**2:** All Boxes must be properly and completely filled-up. Failure to do so shall cause the delay in updating the corporation's records with the Commission and/or non-receipt of Notice of Deficiencies. Further, non-receipt of Notice of Deficiencies shall not excuse the corporation from liability for its deficiencies.

## INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Shareholders  
SUN LIFE OF CANADA PROSPERITY BOND FUND, INC.  
(An Open-end Investment Company)  
Sun Life Centre, 5<sup>th</sup> Avenue corner Rizal Drive  
Bonifacio Global City, Taguig City

### **Report on the Audit of the Financial Statements**

#### *Opinion*

We have audited the financial statements of Sun Life of Canada Prosperity Bond Fund, Inc. (the "Company") which comprise the statements of financial position as at December 31, 2019 and 2018, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for the years ended December 31, 2019, 2018 and 2017 and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2019 and 2018, and its financial performance and its cash flows for the years ended December 31, 2019, 2018 and 2017 in accordance with Philippine Financial Reporting Standards (PFRS).

#### *Basis for Opinion*

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Responsibilities of Management and Those Charged with Governance for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with PFRS, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

### *Auditors' Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

## Report on Other Legal and Regulatory Requirements

### *Report on the Supplementary Information Required by the Bureau of Internal Revenue*

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information in Note 22 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such supplementary information is the responsibility of Management and has been subjected to the auditing procedures applied in our audits of the basic financial statements. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## **SUN LIFE OF CANADA PROSPERITY BOND FUND, INC.**

(An Open-end Investment Company)

---

### **NOTES TO FINANCIAL STATEMENTS**

**AS AT DECEMBER 31, 2019 AND 2018 AND FOR THE YEARS ENDED DECEMBER 31, 2019, 2018 and 2017**

#### **1. CORPORATE INFORMATION**

Sun Life of Canada Prosperity Bond Fund, Inc. (the "Company") was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on January 19, 2000 and started commercial operations on May 1, 2000. The Company is a registered open-end investment company under the Investment Company Act (Republic Act "R.A." No. 2629) and the Securities Regulation Code (R.A. No. 8799), formerly known as the Revised Securities Act (B.P. No. 178). It is engaged in the sale of redeemable shares and is designed to provide long-term interest income and principal preservation through investments in high-quality fixed-income securities issued by the Philippine government and prime Philippine companies aggregating below average risk. As an open-end investment company, its shares are redeemable anytime based on the Net Asset Value Per Share (NAVPS) at the time of redemption.

The Company appointed Sun Life Asset Management Company, Inc. (SLAMCI), an investment management company incorporated in the Philippines and a wholly owned subsidiary of Sun Life of Canada (Philippines), Inc. (SLOCPI), as its fund manager, adviser, administrator, distributor and transfer agent and provides management, distribution and all required operational services, as disclosed in Note 11.

The Company's registered office address and principal place of business is at Sun Life Centre, 5<sup>th</sup> Avenue corner Rizal Drive, Bonifacio Global City, Taguig City.

#### **2. FINANCIAL REPORTING FRAMEWORK AND BASIS OF PREPARATION AND PRESENTATION**

##### **Statement of Compliance**

The financial statements of the Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS), which include all applicable PFRS, Philippine Accounting Standards (PAS) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC), Philippine Interpretations Committee (PIC) and Standing Interpretations Committee (SIC) as approved by the Financial Reporting Standards Council (FRSC) and the Board of Accountancy (BOA), and adopted by the SEC.

##### **Basis of Preparation and Presentation**

The financial statements of the Company have been prepared on the historical cost basis, except for certain financial assets measured at fair value and certain financial instruments carried at amortized cost.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

##### **Functional and Presentation Currency**

These financial statements are presented in Philippine peso, the currency of the primary economic environment in which the Company operates. All amounts are recorded to the nearest peso, except when otherwise indicated.

### 3. **ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS**

#### **Adoption of New and Revised Accounting Standards Effective in 2019**

The new and revised accounting standards and interpretations that have been published by the International Accounting Standards Board (IASB) and approved by the FRSC in the Philippines were adopted by the Company as at December 31, 2019 and assessed as not applicable and have no impact on the Company's financial statements.

#### **New Accounting Standards Effective after the Reporting Period Ended December 31, 2019**

The Company will adopt the following standards when these become effective:

##### *PFRS 17, Insurance Contracts*

PFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. The objective of PFRS 17 is to ensure that an entity provides relevant information that faithfully represents those contracts. This information gives a basis for users of financial statements to assess the effect that insurance contracts have on the entity's financial position, financial performance and cash flows.

The key principles in PFRS 17 are that an entity:

- identifies as insurance contracts those contracts under which the entity accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder;
- separates specified embedded derivatives, distinct investment components and distinct performance obligations from the insurance contracts;
- divides the contracts into groups that it will recognize and measure;
- recognizes and measures groups of insurance contracts at:
  - i. a risk-adjusted present value of the future cash flows (the fulfilment cash flows) that incorporates all of the available information about the fulfilment cash flows in a way that is consistent with observable market information; plus (if this value is a liability) or minus (if this value is an asset)
  - ii. an amount representing the unearned profit in the group of contracts (the contractual service margin);
- recognizes the profit from a group of insurance contracts over the period the entity provides insurance cover, and as the entity is released from risk. If a group of contracts is or becomes loss-making, an entity recognizes the loss immediately;
- presents separately insurance revenue (that excludes the receipt of any investment component), insurance service expenses (that excludes the repayment of any investment components) and insurance finance income or expenses; and
- discloses information to enable users of financial statements to assess the effect that contracts within the scope of PFRS 17 have on the financial position, financial performance and cash flows of an entity.

PFRS 17 includes an optional simplified measurement approach, or premium allocation approach, for simpler insurance contracts.

The standard is effective for periods beginning on or after January 1, 2023. Earlier application is permitted.

The future adoption of the standard will have no effect on the Company's financial statements as the Company does not issue insurance contracts.

#### Amendments to PAS 1 and PAS 8, *Definition of Material*

The amendments relate to a revised definition of 'material':

Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.

Three new aspects of the new definition include (i) obscuring; (ii) could reasonably be expected to influence; and (iii) primary users.

The amendments stress especially five ways material information can be obscured:

- if the language regarding a material item, transaction or other event is vague or unclear;
- if information regarding a material item, transaction or other event is scattered in different places in the financial statements;
- if dissimilar items, transactions or other events are inappropriately aggregated;
- if similar items, transactions or other events are inappropriately disaggregated; and
- if material information is hidden by immaterial information to the extent that it becomes unclear what information is material.

The amendments are effective for periods beginning on or after January 1, 2020. Earlier application is permitted.

The Company will continue its assessment and will finalize the same upon the effectivity of this standard.

#### Amendments to PFRS 3, *Definition of Business*

The amendments are to:

- clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs;
- narrow the definitions of a business and of outputs by focusing on goods and services provided to customers and by removing the reference to an ability to reduce costs;
- add guidance and illustrative examples to help entities assess whether a substantive process has been acquired;
- remove the assessment of whether market participants are capable of replacing any missing inputs or processes and continuing to produce outputs; and
- add an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business.

The amendments are effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020 and to asset acquisitions that occur on or after the beginning of that period.

The Company will continue its assessment and will finalize the same upon the effectivity of this standard.

PIC Q&A No. 2019-02, *Accounting for Cryptographic Assets*

The interpretation provides guidance regarding accounting treatment for cryptographic assets. In classifying cryptographic assets, two relevant factors to consider are (i) its primary purpose, and (ii) how these assets derive its inherent value. The interpretation provided two (2) cryptographic classifications based on the aforementioned factors, these are (a) cryptocurrency, or (b) cryptographic assets other than cryptocurrencies, which are (b.1) asset-based token, (b.2) utility token, and (b.3) security token, or collectively the "security tokens".

From the holder of these assets' point-of-view, in the absence of a definitive accounting and reporting guidance from the IASB, the interpretation suggested to report cryptographic assets in the financial statements as either (i) cryptocurrencies held by an entity, or (ii) cryptographic assets other than cryptocurrencies.

From the issuer of these assets' point of view, as a consensus, the following accounting treatments are suggested:

- Cryptocurrencies held by an entity can be treated either as (i) inventory under PAS 2, or (ii) intangible asset under PAS 38.
- Cryptographic assets other than cryptocurrencies, the interpretation suggested the following relevant accounting frameworks for consideration:
  - i. If the token meets the definition of a financial liability, apply guidance in PFRS 9;
  - ii. If the token meets the definition of an equity instrument, apply guidance in PAS 32;
  - iii. If the token is a prepayment for goods and services from a contract with a customer, apply guidance in PFRS 15; and
  - iv. If the token does not meet any of the aforementioned, consider other relevant guidance.

The interpretation is effective for periods beginning on or after February 13, 2019.

The future adoption of the interpretation will have no effect on the Company's financial statement since the Company does not have cryptographic assets.

**New Accounting Standards Effective in 2019 - Adopted by FRSC but pending for approval by the BOA**

PIC Q&A No. 2019-04, *Conforming Changes to PIC Q&As – Cycle 2019*

The interpretation sets out the changes (i.e., amendments or withdrawal) to certain interpretations. These changes are made as a consequence of the issuance of new PFRS that become effective starting January 1, 2019 and other relevant developments.

