NOTES TO FINANCIAL STATEMENTS

1. FINANCIAL REPORTING FRAMEWORK AND BASIS OF PREPARATION AND PRESENTATION

Statement of Compliance

These unaudited condensed consolidated interim financial statements of the Company as at and for the three-month period ended June 30, 2024 have been prepared in accordance with PAS 34, Interim Financial Reporting. These unaudited condensed consolidated interim financial statements do not include all the notes normally included in an annual audited financial report. Accordingly, these unaudited condensed consolidated interim financial statements are to be read in conjunction with the annual audited financial statements of the Company for the year ended December 31, 2023, which have been prepared in accordance with the Philippine Financial Reporting Standards (PRFS).

Basis of Preparation and Presentation

The financial statements of the Company have been prepared on the historical cost basis, except for certain financial assets measured at fair value and certain financial instruments carried at amortized cost.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In preparing the condensed consolidated interim financial statements, the significant accounting estimates and judgments made by the Company in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those applied to the financial statements as at and for the year ended December 31, 2023.

Functional and Presentation Currency

These financial statements are presented in Philippine peso, the currency of the primary economic environment in which the Company operates. All amounts are recorded to the nearest peso, except when otherwise indicated.

2. ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS

Adoption of New and Revised Accounting Standards Effective as at Reporting Period Ended December 31, 2023

The Company adopted all accounting standards and interpretations as at December 31, 2023. The new and revised accounting standards and interpretations that have been published by the International Accounting Standards Board (IASB) and approved by the FSRSC in the Philippines, were assessed to be applicable to the Company's financial statements, are as follows:

Amendments to PAS 1 Presentation of Financial Statements and PFRS Practice Statement 2 Making Materiality Judgements, Disclosure Initiative – Accounting Policies

The Company has adopted the amendments to PAS 1 for the first time in the current year. The amendments change the requirements in PAS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements.

The supporting paragraphs in PAS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all

accounting policy information relating to material transactions, other events or conditions is itself material.

The FSRSC has also developed guidance and examples to explain and demonstrate the application of the 'four-step materiality process' described in PFRS Practice Statement 2.

Other than the replacement of the term 'Significant Accounting Policies' to 'Material Accounting Policy Transactions' in Note 4, the adoption of amendments has no impact as all material accounting policy information are already disclosed in the notes to the financial statements.

Amendments to PAS 12 Income Taxes— International Tax Reform—Pillar Two Model Rules

The Company has adopted the amendments to PAS 12 for the first time in the current year. The FSRSC amends the scope of PAS 12 to clarify that the Standard applies to income taxes arising from tax law enacted or substantively enacted to implement the Pillar Two model rules published by the OECD, including tax law that implements qualified domestic minimum top-up taxes described in those rules.

The amendments introduce a temporary exception to the accounting requirements for deferred taxes in PAS 12, so that an entity would neither recognize nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

Following the amendments, the Company is required to disclose that it has applied the exception and to disclose separately its current tax expense (income) related to Pillar Two income taxes.

The amendments have no impact on the financial statements as Congress has not enacted a law recognizing the applicability of Pillar Two Reform in the Philippines.

New Accounting Standards Effective after the Reporting Period Ended December 31, 2023

At the date of authorization of these financial statements, the company has not applied the following PFRS pronouncements that have been issued but are not yet effective:

Effective for annual periods beginning on or after January 1, 2024

- Amendments to PAS 1 Presentation of Financial Statements—Classification of Liabilities as Current or Non-current
- Amendments to PAS 1 Presentation of Financial Statements—Non-current Liabilities with Covenants
- Amendments to PAS 7 Statement of Cash Flows and PFRS 7 Financial Instruments: Disclosures—Supplier Finance Arrangements
- Amendments to PFRS 16 Leases—Lease Liability in a Sale and Leaseback

Effective for annual periods beginning on or after January 1, 2025

- Amendments to PAS 21 The Effects of Changes in Foreign Exchange Rates—Lack of Exchangeability
- PFRS 17 Insurance Contracts (including the June 2020 and December 2021 Amendments to PFRS 17)

Effective date is deferred indefinitely

- Amendments to PFRS 10 Consolidated Financial Statements and PAS 28 Investments in Associates and Joint Ventures—Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The Company assessed that the amendments have no material impact on the financial statements.

3. MATERIAL ACCOUNTING POLICY INFORMATION

Financial assets

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Company commits to purchase or sell the asset.

At initial recognition, the Company measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss (FVTPL), transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs of financial assets and financial liabilities carried at FVTPL are expensed in profit or loss.

Classification and Subsequent Measurement

The Company classifies its financial assets in the following measurement categories:

- FVTPL
- Amortized cost

Classification of financial assets will be driven by the entity's business model for managing the financial assets and the contractual cash flows of the financial assets.

A financial asset is to be measured at amortized cost if: a) the objective of the business model is to hold the financial asset for the collection of the contractual cash flows, and b) the contractual cash flows under the instrument represent solely payment of principal and interest (SPPI).

All other debt and equity instruments must be recognized at fair value.

All fair value movements on financial assets are taken through the statement of comprehensive income, except for equity investments that are not held for trading, which may be recorded in the statement of comprehensive income or in reserves (without subsequent recycling to profit or loss).

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the group classifies its debt instruments:

- Amortized cost. Assets that are held for collection of contractual cash flows where those cash flows represent SPPI are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- FVTPL. Assets that do not meet the criteria for amortized cost are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of comprehensive income within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in finance income.

Amortized cost and effective interest method

The effective interest method is a method of calculating the amortized cost of a financial asset and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired (POCI) financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses (ECL), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

Interest income is recognized using the effective interest method for debt instruments measured subsequently at amortized cost. For financial instruments other than POCI financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired.

Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective, that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Company subsequently measures all equity investments at FVTPL, except where the Company's Management has elected, at initial recognition, to irrevocably designate an equity instrument at FVTOCI. The Company's policy is to designate equity investments as FVTOCI when those investments are held for the purposes other than to generate investment returns. When the election is used, fair value gains and losses are recognized in other comprehensive income (OCI) and are not subsequently reclassified to profit or loss, including disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in profit or loss as other income when the Company's right to receive payment is established.

Changes in the fair value of financial assets at FVTPL are recognized in net realized gains (losses) on investments in the statement of profit or loss as applicable.

Impairment of financial assets

The Company recognizes a loss allowance for ECL on investments in debt instruments that are measured at amortized cost and financial assets at FVOCI.

