# MYFUTURE FUND FLIGHT PLAN

Your Guide to MyFuture Fund

MyFuture Fund is a **target date fund** that follows a predetermined glidepath which is designed to provide you medium to long term capital appreciation, shifting to wealth preservation as the fund's maturity date nears. This means that during early years of investment, assets are mostly placed in equities to provide greater opportunity for your fund to grow. As the fund approaches maturity, its asset allocation shifts to fixed income securities thereby minimizing your fund's exposure to risk and allowing you to preserve your wealth.

With a little help from Sun Life's Professional Fund Managers, you are off to a good start in reaching your financial goals with MyFuture Fund!