PIC Q&As amended

The following table summarizes the changes made to the amended interpretations:

PIC Q&A Amended	Amendment
PIC Q&A No. 2011-05: PFRS 1 – Fair Value or Revaluation as Deemed Cost	Updated because of applying PFRS 16, Leases, for the first time starting January 1, 2019
PIC Q&A No. 2011-06: Acquisition of investment properties – asset acquisition or business combination?	Reference to PAS 40, Investment Property, has been updated because of applying PFRS 16 for the first time starting January 1, 2019.
PIC Q&A No. 2012-02: Cost of a new building constructed on the site of a previous building	Reference to PAS 40 has been updated because of applying PFRS 16 for the first time starting January 1, 2019.
PIC Q&A No. 2017-02: PAS 2 and PAS 16 - Capitalization of operating lease cost as part of construction costs of a building	Updated to comply with the provisions of PFRS 16 and renamed as PIC Q&A No. 2017-02: PAS 2 and PAS 16 - Capitalization of depreciation of right-of-use asset as part of construction costs of a building
PIC Q&A No. 2017-10: PAS 40 - Separation of property and classification as investment property	Reference to PAS 40 has been updated because of applying PFRS 16 for the first time starting January 1, 2019.
PIC Q&A No. 2018-05: PAS 37 - Liability arising from maintenance requirement of an asset held under a lease	Updated to comply with the provisions of PFRS 16
PIC Q&A No. 2018-15: PAS 1- Classification of Advances to Contractors in the Nature of Prepayments: Current vs. Non-current	Reference to PAS 40 (included as an attachment to the Q&A) has been updated because of applying PFRS 16 for the first time starting January 1, 2019.

PIC Q&A withdrawn

PIC Q&A Withdrawn	Basis for Withdrawal
PIC Q&A No. 2017-09: PAS 17 and Philippine Interpretation SIC-15 - Accounting for payments between and among lessors and lessees	This PIC Q&A is considered withdrawn starting January 1, 2019, which is the effective date of PFRS 16. PFRS 16 superseded PAS 17, Leases, and Philippine Interpretation SIC-15, Operating Leases— Incentives
PIC Q&A No. 2018-07: PAS 27 and PAS 28 - Cost of an associate, joint venture, or subsidiary in separate financial statements	This PIC Q&A is considered withdrawn upon publication of IFRIC agenda decision - Investment in a subsidiary accounted for at cost: Step acquisition (IAS 27 Separate Financial Statements) in January 2019.

The effective date of the amendments is included in the affected interpretations.

The future adoption of the interpretation will have no effect on the Company's financial statements since the Company does not have any leased property and asset classified as investment property.

PIC Q&A No. 2019-06, *Accounting for Step Acquisition of a Subsidiary in a Parent*

The interpretation clarifies how a parent should account for the step acquisition of a subsidiary in its separate financial statements.

Salient points of the interpretation are the following:

IFRIC concluded either of the two approaches may be applied:

- Fair value as deemed cost approach  
Under this approach, the entity is exchanging its initial interest (plus consideration paid for the additional interest) for a controlling interest in the investee (exchange view). Hence, the entity's investment in subsidiary is measured at the fair value at the time the control is acquired.
- Accumulated cost approach  
Under this approach, the entity is purchasing additional interest while retaining the initial interest (non-exchange view). Hence, the entity's investment in subsidiary is measured at the accumulated cost (original consideration).

Any difference between the fair value of the initial interest at the date of obtaining control of the subsidiary and its original consideration is taken to profit or loss, regardless of whether, before the step acquisition transaction, the entity had presented subsequent changes in fair value of its initial interest in profit or loss or other comprehensive income (OCI).

The interpretation is effective for periods beginning on or after October 19, 2019.

The future adoption of the interpretation will have no effect on the Company's financial statements since the Company is not engaged in acquisition of a subsidiary.

PIC Q&A No. 2019-07, *Classification of Members' Capital Contributions of Non-Stock Savings and Loan Associations (NSSLAs)*

Background:

The Bangko Sentral ng Pilipinas (BSP) issued Circular No. 1045 on August 29, 2019 to amend the Manual of Regulations for Non-Bank Financial Institutions Applicable to Non-Stock Savings and Loan Associations (MORNBFI-S) – Regulatory Capital of Non-Stock Savings and Loan Associations (NSSLAs) and Capital Contributions of Members.

Under the Circular, each qualified member of an NSSLAs shall maintain only one capital contribution account representing his/her capital contribution. While only one capital account is maintained, the Circular breaks down a member's capital contributions as follows:

- a. Fixed capital which cannot be reduced for the duration of membership except upon termination of membership. The minimum amount of fixed capital is Php1,000, but a higher minimum can be prescribed under the NSSLAs's by-laws.
- b. Capital contribution buffer, which pertains to capital contributions in excess of fixed capital. The capital contribution buffer can be withdrawn or reduced by the member without affecting his membership. However, the NSSLAs shall establish and prescribe the conditions and/or circumstances when the NSSLAs may limit the reduction of the members' capital contribution buffer, such as, when the NSSLAs is under liquidity stress or is unable to meet the capital-to-risk assets ratio requirement under Sec. 4116S of the MORNBFI-S Regulations. Such conditions and/or circumstances have to be disclosed to the members upon their placement of capital contribution buffer and in manners as may be determined by the Board.

For purposes of identifying and monitoring the fixed capital and capital contribution buffer of a member's capital contribution, NSSLAs shall maintain subsidiary ledgers showing separately the fixed and capital contribution buffer of each member. Further, upon receipt of capital contributions from their members, NSSLAs shall simultaneously record the amount contributed as fixed and capital contribution buffer in the aforementioned subsidiary ledgers. However, NSSLAs may use other systems in lieu of subsidiary ledgers provided that the system will separately show the fixed and capital contribution buffer of each member.

The interpretation assessed and concluded that both Fixed Capital and the Capital contribution buffer qualify as "equity" in the NSSLAs' financial statements as they both meet all the requirements of paragraphs 16A and 16B of PAS32, Financial Instruments: Presentation.

The interpretation is effective for periods beginning on December 11, 2019, and should be applied retrospectively.

The future adoption of the interpretation will have no effect on the Company's financial statements since the Company is not classified as a non-bank financial institution under non-stock savings and loan associations.

PIC Q&A No. 2019-08, *PFRS 16, Leases - Accounting for Asset Retirement or Restoration Obligation ("ARO")*

The interpretation clarifies the recognition of ARO under the following scenarios:

1) Accounting for ARO at lease commencement date

The cost of dismantling and restoration (i.e., the ARO) should be calculated and recognized as a provision in accordance with PAS 37, with a corresponding adjustment to the related right-of-use (ROU) asset as required by PFRS 16.24(d). As such, the lessee will add the amount of ARO to the cost of the ROU asset on lease commencement date, which will then form part of the amount that will be amortized over the lease term.

2) Change in ARO after initial recognition

2.1) Because ARO is not included as a component of lease liability, the measurement of such ARO is outside the scope of PFRS 16. Hence, its measurement is generally not affected by the transition to PFRS 16. Except in cases where the reassessment of lease-related assumptions (e.g., lease term) would affect the measurement of ARO-related provision, the amount of ARO existing at transition date would not be remeasured; rather, the balance of the ARO provision and any related asset will remain as previously measured. The asset will simply be reclassified from property and equipment to the related ROU asset as required under PFRS 16.24(d).

2.2) Assuming there is a change in lease-related assumptions that would impact the ARO measurement (e.g., change in lease term due to the new PFRS 16 requirements), the following will be the accounting treatment depending on the method used by the lessee in adopting PFRS 16:

- a. *Modified retrospective approach* - Under this approach, the lessee uses the remaining lease term to discount back the amount of provision to transition date. Any adjustment is recognized as an adjustment to the ROU asset and ARO provision. This adjustment applies irrespective of which of the two methods in measuring the ROU asset will be chosen under the modified retrospective approach.
- b. *Full retrospective approach* - The ARO provision and related asset, which gets adjusted to the ROU asset, should be remeasured from commencement of the lease, and then amortized over the revised or reassessed lease term. Because full retrospective approach is chosen, it is possible that the amount of cumulative adjustment to the ARO provision and the ROU asset at the beginning of the earliest period presented will not be the same; hence, it is possible that it might impact retained earnings.

The future adoption of the interpretation will have no effect on the Company's financial statements since the Company does not have leased property with any related ARO.

*PIC Q&A No. 2019-09, Accounting for Prepaid Rent or Rent Liability Arising from Straight-lining under PAS 17 on Transition to PFRS 16 and the Related Deferred Tax Effects*

The interpretation aims to provide guidance on the following:

- How a lessee should account for its transition from PAS 17 to PFRS 16 using the modified retrospective approach. Specifically, this aims to address how a lessee should, on transition, account for any existing prepaid rent or rent liability arising from straight-lining of an operating lease under PAS 17, and
- How to account for the related deferred tax effects on transition from PAS 17 to PFRS 16.

The future adoption of the interpretation will have no effect on the Company's financial statements since the Company does not have prepaid rent or rent liability recognized for leased property.

*PIC Q&A No. 2019-10, Accounting for variable payments with rent review*

Some lease contracts provide for market rent review in the middle of the lease term to adjust the lease payments to reflect a fair market rent for the remainder of the lease term. This Q&A provides guidance on how to measure the lease liability when the contract provides for a market rent review.

The future adoption of the interpretation will have no effect on the Company's financial statements since the Company does not enter into any lease agreement.

*PIC Q&A No. 2019-11, Determining the current portion of an amortizing loan/lease liability*

The interpretation aims to provide guidance on how to determine the current portion of an amortizing loan/lease liability for proper classification/presentation between current and non-current in the statement of financial position.

The future adoption of the interpretation will have no effect on the Company's financial statements since the Company does not enter into any lease agreement.

*PIC Q&A No. 2019-12, PFRS 16, Leases – Determining the lease term*

The interpretation provides guidance how an entity determine the lease term under PFRS 16.

A contract would be considered to exist only when it creates rights and obligations that are enforceable. Therefore, any non-cancellable period or notice period in a lease would meet the definition of a contract and, thus, would be included as part of the lease term. To be part of a contract, any option to extend or terminate the lease that are included in the lease term must also be enforceable.

If optional periods are not enforceable (e.g., if the lessee cannot enforce the extension of the lease without the agreement of the lessor), the lessee does not have the right to use the asset beyond the non-cancellable period. Consequently, by definition, there is no contract beyond the non-cancellable period (plus any notice period) if there are no enforceable rights and obligations existing between the lessee and lessor beyond that term.