The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Company recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to

12-month ECL. The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Significant increase in credit risk

The Company monitors all financial assets that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Company will measure the loss allowance based on lifetime rather than 12-month ECL.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognized. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

Forward-looking information considered includes the future prospects of the industries in which the Company's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Company's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument (e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortized cost);
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Company presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Company has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Company assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

A financial instrument is determined to have low credit risk if:

- The financial instrument has a low risk of default;
- The debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- Adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Company considers a financial asset to have low credit risk when the asset has external credit rating of investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there are no past due amounts.

The Company regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Default

The Company considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Company in full (without taking into account any collateral held by the Company).

Irrespective of the above analysis, the Company considers that default has occurred when a financial asset is more than 90 days past due unless the Company has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default (PD) which affects both the measurement of ECLs and the identification of a significant increase in credit risk.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence of credit-impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization;
- the disappearance of an active market for a security because of financial difficulties; or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

It may not be possible to identify a single discrete event—instead, the combined effect of several events may have caused financial assets to become credit-impaired. The Company assesses whether debt instruments that are financial assets measured at amortized cost or FVOCI are credit-impaired at each reporting date. To assess if debt instruments are credit impaired, the Company considers factors such as bond yields, credit ratings and the ability of the borrower to raise funding.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL are presented in the statement of financial position as a deduction from the gross carrying amount of the assets.

Derecognition

The Company derecognizes a financial asset only when the contractual rights to the asset's cash flows expire or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognized in OCI and accumulated in equity is recognized in profit or loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognized in OCI is not subsequently reclassified to profit or loss, but is transferred to retained earnings.

Financial Liabilities and Equity Instruments

Financial liabilities

All financial liabilities are measured subsequently at amortized cost using the effective interest method or at FVTPL. Financial liabilities are classified as either financial liabilities 'at FVTPL' or 'other financial liabilities'.

Financial liabilities at FVTPL

Financial liabilities at FVTPL are measured at fair value, with any gains/losses arising on remeasurement recognized in profit or loss to the extent that they are not part of a designated hedging relationship. The net gain/loss recognized in profit or loss incorporates any interest paid on the financial liability and is included in profit or loss.

However, for financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognized in OCI, unless the recognition of the effects of changes in the liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. The remaining amount of change in the fair value of liability is recognized in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognized in OCI are not subsequently reclassified to profit or loss; instead, they are transferred to retained earnings upon derecognition of the financial liability.

In making the determination of whether recognizing changes in the liability's credit risk in OCI will create or enlarge an accounting mismatch in profit or loss, the Company assesses whether it expects that the effects of changes in the liability's credit risk will be offset in profit or loss by a change in the fair value of another financial instrument measured at FVTPL. This determination is made at initial recognition.

Since the company does not have financial liabilities classified at FVTPL, all financial liabilities are subsequently measured at amortized cost.

Financial liabilities measured subsequently at amortized cost

Financial liabilities that are not (i) contingent consideration of an acquirer in a business combination, (ii) held-for-trading, or (iii) designated as at FVTPL, are measured subsequently at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

The Company's financial liabilities classified under this category include accrued expenses and other payables, due to brokers and payable to fund manager.

Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Equity instruments

Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Share capital

Share capital consisting of ordinary shares is classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax. Any excess of proceeds from issuance of shares over its par value is recognized as additional paid-in capital.

Retained earnings

Retained earnings represent accumulated profit attributable to equity holders of the Company after deducting dividends declared. Retained earnings may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Repurchase, disposal and reissuance of share capital (treasury shares)

When share capital recognized as equity is repurchased, the amount of the consideration paid, which includes directly attributable cost, net of any tax effects, is recognized as a reduction from equity. Repurchased shares are classified as treasury shares and are presented in the reserve for own share account. When treasury shares are sold or reissued subsequently, the amount received is recognized as increase in equity, and the resulting surplus or deficit on the transaction is presented as additional paid-in capital.

Prepayments

Prepayments represent expenses not yet incurred but already paid in cash. Prepayments are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit or loss as these are consumed in operations or expire with the passage of time.

Prepayments are classified in the statements of financial position as current asset when the cost of services related to the prepayments are expected to be incurred within one (1) year or the Company's normal operating cycle, whichever is longer. Otherwise, prepayments are classified as non-current assets.

Revenue Recognition

Revenue is measured based on the consideration to which the Company expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Company recognizes revenue when it transfers control of a product or service to a customer.

Transaction price

The Company considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Dividend income

Dividend income from investments is recognized when the shareholders' rights to receive payments have been established, usually at ex-dividend rate, provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Realized gains or losses

Gains or losses arising on the disposal of investments are determined as the difference between the sales proceeds and the carrying amount of the investments and is recognized in profit or loss.

Fair value gains or losses

Gains or losses arising from changes in fair values of investments are disclosed under the policy on financial assets.

Expense Recognition

Expenses are recognized in profit or loss when incurred. Expenses in the statements of comprehensive income are presented using the function of expense method. Investment expenses are transaction costs incurred in the purchase and sale of investments. Operating expenses are costs attributable to the administrative and other business expenses of the Company including management fees and custodianship fees.

Fair Value

In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such basis.

In addition, for financial reporting purposes, fair value measurements are categorized into Levels 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Related Party Transactions

Parties are considered related if one party has control, joint control, or significant influence over the other party in making financial and operating decisions. An entity that is a post-employment benefit

plan for the employees of the Company and the key management personnel of the Company are also considered to be related parties.

Taxation

Income tax expense represents the sum of the current tax, final tax and deferred tax expense.

Current tax

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statements of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's current tax expense is calculated using 25% regular corporate income tax (RCIT) rate or 1% minimum corporate income tax (MCIT) rate in July 1, 2020 to June 30, 2023 and 25% RCIT rate or 2% MCIT rate, whichever is higher, effective July 1, 2023, respectively.

Final tax

Final tax expense represents final taxes withheld on interest income from cash and cash equivalents and fixed-income securities and final taxes withheld on proceeds from sale of listed equity securities.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and these relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred taxes for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in OCI or directly in equity, in which case, the current and deferred taxes are also recognized in OCI or directly in equity, respectively.

Earnings (Loss) per Share

The Company computes its basic earnings (loss) per share by dividing profit or loss for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the period.

For the purpose of calculating diluted earnings (loss) per share, profit or loss for the year attributable to ordinary equity holders of the Company and the weighted average number of shares outstanding

are adjusted for the effects of deposit for future subscription which are dilutive potential ordinary shares.

Net Asset Value per Share (NAVPS)

The Company computes its NAVPS by dividing the total net asset value as at the end of the reporting period by the number of issued and outstanding shares and shares to be issued on deposits for future share subscriptions.

