Current state

DFFS received in cash amounting to \$172,283,949, \$79,443,982 and \$25,749,746 as at December 31, 2021, 2020 and 2019, respectively, were classified as equity since the Company has met all of the conditions required for such recognition.

As at December 31, 2021, the Company has 11,984,169 issued and outstanding shares out of the 12,000,000 ACS with a par value of P1.00 per share.

The Fund's common shares are available through SLAMCI's registered representatives and eligible securities dealers that have entered into an agreement with SLAMCI to sell shares.

The Fund is part of the sixteen (16) Sun Life Prosperity Funds which offer excellent value to investors as a result of SLAMCI's collective experience in fund management, strong investment philosophy, remarkable investment performance and strong organizational structure. However, it should be noted that past performance of any fund manager is no guarantee of future results. It is only an indication of their capabilities to deal with rapid changes in the economy and market conditions in the future.

The Sun Life Prosperity Funds make investing simple, accessible and affordable. The Sun Life Prosperity Funds offer a unique "family of funds" to choose from. The "family of funds" concept allows investors to modify their investment strategies over time, by letting them transfer from one fund to another, as their needs dictate, as much as ten times a year without paying documentary stamp taxes.

The financial statements have been prepared on the historical cost basis, except for financial assets carried either at fair value or at amortized cost. From January 1, 2018, the Fund has applied PFRS 9 and classifies its financial assets at fair value through profit or loss and at amortized cost. The Fund does not have financial assets classified as fair value through other comprehensive income. Fair value movements on financial assets are taken through the statement of comprehensive income. The change to marked-to-market thus provides equitable treatment between investors coming in and out of the Fund.

The Fund principally competes directly with other mutual funds in the Philippines and with the Unit Investment Trust Funds ("UITFs") offered by commercial banks, in terms of returns and the associated risks of the return. The Fund's market strength is its wide distribution network that provides strategic distribution of Fund shares and the financial stability and reputation of its Investment Company

Adviser, SLAMCI. The Fund intends to compete principally based on the reputation of SLAMCI for superior investment performance and corporate governance coupled with its distribution network and superior backroom operations.

The Fund participates in the mutual funds sector, which is a sub-sector of the financial services industry. There are no national geographical boundaries as the nature of the industry and prevailing technology make it possible for the various players to offer their services to almost any place in the country.

There are many potential advantages to investing in mutual funds and in the Offer Shares. However, in deciding to invest, the investor is strongly advised to also consider the risks involved in investing in mutual funds, and in the Offer Shares, as well as the risks that the Fund faces, given its underlying assets whose respective values essentially affect the Fund's overall net asset value.

Market Risk: Interest Rate Risk is a type of Market Risk which is applicable to the Fund's investments in bonds, if any. This refers to the increase/decrease of a bond price due to movement in market factors such as changes in interest rates. A change in interest rates is the period when interest rates rise or fall thus causing the decline or increase in the market price of the bonds held by the Fund, if any. This risk is minimized by closely monitoring the direction of interest rates and aligning it with the appropriate strategy of the Fund.

Credit Risk: Investments in bonds carry the risk that the issuer of the bonds might not be able to meet its interest and principal payments. In which case, the value of the bonds will be adversely affected and may result in a write-off of the concerned asset held by the Fund, resulting to a significant decrease in its NAVPS. To mitigate this risk, each Issuer/Borrower/Counterparty passes through a stringent credit process to determine whether its credit quality complies with the prescribed standards of the Fund. The credit quality of the Issuer/Borrower/Counterparty is reviewed periodically to ensure that excellent credit standing is maintained.

To mitigate this risk, the Fund will only invest in securities that are domiciled in a country that is regulated by a credible regulatory authority.

Fund Manager Risk: The performance of the Funds is also dependent on the Fund Manager's skills. Hence, the Fund may underperform in the market and/or in comparison with similar funds due to investment decisions made by the Fund Manager, and may also fail to meet the Fund's investment objectives. The Board of Directors of the Funds, however, shall ensure that all investment policies and restrictions enumerated in this Prospectus are strictly followed.

Liquidity Risk: The Funds are usually able to service redemptions of investors within 7 business days after receiving the notice of redemption by paying out redemptions from available cash or cash equivalents. When redemptions exceed these liquid holdings, the Funds will have to sell less-liquid assets, and during periods of extreme market volatility, the Funds may not be able to find a buyer for such assets. As such, the Funds may not be able to generate enough cash to pay for the redemptions within the normal 7-day period. To mitigate this risk, the Fund maintains adequate highly liquid assets in the form of cash, cash equivalents and near cash assets in its portfolio.

Dilution Risk: Being an open-end mutual fund, various investors may effectively subscribe to any amount of shares of the Fund. You then face the risk of your investments being diluted by the shares of the other investors of the Fund. The influence that the investors can exert over the control and management of the Fund decreases proportionately. To mitigate this risk, the Fund may impose single investor limits to the ownership of the fund, when necessary. This limits the extent to which any single investor can exercise control of the Fund. The Fund may also impose an anti-dilution levy or fee for significant orders, to protect the interest of the remaining investors of the Fund, when necessary.

Large Transaction Risk: If an investor in a Fund makes a large transaction, the Fund's cash flow may be affected. For example, if an investor redeems a large number of shares of a Fund, that Fund may be forced to sell securities at unfavorable prices to pay for the proceeds of redemption. This unexpected sale may have a negative impact on the net asset value of the Fund. To mitigate this risk, the Fund may impose single investor limits to the ownership of the fund, when necessary. This limits the extent to which redemptions from any single investor can impact the Fund's cash flow. The Fund may also impose an anti-dilution levy or fee for significant orders, to protect the interest of the remaining investors of the Fund, when necessary.

Non-Guarantee: Unlike deposits made with banks, an investment in the Fund is neither insured nor guaranteed by the PDIC. You carry the risk of losing the value of your investment, without any guarantee in the form of insurance. Moreover, as with any investment, it is important to note that past performance of the Fund does not guarantee its future success.

Regulatory Risk: The Funds' operations are subject to various regulations, such as those affecting accounting of assets and taxation. These regulations do change, and as a result, investors may experience lower investment returns or even losses depending on what such a regulatory change entails. For example, higher taxes would lower returns, and a mandated precautionary loan loss provisions could result in the Fund experiencing a loss in the value of assets. To mitigate this risk, the Fund adopts global best practices. Further, it maintains regular communications with the relevant government agencies to keep itself abreast of the issues giving them concern, and to have the opportunity to help them set standards for good governance. The Fund's investment manager, SLAMCI, also takes an active participation in the Philippine Investment Funds Association, Inc. ("PIFA"), an association of mutual fund companies in the Philippines.

Operational Risk: This is the risk of loss resulting from inadequate or failed internal processes, controls, people and systems. Categories of operational risks may fall under: sales and distribution, human resources, information technology, processes and people, accounting and finance, model risk, legal and regulatory and third party relationships. The Fund ensures that internal controls and practices are consistent with enterprise wide policies supporting the management of operational risks. The Fund has established business specific guidelines. Comprehensive investment program, including appropriate levels of self-insurance, is maintained to provide protection against potential losses.

Foreign Investment Risk: The Fund invests in securities issued by corporations in, or governments of, countries other than the Philippines. Investing in foreign securities can be beneficial in expanding your investment opportunities and portfolio diversification, but there are risks associated with foreign investments, including:

- companies outside of the Philippines may be subject to different regulations, standards, reporting practices and disclosure requirements than those that apply in the Philippines;
- the legal systems of some foreign countries may not adequately protect investor rights;
- political, social or economic instability may affect the value of foreign securities;
- foreign governments may make significant changes to tax policies, which could affect the value of foreign securities; and
- foreign governments may impose currency exchange controls that prevent a Fund from taking money out of the country.

The above risk factors are by no means exhaustive. New and/or unidentified risks may arise given the fast changing financial markets and economic environment.

Classification of the Fund into high, moderate or low risk investment: The Fund seeks to provide higher yields than conventional bank deposits and money market funds by investing in a composition of cash, long-term bank deposits, short-term corporate and government debt and other fixed income instruments. The Fund is classified as a conservative investment.

Item 2. Properties

The Fund has financial assets in the form of cash, fixed income securities, and equity securities. As prescribed by SEC Rules, all of its assets are held by its custodian bank, Citibank, N.A..

Office space of the Fund is provided by SLAMCI pursuant to the Management Agreement between them. The Fund does not intend to acquire any real property in the course of its business.

Item 3. Legal Proceedings

There is no material pending legal proceeding to which the Fund or any of its affiliates is a party, or of which any of their property is the subject.

Item 4. Submission of Matters to a Vote of Security Holders

The Fund held its Annual Stockholders' Meeting on 13 July 2021 and the required vote of at least 2/3 of the outstanding capital stock was met. As such, the following were elected as directors for the term 2021 to 2022: Benedicto C. Sison, Ma. Josefina A. Castillo, Aleli Angela G. Quirino (independent), Oscar S. Reyes (independent), and Oscar M. Orbos (independent).