In assessing the enforceability of a contract, an entity should consider whether the lessor can refuse to agree to a request from the lessee to extend the lease. Accordingly, if the lessee has the right to extend or terminate the lease, there are enforceable rights and obligations beyond the initial noncancellable period and thus, the parties to the lease would be required to consider those optional periods in their assessment of the lease term. In contrast, a lessor's right to terminate a lease is ignored when determining the lease term because, in that case, the lessee has an unconditional obligation to pay for the right to use the asset for the period of the lease, unless and until the lessor decides to terminate the lease.

In assessing whether a lessee is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, an entity shall consider all relevant facts and circumstances (i.e., including those that are not indicated in the lease contract) that create an economic incentive for the lessee to exercise the option to extend the lease, or not to exercise the option to terminate the lease.

The future adoption of the interpretation will have no effect on the Company's financial statements since the Company does not enter into any lease agreement.

*PIC Q&A No. 2019-13, PFRS 16, Leases – Determining the lease term of leases that are renewable subject to mutual agreement of the lessor and the lessee*

The interpretation provides guidance how an entity determine the lease term under PFRS 16. This interpretation focuses on lease contracts that are renewable subject to mutual agreement of the parties.

A renewal option is only considered in determining the lease term if it is enforceable. A renewal that is still subject to mutual agreement of the parties is legally unenforceable under Philippine laws until both parties come to an agreement on the terms.

In instances where the lessee have known to be, historically, renewing the lease contract after securing mutual agreement with the lessor to renew the lease contract, the lessee's right to use the underlying asset does not go beyond the one-year period covered by the current contract, as any renewal still has to be agreed on by both parties. A renewal is treated as a new contract.

The future adoption of the interpretation will have no effect on the Company's financial statements since the Company does not enter into any lease agreement.

#### **4. SIGNIFICANT ACCOUNTING POLICIES**

##### **Financial assets**

##### **Initial recognition and measurement**

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Company commits to purchase or sell the asset.

At initial recognition, the Company measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss (FVTPL), transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs of financial assets and financial liabilities carried at FVTPL.

##### **Classification and subsequent measurement**

The Company classifies its financial assets in the following measurement categories:

- FVTPL
- Fair value through other comprehensive income (FVTOCI); and
- Amortized cost

As at December 31, 2019 and 2018, the Company does not have financial assets classified as FVTOCI.

Classification of financial assets will be driven by the entity's business model for managing the financial assets and the contractual cash flows of the financial assets.

A financial asset is to be measured at amortized cost if: a) the objective of the business model is to hold the financial asset for the collection of the contractual cash flows, and b) the contractual cash flows under the instrument represent solely payment of principal and interest (SPPI).

All other debt and equity instruments, including investments in complex debt instruments and equity investments, must be recognized at fair value.

All fair value movements on financial assets are taken through the statement of comprehensive income, except for equity investments that are not held for trading, which may be recorded in the statement of comprehensive income or in reserves (without subsequent recycling to profit or loss).

#### Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Company classifies its debt instruments:

- Amortized cost. Assets that are held for collection of contractual cash flows where those cash flows represent SPPI are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- FVTPL. Assets that do not meet the criteria for amortized cost are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of comprehensive income within other gains/(losses) in period in which it arises. Interest income from these financial assets is included in finance income.

The business model reflects how the Company manages the assets in order to generate cash flows. That is, whether the Company's objective is solely to collect the contractual cash flows from the assets or to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable, then the financial assets are classified as part of 'other' business model and measured at FVTPL. Factors considered by the Company in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Company assesses whether the financial instruments' cash flows represent SPPI. In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at FVTPL.

#### *Amortized cost and effective interest method*

The effective interest method is a method of calculating the amortized cost of a financial asset and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired (POCI) financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses (ECL), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for any loss allowance.

Interest income is recognized using the effective interest method for debt instruments measured subsequently at amortized cost. For financial instruments other than POCI financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognized by applying the effective interest rate to the amortized cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognized by applying the effective interest rate to the gross carrying amount of the financial asset.

#### Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective, that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Company subsequently measures all equity investments at FVTPL, except where the Company's Management has elected, at initial recognition, to irrevocably designate an equity instrument at FVTOCI. The Company's policy is to designate equity investments as FVTOCI when those investments are held for the purposes other than to generate investment returns. When the election is used, fair value gains and losses are recognized in OCI and are not subsequently reclassified to profit or loss, including disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in profit or loss as other income when the Company's right to receive payment is established.

Changes in the fair value of financial assets at FVTPL are recognized in net realized gains (losses) on investments in the statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

As at December 31, 2019 and 2018, the Company does not have financial assets at FVTOCI.

#### *Impairment of financial assets*

The Company recognizes a loss allowance for ECL on investments in debt instruments that are measured at amortized cost. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

With the exception of POCI financial assets, ECLs are required to be measured through a loss allowance at an amount equal to:

- 12-month ECL, i.e. lifetime ECL that result from those default events on the financial instrument that are possible within 12 months after the reporting date, (referred to as Stage 1); or
- full lifetime ECL, i.e. lifetime ECL that result from all possible default events over the life of the financial instrument, (referred to as Stage 2 and Stage 3).

A loss allowance for full lifetime ECL is required for a financial instrument if the credit risk on that financial instrument has increased significantly since initial recognition. For all other financial instruments, ECLs are measured at an amount equal to the 12-month ECL.

ECLs are a probability-weighted estimate of the present value of credit losses. These are measured as the present value of the difference between the cash flows due to the Company under the contract and the cash flows that the Company expects to receive arising from the weighting of multiple future economic scenarios, discounted at the asset's effective interest rate.

The Company measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. The measurement of the loss allowance is based on the present value of the asset's expected cash flows using the asset's original effective interest rate, regardless of whether it is measured on an individual basis or a collective basis.

The Company recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 month ECL. The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

#### *Significant increase in credit risk*

The Company monitors all financial assets that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk the Company will measure the loss allowance based on lifetime rather than 12-month ECL.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognized. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

Forward-looking information considered includes the future prospects of the industries in which the Company's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Company's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument (e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortized cost);
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Company presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Company has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Company assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

A financial instrument is determined to have low credit risk if:

- it has a low risk of default;
- the borrower is considered, in the short term, to have a strong capacity to meet its obligations; and
- the Company expects, in the longer term, that adverse changes in economic and business conditions might, but will not necessarily, reduce the ability of the borrower to fulfill its obligations.

The Company considers a financial asset to have low credit risk when the asset has external credit rating of 'investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Company regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

#### *Default*

The Company considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Company, in full (without taking into account any collateral held by the Company).

Irrespective of the above analysis, the Company considers that default has occurred when a financial asset is more than 90 days past due unless the Company has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default (PD) which affects both the measurement of ECLs and the identification of a significant increase in credit risk.

#### *Write-off*

The Company writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, such as when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner.

Financial assets written off may still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in profit or loss.

#### Derecognition

The Company derecognizes a financial asset only when the contractual rights to the asset's cash flows expire or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognized in OCI and accumulated in equity is recognized in profit or loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognized in OCI is not subsequently reclassified to profit or loss.

## **Financial Liabilities and Equity Instruments**

### *Classification as debt or equity*

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### *Financial liabilities*

All financial liabilities are measured subsequently at amortized cost using the effective interest method or at FVTPL. Financial liabilities are classified as either financial liabilities 'at FVTPL' or 'other financial liabilities'.

### *Financial liabilities at FVTPL*

Financial liabilities are classified as at FVTPL when the financial liability is (i) held-for-trading, or (ii) it is designated as at FVTPL.

A financial liability is classified as held-for-trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial liabilities at FVTPL are measured at fair value, with any gains/losses arising on remeasurement recognized in profit or loss to the extent that they are not part of a designated hedging relationship. The net gain/loss recognized in profit or loss incorporates any interest paid on the financial liability and is included in profit or loss.

However, for financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognized in OCI, unless the recognition of the effects of changes in the liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. The remaining amount of change in the fair value of liability is recognized in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognized in OCI are not subsequently reclassified to profit or loss; instead, they are transferred to retained earnings upon derecognition of the financial liability.

In making the determination of whether recognizing changes in the liability's credit risk in OCI will create or enlarge an accounting mismatch in profit or loss, the Company assesses whether it expects that the effects of changes in the liability's credit risk will be offset in profit or loss by a change in the fair value of another financial instrument measured at FVTPL. This determination is made at initial recognition.

Since the company does not have financial liabilities classified at FVTPL, all financial liabilities are subsequently measured at amortized cost.

### *Financial liabilities measured subsequently at amortized cost*

Financial liabilities that are not (i) contingent consideration of an acquirer in a business combination, (ii) held-for-trading, or (iii) designated as at FVTPL, are measured subsequently at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

The Company's financial liabilities classified under this category include accrued expenses and other payables and payable to fund manager.

#### *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount reported in the statements of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

A right to offset must be available today rather than being contingent on a future event and must be exercisable by any of the counterparties, both in the normal course of business and in the event of default, insolvency or bankruptcy.

#### *Derecognition of financial liabilities*

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

#### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

#### *Share capital*

Share capital consisting of ordinary shares is classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax. Any excess of proceeds from issuance of shares over its par value is recognized as additional paid-in capital.

#### *Retained earnings*

Retained earnings represent accumulated profit attributable to equity holders of the Company after deducting dividends declared. Retained earnings may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

#### *Repurchase, disposal and reissuance of share capital (treasury shares)*

When share capital recognized as equity is repurchased, the amount of the consideration paid, which includes directly attributable cost, net of any tax effects, is recognized as a reduction from equity. Repurchased shares are classified as treasury shares and are presented in the reserve for own share account. When treasury shares are sold or reissued subsequently, the amount received is recognized as increase in equity, and the resulting surplus or deficit on the transaction is presented as additional paid-in capital.

