higher.

In 2023, the Company's current tax expense is calculated using 25% RCIT rate or 1% MCIT rate in July 1, 2020 to June 30, 2023 and 25% RCIT rate or 2% MCIT rate, whichever is higher, effective July 1, 2023.

Final tax

Final tax represents final taxes withheld on interest income from cash in banks, cash equivalents and fixed-income securities and realized gains on sale of listed equity securities.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and these relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred taxes for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in OCI or directly in equity, in which case, the current and deferred taxes are also recognized in OCI or directly in equity, respectively.

Earnings (Loss) per Share

The Company computes its basic earnings (loss) per share by dividing profit or loss for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the period.

For the purpose of calculating diluted earnings (loss) per share, profit or loss for the year attributable to ordinary equity holders of the Company and the weighted average number of shares outstanding are adjusted for the effects of deposit for future subscription which are dilutive potential ordinary shares.

Net Asset Value per Share (NAVPS)

The Company computes its NAVPS by dividing the total net asset value as at the end of the reporting period by the number of issued and outstanding shares and shares to be issued on deposits for future share subscriptions.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments in Applying Accounting Policies

The following are the critical judgments, apart from those involving estimations, that Management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements.

Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective.

The Company measures its financial assets at amortized cost if the financial asset qualifies for both SPPI and business model test. The Company's business model is to hold the asset and to collect its cash flows which are SPPI. All other financial assets that do not meet the SPPI and business model test are measured at FVTPL.

As at December 31, 2025 and 2024, the Company's financial assets measured at FVTPL amounted to P4,678,725,492 and P5,686,366,438, respectively, as disclosed in Note 7.

As at December 31, 2025 and 2024, the Company's financial assets measured at amortized cost amounted to P203,416,817 and P287,105,264, respectively, composed of cash in banks, accrued interest receivable, dividends receivable, financial assets at amortized cost and due from brokers, as disclosed in Notes 6, 7, 8 and 9, respectively.

Significant increase of credit risk

ECL is measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. PFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased, the Company takes into account qualitative and quantitative reasonable and supportable forward-looking information.

The Company considers a financial instrument to have experienced a significant increase in credit risk when one or more of the qualitative and quantitative criteria have been met as disclosed in Note 19.

Models and assumptions used

The Company uses various models and assumptions in measuring the fair value of financial assets as well as in estimating ECL. Judgment is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk.

The Company's model and assumptions used in measuring the fair value of financial assets and estimating ECL are disclosed in Notes 17 and 19, respectively.

Puttable shares designated as equity instruments

The Company's share capital met the specified criteria to be presented as equity. The Company designated its redeemable share capital as equity instruments since the Company's share capital met the criteria specified in PAS 32, Financial Instruments: Presentation, to be presented as equity.

A puttable financial instrument includes a contractual obligation for the issuer to repurchase or redeem that instrument for cash or another financial asset on exercise of the put. As an exception to the definition of a financial liability, an instrument that includes such an obligation is classified as an equity instrument if it has met all the following features:

- a. it entitles the holder to a pro rata share of the entity's net assets in the event of the entity's liquidation. The entity's net assets are those assets that remain after deducting all other claims on its assets;
- b. it is in the class of instruments that is subordinate to all other classes of instruments;
- c. all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- d. apart from the contractual obligation for the issuer to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any contractual obligation to deliver cash or another financial asset to another entity, or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the entity, and it is not a contract that will or may be settled in the entity's own equity instruments; and
- e. the total expected cash flows attributable to the instrument over the life of the instrument are based substantially on the profit or loss, the change in the recognized net assets or the change in the fair value of the recognized and unrecognized net assets of the entity over the life of the instrument (excluding any effects of the instrument).

As at December 31, 2025 and 2024, the recognized amount of share capital representing puttable shares in the statements of financial position amounted to P48,379,352 as disclosed in Note 12.

Key Sources of Estimation Uncertainty

The following are the Company's key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimating loss allowance for ECL

The measurement of the ECL allowance for financial assets measured at amortized cost is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior. Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in Note 19 Credit Risk – ECL measurement, which also sets out the key sensitivities of the ECL to changes in these elements.

A number of significant judgments are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL; and
- Establishing the number and relative weightings of forward-looking scenarios and the associated ECL.

As at December 31, 2025 and 2024, the Company's allowance for estimated credit losses for financial instruments measured at amortized cost amounted to P37,405,473 and P256,589, respectively, as disclosed in Notes 8 and 19.

Deferred tax assets

The Company reviews the carrying amount at the end of each reporting period and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the Company will generate sufficient taxable profit that will allow all or part of its deferred tax assets to be utilized.