In addition, after obtaining the required 50% + 1 affirmative vote of the outstanding capital stock, the following amendments to the Fund's By-Laws were approved: Article 1 (Section 3), Article II (Section 1), Article III (Sections 1 and 6), Article VIII (Section 1), and Article IX (Section 1).

Item 5. Market for Registrant's Common Equity and Related Stockholder Matters

1. Market Information

The shares of the Fund are traded over-the-counter. The Fund's common stocks are available through registered representatives and eligible securities dealers that have entered into an agreement to sell shares with the Fund's Principal Distributor, SLAMCI.

The following table shows the ranges of high and low prices (NAVPS) of the Fund's common shares for each quarter within 2021:

	2021		2020	
	High	Low	High	Low
Q1	1.0552	1.0525	1.0410	1.0373
Q2	1.0577	1.0553	1.0450	1.0397
Q3	1.0588	1.0577	1.0493	1.0451
Q4	1.0606	1.0588	1.0524	1.0494

The Fund's NAVPS is published daily through Business World, PSE Website, Philippine Daily Inquirer and Sun Life Websites.

Below table shows the investment return information of the Fund in the last five (5) recently completed fiscal years:

Year on year yield (1-year)	0.7792%
3 Year - Simple	0.0000%
5Year - Simple	0.0000%

2. Holders

The Fund has approximately 2,523 shareholders as of December 31, 2021.

On 7 March 2013, SEC *en banc* approved the confidential treatment of the list of Top 20 shareholders of the Sun Life Prosperity Funds, including the 5% and 10% beneficial owners. This is to protect the investors' privacy, which is a privilege they enjoy when they invest in other shared investment vehicles, such as unit investment trust funds, and when they invest in bank deposits.

The following table shows the number of institutional and retail investors and the percentage of their investments, and the geographic concentration of investments as of December 31, 2021.

% Ownership of Institutional Investors	% Ownership of Retail Investors
88.79%	11.21%

Area	Percentage of Investments
LUZON	94%
VISAYAS	4%
MINDANAO	2%
TOTAL	100%

3. Dividends

The Fund has not declared cash or stock dividends to date, but it has no restrictions that may limit its ability to pay dividends in the future.

The Board of Directors of the Fund has the power to fix and determine the amount to be reserved or provided for declaration and payment of dividends from the Fund's unrestricted retained earnings. The amount of such dividends (either in cash, stock, property or a combination of the foregoing) will depend on the Fund's profits, cash flows, capital expenditure, financial condition, and other factors. The existence of surplus profit arising from the operation of the Fund is needed before a dividend can be declared. The surplus profits or income must be a bona fide income founded upon actual earnings or profits. Actual earnings or profits shall be the net income for the year based on the audited financial statements, adjusted for unrealized items, which are considered not available for dividend declaration.

Cash dividends and property dividends may be declared by the Board of Directors and no stockholder approval is required. Stock dividends paid on the Offer Shares are subject to approval by both the Board of Directors and the stockholders representing at least two-thirds (2/3) of the outstanding capital stock of the Fund at a stockholders' meeting called for such purpose.

Under the Revised Corporation Code, Corporations with surplus profit in excess of 100% of its paid-in capital stock are required to declare dividends (cash or stock) and distribute it to its stockholders. Dividends so declared will be automatically reinvested in additional shares on behalf of the shareholders, without sales charges, at the NAVPS on the payment date established for such dividends. Shareholders may also elect not to have dividends reinvested and receive payment in cash, net of tax.

Item 6. Management's Discussion and Analysis or Plan of Operation.

The Performance of the Fund could be measured by the following indicators:

1. **Increase/Decrease in Net Assets Value per Share (NAVPS.)** NAVPS is computed by dividing net assets (total assets less total liabilities) by the total number of shares issued and outstanding plus the total number of shares outstanding due to deposit for future subscriptions (DFFS) and for conversion to shares, if any, as of the end of the reporting day. Any increase or decrease in NAVPS translates to a prospective capital gain or capital loss, respectively, for the Fund's shareholders.
2. **Net Investment Income.** Represents the total earnings of the Fund from its investment securities, less operating expenses and income tax. This gauges how efficiently the Fund has utilized its resources in a given time period.
3. **Assets Under Management (AUM).** The assets under the Fund's disposal. This measures the profitability of the Fund (increase/decrease brought about by its operational income) as well as investor confidence (increase/decrease brought about by investor subscriptions/redemptions).
4. **Cash Flow.** Determines whether the Fund was able to achieve the optimal level of liquidity by being able to meet all its scheduled payments, while maintaining at the same time the maximum investments level and minimum cash level.

Accounting Policies for Financial Assets at Fair Value Through Profit and Loss

Financial assets

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Fund commits to purchase or sell the asset.

At initial recognition, the Fund measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss (FVTPL), transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs of financial assets and financial liabilities carried at FVTPL.

Classification and subsequent measurement

The Fund classifies its financial assets in the following measurement categories:

- FVTPL
- Fair value through other comprehensive income (FVTOCI); and
- Amortized cost

As at December 31, 2021 and 2020, the Fund does not have financial assets classified as FVTOCI.

Classification of financial assets will be driven by the entity's business model for managing the financial assets and the contractual cash flows of the financial assets.

A financial asset is to be measured at amortized cost if: a) the objective of the business model is to hold the financial asset for the collection of the contractual cash flows, and b) the contractual cash flows under the instrument represent solely payment of principal and interest (SPPI).

All other debt and equity instruments must be recognized at fair value.

All fair value movements on financial assets are taken through the statement of comprehensive income, except for equity investments that are not held for trading, which may be recorded in the statement of comprehensive income or in reserves (without subsequent recycling to profit or loss).

Debt instruments

Subsequent measurement of debt instruments depends on the Fund's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Fund classifies its debt instruments:

- **Amortized cost.** Assets that are held for collection of contractual cash flows where those cash flows represent SPPI are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **FVTPL.** Assets that do not meet the criteria for amortized cost are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of comprehensive income within other gains/(losses) in period in which it arises. Interest income from these financial assets is included in finance income.

The business model reflects how the Fund manages the assets in order to generate cash flows. That is, whether the Fund's objective is solely to collect the contractual cash flows from the assets or to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable, then the financial assets are classified as part of 'other' business model and measured at FVTPL. Factors considered by the Fund in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Fund assesses whether the financial instruments' cash flows represent SPPI. In making this assessment, the Fund considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at FVTPL.

Amortized cost and effective interest method

The effective interest method is a method of calculating the amortized cost of a financial asset and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired (POCI) financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses (ECL), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for any loss allowance.

Interest income is recognized using the effective interest method for debt instruments measured subsequently at amortized cost. For financial instruments other than POCI financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognized by applying the effective interest rate to the amortized cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognized by applying the effective interest rate to the gross carrying amount of the financial asset.

Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective, that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Fund subsequently measures all equity investments at FVTPL, except where the Fund's Management has elected, at initial recognition, to irrevocably designate an equity instrument at FVTOCI. The Fund's policy is to designate equity investments as FVTOCI when those investments are held for the purposes other than to generate investment returns. When the election is used, fair value gains and losses are recognized in OCI and are not subsequently reclassified to profit or loss, including disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other

changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in profit or loss as other income when the Fund's right to receive payment is established.

Changes in the fair value of financial assets at FVTPL are recognized in net realized gains (losses) on investments in the statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

FINANCIAL MARKETS REVIEW (2021)

INVESTMENT APPROACH

The investment mandate of the Dollar Starter Fund seeks to provide higher yields than conventional bank deposits and money market funds by investing in a composition of cash, long-term bank deposits, short-term corporate and government debt, and other fixed income instruments denominated in US dollars. Portfolio duration is kept at a negligible level to keep price volatility at a minimum. Credit risk, on the other hand, is managed through a stringent adjudication process on a group level. Optimum levels of cash are maintained to support investment and client liquidity requirements.

PERFORMANCE REVIEW

Dollar money market rates remained near zero over the year as central banks continued to keep policy accommodative in 2021. Despite economies across the globe re-opening and mass vaccination programs being rolled out, the emergence of COVID-19 mutations continued to cast a shadow over the entire world. Short-term global USD rates continued to hover near zero, with local time deposit rates following suit.

Non-zero rates for short-term dollar assets are almost impossible to source locally. Despite this, the Sun Life Prosperity Dollar Starter Fund has been able to deliver 0.78% for the whole year of 2021.

OUTLOOK

The US Federal Reserve has communicated its intent to start unwinding pandemic measures in 2022. Dollar money market returns are likely to remain flat though, as the hunt for any sort of yield will offset central banks' winding down of asset purchases and policy rate hikes.