#### *Deposit for future stock subscriptions*

Deposit for future stock subscriptions is recorded at historical cost. According to Financial Reporting Bulletin (FRB) No. 6 as issued by SEC, it is classified as equity when all of the following criteria are met:

- the unissued authorized capital stock of the entity is insufficient to cover the amount of shares indicated in the contract;
- there is Board of Directors' approval on the proposed increase in authorized capital stock (for which a deposit was received by the Company);
- there is stockholders' approval of said proposed increase; and
- the application for the approval of the proposed increase has been presented for filing or has been filed with the SEC.

Deposit for future stock subscriptions is classified as liability, when the above criteria are not met.

#### **Prepayments**

Prepayments represent expenses not yet incurred but already paid in cash. Prepayments are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit or loss as these are consumed in operations or expire with the passage of time.

Prepayments are classified in the statements of financial position as current asset when the cost of services related to the prepayments are expected to be incurred within one (1) year or the Company's normal operating cycle, whichever is longer. Otherwise, prepayments are classified as non-current assets.

#### **Revenue Recognition**

Income is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be measured reliably. Income is measured at the fair value of the consideration received or receivable and represents amounts receivable for services provided in the normal course of business.

#### *Transaction Price*

The Company considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

#### Dividend income

Dividend income from investments is recognized when the shareholders' rights to receive payments have been established, usually at ex-dividend rate, provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

#### Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

#### Realized gains or losses

Gains or losses arising on the disposal of investments are determined as the difference between the sales proceeds and the carrying amount of the investments and is recognized in profit or loss.

### Fair value gains or losses

Gains or losses arising from changes in fair values of investments are disclosed under the policy on financial assets.

### Other income

Other income is income generated outside the normal course of business and is recognized when it is probable that the economic benefits will flow to the Company and it can be measured reliably.

### **Expense Recognition**

Expenses are recognized in profit or loss when a decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably. Expenses are recognized in profit or loss on the basis of: (i) a direct association between the costs incurred and the earning of specific items of income; (ii) systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association with income can only be broadly or indirectly determined; or, (iii) immediately when an expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify, or cease to qualify, for recognition in the statements of financial position as an asset.

Expenses in the statements of comprehensive income are presented using the function of expense method. Operating expenses are costs attributable to administrative and other business expenses of the Company including management fees and custodianship fees.

### **Fair Value**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such basis.

In addition, for financial reporting purposes, fair value measurements are categorized into Levels 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

### **Related Party Transactions**

A related party transaction is a transfer of resources, services or obligations between the Company and a related party, regardless of whether a price is charged.

Parties are considered related if one party has control, joint control, or significant influence over the other party in making financial and operating decisions. An entity that is a post-employment benefit plan for the employees of the Company and the key management personnel of the Company are also considered to be related parties.

## **Taxation**

Income tax expense represents the sum of the current tax, final tax and deferred tax expense.

### Current tax

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statements of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's current tax expense is calculated using 30% regular corporate income tax (RCIT) rate or 2% minimum corporate income tax (MCIT) rate, whichever is higher.

### Final tax

Final tax expense represents final taxes withheld on interest income from cash in banks, special savings deposits and fixed-income securities and final taxes withheld on proceeds from sale of listed equity securities.

### Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liability is generally recognized for all taxable temporary differences. Deferred tax asset is generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax asset and liability are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax asset and liability are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax asset and liability are offset when there is a legally enforceable right to offset current tax asset against current tax liability and these relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax asset and liability on a net basis.

### Current and deferred taxes for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in OCI or directly in equity, in which case, the current and deferred taxes are also recognized in OCI or directly in equity, respectively.

## **Earnings (Loss) per Share**

The Company computes its basic earnings (loss) per share by dividing profit or loss for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the period.

For the purpose of calculating diluted earnings (loss) per share, profit or loss for the year attributable to ordinary equity holders of the Company and the weighted average number of shares outstanding are adjusted for the effects of deposit for future stock subscriptions which are dilutive potential ordinary shares.

## **Net Asset Value per Share (NAVPS)**

The Company computes its NAVPS by dividing the total net asset value as at the end of the reporting period by the number of issued and outstanding shares and shares to be issued on deposit for future stock subscriptions.

## **Events After the Reporting Period**

The Company identifies events after the end of the reporting period as those events, both favorable and unfavorable, that occur between the end of the reporting period and the date when the financial statements are authorized for issue. The financial statements of the Company are adjusted to reflect those events that provide evidence of conditions that existed at the end of the reporting period. Non-adjusting events after the end of the reporting period are disclosed in the notes to the financial statements when material.

## **5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY**

In the application of the Company's accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

### **Critical Judgments in Applying Accounting Policies**

The following are the critical judgments, apart from those involving estimations, that Management has made in the process of applying the Company's accounting policies that have the most significant effect on the amounts recognized in the financial statements.

#### Business model assessment

Classification and measurement of financial assets depend on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortized cost that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

The Company measures its financial assets at amortized cost if the financial asset qualifies for both SPPI and business model test. The Company's business model is to hold the asset and to collect its cashflows which are SPPI. All other financial assets that do not meet the SPPI and business model test are measured at FVTPL.

As at December 31, 2019 and 2018, the Company's financial assets measured at FVTPL amounted to P3,944,501,467 and P2,930,686,065, as disclosed in Note 8, and financial assets measured at amortized cost amounted to P867,253,748 and P845,898,071, respectively.

#### Significant increase in credit risk

ECL are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. PFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Company takes into account qualitative and quantitative reasonable and supportable forward looking information.

The Company considers a financial instrument to have experienced a significant increase in credit risk when one or more of the qualitative and quantitative criteria have been met as disclosed in Note 20.

As at December 31, 2019 and 2018, the Company's financial instrument measured at amortized cost has not experienced a significant increase in its credit risk.

#### Models and assumptions used

The Company uses various models and assumptions in measuring the fair value of financial assets as well as in estimating ECL. Judgment is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk.

The Company's model and assumptions used in measuring fair value of financial assets and estimating ECL are disclosed in Notes 17 and 20, respectively.

#### Functional currency

Based on the economic substance of the underlying circumstances relevant to the Company, the functional currency of the Company has been determined to be the Philippine peso (PHP). The PHP is the currency of the primary economic environment in which the Company operates. It is the currency being used to report the Company's results of operations.

#### Puttable shares designated as equity instruments

The Company designated its redeemable share capital as equity instruments since the Company's share capital met the criteria specified in PAS 32, *Financial Instruments: Presentation*, to be presented as equity.

A puttable financial instrument includes a contractual obligation for the issuer to repurchase or redeem that instrument for cash or another financial asset on exercise of the put. As an exception to the definition of a financial liability, an instrument that includes such an obligation is classified as an equity instrument if it has met all the following features:

- a. it entitles the holder to a pro rata share of the entity's net assets in the event of the entity's liquidation. The entity's net assets are those assets that remain after deducting all other claims on its assets;
- b. it is in the class of instruments that is subordinate to all other classes of instruments;
- c. all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- d. apart from the contractual obligation for the issuer to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any contractual obligation to deliver cash or another financial asset to another entity, or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the entity, and it is not a contract that will or may be settled in the entity's own equity instruments; and
- e. the total expected cash flows attributable to the instrument over the life of the instrument are based substantially on the profit or loss, the change in the recognized net assets or the change in the fair value of the recognized and unrecognized net assets of the entity over the life of the instrument (excluding any effects of the instrument).

As at December 31, 2019 and 2018, the recognized amount of share capital representing puttable shares in the statements of financial position amounted to P37,303,995 as disclosed in Note 12.

#### **Key Sources of Estimation Uncertainty**

The following are the Company's key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### Probability of default (PD)

PD constitutes a key input in measuring ECL. PD is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

As at December 31, 2019 and 2018, the Company assessed a nil probability of default for all of its financial assets measured at amortized cost.

The assumptions used by the Company in estimating PD is disclosed in Note 20.

#### Loss given default (LGD)

LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

The Company uses portfolio averages from external estimates sourced out from Standard and Poor's (S&P) as the LGD estimates. The categorization of LGD estimates per financial asset measured at amortized cost is disclosed in Note 20.

#### Estimating loss allowance for ECL

The measurement of the ECL allowance for financial assets measured at amortized cost and FVTOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior. Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in Note 20 Credit Risk – ECL measurement, which also sets out the key sensitivities of the ECL to changes in these elements.

A number of significant judgments are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL; and
- Establishing the number and relative weightings of forward-looking scenarios and the associated ECL.

As at December 31, 2019 and 2018, Management believes that the recoverability of the Company's receivables is certain, accordingly, no loss expense was recognized in both years. Accrued interest receivable as at December 31, 2019 and 2018 amounted to P76,993,138 and P56,700,308, respectively, as disclosed in Note 7.

#### Deferred tax asset

The Company reviews the carrying amount at the end of each reporting period and reduces deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. However, there is no assurance that the Company will generate sufficient taxable profit that will allow all or part of its deferred tax asset to be utilized.

Based on Management's expectation of the Company's future taxable income, the Company did not recognize the deferred tax asset as at December 31, 2019 and 2018, as disclosed in Note 18.

#### Determining fair value of investments in debt securities, UITF and special savings deposits as financial assets at FVTPL

The Company carries its investments in traded debt securities and special savings deposits at fair value, which requires the use of accounting estimates and judgment. Since market interest rate is a significant component of fair value measurement, fair value would differ if the Company applied a different set of reference rates in the valuation methodology. Any change in the fair value of these financial assets would affect profit or loss and equity.

As at December 31, 2019 and 2018, the carrying amounts of investments in debt securities, UITF and special savings deposits classified as financial assets at FVTPL amounted to P3,944,501,467 and P2,930,686,065, respectively, as disclosed in Note 8.