Events After the Reporting Period

The Company identifies events after the end of the reporting period as those events, both favorable and unfavorable, that occur between the end of the reporting period and the date when the financial statements are authorized for issue. The financial statements of the Company are adjusted to reflect those events that provide evidence of conditions that existed at the end of the reporting period. Non-adjusting events after the end of the reporting period are disclosed in the notes to the financial statements when material.

4. CASH IN BANKS

	June 2024	December 2023
Cash in banks	P 106,974,872	P 61,622,135

5. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

This account consists of:

	June 2024	December 2023
Investments in listed equity securities	P 3,283,131,833	P 3,641,428,051
Investments in fixed - income securities	2,688,200,981	2,691,722,646
	P 5,971,332,814	P 6,333,150,697

Investments in listed equity securities are composed of ordinary shares while investments in fixed income securities are composed of corporate bonds and treasury notes.

The Company recognized dividend income from investments in listed equity amounting to P 62,427,879 and P 54,819,457 as at June 30, 2024 and 2023, respectively.

Net gains (losses) on investments recognized in profit or loss arising from financial assets at FVTPL are as follows:

	June 2024	December 2023
Net realized gains (losses) on investments in:		
Equity securities	P 29,846,646	P 6,455,568
Fixed- income securities	(4,614,632)	(51,068,647)
	25,232,014	(44,613,079)
Net unrealized gains (losses) on investments in:		
Equity securities	(2,446,681)	5,817,303
Fixed- income securities	(48,893,673)	139,723,487
	(51,340,354)	145,540,790
	P (26,108,340)	P 100,927,711

The movements in the financial assets at FVTPL are summarized as follows:

	June 2024	December 2023
Beginning balance	P 6,333,150,697	P 6,816,144,279
Additions	2,503,105,856	7,040,207,035
Disposal	(2,813,271,923)	(7,668,741,407)
Unrealized gains (losses)	(51,651,815)	145,540,790
Ending balance	P 5,971,332,814	P 6,333,150,697

6. FINANCIAL ASSETS AT AMORTIZED COST

This account consists of:

	June 2024	December 2023
Corporate loans		
Current	P 68,283,442	P 85,735,688
Non-current	195,256,000	194,876,000
Expected credit losses	(300,426)	(371,332)
	P 263,239,016	P 280,240,356

The movements in the financial assets at amortized cost are summarized as follows:

	June 2024	December 2023
Beginning balance	P 280,240,356	P 312,839,810
Repayments	(17,186,953)	(33,032,107)
Amortization of discounts	114,708	128,035
Reversal of credit losses	70,906	304,618
Ending balance	P 263,239,017	P 280,240,356

7. ACCRUED INTEREST RECEIVABLE

	June 2024	December 2023
Fixed-income securities	P 34,321,419	P 32,407,383
Corporate loans	2,515,117	6,684,171
	P 36,836,536	P 39,091,554

Collection of interest depends on the scheduled interest payments of each asset held.

8. DIVIDENDS RECEIVABLE

	June 2024	December 2023
Dividends Receivable	P -	P 2,510,356

9. OTHER CURRENT ASSETS

	June 2024	December 2023
Prepaid Tax	P 941,163	P 860,011
Creditable Withholding Tax	696,626	575,326
Prepaid Expenses	369,943	-
	P 2,007,732	P 1,435,337

10. ACCRUED EXPENSES AND OTHER PAYABLES

	June 2024	December 2023
Due to investors	P 10,309,685	P 7,311,667
Withholding and documentary stamp taxes	1,022,775	1,111,104
Professional fees	151,764	310,774
Custodianship fees	66,470	88,043
Directors' fees	63,685	-
	P 11,614,379	P 8,821,588

Due to investors account pertains to amounts payable to investors for the redemption of their investments processed on or before the reporting period, which are usually paid three days after the transaction date. In line with the announcement of the Securities Clearing Corporation of the Philippines (SCCP) that stock market transaction settlement will change from three (3) clearing days settlement cycle to two (2) clearing days, the Company, effective September 11, 2023, changed the redemption and switch out settlement schedules from three (3) days to two (2) days after the transaction date.

11. DUE FROM/TO BROKERS

Due from brokers account refers to amounts receivable from brokers arising from the sale of investments processed on or before the reporting period, which are settled three days after the transaction date.

Due from brokers amounted to P53,760,660 and P48,501,636 as at June 30, 2024 and December 31, 2023, respectively.

Due to brokers account pertains to amounts payable to brokers for the purchase of investments processed on or before the reporting period, which are settled three days after the transaction date.

Due to brokers amounted to P75,170,351 and P5,883,249 as at June 30, 2024 and December 31, 2023, respectively.

Counterparties to the contract are not allowed to offset payable and receivable arising from the purchase and sale of investments.

Commission expense amounting to P3,713,192 and P9,358,982 in June 30, 2024 and 2023, respectively, are paid to brokers when buying and selling shares of stock.

12. RELATED PARTY TRANSACTIONS

In the normal course of business, the Company transacts with entities which are considered related parties under PAS 24, *Related Party Disclosures*.

The details of transaction with related parties and the amounts paid or payable are set out below:

Nature of Transaction	Transactions as of end of the Quarter		Outstanding Balances		Terms	Condition
	Q2 2024	Q2 2024	December 2023			
SLAMCI – Fund Manager Management Distribution and Transfer fees	P 79,663,706	P 11,630,041	P 12,740,152		Non-interest bearing; Annual rate of 2.15% of average daily net assets; settled in cash on or before the 15th day of the following month	Unsecured; unguaranteed
Key Management Personnel						
Directors' Fees	P 127,370	P 63,685	P -		Payable on demand; settled in cash	Unsecured; Unguaranteed

13. EQUITY

	2024	
	Shares	Amount
Authorized: P0.01 par value		
At January 1	5,000,000,000	P 50,000,000
Issued and fully paid:		
At January 1	4,837,935,154	P 48,379,352
At June 30	4,837,935,154	P 48,379,352
Treasury shares:		
At January 1	2,860,577,353	P 10,648,833,332
Acquired during the period	144,701,446	500,876,848
Reissuance	(22,480,377)	(78,460,325)
At June 30	2,982,798,422	P 11,071,249,855

Fully paid ordinary shares with a par value of P.01 carry one vote per share and a right to dividends.

Incorporation

The Company was incorporated on December 21, 1999 with 200,000,000 registered shares at an initial par value of P1.00 per share. The SEC approved the change in the par value on October 10, 2008.

Approved changes

On May 13, 2005 and February 12, 2006, the shareholders and the Board of Directors, respectively, approved the reduction of the par value per share from P1.00 to P0.01.

On May 12, 2006, the shareholders approved the blanket increase of the Company's authorized share capital up to 100,000,000,000 shares.