FINANCIAL STATEMENT ANALYSIS

Material Changes in the 2021 Financial Statements

Statement of Financial Position and Statements of Changes in Equity – 31 December 2021 and 31 December 2020

For the Period Ended	31-Dec-21	31-Dec-20	Movement	Percentage (%)	MDAS
	Audited	Audited			
Cash and cash equivalents	\$ 41,447,426	\$ 24,645,731	\$ 16,801,695	68.17%	Liquidity requirements were met.
Financial assets at fair value through profit or loss	3,539,070	21,467,178	(17,928,108)	-83.51%	The decrease was mainly driven by the net disposals of investment in fixed income as well as the net unrealized losses incurred for the period.
Financial assets at amortized cost	139,916,394	46,718,149	93,198,246	199.49%	The increase was brought by the acquisition of investment in fixed income securities which was partly offset with the disposals and recognition of allowance for impairment.
Accrued interest receivable	1,053,994	394,557	659,437	167.13%	Collection of interest depends on the scheduled interest payments of each asset. Higher accrued interest receivable as of year-end is also aligned with the movement of investments in fixed income securities.
Deferred tax asset	45,164	101,839	(56,675)	-55.65%	The decrease pertains to the DTA application for NOLCO and change in tax rate (CREATE) which was partly offset with the additional DTA effect from accrual of fees and ECL provision.
Total Assets	186,002,048	93,327,454	92,674,594	99.30%	
Accrued expenses and other payables	140,187	759,647	(619,460)	-81.55%	The decrease was directed by the lower amount of payable to investors for redemption of their investments processed on or before end of the reporting period. These are usually paid three (4) days after the transaction date.
Payable to fund manager	61,430	29,597	31,833	107.55%	The increase in fees payable to fund manager was brought by the higher AUM as of the period.
Income tax payable	81,328	-	81,328	100.00%	The income tax payable as of year-end was due to the higher taxable income recognized during the year brought by the interest income and trading gains.
Total Liabilities	282,945	789,244	(506,299)	-64.15%	
Share capital	265,279	257,620	7,659	2.97%	
Deposit for future stock subscription	172,283,949	79,443,982	92,839,967	116.86%	DFFS received recorded in this account since the Company met all the requirements to be classified as equity.
Additional paid-in capital	10,890,092	11,423,301	(533,209)	-4.67%	
Retained earnings	2,285,242	1,414,134	871,108	61.60%	The movement represents the net income earned during the year.
Treasury shares	(5,459)	(827)	(4,632)	560.05%	The increase depicts the net acquisition of treasury shares during the period.
Net Assets	\$ 185,719,103	\$ 92,538,210	\$ 93,180,893	100.69%	Increase pertains to DFS subscriptions and net income earned offset with net acquisition of treasury shares for the year.
Net Assets Value per Share	\$ 1.0608	\$ 1.0536	\$ 0.0072	0.68%	

There were no known trends, demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in increasing or decreasing the Fund's liquidity in any material way.

There was no contingent liability reflected in the accompanying audited financial statements.

The Fund does not anticipate having any cash flow or liquidity problems as it complies with the liquidity requirements per ICA-IRR 6.10. The Fund was able to meet all its monetary obligations to its shareholders (for redemption) and creditors for the period covered. It does not foresee any event that could trigger a direct or contingent financial obligation that is material to its operations.

There were no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the Fund with unconsolidated entities/other persons created during the reporting period. Likewise, there are no material commitments for capital expenditures, known trends, events, or uncertainties that have had or that are reasonably expected to have a material impact on net income/revenue from the continuing operations of the Fund.

There are no other significant events and transactions from the last annual reporting period that is required for disclosure this year.

Statement of Comprehensive Income for the Years Ended – 31 December 2021 and 31 December 2020

	31-Dec-21	31-Dec-20	Movement	Percentage (%)	MDAS
	Audited	Audited			
Investment Income	\$ 1,834,214	\$ 1,187,768	\$ 646,446	54.43%	The increase was driven by the higher interest income and realized gains earned from the sale of securities. These are in line with the upward movement of investments as of the period.
Investment Expenses	-	8,580	(8,580)	-100.00%	There were no commissions incurred during the year as the Fund had no equity trades.
Operating Expenses	714,695	354,461	360,234	101.63%	Higher management fees have resulted from the increase in average AUM coupled with recorded provision for ECL and partly offset with the decrease in taxes and licenses incurred during the year.
Net Unrealized Gains (Losses) on Investments	(13,408)	10,166	(23,574)	-231.89%	Unrealized losses incurred represent the impact of unfavorable market condition during the period.
Provision for Income Tax	235,003	(49,000)	284,003	-579.60%	The income tax expense was mainly driven by the higher interest income earned for the period subject to RCIT.
Net Investment Income (Loss)	\$ 871,108	\$ 883,893	\$ (12,785)	-1.45%	

Average daily net asset value in 2021 and 2020 is \$126,655,866 and \$59,041,349, respectively.

The Fund has no unusual nature of transactions or events that affect assets, liabilities, equity, net income or cash flows.

There were no commitments, guarantees and contingent liabilities that arise in the normal course of operations of the Fund which are not reflected in the accompanying audited financial statements. The management of the Fund is of the opinion that there were no income or losses from these items that will have any material effect on its audited financial statements.

There were no known material events subsequent to the end of the annual reporting period that have not been reflected in the Fund's audited financial statements as at the period ended December 31, 2021. There were no significant elements of income or loss that did not arise from the Fund's continuing operations.

There were no changes in estimates of amount reported in the current financial year or changes in estimates of amounts reported in prior financial years.

There were no seasonal aspects that had a material effect on the financial condition or results of operations of the Fund.

The Fund manages its capital to ensure that the Fund will be able to continue as a going concern while maximizing returns to stakeholders through investments in high-quality debt and equity securities.

The Fund is guided by its investment policies and legal limitations. All the proceeds from the sale of shares, including the original subscription payments at the time of incorporation constituting the paid-in capital, is held by the pertinent custodian banks.

The Fund is also governed by the following fundamental investment policies:

1. It does not issue senior securities.
2. It does not intend to incur any debt or borrowing. In the event that borrowing is necessary, it can do so only if, at the time of its incurrence or immediately thereafter, there is asset coverage of at least 300% for all its borrowings.
3. It does not participate in any underwriting or selling group in connection with the public distribution of securities, except for its own share capital.
4. It generally maintains a diversified portfolio. Asset class and geographic concentrations may vary at any time depending on the investment manager's view on the prospects.

5. It does not invest directly in real estate properties and developments.
6. It does not purchase or sell commodity futures contracts.
7. It does not engage in lending operations to related parties such as the members of the board of directors, officers of the Fund and any affiliates, or affiliated corporations of the company.
8. The asset mix in each type of security is determined from time to time, as warranted by economic and investment conditions.
9. It does not change its investment objectives without the prior approval of a majority of its shareholders.

Ms. Valerie N. Pama is currently the Chief Asset Management Officer (“CAMO”) of Sun Life of Canada (Philippines), Inc. Since November 1, 2019, Ms. Pama, in her capacity as CAMO, has been responsible for the expansion and development of the various initiatives to drive the profitability and growth of Sun Life's overall asset management business providing strategic direction and development of long-term plans and policies.

Currently, Ms. Pama is a Member and Trustee of Sun Life Financial-Philippines Foundation, Inc. (October 2020 to present), Member and Trustee of Filipina CEO Circle (2015 and 2018, respectively to present), Member of Management Association of the Philippines (2015 to present) and Financial Executives of the Philippines (2013 to present).

Ms. Pama is also the Chairman and Director of Grepalife Asset Management Corporation (December 2021 to present). She is the President and Director of seventeen (17) Sun Life Prosperity Funds, i.e. Sun Life of Canada Prosperity Balanced Fund, Inc., Sun Life of Canada Prosperity Philippine Equity Fund, Inc., Sun Life of Canada Prosperity Bond, Inc., Sun Life Prosperity Dollar Advantage Fund, Inc., Sun Life Prosperity Peso Starter Fund, Inc., Sun Life Prosperity Dollar Abundance Fund, Inc., Sun Life Prosperity GS Fund, Inc., Sun Life Prosperity Dynamic Fund, Inc., Sun Life Prosperity Philippine Stock Index Fund, Inc., Sun Life Prosperity Dollar Wellspring Fund, Inc., Sun Life Prosperity World Voyager Fund, Inc., Sun Life Prosperity Dollar Starter Fund, Inc., Sun Life Prosperity World Equity Index Feeder Fund, Inc., Sun Life Prosperity Achiever Fund 2028, Inc., Sun Life Prosperity Achiever Fund 2038, Inc., Sun Life Prosperity Achiever Fund 2048, Inc., and Sun Life Prosperity Peso Voyager Feeder Fund, Inc. (March 2022 to present). She is also the Director of BESTSERVE Financial Ltd. (HKG) (January 2021 to present)

Ms. Pama was previously the Director and President of Sun Life Investment Management and Trust Corporation (September 2020 to June 2021), responsible for its establishment and preparations for operations.