## 6. CASH AND CASH EQUIVALENTS

This account consists of:

	2019	2018
Cash in banks	<b>P 43,322,675</b>	P 20,298,379
Cash equivalents	<b>300,600,000</b>	189,100,000
	<b>P343,922,675</b>	P209,398,379

Cash in banks earned interest amounting to P69,806, P74,041 and P19,444 at average rates of 0.16% in 2019, 0.15% in 2018 and 0.21% in 2017, respectively, as disclosed in Note 15.

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. The Company classifies an investment as cash equivalent if that investment has a maturity of three months or less from the date of acquisition.

Cash equivalents earned interest amounting to P9,788,170 P4,494,250 and nil at average rates of 2.10%, 1.36% and nil in 2019, 2018 and 2017, respectively, as disclosed in Note 15.

## 7. ACCRUED INTEREST RECEIVABLE

This account consists of accrued interest on the following:

	2019	2018
Fixed-income securities	<b>P69,986,377</b>	P40,759,196
Corporate loans	<b>6,882,513</b>	8,100,749
Special savings deposits	-	7,758,249
Cash equivalents	<b>124,248</b>	82,114
	<b>P76,993,138</b>	P56,700,308

Collection of interest depends on the scheduled interest payments of each asset held.

## 8. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

This account consists of:

	2019	2018
Investments in fixed-income securities	<b>P3,939,205,862</b>	P2,597,702,128
Investments in UITF	<b>5,295,605</b>	5,104,437
Special savings deposits	-	327,879,500
	<b>P3,944,501,467</b>	P2,930,686,065

Investments in fixed income securities are composed of corporate bonds and treasury notes.

Investments in UITF are placed in universal banks and are redeemable anytime. Special savings deposits have contractual maturity of more than three months.

Interest income earned on fixed-income securities and special savings deposits amounted to P177,986,665 and P4,015,013, respectively, in 2019, P142,607,186 and P10,737,390, respectively, in 2018, and P142,015,440 and P23,203,023, respectively, in 2017, as disclosed in Note 15. Average rates earned on these investments are also disclosed in Note 15.

Net gains or losses on investments recognized in profit or loss arising from financial assets at FVTPL are as follows:

	<b>2019</b>	<b>2018</b>	2017
Net unrealized gains(losses) on investments	<b>P207,046,214</b>	<b>(P104,666,243)</b>	P144,771,847
Net realized gains(losses) on investments	<b>76,064,859</b>	<b>(44,729,964)</b>	(101,033,823)
	<b>P283,111,073</b>	<b>(P149,396,207)</b>	P 43,738,024

The following presents the breakdown of the maturity profile of the principal amounts of special savings deposits and fixed-income securities:

	<b>2019</b>	2018
Due in one year or less	<b>P -</b>	P 327,879,500
Due after one year through five years	<b>1,018,549,960</b>	2,021,815,000
Due after five years through ten years	<b>1,986,478,660</b>	682,028,420
Due after ten years	<b>552,000,000</b>	-
	<b>P3,557,028,620</b>	P3,031,722,920

#### 9. FINANCIAL ASSETS AT AMORTIZED COST

This account consists of:

	<b>2019</b>	2018
Corporate Loans:		
Current	<b>P 1,821,000</b>	P 3,886,000
Non-current	<b>444,516,935</b>	575,913,384
	<b>P446,337,935</b>	P579,799,384

The following are the principal amounts and unamortized discounts:

	<b>2019</b>	2018
Principal amounts	<b>P461,359,000</b>	P605,245,000
Unamortized discounts	<b>(15,021,065)</b>	(25,445,616)
	<b>P446,337,935</b>	P579,799,384

The movements in the debt investments at amortized costs are summarized as follows:

	<b>2019</b>	2018
Balance, January 1	<b>P579,799,384</b>	P322,000,000
Additions	<b>91,059,334</b>	253,490,215
Settlements	<b>(233,886,000)</b>	(2,755,000)
Amortization of discount	<b>9,365,217</b>	7,064,169
	<b>P446,337,935</b>	P579,799,384

Interest income earned from corporate loans amounted to P37,457,493, P34,367,129 and P28,787,900 in 2019, 2018 and 2017, respectively, as disclosed in Note 15. The average interest rates of corporate loans are also disclosed in Note 15.

The following presents the breakdown of maturity profile of the principal amounts of corporate loans:

	<b>2019</b>	2018
Due in one year or less	<b>P 7,446,000</b>	P -
Due after one year through five years	<b>310,619,000</b>	432,500,000
Due after five years through ten years	<b>47,124,000</b>	-
Due after ten years	<b>96,170,000</b>	172,500,000
	<b>P461,359,000</b>	P605,500,000

The Company acquired a new loan from Vista Land and Lifescapes, Inc. in October and December 2019. This is in addition to the existing loans from Angat Hydropower Corporation and Metro Pacific Investments Corporation that carry interest at variable rates. The weighted average interest rate on these securities is 7.43% in 2019 and 7.34% in 2018. The corporate loans have maturity dates ranging between five (5) to fifteen (15) years from the end of the reporting period.

Also, the loan from Petron Corporation was pre-terminated on October 28, 2019. The Company earned P871,875 which is 3.75% of the principal amount of P232,500,000. Total proceeds of the termination amounted to P240,451,843, net of withholding tax.

The counterparties have a minimum B credit rating. None of these assets had been past due or impaired at the end of the reporting periods.

#### **10. ACCRUED EXPENSES AND OTHER PAYABLES**

This account consists of:

	<b>2019</b>	2018
Due to investors	<b>P1,766,742</b>	P 3,846,951
Withholding and documentary stamp taxes	<b>476,962</b>	370,700
Professional fees	<b>255,342</b>	232,064
Custodianship fees	<b>77,699</b>	118,181
Accounts payable – Investment	-	50,523,066
Others	-	204,000
	<b>P2,576,745</b>	P55,294,962

Accounts payable-investment refers to the acquisition of fixed income investments at the end of the reporting period to be settled two days after the transaction date.

Due to investors account pertains to amounts payable to investors for the redemption of their investments processed on or before the reporting period, which are usually paid three days after the transaction date.

Other payables are non-interest bearing and are normally settled within one year.

## 11. RELATED PARTY TRANSACTIONS

In the normal course of business, the Company transacts with companies which are considered related parties under PAS 24, *Related Party Disclosures*.

The details of transactions with related parties and the amounts paid or payable are set out below.

Nature of Transaction	Transactions During the Year			Outstanding Payable		Terms	Condition	Notes
	2019	2018	2017	2019	2018			
SLAMCI - Fund Manager								
Management Distribution and Transfer fees	<b>P 54,174,220</b>	P50,875,012	P79,868,652	<b>P4,895,923</b>	P4,361,018	Non-interest bearing; Annual rate of 1.15% of average daily net assets; settled in cash on or before the 15 <sup>th</sup> day of the following month	Unsecured; unguaranteed	a
Key Management Personnel								
Directors' fees	<b>P 314,615</b>	P 228,689	P 182,750	<b>P -</b>	P -	Payable on Demand; Settled in cash	Unsecured; Unguaranteed	b
Affiliates

Details of the Company's related party transactions are as follows:

### a. Investment Management

The Company appointed SLAMCI as its fund manager, adviser, administrator, distributor and transfer agent that provides management, distribution and all required operational services. Under the Management and Distribution Agreement (MDA), SLAMCI receives aggregate fees for these services at an annual rate of 1.50% (exclusive of VAT) of the net assets attributable to shareholders on each valuation day. Moreover, under the Transfer Agency Agreement, SLAMCI receives aggregate fees for these services at an annual rate of 0.15% (exclusive of VAT) of the net assets attributable to shareholders on each valuation day.

On January 1, 2018, the Company and SLAMCI made amendments to their agreement changing the fee rate of management, distribution and transfer fees from 1.65% to 1.15%. The agreements shall remain in effect for a period of 2 years from such date and shall continue in effect from year to year as approved by the respective Board of Directors of the Company and SLAMCI.

On September 18, 2018, the Company and SLAMCI amended its MDA and Transfer Agency Agreement based on the provisions of ICA 2018 IRR (Implementing Rules and Regulations of the Investment Company Act 2018) published by the SEC (Securities and Exchange Commission) on January 11, 2018. The agreements shall remain in effect for a period of 2 years from September 18, 2018 and shall continue in effect from year to year as approved by the respective Board of Directors of the Company and SLAMCI.

## b. Remuneration of Directors

Remuneration of directors presented in the statements of comprehensive income under "Directors' Fees" account amounted to P314,615, P228,689, and P182,750 in 2019, 2018 and 2017, respectively, which are usually paid to Directors based on the meetings held and attended. Accrued directors' fees as at December 31, 2019 and 2018 amounting to nil and nil, respectively, is shown under "Accrued expenses and other payables" in the statements of financial position.

Except for the Board of Directors, the Company has no key management personnel and employees. Pursuant to the Company's MDA with SLAMCI, the latter provides all the staff of the Company, including executive officers and other trained personnel.

## c. Purchase and Sale of Investments

These types of transactions are buy and sell of the same security between portfolios of two separate affiliated legal entities of and whose assets are managed by Investments Department. Portfolio Managers determine that this is appropriate and in the best interest of certain portfolios and ensure that the trade will be executed in a manner that is fair and equitable to both parties involved in the cross trade.

## 12. EQUITY

Movements of share capital are as follows:

	2019		2018		2017	
	Shares	Amount	Shares	Amount	Shares	Amount
Authorized:						
At P0.01 par value	3,800,000,000	P 38,000,000	3,800,000,000	P 38,000,000	3,800,000,000	P 38,000,000
Issued and fully paid:						
At December 31	3,730,399,542	P 37,303,995	3,730,399,542	P 37,303,995	3,730,399,542	P 37,303,995
Treasury shares:						
At January 1	2,377,338,124	P6,524,032,560	2,168,377,618	P5,941,345,991	2,072,592,030	P5,677,024,951
Acquisition	367,853,987	1,092,542,520	404,182,272	1,117,593,426	380,868,005	1,045,188,655
Reissuance	(584,302,058)	(1,603,476,431)	(195,221,766)	(534,906,857)	(285,082,417)	(780,867,615)
At December 31	2,160,890,053	P6,013,098,648	2,377,338,124	P6,524,032,560	2,168,377,618	P5,941,345,991

Fully paid ordinary shares with a par value of P 0.01 carry one vote per share and a right to dividends.