Based on Management's expectation of the Company's future taxable income, the Company did not recognize the deferred tax assets as at December 31, 2025 and 2024, as disclosed in Note 18.

14. NET ASSET VALUE PER SHARE

NAVPS is computed as follows:

	Note	2025	2024
Total equity		P 4,863,776,850	P 5,946,103,844
Outstanding shares	12	1,420,710,084	1,701,966,149
NAVPS		P 3.4235	P 3.4937

NAVPS is based on issued, outstanding and fully paid shares minus treasury shares. The expected cash outflow on redemption of these shares is equivalent to computed NAVPS as at reporting period.

15. INTEREST INCOME

This account consists of interest income on the following:

	Notes	2025	2024	2023
Fixed-income securities	7	P148,858,576	P164,848,084	P158,781,473
Financial asset at amortized cost	8	11,921,900	16,160,344	19,551,142
Cash in banks	6	178,564	223,150	247,577
Cash equivalents		-	901,913	13,393,338
		P160,959,040	P182,133,491	P191,973,530

The Company records interest income at its gross amount, with any applicable final withholding taxes recognized as income tax expense.

Average interest rates of investments, cash in banks and cash in equivalents in 2025, 2024 and 2023 are as follows:

	Note	2025	2024	2023
Financial asset at amortized cost		6.63%	6.88%	6.43%
Fixed-income securities		6.13%	7.75%	6.17%
Cash in banks	6	0.40%	0.38%	0.11%
Cash equivalents		-	1.68%	19.11%

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash, and which are subject to an insignificant risk of changes in value. The Company classifies an investment as cash equivalent if that investment has a maturity of three months or less from the date of acquisition.

16. EARNINGS (LOSS) PER SHARE

The calculation of the basic earnings (loss) per share is based on the following data:

	2025	2024	2023
Total comprehensive income (loss) for the year	(P108,755,913)	P 183,786,931	P 153,447,240
Weighted average number of shares:			
Issued and outstanding	1,594,498,561	1,856,695,988	2,100,938,889
Basic earnings (loss) per share	(P 0.068)	P 0.099	P 0.073

As at December 31, 2025, 2024 and 2023, the Company has no dilutive potential ordinary shares.

17. FAIR VALUE OF FINANCIAL INSTRUMENTS

Assets and liabilities measured at fair value on a recurring basis

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value classified under Level 1 and Level 2 based on the degree to which the inputs to fair value are observable.

	Note	Level 1	Level 2	Total
December 31, 2025				
Investment in listed equity securities	7	P1,983,713,463	P -	P1,983,713,463
Fixed-income securities	7	2,623,575,309	71,436,720	2,695,012,029
		P4,607,288,772	P71,436,720	P4,678,725,492
December 31, 2024				
Investments in listed equity securities	7	P3,204,405,950	P -	P3,204,405,950
Fixed-income securities	7	2,193,855,521	288,106,967	2,481,960,488
		P5,398,259,471	P288,106,967	P5,686,366,438

Listed equity securities are valued at quoted prices as at reporting date.

The fair values of fixed-income securities classified as Level 1 are based on quoted prices of either done deals or bid rates.

There were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into Level 3 fair value measurements for the years ended December 31, 2025 and 2024.

Financial assets and liabilities not measured at fair value

The following financial assets and financial liabilities are not measured at fair values on recurring basis, but the fair value disclosure is required:

	Note	Carrying Amounts	Level 3
December 31, 2025			
Financial Assets			
Financial asset at amortized cost	8	P141,797,527	P133,591,365
December 31, 2024			
Financial Assets			
Financial asset at amortized cost	8	P189,755,411	P189,755,411

Cash in banks, due from brokers, accrued interest receivable, dividends receivable, accrued expenses and other payables excluding withholding and documentary stamp taxes, due to brokers and payable to fund manager have short-term maturities, hence, their carrying amounts are considered their fair values.

The fair values of corporate loans were determined based on the discounted cash flow analysis using the Company's estimated cost of borrowing of 6.63% and 6.79% in 2025 and 2024, respectively.