She also served as the Chief Operating Officer of SLAMCI (2011 to 2012) before being appointed as its President in 2013. With over seven years as President of SLAMCI, Ms. Pama has made tremendous contributions by leading it into becoming the number one non-bank asset management company. Under her vision and leadership, the company achieved great milestones: growing from three (3) mutual funds to sixteen (16) mutual funds to over Php100 Billion in Assets Under Management (AUM), launch of the Sun Life Prosperity Card, expanding the sales force into having the most number of Mutual Fund-licensed advisors in the industry and garnering numerous awards from the Philippine Investment

Funds Association (PIFA). Another noteworthy recognition for SLAMCI under her management was being named the best asset management company for the Philippines from Euromoney's 2018 Private Banking and Wealth Management survey.

Ms. Pama is a veteran banker, having been in the industry for 20 years. She started her career with Citibank N.A. in 1990 as a Management Associate, wherein she obtained exposure in various segments of the business, assuming progressively senior roles over the years. She had worked in treasury/capital markets, loans, equity sales, customer funding sales, brokerage and money market sales. By the time she retired from Citibank N.A. in 2009, Ms. Pama was the President of Citicorp Financial Services and Insurance Brokerage Inc.

Prior to joining Sun Life, Ms. Pama was a Product Development consultant for ING Bank's Investment Management Group.

Ms. Pama was a member of the Board of Trustees of the Philippine Investment Funds Association (PIFA) from 2011 to 2020 and served as its Chairman from 2013 to 2015. This enabled her to represent the mutual fund industry in advocating investor literacy, customer protection and regulatory advancements to government agencies, key market players and the general public.

Ms. Pama is a graduate of the Ateneo de Manila University with a Bachelor of Science degree in Management Engineering. She obtained her Masters in Business Administration in International Business and Finance, with a minor in Business Economics from Katholieke Universiteit Leuven in Belgium. She was awarded With Distinction by the university for her exemplary academic performance on her final year.

2. Incorporators

The following are the incorporators of the Fund:

- Rizalina G. Mantaring
- Benedicto C. Sison
- Valerie N. Pama
- Oscar M. Orbos
- Aleli Angela G. Quirino

3. Significant Employees

The Fund has no significant employees.

4. Family Relationships

There are no family relationships up to fourth civil degree either by consanguinity or affinity among directors, executive officers, or persons nominated by the Fund to become its directors or executive officers.

5. Material Pending Legal Proceedings

The Fund has no knowledge of any material pending legal proceedings, for the past five (5) years and to date, to which any of the directors and executive officers of the Fund is a party of which any of their property is the subject.

There was no bankruptcy petition filed by or against any business of which any of the directors and executive officers of the Fund was a general partner or executive officer either at the time of bankruptcy or within two (2) years prior to that time.

No director or executive officer of the Fund was convicted by final judgment in a criminal proceeding, domestic or foreign and neither is any director or officer subject to any pending criminal proceeding, domestic or foreign, excluding traffic violations and other minor offenses.

No director or executive officer of the Fund is being subject to any order, judgment or decree not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities, or banking activities.

No director or executive officer of the Fund is being found by a domestic or foreign court of competent jurisdiction (in a civil action), the Commission or comparable foreign body, or a domestic or foreign exchange or other organized trading market or self-regulatory organization, to have violated a securities or commodities law or regulation and the judgment has not been reversed, suspended or vacated.

Item 10. Executive Compensation

1. Compensation of Executive Officers.

The executive officers of the Fund do not receive any form of compensation from their appointment up to the present.

2. Compensation of Directors.

The Fund's executive officers and directors who are officers and/or employees of SLOCPI and/or SLAMCI do not receive any form of compensation as such from the time of their appointments up to the present.

The Fund's directors who are not officers and/or employees of SLOCPI and/or SLAMCI (i.e., "Independent Directors") receive a per diem for their attendance at regular or special meetings of the Board at the rate of P20,000 per meeting per Independent Director (the Fund has two [2] Independent Directors). There are no other forms of compensation which such Independent Directors are entitled to receive for meetings attended, other than said per diem and a retainer's fee not to exceed P15,000 per quarter. Payment of such retainer's fee shall be shared by the Fund with the other Sun Life Prosperity Funds which the Independent Director also serves, provided that each Independent Director shall receive only a maximum of P15,000 per quarter from all the Sun Life Prosperity Funds combined. There are no standard arrangements, employment contracts, termination of employment, change-in-control or other arrangements with the directors. Such remuneration to be paid for by the Fund may be adjusted in the future as may be warranted by existing fund levels and other factors.

Total per diem received by the Fund's directors for the year 2021 and 2020 are \$7,976 and \$6,362, respectively.

The Board had four (4) regular quarterly meetings for 2021, including the organizational board meeting after the annual shareholders' meeting. For the four (4) meetings and with three (3) members of the Board who are external directors entitled to receive per diem, the Fund forecasts a total directors' per diem of P240,000 (approximately \$4,998) for the year 2022. The external directors are also forecasted to receive a total of P15,070 (approximately \$314) as retainer's fees for 2022.

Item 11. Security Ownership of Certain Beneficial Owners and Management

1. Security ownership of more than 5% of the Fund's outstanding capital stock as of December 31, 2021:

On 7 March 2013, SEC *en banc* approved the confidential treatment of the list of Top 20 shareholders of the Fund, including the 5% and 10% beneficial owners. This is to protect the investors' privacy, which is a privilege they enjoy when they invest in other shared investment vehicles, such as unit investment trust funds, and when they invest in bank deposits.

2. Security Ownership of Management as of December 31, 2021:

Title of Class	Name of and Address of Record Owner	Relationship with Issuer	Name of Beneficial Owner & Relationship with Record Owner	Number of shares held	Percent of Class
Common	Benedicto C. Sison	1	Beneficial (B) and Record (R)	Filipino and American	0.00%
Common	Cesar Luis F. Bate	1	B & R	Filipino	0.00%

Common	Candy S. Esteban	1	B & R	Chinese	0.00%
Common	Oscar S. Reyes	1	B & R	Filipino	0.00%

The above individual owners can be reached at c/o the Corporate Secretary, 6th Floor, Sun Life Centre, 5th Avenue corner Rizal Drive, Bonifacio Global City, Taguig City.

3. Voting Trust Holders of 5% or More

No holder of 5% or more of the Fund's common shares has any voting trust or similar agreement that vest voting rights or other powers to a voting trustee.

4. Change in Control

The Fund has no knowledge of any arrangement that may result in a change of control of the Fund.

Item 12. Certain Relationships and Related Transactions

The Fund is not involved in any related transactions.

PART IV - CORPORATE GOVERNANCE

Item 13. Compliance with Leading Practice on Corporate Governance

The Fund is committed to performing its obligations following sound standards of business and financial practices and assesses the level of compliance of the Board of Directors and top-level management with its Manual on Corporate Governance through the Corporate Governance Self-Rating Form.

Likewise, the Fund requires the directors to answer a Board Effectiveness Questionnaire to determine their outlook on current practices and further enhance their performance. Internal audit and compliance units of the Fund also actively ensure that the Fund meets its regulatory and moral obligations to the government agencies and the general public, respectively.

There has been no reported incident of any deviation from the Fund's Manual on Corporate Governance. A strong ethical business culture in the performance of duties is continuously upheld and promoted. Nonetheless, the Fund makes an effort to improve corporate governance of the company by holding training sessions for its Board and officers whenever possible.

Compliance with Foreign Account Tax Compliance Act (FATCA)

In accordance with the requirements of the US Internal Revenue Service ("IRS") and the Intergovernmental Agreement ("IGA") between the Government of the United States of America and the Government of the Republic of the Philippines to Improve International Tax Compliance and to Implement FATCA which was signed last July 13, 2015, the Fund has registered with the Internal Revenue Service (IRS) and has obtained its own Global Intermediary Identification Number ("GIIN") as a sponsored entity. Sun Life Asset Management Company, Inc. ("SLAMCI") continues to assume responsibilities for the Fund's FATCA compliance as the Sponsoring Entity and has implemented FATCA onboarding processes and procedures as well as system enhancements to monitor its new and pre-existing account holders who are U.S. Persons and have U.S. Indicia.

The Fund, together with its Sponsoring Entity, SLAMCI, is preparing to comply for FATCA reporting on the date which will be set by the Bureau of Internal Revenue as soon as the IGA has been ratified by the Senate.

What does the Fund invest in?

The **Sun Life Prosperity Dollar Starter Fund** aims to generate consistent and stable returns for your US Dollar investment, potentially exceeding those of traditional bank deposits and money market funds over time. The Fund may also serve as a parking facility prior to investment in other Dollar Funds.

The Fund is suitable for investors with a **conservative risk profile** and short-term investment horizon. This is for investors who seek higher yields for their US Dollars compared to conventional bank deposits but do not want to assume a significant amount of risk. These investors may also be considering to invest in other dollar funds but are not yet able or ready to do so.

How has the Fund performed?

Note: Year-to-date (YTD) returns are computed as the return from the last business day of the previous year to the last business day of the reporting month.