### *Incorporation*

The Company was incorporated on January 19, 2000 with 200,000,000 authorized shares at an initial par value of P1.00 per share.

### *Approved changes*

On December 4, 2000, the Board of Directors and the shareholders held a special meeting where all present unanimously voted to increase the Company's authorized share capital by 300,000,000 (from 200,000,000 shares to 500,000,000 shares both with par value of P1.00), which was approved by the SEC on March 30, 2001.

On May 21, 2001, approval was obtained from the shareholders for the blanket increase of the Company's authorized share capital for up to P2,500,000,000 divided into 2,500,000,000 shares with a par value of P1.00.

Also, on May 21, 2001, the Board of Directors voted to increase the Company's authorized share capital by 200,000,000 shares (from 500,000,000 shares to 700,000,000 shares both with par value of P1.00), which was approved by the SEC on July 27, 2001.

On October 10, 2001, the Board of Directors approved to increase the Company's authorized share capital by 200,000,000 shares (from 700,000,000 shares to 900,000,000 shares both with par value of P1.00), which was approved by the SEC on December 21, 2001.

On May 29, 2002, the Board of Directors voted to increase the Company's authorized share capital by 1,600,000,000 shares (from 900,000,000 shares to 2,500,000,000 shares both with par value of P1.00), which was approved by the SEC on July 05, 2002.

On January 07, 2004, the SEC approved the Company's request to increase its authorized share capital by 1,300,000,000 shares (from 2,500,000,000 shares to 3,800,000,000 shares both with par value of P1.00).

On February 17, 2006 and June 28, 2013, the Board of Directors and shareholders, respectively, approved the reduction of the par value per share from P1.00 to P0.01. The SEC approved the change in the par value on May 27, 2014. On October 24, 2014, the application to amend the Registration Statement to reflect the change in par value per share was filed with the SEC. Said application was approved by the SEC on April 20, 2015.

*Current state*

As at December 31, 2019, the Company has 3,800,000,000 authorized and registered shares with a par value of P0.01 per share.

The annual summary of the transactions of the Company's outstanding shares is as follows:

Year	NAVPS, end	Issuances	Redemptions	Balances
2012	P2.5450	1,014,522,266	(927,714,853)	2,065,761,726
2013	P2.6705	1,431,270,567	(1,071,818,764)	2,425,213,529
2014	P2.7009	309,126,719	(552,651,314)	2,181,688,934
2015	P2.7023	281,387,830	(613,194,678)	1,849,882,086
2016	P2.6879	282,737,429	(474,812,003)	1,657,807,512
2017	P2.7770	285,082,417	(380,868,005)	1,562,021,924
2018	P2.7658	195,221,766	(404,182,272)	1,353,061,418
2019	P3.0740	584,302,058	(367,853,987)	1,569,509,489

The total number of shareholders as at December 31, 2019, 2018 and 2017 are 12,080, 10,477 and 10,023, respectively.

*Redeemable shares*

Redeemable shares carry one vote each, and are subject to the following:

a. Distribution of dividends

Each shareholder has a right to any dividends declared by the Company's Board of Directors and approved by 2/3 of its outstanding shareholders.

b. Denial of pre-emptive rights

No shareholder shall, because of his ownership of the shares, have a pre-emptive or other right to purchase, subscribe for, or take any part of shares or of any other securities convertible into or carrying options or warrants to purchase shares of the registrant.

c. Right of redemption

The holder of any share, upon its presentation to the Company or to any of its duly authorized representatives, is entitled to receive, by way of redemption, approximately his proportionate share of the Company's current net assets or the cash equivalent thereof. Shares are redeemable at any time at their net assets value less any applicable sales charges and taxes.

### 13. ADDITIONAL PAID-IN CAPITAL

Additional paid-in capital of P7,187,248,627, P7,044,804,847 and P7,040,221,799 as at December 31, 2019, 2018 and 2017, respectively, pertains to excess payments over par value from investors, reissuance of treasury shares and reduction in par value.

### 14. NET ASSET VALUE PER SHARE (NAVPS)

NAVPS is computed as follows:

	Note	2019	2018
Total equity		<b>P4,827,133,525</b>	P3,742,310,741
Outstanding shares	12	<b>1,569,509,489</b>	1,353,061,418
		<b>P 3.0756</b>	P 2.7658

NAVPS is based on issued, outstanding and fully paid shares. The expected cash outflow on the redemption of these shares is equivalent to computed NAVPS as at reporting period.

### 15. INTEREST INCOME

This account consists of interest income on the following:

	Notes	2019	2018	2017
Fixed-income securities	8	<b>P177,986,665</b>	P142,607,186	P142,015,440
Corporate loans	9	<b>37,457,493</b>	34,367,129	28,787,900
Special savings deposits designated as financial assets at FVTPL	8	<b>4,015,013</b>	10,737,390	23,203,023
Cash equivalents	6	<b>9,788,170</b>	4,494,250	-
Cash in banks	6	<b>69,806</b>	74,041	19,444
		<b>P229,317,147</b>	P192,279,996	P194,025,807

Interest income from treasury notes and bonds, special savings deposits and cash in banks are recorded gross of final withholding tax which is shown as part of "Income Tax Expense" account in the statements of comprehensive income.

Average interest rates of investments in 2019, 2018 and 2017 are as follows:

	2019	2018	2017
Fixed-income securities	<b>6.36%</b>	5.30%	10.83%
Corporate loans	<b>6.71%</b>	7.49%	7.26%
Special savings deposits	<b>4.47%</b>	4.43%	0.99%
Cash equivalents	<b>2.10%</b>	1.36%	-
Cash in banks	<b>0.16%</b>	0.15%	0.21%

Interest income earned on financial assets, analyzed by category, is as follows:

	Notes	2019	2018	2017
Financial assets at FVTPL	8	<b>P182,001,678</b>	P153,344,576	P172,259,963
Loan receivable	9	<b>37,457,493</b>	34,367,129	21,746,400
Cash and cash equivalents	6	<b>9,857,976</b>	4,568,291	19,444
		<b>P229,317,147</b>	P192,279,996	P194,025,807

## 16. EARNINGS (LOSS) PER SHARE

The calculation of the basic and diluted earnings (loss) per share is based on the following data:

	2019	2018	2017
Total comprehensive income for the year	<b>P431,445,092</b>	(P17,252,571)	P141,672,020
Weighted average number of issued and outstanding shares	<b>1,416,934,987</b>	1,441,086,988	1,578,524,038
Basic earnings (loss) per share	<b>P 0.304</b>	(P 0.012)	P 0.090

As at December 31, 2019, 2018 and 2017, the Company has no dilutive potential ordinary shares.

## 17. FAIR VALUE OF FINANCIAL INSTRUMENTS

*Assets and liabilities measured at fair value on a recurring basis*

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into levels 1 to 3 based on the degree to which the inputs to fair value are observable.

	Note	Level 1	Level 2	Total
<b>December 31, 2019</b>				
Fixed-income securities	8	<b>P3,939,205,862</b>	P -	<b>P3,939,205,862</b>
Investment in UITF	8	<b>5,295,605</b>	-	<b>5,295,605</b>
		<b>P3,944,501,467</b>	<b>P -</b>	<b>P3,944,501,467</b>
December 31, 2018				
Fixed-income securities	8	P2,597,702,128	P -	P2,597,702,128
Investment in UITF	8	5,104,437	-	5,104,437
Special savings deposits	8	-	327,879,500	327,879,500
		P2,602,806,565	P327,879,500	P2,930,686,065

The fair values of the special savings deposits are based on discounted cash flow analysis using prevailing market interest rates.

UITFs are valued at their published Net Assets Values Per Unit (NAVPU) as at reporting date.

The fair values of fixed-income securities classified as Level 1 are based on quoted prices of either done deals or bid rates while the fair value of fixed-income securities classified as Level 2 are based on interpolated yields derived from benchmark reference rates.

No transfers in fair value hierarchy were made as at December 31, 2019 and 2018. Total unrealized gain or loss on investments relating to financial assets that are measured at fair value at the end of the reporting period are presented separately in the statements of comprehensive income and disclosed in Note 8.

*Financial assets and liabilities not measured at fair value*

The following financial assets and financial liabilities are not measured at fair values on recurring basis but the fair value disclosure is required:

	Notes	Carrying Amounts	Fair Values		
			Level 1	Level 2	Total
<b>December 31, 2019</b>					
<b>Financial Assets</b>					
Cash in banks	6	P 43,322,675	P 43,322,675	P -	P 43,322,675
Cash equivalents	6	300,600,000	-	300,600,000	300,600,000
Accrued interest receivable	7	76,993,138	-	76,993,138	76,993,138
Corporate loans	9	446,337,935	-	469,265,274	469,265,274
		<b>P867,253,748</b>	<b>P 43,322,675</b>	<b>P846,858,412</b>	<b>P890,181,087</b>
<b>Financial Liabilities</b>					
Accrued expenses and other payables	11	P2,099,783	P -	P2,099,783	P2,099,783
Payable to fund manager	12	4,895,923	-	4,895,923	4,895,923
		<b>P6,995,706</b>	<b>P -</b>	<b>P6,995,706</b>	<b>P6,995,706</b>
<b>December 31, 2018</b>					
<b>Financial Assets</b>					
Cash in banks	6	P 20,298,379	P20,298,379	- -	P 20,298,379
Cash equivalents	6	189,100,000	-	189,100,000	189,100,000
Accrued interest receivable	7	56,700,308	-	56,700,308	56,700,308
Corporate loans	9	579,799,384	-	578,565,796	578,565,796
		<b>P845,898,071</b>	<b>P20,298,379</b>	<b>P824,366,104</b>	<b>P844,664,483</b>
<b>Financial Liabilities</b>					
Accrued expenses and other payables	10	P54,924,262	P -	P54,924,262	P54,924,262
Payable to fund manager	11	4,361,018	-	4,361,018	4,361,018
		<b>P59,285,280</b>	<b>P -</b>	<b>P59,285,280</b>	<b>P59,285,280</b>

The difference between the carrying amount of accrued expenses and other payables disclosed in the statements of financial position and the amount disclosed in this note pertains to withholding and documentary stamp taxes that are not considered financial liabilities.