18. INCOME TAXES

Details of income tax expense are as follows:

	2025	2024	2023
Final tax	P36,245,379	P40,866,164	P45,102,955
MCIT	367,587	485,733	454,076
	P36,612,966	P41,351,897	P45,557,031

The reconciliation between tax expense and the product of accounting profit (loss) multiplied by 25% in 2025, 2024 and 2023 is as follows:

	2025	2024	2023
Accounting profit (loss) before tax	(P72,142,947)	P225,138,828	P199,004,271
Tax expense (benefit) at 25%	(P18,035,737)	P 56,284,707	P 49,751,068
Adjustment for income subject to lower tax rate	2,720,402	5,474,730	8,817,313
Tax effects of:			
Net realized losses (gains) on investments	34,578,773	(2,199,311)	11,153,270
Unrecognized Net Operating Loss Carry-over (NOLCO)	28,878,773	31,383,349	34,592,063
Dividend income exempt from tax	(21,736,687)	(24,135,850)	(22,749,406)
Provision for (reversal of) estimated credit losses	9,287,221	(28,686)	(76,155)
Net unrealized losses (gains) on investments	552,634	(25,912,775)	(36,385,198)
Unrecognized MCIT	367,587	485,733	454,076
	P36,612,966	P 41,351,897	P 45,557,031

On March 26, 2021, the Republic Act (RA) 11534 also known as "Corporate Recovery and Tax Incentives for Enterprises Act" or "CREATE" Act was passed into law which reduced the corporate income tax rates and rationalized the current fiscal incentives by making it time-bound, targeted and performance-based.

Among others, the Act includes the following significant revisions:

1. Effective July 1, 2020, domestic corporations with total assets not exceeding P100 million and net taxable income of P5 million and below shall be subject to 20% income tax rate while the other domestic corporations and resident foreign corporations will be subject to 25% tax income tax rate;
2. MCIT rate is reduced to from 2% to 1% from July 1, 2020 to June 30, 2023;

Details of the Company's NOLCO from previous years are as follows:

Year of Incurrence	Year of Expiry	Beginning Balance	Addition	Expired	2025 Balance
2023	2026	P138,368,250	P -	P -	P138,368,250
2024	2027	125,533,397	-	-	125,533,397
2025	2028	-	115,515,093	-	115,515,093
		P263,901,647	P115,515,093	P -	P379,416,740

Details of the Company's NOLCO covered by Revenue Regulation (RR) No. 25-2020 is as follows:

Year of Incurrence	Year of Expiry	Beginning Balance	Addition	Expired	2025 Balance
2021	2026	P134,138,266	P -	P -	P134,138,266

Pursuant to Section 4 COVID-19 Response and Recovery Interventions paragraph (bbbb) of Republic Act No. 11494 also known as "Bayanihan to Recover As One Act" and to RR No. 25-2020 of Bureau of Internal Revenue, the NOLCO incurred by the Company for taxable years 2020 and 2021 shall be carried over as a deduction from gross income for the next five consecutive taxable years immediately following the year of such loss.

Details of MCIT are as follows:

Year Incurred	Year of Expiry	Amount	Change in tax rate	Applied Current Year	Expired	Unapplied
2022	2025	P 429,631	P -	P -	P429,631	P -
2023	2026	454,076	-	-	-	454,076
2024	2027	485,733	-	-	-	485,733
2025	2028	367,587	-	-	-	367,587
		P1,737,027	P -	P -	P429,631	P1,307,396

Deferred tax assets on NOLCO and MCIT were not recognized since Management believes that future taxable income will not be available against which the deferred tax asset can be utilized.

The Company's interest income arising from cash in banks, cash equivalents and fixed-income securities and realized gains on sale of listed equity securities are already subjected to final tax and are therefore excluded from the computation of taxable income subject to RCIT and MCIT.

19. FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: market risk which includes interest rate and equity price risks, credit risk and liquidity risk. The Fund Manager exerts best efforts to anticipate events that would negatively affect the value of the Company's assets and take appropriate actions to counter these risks. However, there is no guarantee that the strategies will work as intended. The policies for managing specific risks are summarized below.

Market risk

The Company's activities expose it primarily to the financial risks of changes in interest rates and prices of equity securities in the share market and movements in NAVPU of investments in UITF. There has been no change in the manner in which the Company manages and measures the risk.

Interest rate risk

Interest rate risk refers to the possibility that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest.

The primary source of the Company's interest rate risk relates to cash in banks, cash equivalents, fixed-income securities and corporate loans. Interest rates of the financial assets are disclosed in Notes 6 and 15.

The risk is managed by the Fund Manager by actively monitoring the prevailing interest rate environment. The duration of the portfolio is reduced during periods of rising rates and widening credit spreads to maximize interest income potential. Conversely, the same is increased during periods of falling rates and narrowing credit spreads.

A 50 basis points increase or decrease in the interest rates had been determined for sensitivity analysis based on the exposure to interest rates for financial assets at FVTPL and loans and receivables at the end of each reporting period. The same is used for reporting interest rate risk internally to key management personnel and represents Management's assessment of the reasonable effect of the maximum possible movement in interest rates.