Market Review and Outlook

- Dollar money market returns move little month-on-month.
- Time deposit rates remain near zero as cash remains abundant in both the U.S. and local market.
- The yields of 1 to 3-year U.S. Treasuries go up as the market prices in a more aggressive tightening by the Fed. However, rates below 1-year continue to be low.
- The Fund will take advantage of rising USD rates as it will reinvest maturing securities to securities with higher rates.
- Accruals remain the primary driver for the Dollar Starter Fund's year-to-date return of 78 basis points.

Market Review

- Dollar money market returns move little month-on-month.
- Time deposit rates remain near zero as cash remains abundant in both the US and local market.
- The Federal Reserve's overnight reserve repurchase facility continues to see strong demand as it is not surprising now to see daily take-up to reach USD 1.5 Trillion. This facility helps absorb liquidity. Fed rate hike expectations increase, and the 1-year US Treasury Bill yield increases to 0.22% (from 0.12% last October). However, rates below one-year continue to be low.
- Accruals remain the primary driver for the Sun Life Prosperity Dollar Starter Fund's year-to-date return of 72 basis points.

**STATEMENT OF MANAGEMENT'S RESPONSIBILITY
FOR FINANCIAL STATEMENTS**

The Management of Sun Life Prosperity Dollar Starter Fund, Inc. (the "Company") is responsible for the preparation and fair presentation of the financial statements, including the schedules attached therein, as at December 31, 2021 and 2020, and for the years ended December 31, 2021, 2020 and 2019, in accordance with the Philippine Financial Reporting Standards and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Those charged with governance review and approve the financial statements including the schedules attached therein, and submits the same to the stockholders.

Navarro Amper & Co., the independent auditor appointed by the stockholders for the periods December 31, 2021 and 2020, has audited the financial statements of the Company in accordance with Philippine Standards on Auditing, and in its report to the stockholders has expressed its opinion on the fairness of presentation upon completion of such audit.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Sun Life Prosperity Dollar Starter Fund, Inc. (the "Company"), which comprise the statements of financial position as at December 31, 2021 and 2020, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for the years ended December 31, 2021, 2020 and 2019, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2021 and 2020, and its financial performance and its cash flows for the years ended December 31, 2021, 2020 and 2019, in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audits of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with PFRS, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing **the Company's** ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are **responsible for overseeing the Company's financial reporting process.**

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an **auditor's** report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of **Management's use of the going concern basis of** accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's **ability to** continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw **attention in our auditor's** report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained **up to the date of our auditor's** report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

Report on the Supplementary Information Required by Bureau of Internal Revenue

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information in Note 24 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such supplementary information is the responsibility of Management and has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SUN LIFE PROSPERITY DOLLAR STARTER FUND, INC.
(An Open-end Investment Company)

NOTES TO FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2021 AND 2020 AND FOR THE YEARS ENDED
DECEMBER 31, 2021, 2020 AND 2019
(In US Dollars)

1. CORPORATE INFORMATION

Sun Life Prosperity Dollar Starter **Fund, Inc. (the "Company")** was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on January 16, 2017 and started its commercial operations on November 6, 2017. The Company is a registered open-end investment company under the Investment Company Act (**Republic Act "R.A."** No. 2629) and the Securities Regulation Code (R.A. No. 8799), formerly known as the Revised Securities Act (B.P. No. 178). It is engaged in the sale of and distribution of mutual fund shares, and seeks to provide higher yields than conventional bank deposits, short-term corporate and government debt and other fixed income instruments denominated in US Dollars. As an open-end investment company, its shares are redeemable anytime based on the Net Asset Value Per Share (NAVPS) at the time of redemption.

The Company appointed Sun Life Asset Management Company, Inc. (SLAMCI), an investment management company incorporated in the Philippines and a wholly owned subsidiary of Sun Life of Canada (Philippines), Inc. (SLOCPI), as its fund manager, adviser, administrator, distributor and transfer agent and provider of management, distribution and all required operational services, as disclosed in Note 11.

The Company's registered office address and principal place of business is at Sun Life Centre, 5th Avenue corner Rizal Drive, Bonifacio Global City, Taguig City.

2. FINANCIAL REPORTING FRAMEWORK AND BASIS OF PREPARATION AND PRESENTATION

Statement of Compliance

The financial statements of the Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS), which include all applicable PFRS, Philippine Accounting Standards (PAS) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC), Philippine Interpretations Committee (PIC) and Standing Interpretations Committee (SIC) as approved by the Financial Reporting Standards Council (FRSC) and the Board of Accountancy (BOA), and adopted by the SEC.

Basis of Preparation and Presentation

The financial statements of the Company have been prepared on the historical cost basis, except for certain financial assets measured at fair value.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Functional and Presentation Currency

These financial statements are presented in United States Dollar (USD), the currency of the primary economic environment in which the Company operates. All amounts are recorded to the nearest dollar, except when otherwise indicated.

3. ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS

Adoption of New and Revised Accounting Standards Effective in 2021

The Company adopted all accounting standards and interpretations effective as at December 31, 2021. The new and revised accounting standards and interpretations that have been published by the International Accounting Standards Board (IASB) and approved **by the FRSC in the Philippines, were assessed to be applicable to the Company's financial statements** and are as follows:

PIC Q&A No. 2020-07, PAS 12 – Accounting for the Proposed Changes in Income Tax Rates under the Corporate Recovery and Tax Incentives for Enterprises Act (CREATE) Act

The interpretation explained the details of the CREATE bill and its impact on the financial statements once passed.

Interpretation discussed that impact on the financial statements ending December 31, 2020 are as follows:

- Current and deferred taxes will still be measured using the applicable income tax rate as of December 31, 2020;
- If the CREATE bill is enacted before **financial statements' issue date, this will be a non-adjusting event** but the significant effects of changes in tax rates on current and deferred tax assets and liabilities should be disclosed; and
- **If the CREATE bill is enacted after financial statements' issue date** but before filing of the income tax return, this is no longer a subsequent event but companies may consider disclosing the general key feature of the bill and the expected impact on the financial statements

For the financial statements ending December 31, 2021, the impact are as follows:

- **Standard provides that component of tax expense(income) may include "any adjustments recognized in the period for current tax of prior periods" and "the amount of deferred tax expense(income) relating to changes in tax rates or the imposition of new taxes";**
- An explanation of changes in the applicable income tax rates to the previous accounting period is also required to be disclosed;
- The provision for current income tax for the year 2021 will include the difference between income tax per 2020 financial statements and 2020 income tax return;
- Deferred tax assets and liabilities as of December 31, 2021, will be remeasured using the new tax rates; and
- Any movement in deferred taxes arising from the change in tax rates that will form part of the provision for/benefit from deferred taxes will be included as well in the effective tax rate reconciliation.

The interpretation is effective on or after January 29, 2021.

The Management assessed that CREATE Act had reduced income tax expense by \$16,972 and increased net income and net assets by the same amount. The increase was recorded in 2021 following the provisions of PIC Q&A 2020-07.

New Accounting Standards Effective after the Reporting Period Ended December 31, 2021

The Company will adopt the following standards when these become effective:

PFRS 17, Insurance Contracts

PFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts and supersedes PFRS 4, *Insurance Contracts*.

PFRS 17 outlines a general model, which is modified for insurance contracts with direct participation features, described as the variable fee approach. The general model is simplified if certain criteria are met by measuring the liability for remaining coverage using the premium allocation approach.

The general model uses current assumptions to estimate the amount, timing and uncertainty of future cash flows and it explicitly measures the cost of that uncertainty. **It takes into account market interest rates and the impact of policyholders' options and guarantees.**

An amendment issued on June 2020 and adopted by FRSC on August 2020 addresses concerns and implementation challenges that were identified after PFRS 17 was published.

PFRS 17 must be applied retrospectively unless impracticable, in which case the modified retrospective approach or the fair value approach is applied.

For the purpose of the transition requirements, the date of initial application is the start of the annual reporting period in which the entity first applies the Standard, and the transition date is the beginning of the period immediately preceding the date of initial application.

The standard (incorporating the amendments) is effective for periods beginning on or after January 1, 2025. Earlier application is permitted.

The future adoption of the standard will have no effect on the Company's financial statements as the Company does not issue insurance contracts.

Amendments to PFRS 3, References to the Conceptual Framework

The amendments update PFRS 3 so that it refers to the 2018 Conceptual Framework instead of the 1989 Framework. They also add to PFRS 3 a requirement that, for obligations within the scope of PAS 37, an acquirer applies PAS 37 to determine whether at the acquisition date a present obligation exists as a result of past events. For a levy that would be within the scope of IFRIC 21, *Levies*, the acquirer applies IFRIC 21 to determine whether the obligating event that gives rise to a liability to pay the levy has occurred by the acquisition date.

The amendments also add an explicit statement that an acquirer does not recognize contingent assets acquired in a business combination.

The amendments are effective for business combinations for which the date of acquisition is on or after the beginning of the first annual period beginning on or after January 1, 2022. Early application is permitted if an entity also applies all other updated references (published together with the updated Conceptual Framework) at the same time or earlier.

