

My Target MILESTONE Fund

Always follow this rule of thumb:

1. **Compute by how much a goal today will increase* in the future**
2. **Then, add the cost of goal today to #1 = TARGET FUND (at the minimum)**

=

COST OF GOAL _____ YEARS FROM NOW

**Goal refers to the milestone you want to achieve, e.g. business capital, travel funds, etc.*

***Philippines' average inflation rate from 2004-2018*