The following table details the increase or decrease in net profit after tax if interest rates had been 50 basis points higher or lower and all other variables are held constant for the years ended 2025, 2024 and 2023:

Change in Interest rates	Increase (Decrease) in Net Profit or Loss/Equity		
	2025	2024	2023
+50 basis	(P42,707,485)	(P55,756,549)	(P54,009,253)
-50 basis	P48,151,075	P58,006,305	P58,860,623

In Management's opinion, the sensitivity analysis is unrepresentative of the inherent interest rate risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Equity price risk

The Company is exposed to equity price risks arising from investments in listed equity securities and investments in UITF. Investments in listed equity securities could either be held for strategic or trading purposes.

The risk is managed by the Fund Manager by actively monitoring the domestic equity market and movements in NAVPU of investments in UITF. Portfolios are traded based on a combination of regularly-carried out fundamental and technical analyses of share prices.

Based on the exposure to equity price risks at the end of each reporting period, if equity prices and NAVPU of investments in UITF had been 2% higher or lower, profit or loss for the years ended December 31, 2025, 2024 and 2023 would have increased or decreased by P39,229,917, P62,544,877 and P71,074,849, respectively.

Other than interest and equity price risks discussed above, there are no other market risks which will significantly affect the Company's performance. In Management's opinion, the sensitivity analysis is unrepresentative of the inherent equity price risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of dealing only with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults and transacts only with entities that are rated with the equivalent of investment grade of "High" down to "Low". This information is supplied by independent rating agencies, when available. If the information is not available, the Company uses other publicly available financial information and its own trading records to rate its major counterparties. The Company's exposure and the credit ratings of its counterparties are continuously monitored, and the aggregate value of transactions concluded is spread among approved counterparties.

The carrying amounts of financial assets recorded in the financial statements represent the Company's maximum exposure to credit risk:

	Notes	2025	2024
Cash in banks	6	P 33,144,961	P 57,115,943
Financial assets at FVTPL	7	2,695,012,029	2,481,960,488
Financial assets at amortized cost - net	8	141,797,527	189,755,411
Due from brokers	9	1,000	7,378,700
Accrued interest receivable	7, 8	28,473,329	31,567,860
Dividends receivable	7	-	1,287,350
		P2,898,428,846	P2,769,065,752

ECL measurement

ECL is a probability-weighted estimate of credit losses (i.e. the present value of all cash shortfalls) over the expected life of the financial instrument.

PFRS 9 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition. The Company's current credit risk-grading framework comprises the following categories:

Category	Description	Basis for recognizing expected credit losses
Stage 1	The counterparty has a low risk of default and does not have any past-due amounts or that the financial instrument is not credit-impaired on initial recognition	12-month ECL
Stage 2	There has been a significant increase in credit risk since initial recognition but not yet deemed to be credit-impaired	Lifetime ECL - not credit-impaired
Stage 3	There is evidence indicating that the debtor is in severe financial difficulty and the Company has no realistic prospect of recovery or that the financial instrument is credit-impaired	Lifetime ECL - credit-impaired

Measuring ECL – Explanation of inputs, assumptions and estimation techniques

The ECL is determined by projecting the PD, LGD and exposure at default (EAD) for each future month and for each individual exposure or collective segment. These three components are multiplied together and adjusted for the likelihood of survival (i.e. the exposure has not prepaid or defaulted in an earlier month). This effectively calculates an ECL for each future month, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio and credit grade band. This is supported by historical analysis.

Given that the Company currently has no history of default on their portfolio, a model which incorporates internal default experience is not feasible. For the 12M and Lifetime PD, the Company uses external benchmarking of current internal credit ratings to Standard and Poor's using one-year transition matrices in S&P's Annual Global Corporate Default Study and Rating Transition reports. From the transition matrices, cumulative PDs are identified. The overall PD for a specific time horizon is calculated from the cumulative PD, by determining the marginal PD and taking the conditional probability of default given that it has not yet defaulted prior to the said time horizon. The resulting overall PDs are the values that will act as components in ECL calculation. Lifetime PD is developed by analysis of the transition matrices over the maximum life of active loans, which is 6 years.

The table below summarizes the current internal credit rating equivalence system of the Company.

Summary rating	S&P rating	Internal credit rating
High	AAA	AAA
High	AA	AA- to AA+
High	A	A- to A+
High	BBB	BBB- to BBB+
Satisfactory	BB	BB- to B+
Acceptable	B	B- to B+
Low	CCC/C	CCC- to CCC+

The 12M and lifetime EADs are determined based on the contractual repayments owed by the borrower over the 12month or lifetime basis. This will also be adjusted for any expected overpayments made by the borrower. The Company does not have an undrawn component for any of its debt instruments.