The future adoption of the amendments will have no effect on the Company's financial statements as the Company is not in the process of and has no plan to enter into business combination.

Amendments to PFRS 10 and PAS 28, Sale or Contribution of Assets between an Investor and Its Associate or Joint Venture

The amendments to PFRS 10 and PAS 28 deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or a joint venture **that is accounted for using the equity method, are recognized in the parent's profit or loss only to the extent of the unrelated investors' interests in that associate or joint venture.** Similarly, gains and losses resulting from the remeasurement of investments retained in any former subsidiary (that has become an associate or a joint venture that is accounted for using the equity method) to fair value are recognized in **the former parent's profit or loss only to the extent of the unrelated investors' interests** in the new associate or joint venture.

The effective date of the amendments has yet to be set by the Board; however, earlier application of the amendments is permitted.

The future adoption of the amendments will have no effect on the **Company's financial** statements as the Company is not in the process and has no plan to acquire such investments.

Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments to PAS 1 affect only the presentation of liabilities as current or non-current in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items.

The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are **complied with at the end of the reporting period, and introduce a definition of 'settlement'** to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The amendments are applied retrospectively for annual periods beginning on or after January 1, 2023, with early application permitted.

The Company will continue its assessment and will finalize the same upon the effectivity of these amendments.

Amendments to PAS 16, *Property, Plant and Equipment – Proceeds before Intended Use*

The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced before that asset is available for use, i.e. proceeds while bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Consequently, an entity recognizes such sales proceeds and related costs in profit or loss. The entity measures the cost of those items in accordance with PAS 2, *Inventories*.

The amendments also clarify the meaning of 'testing whether an asset is functioning properly'. PAS 16 now specifies this as assessing whether the technical and physical performance of the asset is such that it is capable of being used in the production or supply of goods or services, for rental to others, or for administrative purposes.

If not presented separately in the statement of comprehensive income, the financial statements shall disclose the amounts of proceeds and cost included in profit or loss that **relate to items produced that are not an output of the entity's ordinary activities, and** which line item(s) in the statement of comprehensive income include(s) such proceeds and cost.

The amendments are applied retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments.

The entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented.

The amendments are effective for annual periods beginning on or after January 1, 2022, with early application permitted.

The future **adoption of the amendment will have no effect on the Company's financial** statements as the Company does not have property, plant and equipment recorded in its financial statements.

Amendments to PAS 37, Onerous Contracts – Cost of Fulfilling a Contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract consist of both the incremental costs of fulfilling that contract (examples would be direct labor or materials) and an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

The amendments apply to contracts for which the entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which the entity first applies the amendments. Comparatives are not restated. Instead, the entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate, at the date of initial application.

The amendments are effective for annual periods beginning on or after January 1, 2022, with early application permitted.

The future adoption of the amendments will have no effect on the Company's financial statements as the Company does not issue and enter into onerous contracts.

Annual Improvements to PFRS Standards 2018-2020 Cycle

Amendments to PFRS 1, Subsidiary as a first-time adopter

The amendment provides additional relief to a subsidiary which becomes a first-time adopter later than its parent in respect of accounting for cumulative translation differences. As a result of the amendment, a subsidiary that uses the exemption in PFRS 1:D16 (a) can now also elect to measure cumulative translation differences for all **foreign operations at the carrying amount that would be included in the parent's consolidated financial statements, based on the parent's date of transition to PFRS Standards**, if no adjustments were made for consolidation procedures and for the effects of the business combination in which the parent acquired the subsidiary. A similar election is available to an associate or joint venture that uses the exemption in PFRS 1:D16 (a).

The amendment is effective for annual periods beginning on or after January 1, 2022, with early application permitted.

Amendments to PFRS 9, Fees in the '10 per cent' test for derecognition of financial liabilities

The amendment clarifies that in applying the '10 per cent' test to assess whether to derecognize a financial liability, an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the **other's behalf**.

The amendment is applied prospectively to modifications and exchanges that occur on or after the date the entity first applies the amendment.

The amendment is effective for annual periods beginning on or after January 1, 2022, with early application permitted.

Amendments to PFRS 16, Lease incentives

The amendment removes the illustration of the reimbursement of leasehold improvements.

As the amendment to PFRS 16 only regards an illustrative example, no effective date is stated.

Amendments to PAS 41, *Taxation in fair value measurements*

The amendment removes the requirement in PAS 41 for entities to exclude cash flows for taxation when measuring fair value. This aligns the fair value measurement in PAS 41 with the requirements of PFRS 13, *Fair Value Measurement* to use internally consistent cash flows and discount rates and enables preparers to determine whether to use pretax or post-tax cash flows and discount rates for the most appropriate fair value measurement.

The amendment is applied prospectively, i.e. for fair value measurements on or after the date an entity initially applies the amendment.

The amendment is effective for annual periods beginning on or after January 1, 2022, with early application permitted.

The future adoption of the amendments will have no effect on the Company's financial statements as the Company does not have subsidiary as first-time adopter; has no financial liabilities to be derecognize; does not have lease contracts and leasehold improvements and does not have biological assets covered by PAS 41 that need to exclude its cash flows for taxation on its financial statements.

Amendments to PAS 1 and PFRS Practice Statement 2, *Disclosure Initiative – Accounting Policies*

The amendments are as follows:

- An entity is now required to disclose its material accounting policy information instead of its significant accounting policies
- several paragraphs are added to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material;
- the amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial;
- the amendments clarify that accounting policy information is material if users of an **entity's financial statements would need it to understand other material information** in the financial statements; and
- the amendments clarify that if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information

The amendments are applied prospectively. The amendments to PAS 1 are effective for annual periods beginning on or after January 1, 2023. Earlier application is permitted.

The Company will continue its assessment and will finalize the same upon the effectivity of these amendments.

Amendments to PAS 8, *Definition of Accounting Estimates*

With the amendment, accounting estimates are now defined as "monetary amounts in financial statements that are subject to measurement uncertainty."

The amendment clarified that a change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.

A change in an accounting estimate may affect only the current period's profit or loss, or the profit or loss of both the current period and future periods. The effect of the change relating to the current period is recognized as income or expense in the current period. The effect, if any, on future periods is recognized as income or expense in those future periods.

The amendments are effective for annual periods beginning on or after January 1, 2023 and changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted.

The future adoption of the amendments will have no effect on the Company's financial statements as the Company does not have changes in the inputs or measurement techniques used to develop its accounting estimates.

Amendments to PAS 12 Income Taxes, Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments introduce a further exception from the initial recognition exemption. Under the amendments, an entity does not apply the initial recognition exemption for transactions that give rise to equal taxable and deductible temporary differences.

Depending on the applicable tax law, equal taxable and deductible temporary differences may arise on initial recognition of an asset and liability in a transaction that is not a business combination and affects neither accounting nor taxable profit. For example, this may arise upon recognition of a lease liability and the corresponding right-of-use asset applying PFRS 16 at the commencement date of a lease.

Following the amendments to PAS 12, an entity is required to recognize the related deferred tax asset and liability, with the recognition of any deferred tax asset being subject to the recoverability criteria in PAS 12.

The Board also adds an illustrative example to PAS 12 that explains how the amendments are applied.

The amendments apply to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period an entity recognizes:

- A deferred tax asset (to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized) and a deferred tax liability for all deductible and taxable temporary differences associated with:
 - Right-of-use assets and lease liabilities
 - Decommissioning, restoration and similar liabilities and the corresponding amounts recognized as part of the cost of the related asset
- The cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at that date

The amendments are effective for annual reporting periods beginning on or after January 1, 2023, with earlier application permitted.

The future adoption of the amendments will have no effect on the Company's financial statements as the Company does not have lease contracts and leasehold improvements and does not recognize deferred assets and liabilities.

Amendment to PFRS 17, Initial Application of PFRS 17 and PFRS 9 – Comparative Information

The amendment is a transition option relating to comparative information about financial assets presented on initial application of IFRS 17.

The main amendment in Initial Application of PFRS 17 and PFRS 9 — Comparative Information (Amendment to PFRS 17) is a narrow-scope amendment to the transition requirements of PFRS 17 for entities that first apply PFRS 17 and PFRS 9 at the same time. The amendment regards financial assets for which comparative information is presented on initial application of PFRS 17 and PFRS 9, but where this information has not been restated for PFRS 9.

Under the amendment, an entity is permitted to present comparative information about a financial asset as if the classification and measurement requirements of PFRS 9 had been applied to that financial asset before. The option is available on an instrument-by-instrument basis. In applying the classification overlay to a financial asset, an entity is not required to apply the impairment requirements of PFRS 9.

There are no changes to the transition requirements in PFRS 9.

The amendment is effective for annual periods beginning on or after January 1, 2025, as amended by the FRSC from January 1, 2023. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB. Still subject to approval of the Board of Accountancy.

The future adoption of the amendment **will have no effect on the Company's financial statements** as the Company does not issue insurance contracts.

4. SIGNIFICANT ACCOUNTING POLICIES

Financial assets

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Company commits to purchase or sell the asset.