Cash and cash equivalents, accrued interest receivable, payable to fund manager and accrued expenses and other payables have short-term maturities, hence, their carrying amounts are considered their fair values.

The fair value of loans receivable was determined based on the discounted cash flow analysis using domestic banks' average lending rates of 6.54% and 7.02% for 2019 and 2018, respectively.

## 18. INCOME TAXES

Details of income tax expense are as follows:

	2019	2018	2017
Final tax	<b>P24,019,979</b>	P6,305,916	P11,644,824
MCIT	<b>1,153,852</b>	924,084	803,470
	<b>P25,173,831</b>	<b>P7,230,000</b>	<b>P 12,448,294</b>

The reconciliation between tax expense (benefit) and the product of accounting profit (loss) multiplied by 30% is as follows:

	<b>2019</b>	2018	2017
Accounting profit (loss) before tax	<b>P456,618,923</b>	(P10,022,571)	P154,120,314
Tax expense (benefit) at 30%	<b>P136,985,677</b>	(P 3,006,771)	P 46,236,094
Adjustment for income subject to lower tax rate	<b>(25,715,476)</b>	(35,300,487)	(33,511,336)
Tax effects of :			
Unrecognized Net Operating Loss Carry-Over (NOLCO)	<b>(2,316,900)</b>	(205,688)	12,041,473
Unrecognized MCIT	<b>1,153,852</b>	924,084	803,470
Net realized losses (gains) on investment	<b>(22,819,458)</b>	13,418,989	30,310,147
Net unrealized fair value (gains) losses on investments	<b>(62,113,864)</b>	31,399,873	(43,431,554)
	<b>P 25,173,831</b>	P 7,230,000	P 12,448,294

Details of the Company's NOLCO are as follows:

Year Incurred	Year of Expiry	2018 Balance	Applied Current Year	Expired	Unapplied
2016	2019	P 61,592,815	(P7,723,001)	P(53,869,814)	P -
2017	2020	40,138,244	-	-	40,138,244
		P101,731,059	(P7,723,001)	P(53,869,814)	P40,138,244

Details of MCIT are as follows:

Year Incurred	Year of Expiry	2018 Balance	Addition	Expired	2019 Balance
2016	2019	P 345,306	P -	(P345,306)	P -
2017	2020	803,470	-	-	803,470
2018	2021	924,084	-	-	924,084
2019	2022	-	1,153,852	-	1,153,852
		P2,072,860	P1,153,852	(P345,306)	P2,881,406

Deferred tax on NOLCO and MCIT was not recognized since Management believes that future taxable income will not be available against which the deferred tax can be utilized.

The Company's interest income from special savings deposits, fixed-income securities and cash in banks are already subjected to final withholding tax and are therefore excluded from the computation of taxable income subject to RCIT or MCIT.

## 19. CONTINGENCY

The Company has no pending legal cases as at December 31, 2019 and 2018 that may have a material effect on the Company's financial position and results of operations.

## 20. FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: market risk, which includes interest rate and equity price risks; credit risk and liquidity risk. The Fund Manager exerts best efforts to anticipate events that would negatively affect the value of the Company's assets and takes appropriate actions to counter these risks. However, there is no guarantee that the strategies will work as intended. The policies for managing specific risks are summarized below.

### Market risk

The Company's activities expose it primarily to the financial risks of changes in interest rates and movements in NAVPU of investments in UITF. There has been no change in the manner in which the Company manages and measures the risk.

### *Interest rate risk*

Interest rate risk refers to the possibility that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest.

The primary source of the Company's interest rate risk relates to cash in banks, loan receivable, special savings deposits and fixed-income securities. Interest rates of the financial assets are disclosed in Notes 6 and 15.

The risk is managed by the Fund Manager by actively monitoring the prevailing interest rate environment. The duration of the portfolio is reduced during periods of rising rates and widening credit spreads to maximize interest income potential. Conversely, the same is increased during periods of falling rates and narrowing credit spreads.

A 50 basis points increase or decrease in the interest rates had been determined for sensitivity analysis based on the exposure to interest rates for financial assets at FVTPL and loan receivable at the end of each reporting period. The same is used for reporting interest rate risk internally to key management personnel and represents Management's assessment of the reasonable effect of the maximum possible movement in interest rates.

The following table details the increase or decrease in net income after tax if interest rates had been 50 basis points higher or lower and all other variables are held constant for the years ended 2019, 2018 and 2017:

<b>Change in Interest rates</b>	<b>Increase (Decrease) in Net Profit/Equity</b>		
	<b>2019</b>	2018	2017
+ 50 basis	<b>(P 98,016,192)</b>	(P37,623,160)	(P62,623,723)
-50 basis	<b>102,225,092</b>	38,550,288	63,920,518

In Management's opinion, the sensitivity analysis is unrepresentative of the inherent interest rate risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

### *Equity price risk*

The Company is exposed to equity price risks arising from investments in UITF.

The risk is managed by the Fund Manager by actively monitoring the movements in NAVPU of investments in UITF.

Based on the exposure to equity price risk at the end of each reporting period, if NAVPU of investments in UITF had been 2% higher or lower, profit or loss would have increased or decreased by P104,548 in 2019, P100,774 in 2018 and nil in 2017.

Other than interest and equity price risks discussed above, there are no other market risks which significantly affect the Company's performance.

In Management's opinion, the sensitivity analysis is unrepresentative of the inherent interest rate risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

### Credit risk

Credit risk refers to the possibility that the counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of dealing only with creditworthy counterparties, as a means of mitigating the risk of financial loss from defaults, and transacts only with entities that are rated with equivalent of investment grade of "High" down to "Satisfactory". This information is supplied by independent rating agencies, when available. If the information is not available, the Company uses other publicly available financial information and its own trading records to rate its major counter-parties. The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The carrying amounts of financial assets recorded in the financial statements represent the Company's maximum exposure to credit risk:

	<b>Notes</b>	<b>2019</b>	<b>2018</b>
Cash in banks	6	<b>P 43,322,675</b>	P 20,298,379
Cash equivalents	6	<b>300,600,000</b>	189,100,000
Financial assets at FVTPL	8	<b>3,944,501,468</b>	2,930,686,065
Accrued interest receivable	7	<b>76,993,138</b>	56,700,308
Financial assets at amortized cost	9	<b>446,337,935</b>	579,799,384
		<b>P4,811,755,216</b>	P3,776,584,136

### *ECL measurement*

In 2019 and 2018, ECLs are a probability-weighted estimate of credit losses (i.e. the present value of all cash shortfalls) over the expected life of the financial instrument.

PFRS 9 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition. The Company's current credit risk grading framework comprises the following categories:

<b>Category</b>	<b>Description</b>	<b>Basis for recognizing expected credit losses</b>
Stage 1	The counterparty has a low risk of default and does not have any past-due amounts or that the financial instrument is not credit-impaired on initial recognition	12m ECL
Stage 2	There has been a significant increase in credit risk since initial recognition but not yet deemed to be credit-impaired	Lifetime ECL - not credit-impaired
Stage 3	There is evidence indicating that the debtor is in severe financial difficulty and the Company has no realistic prospect of recovery or that the financial instrument is credit-impaired	Lifetime ECL - credit-impaired

### *Measuring ECL – Explanation of inputs, assumptions and estimation techniques*

The ECL is determined by projecting the PD, LGD and exposure at default (EAD) for each future month and for each individual exposure or collective segment. These three components are multiplied together and adjusted for the likelihood of survival (i.e. the exposure has not prepaid or defaulted in an earlier month). This effectively calculates an ECL for each future month, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio and credit grade band. This is supported by historical analysis.

Given that the Company currently has no history of default on their portfolio, a model which incorporates internal default experience is not feasible. For the 12M and Lifetime PD, the Company use external benchmarking of current internal credit ratings to S&P's using one-year transition matrices in S&P's Annual Global Corporate Default Study and Rating Transition reports. From the transition matrices, cumulative PDs are identified. The overall PD for a specific time horizon is calculated from the cumulative PD, by determining the marginal PD and taking the conditional PD given that it has not yet defaulted prior to the said time horizon. The resulting overall PDs are the values that will act as components in ECL calculation. The Lifetime PD is developed by analysis of the transition matrices over the maximum life of active loans, which is 15 years.

The table below summarizes the current internal credit rating equivalence system of the Company.

Summary rating	Internal credit rating	S&P rating
High	AAA	AAA
High	AAA	AA
High	AAA	A
High	AAA	BBB
Satisfactory	AA	BB
Acceptable	B	B
Low	CCC/C	CCC/C

The 12M and lifetime EADs are determined based on the contractual repayments owed by the borrower over the 12month or lifetime basis. This will also be adjusted for any expected overpayments made by the borrower. The Company does not have an undrawn component for any of its debt instruments.

For the 12M and lifetime LGDs, considering the availability of related information, the Company use the external estimates sourced from S&P's. The table below summarizes the LGD value for each category of financial assets at amortized cost.

Category	LGD value
Loans	22.50%

*Forward-looking information incorporated in the ECL models*

The assessment of significant increase in credit risk and the calculation of ECL both incorporate forward-looking information. The Company has performed historical analysis and identified the key economic variables impacting credit risk and expected credit losses for each portfolio. The Company assessed that the key economic variables are gross domestic product (GDP) and unemployment rates.