On April 24, 2007, the Board of Directors approved the first tranche of share capital increase by 3,800,000,000 (from 200,000,000 shares to 4,000,000,000 shares both with par value of P0.01). The

SEC approved the increase on October 10, 2008 and the registration statements on November 24, 2010.

On March 22, 2013, the Board of Directors approved the second tranche of share capital increase by 1,000,000,000 (from 4,000,000,000 shares to 5,000,000,000 shares both with par value of P0.01).

On December 26, 2013, the Company filed its application to increase its authorized share capital by 1,000,000,000 shares. Said application was favorably endorsed by the SEC's Corporate Finance Department to the Company Registration and Monitoring Department.

The SEC approved the increase in authorized share capital on January 14, 2014 and the registration statements on July 3, 2014.

Current state

As at June 30, 2024, the Company has 1,855,136,732 issued and outstanding shares out of 5,000,000,000 ACS with a par value of P0.01 per share. Fully paid shares with par value of P0.01 carry one vote per share and a right to dividends.

The following table shows the number of institutional and retail investors and the percentage of their investments, and the geographic concentration of investments as of June 30, 2024.

% Ownership of Institutional Investors	% Ownership of Retail Investors
37.11%	62.89%

Area	Percentage of Investments
LUZON	95%
VISAYAS	4%
MINDANAO	1%
TOTAL	100%

14. ADDITIONAL PAID-IN CAPITAL

Additional paid-in capital pertains to excess payments over par value from investors and from reissuance of treasury shares.

	June 2024	December 2023
APIC	P 12,264,143,903	P 12,264,228,552

15. NET ASSET VALUE PER SHARE

	June 2024	December 2023
Total equity	P 6,335,736,859	P 6,739,107,082
Outstanding shares	1,855,136,732	1,977,357,801
NAVPS	P 3.4152	P 3.4081

Net Asset Value Calculation

The net asset value shall be calculated by adding:

- The aggregate market value of the portfolio securities and other assets;
- The cash on hand;
- Any dividends on stock trading ex-dividend; and
- Any accrued interest on portfolio securities,

And subtracting:

- Taxes and other charges against the fund not previously deducted;
- Liabilities
- Accrued expenses and fees; and
- Cash held for distribution to investors of the fund on a prior date.

Price Determination of the Assets of the Investment Company

The value of the assets of the Investment Company shall be determined based on the following:

- a. If quoted in an organized market, based on official closing price or last known transacted price;
- b. If unquoted or quoted investments where the transacted prices are not represented or not available to the market, based on fair value; Provided further that in determining the fair value of investments, the Fund Manager shall, with due care and good faith:
 - Have reference to the price that the Investment Company would reasonably expect to receive upon the sale of the investment at the time the fair value is determined;
 - Document the basis and approach for determining the fair value.

Below table shows the investment company return information of the Fund in the last five (5) recently completed fiscal years as at June 30, 2024:

	Yields	NAVPS	NAVPS Date
Year on year yield (1-year)	1.4587%	P 3.3661	June 30, 2023
3 Year - Simple	-2.8945%	P 3.5170	June 30, 2021
5Year - Simple	-12.5250%	P 3.9042	June 28, 2019

16. INTEREST INCOME

	June 2024	June 2023
Fixed-income securities	P 78,361,525	P 77,362,015
Corporate loans	8,898,702	10,008,324
Cash equivalents	855,678	10,852,998
Cash in banks	102,089	124,859
	P 88,217,995	P 98,348,196

17. EARNINGS PER SHARE

The calculation of the earnings per share for the quarter is based on the following data:

	June 2024	June 2023
Total comprehensive income for the period	P 19,130,949	P 82,292,434
Weighted average number of outstanding shares for the purpose of computing earnings per share	1,904,557,507	2,130,300,397
Basic earnings per share	P 0.010	P 0.039

18. FAIR VALUE OF FINANCIAL INSTRUMENTS

Assets and liabilities measured at fair value on a recurring basis.

The following table provides an analysis of the financial instruments that are measured subsequent to initial recognition at fair value grouped into levels 1 to 3 based on the degree to which the inputs to fair value are observable.

	Note	Total
June 30, 2024		
Investment in listed equity securities	5	P 3,283,131,833
Fixed-income securities	5	2,688,200,981
		P 5,971,332,814
December 31, 2023		
Investment in listed equity securities	5	P 3,641,428,051
Fixed-income securities	5	2,691,722,646
		P 6,333,150,697

The fair values of fixed-income securities classified as Level 1 are based on quoted prices of either done deals or bid rates.

Investment in UITFs are valued at their published Net Assets Values Per Unit (NAVPU) as at reporting date.

Listed equity securities are valued at quoted prices as at reporting date. There were no transfers between Levels 1 to 3 in 2024 and 2023.

Financial assets and liabilities not measured at fair value.

The following financial assets and financial liabilities are not measured at fair values on recurring basis but the fair value disclosure is required:

	Notes	Carrying Amounts	Fair Values			Total
			Level 1	Level 2	Level 3	
June 30, 2024						
Financial Assets						
Financial asset at amortized cost	6	P 263,610,176	P -	P -	P 263,239,016	P 263,239,016
December 31, 2023						
Financial Assets						
Financial asset at amortized cost	6	P 280,240,356	P -	P -	P 286,505,763	P 286,505,763

Cash in banks due from brokers, accrued interest receivable, dividends receivable, due to brokers, accrued expenses and other payables excluding withholding and documentary stamp taxes, due to brokers and payable to fund manager have short-term maturities, hence, their carrying amounts are considered their fair values.

The fair values of corporate loans were determined based on the discounted cash flow analysis using the Company's estimated cost of borrowing of 6.43% for 2024 and 2023.

There were no transfers between Levels 1 to 3 in 2024 and 2023.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Performance of the Company could be measured by the following indicators:

- 1. Increase/Decrease in Net Assets Value Per Share (NAVPS).** NAVPS is computed by dividing net assets (total assets less total liabilities) by the total number of shares issued and outstanding and for conversion to shares, if any, as of the end of the reporting day. Any increase or decrease in NAVPS translates to a prospective capital gain or capital loss, respectively, for the Fund's shareholders.
- 2. Net Investment Income.** Represents the total earnings of the Fund from its investment securities, less operating expenses and income tax. This gauges how efficiently the Fund has utilized its resources in a given time period.
- 3. Assets Under Management (AUM).** These are the assets under the Fund's disposal. This measures investor confidence (increase/decrease brought about by investor subscriptions/redemptions) as well as the growth of the Fund (increase/decrease brought about by its operational income and market valuation of its assets and liabilities).
- 4. Cash Flow.** Determines whether the Fund was able to achieve the optimal level of liquidity by being able to meet all its scheduled payments, while maintaining at the same time the maximum investments level and minimum cash level.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Material Changes in the 2nd Quarter Financial Statements