For the 12M and lifetime LGDs, considering the availability of related information, the Company used the external estimates sourced from S&P's.

The table below summarizes the LGD value for each category of financial assets at amortized costs.

Category	LGD value
Loans	27%

Forward-looking information incorporated in the ECL models

The assessment of significant increase in credit rating and the calculation of ECL both incorporate forward-looking information. The Company has performed historical analysis and identified the key economic variables impacting credit risk and ECL for each portfolio. The Company assessed that the key economic variables are unemployment rates for 2024 and 2023.

These economic variables and their associated impact on the PD, EAD and LGD vary by financial instrument. Expert judgment has also been applied in this process. Forecasts of these economic variables (the "base economic scenario") are based on the economic data from the International Monetary Fund (IMF) from year 2025 until 2030. The impact of these economic variables on the PD, EAD and LGD has been determined by performing statistical regression analysis to understand the impact changes in these variables have had historically on default rates and on the components of EAD and LGD.

In addition to the base economic scenario, the best value economically spanning from the historical years is taken (upside forecasts). A similar approach applies for the downside forecasts. The scenario weightings are determined by a combination of statistical analysis and expert credit judgment, taking account of the range of possible outcomes each chosen scenario is representative of. The per-scenario Forward Looking Adjustments were assigned probability weights of 70% for the base scenario and 15% for each of the upside and downside forecast in 2025 and 2024.

As with any economic forecasts, the projections and likelihoods of occurrence are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected. The Company considers these forecasts to represent its best estimate of the possible outcomes and has analyzed the non-linearities and asymmetries within the Company's different portfolios to establish that the chosen scenarios are appropriately representative of the range of possible scenarios.

The following table details the credit quality of the Company's financial assets and other items, as well as the Company's maximum credit exposure to credit risk by credit risk rating grades as at December 31, 2025 and 2024:

	Note	Internal Credit rating	Category	12m or lifetime ECL?	Gross carrying amount	Loss allowance	Net carrying amount
2025							
Financial asset at AC	8	A	Stage 1	12-month ECL	P 85,248,000	P 92,799	P 85,155,201

					P190,012,000	P256,589	P189,755,411

As at December 31, 2025 and 2024, the Company's financial assets measured at amortized cost amounted to P61,619,290 and P97,349,853, respectively. These amounts consist of cash in banks (Note 6), due from brokers (Note 9), accrued interest receivable (Notes 7 and 8), and dividend receivable (Note 7). Details of the breakdown are disclosed in the respective notes. All financial assets are classified as Stage 1 under PFRS 9. No loss allowance has been recognized as at December 31, 2025 and 2024 as all financial assets have high credit quality and low credit risk accordingly, based on the financial institutions being licensed, regulated banks with strong market reputations, and the related party's solid financial position and historical payment performance and the gross carrying amount equals the net carrying amounts for all financial assets.

The movements in the ECL recognized for the year are summarized as follows:

	Gross Carrying Amount				ECL

Liquidity risk

Liquidity risk arises when the Company encounters difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The Company aims to maintain an appropriate level of liquidity which means having sufficient liquidity to be able to meet all obligations promptly under foreseeable adverse circumstances, while not having excessive liquidity.

The Company maintains at least ten percent of the fund in liquid/semi-liquid assets in the form of cash and cash equivalents, special savings deposits, listed equity securities, government debt securities, accrued interest receivable, dividend receivable, and other collective schemes wholly invested in liquid/semi-liquid assets to assure necessary liquidity. This is also in compliance to Section 6.10 of the Implementing Rules and Regulations of the Investment Company Act series of 2018.

The Fund Manager manages liquidity risk by continuously monitoring forecasts and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The following table details the Company's remaining contractual maturity for its non-derivative financial liabilities. The table had been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

	Less than One Month	One Month to One Year	Total
2025			
Accrued expenses and other payables	P 8,876,923	P428,936	P 9,305,859

	P27,839,127	P260,444	P28,099,571

The difference between the carrying amount of accrued expenses and other payables disclosed in the statements of financial position and the amount disclosed in this note pertains to withholding and documentary stamp taxes that are not considered financial liabilities.

The following table details the Company's expected maturity for its financial assets. The table had been drawn up based on the contractual maturities of the financial assets including interest that will be earned on those assets, except when the Company anticipates that the cash flows will occur in a different period.

The Company expects to meet its obligations from operating cash flows and proceeds from maturing financial assets and sale of financial assets at FVTPL.

20. CAPITAL RISK MANAGEMENT

The Fund Manager manages the Company's capital to ensure that the Company will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the mix of high-quality debt and equity securities from domestic issuers.