At initial recognition, the Company measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss (FVTPL), transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs of financial assets and financial liabilities carried at FVTPL are expensed in profit or loss.

Classification and Subsequent Measurement

The Company classifies its financial assets in the following measurement categories:

- FVTPL
- Fair value through other comprehensive income (FVTOCI); and
- Amortized cost

As at December 31, 2021 and 2020, the Company does not have financial assets classified as FVTOCI.

Classification of financial assets will be **driven by the entity's business model for managing** the financial assets and the contractual cash flows of the financial assets.

A financial asset is to be measured at amortized cost if: a) the objective of the business model is to hold the financial asset for the collection of the contractual cash flows, and b) the contractual cash flows under the instrument represent solely payment of principal and interest (SPPI).

All other debt and equity instruments must be recognized at fair value.

All fair value movements on financial assets are taken through the statement of comprehensive income, except for equity investments that are not held for trading, which may be recorded in the statement of comprehensive income or in reserves (without subsequent recycling to profit or loss).

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the group classifies its debt instruments:

- Amortized cost. Assets that are held for collection of contractual cash flows where those cash flows represent SPPI are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

- FVTPL. Assets that do not meet the criteria for amortized cost are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of comprehensive income within other gains/(losses) in period in which it arises. Interest income from these financial assets is included in finance income.

The business model reflects how the Company manages the assets in order to generate **cash flows. That is, whether the Company's objective is solely to collect the contractual cash flows from the assets or to collect both the contractual cash flows and cash flows arising from the sale of assets.** If neither of these is applicable, then the financial assets **are classified as part of 'other' business model and measured at FVTPL. Factors considered by the Company in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.**

Where the business model is to hold assets to collect contractual cash flows or to collect **contractual cash flows and sell, the Company assesses whether the financial instruments'** cash flows represent SPPI. In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at FVTPL.

Amortized cost and effective interest method

The effective interest method is a method of calculating the amortized cost of a financial asset and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired (POCI) financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses (ECL), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for any loss allowance.

Interest income is recognized using the effective interest method for debt instruments measured subsequently at amortized cost. For financial instruments other than POCI financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognized by applying the effective interest rate to the amortized cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognized by applying the effective interest rate to the gross carrying amount of the financial asset.

Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective, that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Company subsequently measures all equity investments at FVTPL, except where the **Company's Management has elected, at initial recognition, to irrevocably designate an equity instrument at FVTOCI. The Company's policy is to designate equity investments** as FVTOCI when those investments are held for the purposes other than to generate investment returns. When the election is used, fair value gains and losses are recognized in OCI and are not subsequently reclassified to profit or loss, including disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, **continue to be recognized in profit or loss as other income when the Company's right to receive payment is established.**

Changes in the fair value of financial assets at FVTPL are recognized in net realized gains (losses) on investments in the statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

As at December 31, 2021 and 2020, the Company does not have financial assets at FVTOCI.

Impairment of financial assets

The Company recognizes a loss allowance for ECL on investments in debt instruments that are measured at amortized cost. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

With the exception of POCI financial assets, ECLs are required to be measured through a loss allowance at an amount equal to:

- 12-month ECL, i.e. lifetime ECL that result from those default events on the financial instrument that are possible within 12 months after the reporting date, (referred to as Stage 1); or
- full lifetime ECL, i.e. lifetime ECL that result from all possible default events over the life of the financial instrument, (referred to as Stage 2 and Stage 3).

A loss allowance for full lifetime ECL is required for a financial instrument if the credit risk on that financial instrument has increased significantly since initial recognition. For all other financial instruments, ECLs are measured at an amount equal to the 12-month ECL.

ECLs are a probability-weighted estimate of the present value of credit losses. These are measured as the present value of the difference between the cash flows due to the Company under the contract and the cash flows that the Company expects to receive arising from the weighting of multiple future economic scenarios, discounted at the **asset's effective interest rate.**

The Company measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. The measurement of the loss allowance is based on the **present value of the asset's expected cash flows using the asset's original effective interest rate, regardless of whether it is measured on an individual basis or a collective basis.**

The Company recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Significant increase in credit risk

The Company monitors all financial assets that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk the Company will measure the loss allowance based on lifetime rather than 12-month ECL.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognized. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

Forward-looking information considered includes the future prospects of the industries **in which the Company's debtors operate, obtained from economic expert reports,** financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast **economic information that relate to the Company's core operations.**

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- **an actual or expected significant deterioration in the financial instrument's external** (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument (e.g., a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortized cost);
- existing or forecast adverse changes in business, financial or economic conditions **that are expected to cause a significant decrease in the debtor's ability to meet its** debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the **debtor's** ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Company presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Company has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Company assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

A financial instrument is determined to have low credit risk if:

- it has a low risk of default;
- the borrower is considered, in the short term, to have a strong capacity to meet its obligations; and
- the Company expects, in the longer term, that adverse changes in economic and business conditions might, but will not necessarily, reduce the ability of the borrower to fulfill its obligations.

The Company considers a financial asset to have low credit risk when the asset has **external credit rating of 'investment grade' in accordance with the globally understood** definition or if an external rating is not available, the asset has an internal rating of **'performing'**. **Performing means** that the counterparty has a strong financial position and there is no past due amounts.

The Company regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Default

The Company considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Company, in full (without taking into account any collateral held by the Company).

Irrespective of the above analysis, the Company considers that default has occurred when a financial asset is more than 90 days past due unless the Company has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default (PD) which affects both the measurement of ECLs and the identification of a significant increase in credit risk.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence of credit-impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the lender of the borrower, for economic or contractual reasons relating to the **borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;**
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization;
- the disappearance of an active market for a security because of financial difficulties; or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

It may not be possible to identify a single discrete event—instead, the combined effect of several events may have caused financial assets to become credit-impaired. The Company assesses whether debt instruments that are financial assets measured at amortized cost or FVTOCI are credit-impaired at each reporting date. To assess if debt instruments are credit impaired, the Company considers factors such as bond yields, credit ratings and the ability of the borrower to raise funding.

Write-off

The Company writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, such as when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner.

Financial assets written off may still be subject to enforcement activities under the **Company's recovery procedures, taking into account legal** advice where appropriate. Any recoveries made are recognized in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information.

As for the exposure at default, for financial assets, this is represented by the **assets' gross carrying amount at the reporting date, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.**

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate.

If the Company has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Company measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Company recognizes an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognized in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

Presentation of allowance for ECL in the statements of financial position

Loss allowances for ECL are presented in the statements of financial position as a deduction from the gross carrying amount of the assets.

Derecognition

The Company derecognizes a financial asset only when the contractual rights to the **asset's cash flows expire or when the financial asset and substantially all** the risks and rewards of ownership of the asset are transferred to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognized in OCI and accumulated in equity is recognized in profit or loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognized in OCI is not subsequently reclassified to profit or loss, but is transferred to retained earnings.

Financial Liabilities and Equity Instruments

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Financial liabilities

All financial liabilities are measured subsequently at amortized cost using the effective interest method or at FVTPL. Financial liabilities are classified as either financial liabilities **'at FVTPL' or 'other financial liabilities'**.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is (i) held for trading, or (ii) it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial liabilities at FVTPL are measured at fair value, with any gains/losses arising on remeasurement recognized in profit or loss to the extent that they are not part of a designated hedging relationship. The net gain/loss recognized in profit or loss incorporates any interest paid on the financial liability and is included in profit or loss.

However, for financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognized in OCI, unless the recognition of the effects of changes in **the liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss**. The remaining amount of change in the fair value of liability is recognized in profit or loss. **Changes in fair value attributable to a financial liability's credit risk** that are recognized in OCI are not subsequently reclassified to profit or loss; instead, they are transferred to retained earnings upon derecognition of the financial liability.

In making the determination of whether recognizing changes in the liability's credit risk in OCI will create or enlarge an accounting mismatch in profit or loss, the Company **assesses whether it expects that the effects of changes in the liability's credit risk** will be offset in profit or loss by a change in the fair value of another financial instrument measured at FVTPL. This determination is made at initial recognition.

As at December 31, 2021 and 2020, the Company does not have financial liabilities classified at FVTPL, hence, all financial liabilities are subsequently measured at amortized cost.

Financial liabilities measured subsequently at amortized cost

Financial liabilities that are not (i) contingent consideration of an acquirer in a business combination, (ii) held-for-trading, or (iii) designated as at FVTPL, are measured subsequently at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

The Company's financial liabilities classified under this category include accrued expenses and other payables, and payable to fund manager.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statements of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

A right to offset must be available today rather than being contingent on a future event and must be exercisable by any of the counterparties, both in the normal course of business and in the event of default, insolvency or bankruptcy.

Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Share capital

Share capital consisting of ordinary shares is classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax. Any excess of proceeds from issuance of shares over its par value is recognized as additional paid-in capital.