Statement of Financial Position and Statements of Changes in Equity – June 31, 2024 vs. December 31, 2023

	30-Jun-24	31-Dec-23	Movement	Percentage (%)	MDAS
	Unaudited	Audited			
Cash in banks	P106,974,872	P61,622,135	P45,352,737	73.60%	Liquidity requirements are still met.
Financial assets at fair value through profit or loss	5,971,332,814	6,333,150,697	(361,817,883)	-5.71%	The decrease was due to unrealized losses from unfavorable market condition and net disposal of investments during the period.
Financial assets at amortized cost	263,239,016	280,240,356	(17,001,340)	-6.07%	Mainly due to collection of loan repayment during the period.
Due from brokers	53,760,660	48,501,636	5,259,024	10.84%	This account refers to amounts receivable from brokers arising from the sale of investments processed on or before the reporting period, which are settled three days after the transaction date.
Accrued interest receivable	36,836,536	39,091,554	(2,255,018)	-5.77%	Collection of interest depends on the scheduled interest payments of each investment.
Dividends receivable	-	2,510,356	(2,510,356)	-100.00%	The collection of receivable is dependent on the scheduled payment dates of each listed stock from which dividends were received.
Other current assets	2,007,732	1,435,337	572,395	39.88%	This account pertains to prepaid taxes and CWT to be applied in the future income taxes payable of the Fund and to prepaid expenses to be amortized until end of the accounting period.
Total Assets	6,434,151,630	6,766,552,071	(332,400,441)	-4.91%	
Accrued expenses and other payables	11,614,379	8,821,588	2,792,791	31.66%	The increase mainly pertains to outstanding proceeds payable to investors for redemption of their investments processed on or before end of the reporting period, which are usually settled two (2) days after the transaction date.
Due to brokers	75,170,351	5,883,249	69,287,102	1177.70%	This account pertains to amounts payable to brokers for the purchase of investments processed on or before the reporting period, which are settled three days after the transaction date.
Payable to fund manager	11,630,041	12,740,152	(1,110,111)	-8.71%	Average decrease in AUM during the period where management and distribution fees are based.
Total Liabilities	98,414,771	27,444,989	70,969,782	258.59%	
Share capital	48,379,352	48,379,352	-	0.00%	
Additional paid in capital	12,264,143,903	12,264,228,552	(84,649)	0.00%	
Retained earnings	5,094,463,459	5,075,332,510	19,130,949	0.38%	Net income for the period.
Treasury Shares	(11,071,249,855)	(10,648,833,332)	(422,416,523)	3.97%	Due to net acquisition of treasury shares during the period.
Net Assets	6,335,736,859	6,739,107,082	(403,370,223)	-5.99%	Net acquisition of treasury shares partially offset by the net income earned during the period.
Net Assets Value per Share	P3.4152	P3.4081	P0.0071	0.21%	

**Statement of Financial Position and Statements of Changes in Equity –June 30 2023 vs.
December 31, 2022**

Treasury Shares	(10,245,412,011)	(10,007,423,963)	(237,988,048)	2.38%	Due to net acquisition of treasury shares during the period.
Net Assets	7,081,969,558	7,237,677,652	(155,708,094)	-2.15%	Net acquisition of treasury shares and slightly offset with net income for the period.
Net Assets Value per Share	P3.3662	P3.3296	P0.0366	1.10%	

There were no known trends, demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in increasing or decreasing the Fund's liquidity in any material way.

There was no contingent liability reflected in the accompanying interim unaudited financial statements.

The Fund does not anticipate having any cash flow or liquidity problems as it complies with the liquidity requirements per ICA-IRR 6.10. The Fund was able to meet all its monetary obligations to its shareholders (for redemption) and creditors for the period covered. It does not foresee any event that could trigger a direct or contingent financial obligation that is material to its operations.

There were no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the Fund with unconsolidated entities/other persons created during the reporting period. Likewise, there are no material commitments for capital expenditures, known trends, events, or uncertainties that have had or that are reasonably expected to have a material impact on net income/revenue from the continuing operations of the Fund.

There are no other significant events and transactions from the last annual reporting period that is required for disclosure this quarter.

Statement of Comprehensive Income for the Six months ended - June 30, 2024 vs. June 30, 2023

	30-Jun-24	30-Jun-23	Movement	Percentage (%)	MDAS
	Unaudited	Unaudited			
Investment Income	P175,877,888	P220,158,716	P(44,280,829)	-20.11%	The decrease mainly due to lower realized gains on its investments and lower interest income earned.
Investment Expenses	3,870,693	9,722,664	(5,851,971)	-60.19%	Dependent on the percentage of the amount of stock trading as sold and purchased for the period.
Operating Expenses	80,783,713	87,966,227	(7,182,514)	-8.17%	This is due to the decrease in management fees, distribution fees, custodianship fees, taxes and licenses as compared to prior year in the same period.
Net Unrealized Losses on Investments	(51,340,354)	(12,272,217)	(39,068,137)	318.35%	Decrease is due to an unfavorable market condition during the period.
Provision for Income Tax	20,752,179	27,905,174	(7,152,995)	-25.63%	Final taxes of interest income earned from fixed income investments. sales tax on trading of equities and income tax for the period.
Net Investment Income	P 19,130,949	P 82,292,434	(P 63,161,486)	-76.75%	

Statement of Comprehensive Income for the Six months ended - June 30, 2023 vs. June 30, 2022

	30-Jun-23	30-Jun-22	Movement	Percentage (%)	MDAS
	Unaudited	Unaudited			
Investment Income	P220,158,716	P122,161,164	P97,997,552	80.22%	The increase mainly pertains to realized gain on its investments and higher interest income earned.
Investment Expenses	9,722,664	10,472,094	(749,430)	-7.16%	Dependent on the percentage of the amount of stock trading as sold and purchased for the period.
Operating Expenses	87,966,227	94,304,955	(6,338,728)	-6.72%	This is due to the decrease in management fees brought by lower average AUM and decrease in custodianship and directors' fee.
Net Unrealized Losses on Investments	(12,272,217)	(806,882,515)	794,610,298	-98.48%	The decrease in unrealized losses is due to favorable market conditions of its investment during the period as compared to prior year in the same period.
Provision for Income Tax	27,905,174	20,106,350	7,798,824	38.79%	Final taxes of interest income earned from fixed income investments. sales tax on trading of equities and income tax for the period.
Net Investment Income (Loss)	82,292,434	(809,604,750)	891,897,184	-110.16%	

Average daily net asset value from January to June 2024 and January to June 2023 is PHP 6,653,565,731 and PHP 7,256,725,678, respectively.