The Company is guided by its Investment Policies and Legal Limitations. All the proceeds from the sale of shares, including the original subscription payments at the time of incorporation constituting the paid-in capital, is held by the pertinent custodian banks.

The capital structure of the Company consists of issued capital as disclosed in Note 12.

The Fund Manager manages the Company's capital and NAVPS, as disclosed in Notes 12, 13 and 14 to ensure that the Company's net asset value remains competitive and appealing to prospective investors.

The Company is also governed by the following fundamental investment policies:

- It does not issue senior securities;
- It does not intend to incur any debt or borrowing. In the event that borrowing is necessary, it can do so only if, at the time of its incurrence or immediately thereafter, there is asset coverage of at least 300% for all its borrowings;
- It does not participate in any underwriting or selling group in connection with the public distribution of securities, except for its own share capital;
- It generally maintains a diversified portfolio. Industry concentrations may vary at any time depending on the investment manager's view on the prospects;
- It does not invest more than twenty percent (20%) of its net assets in real estate properties and developments, subject to investment restrictions and/or limitations under applicable law, if any;
- It does not purchase or sell commodity futures contracts;

- g. The asset mix in each type of security is determined from time to time, as warranted by economic and investment conditions;
- h. Subscribers are required to settle their subscriptions in full upon submission of their application for subscriptions;
- i. It may use various techniques to hedge investment risks; and
- j. It does not change its investment objectives without the prior approval of a majority of its shareholders and prior notice to the SEC.

The Investment Policies refer to the following:

- a. Investment Objective - To provide moderate growth and a steady income stream through investments in high quality equity securities and high quality corporate and government debt securities.
- b. Benchmark - the Company's performance is measured against 50% PSE Index and 48% Bloomberg Sovereign Bond Index 1-5 Year, net of tax (adjusted by Sun Life) and 2% Philippine Peso Time Deposit Rate 1 Month to 3 Months, net of tax.
- c. Asset Allocation Range - the Company allocates its funds available for investments among cash and other deposit substitute, fixed-income securities and equity securities based on certain proportion as approved by Management.

Other matters covered in the investment policy include the fees due to be paid to the Fund Manager with management and distribution fees each set at an annual rate of 2% of the net assets attributable to shareholders on each valuation day.

In compliance with SEC Memorandum Circular No. 21, Series of 2019 signed on September 24, 2019 in relation to independent Net Asset Value (NAV) calculation, SLAMCI (Fund Manager) engaged Citibank, N.A. Philippines to service its fund accounting functions including calculation of its NAV every dealing day. In December 2020, SLAMCI implemented the outsourced fund accounting to all Sun Life Prosperity Funds.

As at December 31, 2025 and 2024, the Company is in compliance with the above requirements and minimum equity requirement of the SEC of P50,000,000 pursuant to Section 3 of SEC Memorandum Circular No.33-2020.

The equity ratio at year-end is as follows:

	2025	2024
Equity	P4,863,776,850	P5,946,103,844
Total assets	4,883,905,748	5,975,229,476
Equity ratio	0.9959:1	0.9951:1

Management believes that the above ratios are within the acceptable range.

CANDY S. ESTEBAN

Academic Background

Candy is a Master of Business Administration (MBA) from INSEAD. She also holds a Bachelor's degree in Management Engineering from the Ateneo De Manila University.

Professional Career

Candy is the Treasurer and CFO of Sun Life Philippines. She was the Head for Financial Planning and Analysis for the Sun Life Philippines where she led strategic and business planning, management reporting and expense management activities. She returns as Treasurer for Sun Life of Asset Management Company, Inc. (SLAMCI) and the 18 Sun Life Prosperity Funds (SLP Funds). In this role, Candy shall co-manage the day-to-day activities of treasury operations, as well as financial accounting and reporting for SLAMCI and the SLP Funds.

Before joining Sun Life, Candy held various positions in the Philippine business of Citigroup. From 2006 to 2014 – she led business planning and analysis functions for the Wealth Management business of Citibank Philippines covering the Deposits, Investments, Personal Loans and Insurance. Candy was also the Chief Financial Officer for Citibank Savings Incorporated (CSI) from 2011 to March 2014 where she covered the financial management of the legal vehicle CSI, including local regulatory, US GAAP reporting, and compliance to internal and external regulations. She was one of the key members in the sale and transition of CSI to a local Philippine bank in 2014.