These economic variables and their associated impact on the PD, EAD and LGD vary by financial instrument. Expert judgment has also been applied in this process. Forecasts of these economic variables (the "base economic scenario") are based on the economic data from the International Monetary Fund (IMF) from year 2017 until 2022. The impact of these economic variables on the PD, EAD and LGD has been determined by performing statistical regression analysis to understand the impact changes in these variables have had historically on default rates and on the components of EAD and LGD.

In addition to the base economic scenario, the best value economically spanning from the historical years is taken (upside forecasts). A similar approach applies for the downside forecasts. The scenario weightings are determined by a combination of statistical analysis and expert credit judgement, taking account of the range of possible outcomes each chosen scenario is representative of. The per-scenario Forward Looking Adjustments were assigned probability weights of 50% for the base scenario, and 25% for each of the upside and downside forecast.

As with any economic forecasts, the projections and likelihoods of occurrence are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected. The Company considers these forecasts to represent its best estimate of the possible outcomes and has analyzed the non-linearities and asymmetries within the Company's different portfolios to establish that the chosen scenarios are appropriately representative of the range of possible scenarios.

The following table details the credit quality of the Company's financial assets and other items, as well as the Company's maximum credit exposure to credit risk by credit risk rating grades as at December 31, 2019 and 2018:

	Notes	Credit rating	Category	12m or lifetime ECL?	Gross carrying amount	Loss allowance	Net carrying amount
<b>2019</b>							
Cash in banks	6	AAA	Stage 1	12m	P 43,322,675	P -	P 43,322,675
Cash equivalents	6	AAA	Stage 1	12m	300,600,000	-	300,600,000
Corporate loans	9	AA	Stage 1	12m	446,337,935	-	446,337,935
Accrued interest receivable	7	AAA	Stage 1	12m	76,993,138	-	76,993,138

					<b>P845,898,071</b>	<b>P -</b>	<b>P845,898,071</b>

### Liquidity risk

Liquidity risk arises when the Company encounters difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The Company aims to maintain an appropriate level of liquidity which means having sufficient liquidity to be able to meet all obligations promptly under foreseeable adverse circumstances, while not having excessive liquidity.

The Company maintains at least ten percent of the fund in liquid/semi-liquid assets in the form of cash in banks and special savings deposits, investment in UITF, government debt securities, accrued interest receivable, and other collective schemes wholly invested in liquid/semi-liquid assets to assure necessary liquidity. This is also in compliance to SEC Circular 12 series of 2013, Amendments to ICA Rule 35-1.

The Fund Manager manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The following table details the Company's remaining contractual maturity for its non-derivative financial liabilities. The table had been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

	Less than One Month	One Month to One Year	Total
<b>2019</b>			
Accrued expenses and other payables	<b>P1,766,742</b>	<b>P333,041</b>	<b>P2,099,783</b>
Payable to fund manager	<b>4,895,923</b>	<b>-</b>	<b>4,895,923</b>
	<b>P6,662,665</b>	<b>P333,041</b>	<b>P6,995,706</b>
<b>2018</b>			
Accrued expenses and other payables	P54,370,017	P554,245	P54,924,262
Payable to fund manager	4,361,018	-	4,361,018
	<b>P58,731,035</b>	<b>P554,245</b>	<b>P59,285,280</b>

The difference between the carrying amount of accrued expenses disclosed in the statements of financial position and the amount disclosed in this note pertains to taxes that are not considered financial liabilities.

The following table details the Company's expected maturity for its financial assets. The table had been drawn up based on the contractual maturities of the financial assets including interest that will be earned on those assets, except when the Company anticipates that the cash flows will occur in a different period.

	Average Effective Interest Rate	Less than One Year	One Year to Five Years	Five Years to Ten Years	More than Ten Years	Total
<b>2019</b>						
Cash in banks	0.16%	P 43,322,675	P -	P -	P -	P 43,322,675
Cash equivalents	2.10%	300,600,000	-	-	-	300,600,000
Financial assets at FVTPL	6.36%	527,579,823	1,775,363,365	2,588,414,116	890,300,384	5,781,657,688

Corporate loans	6.71%	23,757,446	417,631,781	80,176,559	112,332,419	633,898,205
		<b>P972,253,082</b>	<b>P2,192,995,146</b>	<b>P2,668,590,675</b>	<b>P1,002,632,803</b>	<b>P6,836,471,706</b>
<b>2018</b>						
Cash in banks	0.15%	P 20,298,379	P -	P -	P -	P 20,298,379
Cash equivalents	1.36%	189,100,000	-	-	-	189,100,000
Financial assets at FVTPL	5.30%	476,383,961	2,379,987,735	798,666,578	-	3,655,038,274
Accrued interest receivable		56,700,308	-	-	-	56,700,308
Corporate loans	7.49%	33,588,800	538,418,083	78,487,121	143,177,796	793,671,800
		<b>P776,071,448</b>	<b>P2,918,405,818</b>	<b>P 877,153,699</b>	<b>P 142,177,796</b>	<b>P4,714,808,761</b>

The Company expects to meet its obligations from operating cash flows and proceeds from maturing financial assets and sale of financial assets at FVTPL.

## 21. CAPITAL RISK MANAGEMENT

The Fund Manager manages the Company's capital to ensure that the Company will be able to continue as a going concern while maximizing returns to stakeholders through the optimization of the mix of high-quality debt securities from domestic issuers.

The Company is guided by its Investment Policies and Legal Limitations. All the proceeds from the sale of shares, including the original subscription payments at the time of incorporation constituting the paid in capital, is held by the pertinent custodian banks.

The capital structure of the Company consists of issued capital as disclosed in Note 12.

The Fund Manager manages the Company's capital and NAVPS, as disclosed in Notes 12, 13, and 14 to ensure that the Company's net asset value remains competitive and appealing to prospective investors.

The Company is also governed by the following fundamental investment policies:

- It does not issue senior securities;
- It does not intend to incur any debt or borrowing. In the event that borrowing is necessary, it can do so only if at the time of its incurrence or immediately thereafter there is asset coverage of at least 300% for all its borrowings;
- It does not participate in any underwriting or selling group in connection with the public distribution of securities, except for its own share capital;
- It generally maintains a diversified portfolio. Industry concentrations may vary at any time depending on the investment manager's view on the prospects;
- It does not invest directly in real estate properties and developments;
- It does not purchase or sell commodity futures contracts;
- It does not engage in lending operations to related parties such as the members of the Board of Directors, officers of the Company and any affiliates, or affiliated corporations of the Company;
- The asset mix in each type of security is determined from time to time, as warranted by economic and investment conditions; and
- It does not change its investment objectives without the prior approval of a majority of its shareholders.

The Investment Policies refer to the following:

- a. Investment Objective - to provide regular interest income and principal preservation through investments in government and high quality corporate debt securities.
- b. Benchmark - the fund's performance is measured against 95% Bloomberg Sovereign Bond Index 1 to 5 Year and 5% 30-day special savings deposits.
- c. Asset Allocation Range - the Company allocates its funds available for investments among cash and other deposit substitutes and fixed-income securities on certain proportion as approved by Management.

Other matters covered in the investment policy include the fees due to be paid to the Fund Manager with management and distribution fees at an annual rate of 1.15% of the net assets attributable to shareholders on each valuation day.

As at December 31, 2019 and 2018, the Company is in compliance with the above requirements and minimum equity requirement of the SEC of P50,000,000.

The equity ratio at the year-end is as follows:

	2019	2018
Equity	P4,827,133,525	P3,742,310,741
Total assets	4,834,606,193	3,801,966,721
Equity ratio	0.9985:1	0.9843:1

Management believes that the above ratios are within the acceptable range.

## 22. SUPPLEMENTARY INFORMATION REQUIRED BY THE BUREAU OF INTERNAL REVENUE (BIR) UNDER REVENUE REGULATIONS NO. 15-2010

The following information on taxes and license fees paid or accrued during the 2019 taxable year is presented for purposes of filing with the BIR and is not a required part of the basic financial statements.

### *Documentary stamp tax*

Documentary stamp taxes incurred by the Company during 2019 amounted to P412,231 representing taxes in connection with the issuance of stock certificates by the Company to its shareholders. The documentary stamp tax being paid by the Company to the BIR includes those charged against the shareholders' investment for stock certificate issuances in excess of four inter-fund transfers per calendar year.

### *Other taxes and licenses*

Details of other taxes and licenses and permit fees paid or accrued in 2019 are as follows:

<b>Charged to Operating Expenses</b>	
Permit fees	P712,129
Residence or community tax	500
Registration and filing fees	33,075
Others	1,442
	<b>P747,146</b>

### *Withholding taxes*

Withholding taxes paid and accrued and/or withheld consist of:

	Paid	Accrued	Total
Expanded withholding taxes	P 4,468,736	P436,843	P4,905,579

**23. APPROVAL OF FINANCIAL STATEMENTS**

The financial statements of the Company were reviewed and endorsed by the Audit and Compliance Committee for the approval of the Board of Directors on March 10, 2020.

The Board of Directors approved the issuance of the financial statements on March 10, 2020.

## INDEPENDENT AUDITORS' REPORT ON SUPPLEMENTARY SCHEDULES

To the Board of Directors and Shareholders  
SUN LIFE OF CANADA PROSPERITY BOND FUND, INC.  
(An Open-end Investment Company)  
Sun Life Centre, 5<sup>th</sup> Avenue corner Rizal Drive  
Bonifacio Global City, Taguig City

We have audited the financial statements of Sun Life of Canada Prosperity Bond Fund, Inc. (the "Company") as at December 31, 2019 and 2018 and for the years ended December 31, 2019, 2018 and 2017 in accordance with Philippine Standards on Auditing, on which we have rendered an unqualified opinion dated March 10, 2020.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information on the attached schedule showing the reconciliation of the retained earnings available for dividend declaration and other supplementary information shown in Schedules A-G as at and for the year ended December 31, 2019, as required by the Securities and Exchange Commission under Revised SRC Rule 68, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such supplementary information is the responsibility of Management and has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