The Fund has no unusual nature of transactions or events that affect assets, liabilities, equity, net income or cash flows.

There were no commitments, guarantees and contingent liabilities that arise in the normal course operations of the Fund which are not reflected in the accompanying interim unaudited financial statements.

The management of the Fund is of the opinion that there were no income or losses from these items that will have any material effect on its interim unaudited financial statements.

There were no known material events subsequent to the end of the quarterly reporting period that have not been reflected in the Fund's interim unaudited financial statements as at the period ended June 30, 2024. There were no significant elements of income or loss that did not arise from the Fund's continuing operations.

There were no changes in estimates of amount reported in the current financial year or changes in estimates of amounts reported in prior financial years.

PART II – RISK MANAGEMENT

Item 1. Financial Risk Exposures of the Company

1. Financial Risk Management Objectives and Policies

The Company's activities expose it to a variety of financial risks: Market risk, which includes fair value interest rate risk and equity price risk; credit risk; and liquidity risk. The Fund Manager exerts best efforts to anticipate events that would negatively affect the value of the Company's assets and takes appropriate actions to counter these risks. However, there is no guarantee that the strategies will work as intended. The policies for managing specific risks are summarized below:

1.1 Market Risk: Market risk is a risk of possible decline in the value of the Fund due to fluctuations in prices of the fund's assets. Since the fund may in both equity and fixed income securities, it is subject to two types of market risks: (1) Interest Rate Risk applicable to fixed income securities of the Fund; and (2) Equity Price Risk applicable to the equity investments of the Fund.

1.2 Interest Rate Risk: Interest Rate Risk is a type of Market Risk which is applicable to the Fund's investments in bonds, if any. This refers to the increase/decrease of a bond price due to movement in market factors such as changes in interest rates. A change in interest rates is the period when interest rates rise or fall thus causing the decline or increase in the market price of the bonds held by the Fund, if any. This risk is minimized by closely monitoring the direction of interest rates and aligning it with the appropriate strategy of the Fund.

1.3 Equity Price Risk: For equity investments, changes in prices of equity refer to the equity investments held by the Fund either for strategic or trading purposes. These equity investments, if any, are subject to the daily price fluctuations, as determined by market forces. Hence, prices may vary as a result of the general economic and political conditions, as well as developments in the company's operations and overall profitability. To manage this risk, the equity investments included in the Fund's portfolio are carefully selected based on their fundamental soundness/

1.4 Credit Risk: Investments in bonds carry the risk that the issuer of the bonds might default on its interest and principal payments. In the event of default, the Fund's value will be adversely affected and may result in a write-off of the concerned asset held by the Fund. To mitigate the risk, each Issuer/Borrower/Counterparty passes through a stringent credit process to determine whether its credit quality complies with the prescribed standards of the Fund. Further, the credit quality of the Issuer/Borrower/Counterparty is reviewed periodically to ensure that excellent credit standing is maintained. Moreover, a 10% exposure limit to a single entity is likewise observed.

1.5 Liquidity Risk: The Fund is usually able to service redemptions of investors within seven (7) banking days after receipt of the notice of redemption by paying out redemptions from available cash or near cash assets in its portfolio. However, when redemptions exceed the Funds available cash or near cash assets in its portfolio, the Fund will have to sell its other security holdings; and during periods of extreme market volatility, the Fund may not be able to find a buyer for such assets. Consequently, the Fund may not be able to generate sufficient cash from its sale of assets to meet the redemptions within the normal seven (7) banking day period. To mitigate this, the Fund maintains adequate highly liquid assets in the form of cash, cash equivalents and near cash assets in its portfolio. As the Fund's portfolio is composed of liquid assets, liquidity risk is deemed low.

1.6 Regulatory Risk: The Fund's investments and operations are subject to various regulations affecting among others, accounting of assets and taxation. These regulations occasionally change, and may result in lower returns or even losses borne by the investors. For example, a higher tax imposed on the sale or purchase of underlying assets of the Fund may result in lower net asset value of the Fund. To mitigate this risk, SLAMCI adopts global best practices. Further, it maintains regular communications with the relevant government agencies to keep itself abreast of the issues giving them concern, and to have the opportunity to help them set standards for good governance. SLAMCI also takes an active participation in the Philippine Investment Funds Association, Inc. ("PIFA"), an association of mutual fund companies in the Philippines.

1.7 Non-guarantee: Unlike deposits made with banks, an investment in the Fund is neither insured nor guaranteed by the Philippine Deposit Insurance Corporation ("PDIC"). Hence, investors carry the risk of losing the value of their investment, without any guaranty in the form of insurance. Moreover, as with any investment, it is important to note that past performance of the Fund does not guarantee its future success.

1.8 Dilution Risk: Being an open-end mutual fund, various investors may effectively subscribe to any amount of shares of the Fund. As such, investors face the risk of their investments being diluted as more investors subscribe to shares of the Fund. The influence that the investors can exert over the control and management of the Fund decreases proportionately.

1.9 Large Transaction Risk: If an investor in a Fund makes a large transaction, the Fund's cash flow may be affected. For example, if an investor redeems a large number of shares of a Fund, that Fund may be forced to sell securities at unfavorable prices to pay for the proceeds of redemption. This unexpected sale may have a negative impact on the net asset value of the Fund.

1.10 Fund Manager Risk: The performance of the Fund is also dependent on the Fund Manager's skills. Hence, the Fund may underperform in the market and/or in comparison with similar funds due to investment decisions made by the Fund Manager, and may also fail to meet the Fund's investment objectives. The Board of Directors of the Issuer, however, shall ensure that all investment policies and restrictions enumerated in this Prospectus are strictly followed.

1.10 Operational Risk: This is the risk of loss resulting from inadequate or failed internal processes, controls, people and systems. Categories of operational risks may fall under: sales and distribution, human resources, information technology, processes and people, accounting and finance, model risk, legal and regulatory and third party relationships. The Fund ensures that the internal controls and practices are consistent with enterprise wide policies supporting the management of operational risks. The Fund has established business specific guidelines. Comprehensive investment program, including appropriate level of self-insurance, is maintained to provide protection against potential losses.

2. Capital Risk Management

The Company manages its capital to ensure that the Company will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the mix of high-quality debt and equity securities from domestic issuers.

The Company is guided by its Investment Policies and Legal Limitations. All the proceeds from the sale of shares, including the original subscription payments at the time of incorporation constituting the paid-in capital, is held by the pertinent custodian banks.

The Company manages capital and NAVPS, to ensure that the Company's net asset value remains competitive and appealing to prospective investors.