Candy also held the position of Lead Finance Office at American Express Bank from 2004-2006 where she supported the Commercial Cards business for the Philippines, Thailand, Indonesia and Malaysia, and the Wealth Management business in the Philippines. Her first role after graduating from the Ateneo was as a Management Reporting Officer/Business Process Analyst for the financial reporting shared services division of Citigroup where she led automation and financial reporting for various countries in Central and Eastern Europe, Middle East and Africa (CEEMEA), and Southeast Asia region.

TERESITA J. HERBOSA

Independent Director (*July 2025 – present*)

Atty. Teresita J. Herbosa is currently an Independent Director of the following Sun Life Prosperity Funds, namely: Sun Life of Canada Prosperity Bond Fund, Inc.; Sun Life Prosperity Peso Starter Fund, Inc. (July 2021 to present); Sun Life Prosperity Peso Voyager Feeder Fund, Inc. (January 2022 to present); Sun Life Prosperity Dollar Starter Fund, Inc. (July 2022 to present); Sun Life Prosperity Achiever Fund 2028, Inc. (July 2022 to present); Sun Life Prosperity Achiever Fund 2038, Inc. (July 2022 to present); Sun Life Prosperity Achiever Fund 2048, Inc. (July 2024 to present); Sun Life Prosperity World Income Fund, Inc. (August 2022 to present); Sun Life of Canada Prosperity Balanced Fund, Inc. (July 2025 to present); Sun Life Prosperity Dollar Wellspring Fund, Inc. (July 2025 to present); Sun Life Prosperity Dynamic Fund, Inc. (July 2025 to present); Sun Life Prosperity Philippine Stock Index Fund, Inc. (July 2025 to present); Sun Life Prosperity World Voyager Fund, Inc. (July 2025 to present); and Sun Life Prosperity World Equity Index Feeder Fund, Inc. (July 2025 to present). Presently, she is a Director of Telecommunications Connectivity Inc. (December 2019 to present). She is also She has been an Independent Director of the Philippine Bank of Communications since November 2022 to the present. She is also an Independent Director of Grepalife Balanced Fund Corporation, Grepalife Dollar Bond Fund Corporation and Grepalife Fixed Income Fund Corporation, Inc. (December 2021 to present).

She was the Chairperson of the Securities and Exchange Commission (“SEC”) from May 2011 to June 2018, and as such occupied other positions such as member of the Anti-Money Laundering Council, Chairperson of the Credit Information Corporation, the Microfinance NGO Regulatory Council, and the Capital Market Development Forum.

As SEC Chairperson, Atty. Herbosa was involved in the Asean Capital Markets Forum as Chair of its Committee on Corporate Governance responsible for the first Asean Top 50 Publicly Listed Companies. She initiated and proposed significant amendments to the Corporation Code of 1985 to Congress culminating in the enactment of the Revised Corporation Code in February 2019. She also participated in the passage of the Personal Property Securities Act.

As a consequence of the various reforms under Atty. Herbosa’s leadership, for two consecutive years, 2015 and 2016, SEC emerged, based on two nationwide surveys, as no.1 in the sincerity rating particularly in the fight against corruption among 35 government agencies.

Prior to her SEC post, she engaged in the private practice of law at the Angara Abello Concepcion Regala & Cruz Law Offices (“ACCRALAW”) specializing in litigation and dispute resolution for 33 years and often cited by foreign legal publications as one of the top litigation lawyers of the country. One year after her stint as SEC Chairperson, in July 2019, she re-joined ACCRALAW as of Counsel and continues as such up to the present.

She is an accredited MCLE lecturer and has been teaching commercial law at private law schools. In the 2022 bar examinations, she was one of the examiners for commercial law.

Atty. Herbosa co-authored in 2019 "The Revised Corporation Code of the Philippines Its Theories and Applications," and relatedly gives lectures on the recent amendments to the law. In line with her advocacy, she participated in the UNICEF-sponsored lecture series "Trainers' Course on Child Sensitive Investigation" for three years for more than 1,500 policemen and in the preparation of the video-taped materials shown at the PHILJA training of Family Court judges. She lectured for PHILJA on financial crimes and corporate and securities fraud.

She has written numerous law articles such as "Comments involving Crimes of Moral Turpitude" and the Foreword Vol 92 July 2019, for the Philippine Law Journal, others on various legal topics for the Philippine Star and contributed "Balancing Ethics and Regulation" for the FINEX anniversary publication "Ethics Black White or Gray" in 2018 and "Cyber Ethics and Data Privacy" for its second publication "Ethics: Enduring or Evolving?". From October 2019 to March 2020, she wrote a comprehensive training module for the investigation and prosecution of violations of the Securities Regulation Code in connection with the Anti-Money Laundering Act.