The Company is also governed by the following fundamental investment policies:

- It does not issue senior securities;
- It does not intend to incur any debt or borrowing. In the event that borrowing is necessary, it can do so only if, at the time of its incurrence or immediately thereafter, there is asset coverage of at least 300% for all its borrowings;
- It does not participate in any underwriting or selling group in connection with the public distribution of securities, except for its own share capital;
- It generally maintains a diversified portfolio. Industry concentrations may vary at any time depending on the investment manager's view on the prospects;
- It does not invest more than twenty percent (20%) of its net assets in real estate properties and developments, subject to investment restrictions and/or limitations under applicable law, if any;
- It does not purchase or sell commodity futures contracts;
- It does not engage in lending operations to related parties such as the members of the Board of Directors, officers of the Company and any affiliates, or affiliated corporations of the Company;
- The asset mix in each type of security is determined from time to time, as warranted by economic and investment conditions;
- Subscribers are required to settle their subscriptions in full upon submission of their application for subscriptions;
- It may use various techniques to hedge investment risks; and
- It does not change its investment objectives without the prior approval of a majority of its shareholders and prior notice to the SEC.

The Investment Policies refer to the following:

- Investment Objective - To provide moderate growth and a steady income stream through investments in high quality equity securities and high quality corporate and government debt securities.

- Benchmark - the fund's performance is measured against 50% PSE Index and 48% Bloomberg Sovereign Bond Index 1-5 Year, net of tax (adjusted by Sun Life) and 2% Philippine Peso Time Deposit Rate 1 Month to 3 Months, net of tax.
- Asset Allocation Range - the Company allocates its funds available for investments among cash and other deposit substitute, fixed-income securities and equity securities based on certain proportion as approved by Management.

Other matters covered in the investment policy include the fees due to be paid to the Fund Manager with management and distribution fees each set at an annual rate of 2% of the net assets attributable to shareholders on each valuation day.

In compliance to SEC Memorandum Circular No. 21, Series of 2019 signed on September 24, 2019 in relation to independent Net Asset Value (NAV) calculation, SLAMCI (Fund Manager) engaged Citibank, N.A. Philippines to service its fund accounting functions including calculation of its NAV every dealing day. In December 2020, SLAMCI implemented the outsourced fund accounting to all Sun Life Prosperity Funds.

As of June 30, 2024 and December 31, 2023, the Company is consistently in compliance with the minimum paid-in capital requirement of the SEC of P 50,000,000 pursuant to Section 3 of SEC Memorandum Circular No.33-2020.

3. The amount and description of the company's investment in foreign securities:

The Company does not have any investment in foreign securities.

4. Significant accounting judgments made in classifying a particular financial instrument in the fair value hierarchy.

CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments in Applying Accounting Policies

The following are the critical judgments, apart from those involving estimations, that Management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements.

Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortized cost that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is

not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

The Company measures its financial assets at amortized cost if the financial asset qualifies for both SPPI and business model test. The Company's business model is to hold the asset and to collect its cash flows which are SPPI. All other financial assets that do not meet the SPPI and business model test are measured at FVTPL.

Significant increase of credit risk

ECL are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. PFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased, the Company takes into account qualitative and quantitative reasonable and supportable forward looking information.

The Company considers a financial instrument to have experienced a significant increase in credit risk when one or more of the qualitative and quantitative criteria have been met.

As at June 30, 2024 and December 31, 2023, the Company's financial instrument measured at amortized cost has not experienced a significant increase in its credit risk.

Models and assumptions used

The Company uses various models and assumptions in measuring the fair value of financial assets as well as in estimating ECL. Judgment is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk.

Puttable shares designated as equity instruments

The Company's share capital met the specified criteria to be presented as equity. The Company designated its redeemable share capital as equity instruments since the Company's share capital met the criteria specified in PAS 32, Financial Instruments: Presentation, to be presented as equity.

A puttable financial instrument includes a contractual obligation for the issuer to repurchase or redeem that instrument for cash or another financial asset on exercise of the put. As an exception to the definition of a financial liability, an instrument that includes such an obligation is classified as an equity instrument if it has met all the following features:

- a. it entitles the holder to a pro rata share of the entity's net assets in the event of the entity's liquidation. The entity's net assets are those assets that remain after deducting all other claims on its assets;
- b. it is in the class of instruments that is subordinate to all other classes of instruments;
- c. all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- d. apart from the contractual obligation for the issuer to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any contractual obligation to deliver cash or another financial asset to another entity, or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the entity, and it is not a contract that will or may be settled in the entity's own equity instruments; and
- e. the total expected cash flows attributable to the instrument over the life of the instrument are based substantially on the profit or loss, the change in the recognized net assets or the change in the fair value of the recognized and unrecognized net assets of the entity over the life of the instrument (excluding any effects of the instrument).

As at June 30, 2024 and December 31, 2023, the recognized amount of share capital representing puttable shares in the statements of financial position amounted to P48,379,352.

Key Sources of Estimation Uncertainty

The following are the Company's key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Probability of default (PD)

PD constitutes a key input in measuring ECL. PD is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

As at June 30, 2024 and December 31, 2023, the Company assessed a probability of default of 0.11% and 0.13%, respectively, for all of its financial assets measured at amortized cost.

Loss Given Default (LGD)

LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

The Company uses portfolio averages from external estimates sourced out from Standard and Poor's (S&P) as the LGD estimates.

Estimating loss allowance for ECL

The measurement of the expected credit loss allowance for financial assets measured at amortized cost and FVTOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior. A number of significant judgments are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL; and
- Establishing the number and relative weightings of forward-looking scenarios and the associated ECL.

As at June 30, 2024 and December 31, 2023, the Company's estimated credit losses for financial instruments measured at amortized cost amounted to P300,426 and P371,332, respectively as disclosed in Note 6.

Deferred tax assets

The Company reviews the carrying amount at the end of each reporting period and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the Company will generate sufficient taxable profit that will allow all or part of its deferred tax assets to be utilized.

Based on Management's expectation of the Company's future taxable income, the Company did not recognize the deferred tax assets as at June 30, 2024 and December 31, 2023.

Determining the fair value of investments in debt securities classified as financial assets at FVTPL

The Company carries its investments in traded debt securities at fair value, which requires the use of accounting estimates and judgment. Since market interest rate is a significant component of fair value measurement, fair value would differ if the Company applied a different set of reference rates in the valuation methodology. Any change in the fair value of these financial assets would affect profit or loss and equity.