Atty. Herbosa finished AB Political Science cum laude at the University of the Philippines - Diliman, and her Bachelor of Laws cum laude and class salutatorian from the UP College of Law. She also has a Master of Comparative Law degree from the University of Michigan. In 2014, she was awarded the UP Distinguished Alumni Award for Public Service.

On 16 April 2025, the Fund discovered an incorrect price provided by a counterparty which resulted in a valuation error that impacted the Fund's daily net asset value per share (NAVPS) from July 11, 2024 to April 15, 2025. The incorrect price was due to using the "dirty price - inclusive of accrued interest" instead of the more appropriate "clean price" to value the Credit-Linked Notes (CLN). The independent NAV calculator of the Fund investigated the incident and demanded the counterparty to correct the price. The counterparty has rectified this and has reverted with the "Clean Price" for the securities.

The valuation error resulted in the daily change in NAVPS of the Fund, however, it did not meet the 0.5% threshold to be considered as reportable within twenty-four (24) hours as stated in Rule 8.6 (b) of the Revised Implementing Rules and Regulations of the Investment Company Act (ICA-IRR). The pricing error was corrected on April 16, 2025. The Fund's Manager, Sun Life Asset Management Company, Inc (SLAMCI), transferred Php 3,360,000 to offset the impact of the pricing error. Additional controls were implemented by the Fund Manager, Investment Manager, and the independent NAV calculator to prevent the recurrence of this incident.

NAV date	ISIN	Shares/Par	Dirty Price	Clean Price "Correct Price"	Difference in Price	Difference in Amount	Outstanding Shares	NAVPS Impact	Published NAVPS	Correct NAVPS	Percentage
15-Apr-2025	XS2858725703	60,000,000.0000	103.83	98.23	(5.60)	(3,360,000.00)	1,649,326,530	(0.0020)	3.4616	3.4596	-0.06%

This incident will also be reported to the Fund's Independent Oversight Entity (IOE) within five (5) business days from the valuation error in compliance to the Section 18 Rule 8.6 of SEC Memorandum Circular No. 33 series of 2020.

In accordance with SEC Memorandum Circular No. 33 series of 2020 [Amendments to the Implementing Rules and Regulations of the Investment Company Act], we are reporting the credit-impaired status of SL Agritech Corporation (SLAC) notes and an expected credit loss (ECL) provision recognized in the Net Asset Value (NAV) of Sun Life of Canada Prosperity Balanced Fund, Inc. (MFBAL) on September 15, 2025.

On the scheduled maturity of the note, September 12, 2025, SLAC paid only the interest amount due. Meanwhile, an extension of up to 3 months with applicable default penalties is currently being negotiated and discussed between SLAC and other noteholders, and any further extension or restructuring, as applicable, for the principal amount of the loan. Given this, based on our internal investment operating guidelines, SLAC notes are now classified as credit and would require additional expected credit loss provisioning.

As of 15 September 2025, the following key details and financial impact are recorded:

Mutual Funds	Exposure	ECL	AUM as of 12SEPT2025	% of Impact	Outstanding Shares 12SEPT2025	Impact on NAVPS
MFBAL	PHP 37,240,000.00	PHP 6,182,296.00	5,355,343,243	0.12%	1,535,795,599	0.0040

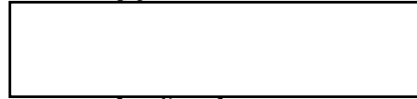

We are closely monitoring the situation and will provide updates as they become available. Our priority remains protecting our investors' interests while working towards a resolution.

In accordance with SEC Memorandum Circular No. 33 Series of 2020 [Amendments to the Implementing Rules and Regulations of the Investment Company Act], we are reporting the credit-impaired status of SL Agritech Corporation (SLAC) notes and an expected credit loss (ECL) provision that was recognized in the Net Asset Value (NAV) of Sun Life of Canada Prosperity Balanced Fund, Inc. (MFBAL) on December 22, 2025.

On September 19, 2025, we reported to the Honorable Commission the recognition of an additional ECL provision for MFBAL recorded on September 15, 2025, due to a missed principal payment by SLAC. This resulted in a 3-month extension with applicable default penalties as agreed between SLAC and other noteholders.

On the scheduled payment extension date of December 19, 2025, SLAC failed to settle the outstanding principal amount of P37,240,000 due to MFBAL, as well as the amounts due to other major lenders. Consequently, based on our internal investment operating guidelines, SLAC notes are now classified as credit-impaired and require additional expected credit loss provisioning.

As of December 22, 2025, the following key details and financial impact are recorded:

Mutual Funds	Exposure	ECL	AUM as of 19DEC2025	% of Impact	Outstanding Shares 19DEC2025	Impact on NAVPS