Compliance with Foreign Account Tax Compliance Act (FATCA)

In accordance with the requirements of the US Internal Revenue Service ("IRS") and the Intergovernmental Agreement ("IGA") between the Government of the United States of America and the Government of the Republic of the Philippines to Improve International Tax Compliance and to Implement FATCA which was signed last July 13, 2015, the Fund has registered with the Internal Revenue Service (IRS) and has obtained its own Global Intermediary Identification Number ("GIIN") as a sponsored entity. Sun Life Asset Management Company, Inc. ("SLAMCI") continues to assume responsibilities for the Fund's FATCA compliance as the Sponsoring Entity and has implemented FATCA onboarding processes and procedures as well as system enhancements to monitor its new and pre-existing account holders who are U.S. Persons and have U.S. Indicia.

The Fund, together with its Sponsoring Entity, SLAMCI, is preparing to comply for FATCA reporting on the date which will be set by the Bureau of Internal Revenue as soon as the IGA has been ratified by the Senate.

CUMULATIVE PERFORMANCE

	MoM	YTD	1-Year	3-Year	5-Year
Fund	0.44%	0.23%	1.22%	-3.18%	-12.52%
Benchmark*	0.13%	0.52%	1.67%	-0.81%	-2.32%

Notes:

- Year-to-date (YTD) returns are computed as the return from the last business day of the previous year to the last business day of the reporting month.
- Benchmark data were based on available information as of extraction date.

***Bond Benchmark Effectivity Date:**

HSBC Local Currency Bond Philippines Liquid Total Return: May 25, 2009 to April 30, 2016
 Bloomberg Sovereign Bond Index, net of tax (adjusted by Sun Life): May 1, 2016 to February 28, 2017
 Bloomberg Sovereign Bond Index 1 to 5 Year, net of tax (adjusted by Sun Life): March 1, 2017 to present

Market Review and Outlook

- After a volatile June which saw the PSEI break critical support levels mid-month, the index managed to close relatively flat month-on-month (-0.33%) at 6,411.91. Quarter-on-quarter, the index was down a whopping -7.12%, reversing the strong gains earned in 1st quarter and ending the first half of the year with a -0.59% year-to-date decline.
- Volatility rose from a mixed bag of catalysts as Fed rate cut delays, a weak peso, and an increase in political noise sapped sentiment. The market found more solid footing as bargain hunters picked up oversold names amidst lower inflation expectation from the BSP.
- The PSEI is expected to trade rangebound from 6400-6700 as investors await for stronger catalysts in relation to corporate earnings, central bank rhetoric, and GDP.
- Philippine government bond yields fell by 2 to 10 basis points in June, leading to positive total returns for investors. Sentiment turned positive towards the latter part of the month after the approval of reduction in rice import tariffs which would help keep inflation within target, and the release of a more balanced auction schedule for the 3rd quarter.
- The Fund remains neutral on equities while slight overweight duration on fixed income.
- On a gross-of-fees basis, the Fund is in-line with its benchmark year-to-date.

 Bloomberg Sovereign Bond Index 1 to 5 Year, net of tax (adjusted by Sun Life): March 1, 2017 to present

Market Review and Outlook

- The Philippine Stock Exchange Index (PSEi) fell once again in May as foreign outflows accelerated. The index lost 3.99% and closed at 6,433.10, above its technical support level of 6,350. Meanwhile, peso bonds rallied tracking gains in US Treasuries and as local inflation were lower than expected.
- The weakness in the local equity market was influenced by the continued depreciation of the Philippine Peso against the US dollar. The exchange rate rose above PHP58/\$1 level after the BSP indicated that they could cut rates ahead of the US Federal Reserve.
- GDP for the first quarter of 2024 came in at 5.7% which was slightly below consensus estimates. Household consumption, a key driver of Philippine GDP, grew by 4.6%—the slowest pace since 2011 (excluding the pandemic years).
- Foreign outflows persisted in May driven by the month-end MSCI rebalancing that contributed roughly \$100M in outflows. Total net outflows for May reached \$174M, bringing the YTD net outflow to \$424 million.
- Moving forward, a break below the support level of 6,350 could see the PSEi return to the 6,000 to 6,200 levels which is close to the lows seen in 2023.
- The Fund remains neutral on equities while slight overweight duration on fixed income.
- On a gross-of-fees basis, the Fund is in-line with its benchmark year-to-date.

 Bloomberg Sovereign Bond Index 1 to 5 Year, net of tax (adjusted by Sun Life): March 1, 2017 to present

Market Review and Outlook

- After a strong start to the month with the Philippine Stock Exchange Index (PSEi) breaching the 7,000 level, the market succumbed to profit taking as geopolitical concerns, rising oil, and a weaker peso sapped investor sentiment. The PSEi declined by 2.94% or 203.04 points lower, closing the month at 6,700.49.
- Foreign funds turned negative with an outflow of \$412.3 million, driven mostly by the settlement of BLOOM's dispute with GGAM. Ruling that out, foreigners were net sellers for \$90.6 million.
- Philippine government bond yields surged by 50 to 80 basis points, leading to negative returns for bonds in April. Poor market liquidity and surging US yields dragged peso yields higher. In addition, bond auctions saw awards at higher rates, further contributing to the weak market sentiment.
- After falling below the 6,800 support level, the PSEi will likely trade range bound between 6,400 – 6,800, taking queues from 1Q24 earnings results, and key macro data points such as inflation.
- The Fund is a mix of equities and cash/fixed income securities and mimics the composition and performance of the equity and fixed income benchmarks.
- On a gross-of-fees basis, the Fund is in-line with its benchmark year-to-date.

SECURITIES AND EXCHANGE COMMISSION

SEC FORM 17-L

**NOTIFICATION OF INABILITY TO FILE ALL OR
ANY PORTION OF SEC FORM 17-A OR 17-Q**

GENERAL INSTRUCTIONS

1. This Form may be signed by an executive officer of the issuer or by any other duly authorized representative. The name and title of the person signing the form shall be typed or printed beneath the signature. If the statement is signed on behalf of the issuer by an authorized representative other than an executive officer, evidence of the representative's authority to sign on behalf of the issuer shall be filed with the Form.
2. One signed original and four conformed copies of this Form and attachments thereto must be completed and filed with the Commission and, where any class of the issuer's securities are listed on a Stock Exchange, one with that Stock Exchange, in accordance with SRC Rule 17-1. The information contained in or filed with the Form will be made a matter of the public record in the Commission's and the Exchange's files.
3. A manually signed copy of the Form and amendments thereto shall be filed with the Stock Exchange if any class of securities of the issuer is listed thereon.
4. One signed original and four conformed copies of amendments to the notifications must also be filed on SEC Form 17-L but need not restate information that has been correctly furnished. The Form shall be clearly identified as an amended notification.
5. If the deadline for filing SEC Form 17-A or 17-Q specified in paragraph 2(b)(ii) of SRC Rule 17-1 is not complied with, a fine will be imposed for each day thereafter that the Form is not filed.