Retained earnings

Retained earnings represent accumulated profit attributable to equity holders of the Company after deducting dividends declared. Retained earnings may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Repurchase, disposal and reissuance of share capital (treasury shares)

When share capital recognized as equity is repurchased, the amount of the consideration paid, which includes directly attributable cost, net of any tax effects, is recognized as a reduction from equity. Repurchased shares are classified as treasury shares and are presented in the reserve for own share account. When treasury shares are sold or reissued subsequently, the amount received is recognized as increase in equity, and the resulting surplus or deficit on the transaction is presented as additional paid-in capital.

Deposit for future stock subscriptions

DFFS is recorded at historical cost. According to Financial Reporting Bulletin (FRB) No. 6 as issued by SEC, it is classified as equity when all of the following criteria are met:

- the unissued authorized capital stock of the entity is insufficient to cover the amount of shares indicated in the contract;
- **there is Board of Directors' approval on the proposed increase in authorized capital stock (for which a deposit was received by the Company);**
- **there is stockholders' approval of said proposed increase; and**
- the application for the approval of the proposed increase has been presented for filing or has been filed with the SEC.

DFFS is classified as liability, when the above criteria are not met.

Prepayments

Prepayments represent expenses not yet incurred but already paid in cash. Prepayments are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit or loss as these are consumed in operations or expire with the passage of time.

Prepayments are classified in the statements of financial position as current asset when the cost of services related to the prepayments are expected to be incurred within one **(1) year or the Company's normal operating cycle, whichever is longer. Otherwise,** prepayments are classified as non-current assets.

Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are recognized when the Company has a present obligation, either legal or constructive, as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized is the best estimate of the consideration required to settle the present obligation at the end of each reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation; its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

If it is no longer probable that a transfer of economic benefits will be required to settle the obligation, the provision should be reversed.

Contingent Liabilities and Assets

Contingent liabilities and assets are not recognized because their existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent liabilities are disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent assets are not recognized, but are disclosed only when an inflow of economic benefits is probable. When the realization of income is virtually certain, asset should be recognized.

Revenue Recognition

Revenue is measured based on the consideration to which the Company expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Company recognizes revenue when it transfers control of a product or service to a customer.

Dividend income

Dividend income from investments is recognized when the shareholders' rights to receive payments have been established, usually at ex-dividend rate, provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset **to that asset's net carrying amount.**

Realized gains or losses

Gains or losses arising on the disposal of investments are determined as the difference between the sales proceeds and the carrying amount of the investments and is recognized in profit or loss.

Fair value gains or losses

Gains or losses arising from changes in fair values of investments are disclosed under the policy on financial assets.

Other income

Other income is income generated outside the normal course of business and is recognized when it is probable that the economic benefits will flow to the Company and it can be measured reliably.

Expense Recognition

Expenses are recognized in profit or loss when a decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably. Expenses are recognized in profit or loss on the basis of: (i) a direct association between the costs incurred and the earning of specific items of income; (ii) systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association with income can only be broadly or indirectly determined; or, (iii) immediately when an expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify, or cease to qualify, for recognition in the statements of financial position as an asset.

Expenses in the statements of comprehensive income are presented using the function of expense method. Investment expenses are transaction costs incurred in the purchase and sale of investments. Operating expenses are costs attributable to administrative and other business expenses of the Company including management fees and custodianship fees.

Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such basis.

In addition, for financial reporting purposes, fair value measurements are categorized into Levels 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Related Party Transactions

A related party transaction is a transfer of resources, services or obligations between the Company and a related party, regardless of whether a price is charged. Parties are considered related if one party has control, joint control, or significant influence over the other party in making financial and operating decisions. An entity that is a post-employment benefit plan for the employees of the Company and the key management personnel of the Company are also considered to be related parties.

Taxation

Income tax expense represents the sum of the current tax, final tax and deferred tax expense.

Current tax

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statements of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it **further excludes items that are never taxable or deductible. The Company's current tax** expense is calculated using 25% regular corporate income tax (RCIT) rate or 1% minimum corporate income tax (MCIT), rate and 30% RCIT rate or 2% MCIT rate, whichever is higher, in 2021 and 2020, respectively.

Final tax

Final tax expense represents final taxes withheld on interest income from cash in banks, special savings deposits and fixed-income securities and final taxes withheld on proceeds from sale of listed equity securities.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and these relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred taxes for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in OCI or directly in equity, in which case, the current and deferred taxes are also recognized in OCI or directly in equity, respectively.

Earnings per Share

The Company computes its basic earnings per share by dividing profit or loss for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the period.

For the purpose of calculating diluted earnings per share, profit or loss for the year attributable to ordinary equity holders of the Company and the weighted average number of shares outstanding are adjusted for the effects of deposits for future stock subscriptions which are dilutive potential ordinary shares.

Net Asset Value per Share (NAVPS)

The Company computes its NAVPS by dividing the total net asset value as at the end of the reporting period by the number of issued and outstanding shares and shares to be issued on deposits for future stock subscriptions.

Events After the Reporting Period

The Company identifies events after the end of the reporting period as those events, both favorable and unfavorable, that occur between the end of the reporting period and the date when the financial statements are authorized for issue. The financial statements of the Company are adjusted to reflect those events that provide evidence of conditions that existed at the end of the reporting period. Non-adjusting events after the end of the reporting period are disclosed in the notes to the financial statements when material.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments in Applying Accounting Policies

The following are the critical judgments, apart from those involving estimations, that **Management has made in the process of applying the Company's accounting policies** that have the most significant effect on the amounts recognized in the financial statements.

Business model assessment

Classification and measurement of financial assets depend on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortized cost that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the **Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.**

The Company measures its financial assets at amortized cost if the financial asset qualifies for both SPPI and business model test. The **Company's business model is to hold the asset and to collect its cashflows which are SPPI.** All other financial assets that do not meet the SPPI and business model test are measured at FVTPL.

As at December 31, 2021 and 2020, **the Company's financial** assets measured at FVTPL amounted to \$3,539,070 and \$21,467,178, respectively, as disclosed in Note 8, and financial assets at amortized cost amounted to \$182,417,815 and \$71,758,437, respectively, composed of cash and cash equivalents, accrued interest receivables, and financial assets at amortized cost as disclosed in Notes 6, 7, and 9, respectively.

Significant increase of credit risk

ECL are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. PFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Company takes into account qualitative and quantitative reasonable and supportable forward-looking information.

The Company considers a financial instrument to have experienced a significant increase in credit risk when one or more of the qualitative and quantitative criteria have been met as disclosed in Note 21.

As at December 31, 2021 and 2020, **the Company's** estimated credit losses for financial instruments measured at amortized cost amounted to \$82,593 and nil, respectively as disclosed in Note 9 and Note 21.

Models and assumptions used

The Company uses various models and assumptions in measuring fair value of financial assets as well as in estimating ECL. Judgment is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk.

The Company's model and assumptions used in measuring fair value of financial assets and estimating ECL are disclosed in Notes 18 and 21, respectively.

Functional currency

Based on the economic substance of the underlying circumstances relevant to the Company, the functional currency of the Company has been determined to be the USD. The USD is the currency of the primary economic environment in which the Company operates. It is the currency being used to report the **Company's results of operations**.

Puttable shares designated as equity instruments

The Company's share capital met the specified criteria to be presented as equity. The Company designated its redeemable share capital as equity instruments since the **Company's share capital met the criteria specified in PAS 32, Financial Instruments: Presentation**, to be presented as equity.

A puttable financial instrument includes a contractual obligation for the issuer to repurchase or redeem that instrument for cash or another financial asset on exercise of the put. As an exception to the definition of a financial liability, an instrument that includes such an obligation is classified as an equity instrument if it has met all the following features:

- a. it entitles the holder to a pro rata share of the entity's net assets in the event of the **entity's liquidation. The entity's net assets are those assets that remain after deducting all other claims on its assets;**
- b. it is in the class of instruments that is subordinate to all other classes of instruments;
- c. all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- d. apart from the contractual obligation for the issuer to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any contractual obligation to deliver cash or another financial asset to another entity, or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the entity, and it is not a contract that will or may be settled in the entity's own equity instruments; and
- e. the total expected cash flows attributable to the instrument over the life of the instrument are based substantially on the profit or loss, the change in the recognized net assets or the change in the fair value of the recognized and unrecognized net assets of the entity over the life of the instrument (excluding any effects of the instrument).

As at December 31, 2021 and 2020, the recognized amount of share capital representing puttable shares in the statements of financial position amounted to \$265,279 and \$257,620, respectively, as disclosed in Note 13.

Key Sources of Estimation Uncertainty

The following are the Company's key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Probability of default (PD)

PD constitutes a key input in measuring ECL. PD is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

As at December 31, 2021 and 2020, the Company assessed a probability of default of 3.18% and nil, respectively, for all of its financial assets measured at amortized cost.

The assumptions used by the Company in estimating PD is disclosed in Note 21.

Loss Given Default (LGD)

LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

The Company uses portfolio averages from external estimates sourced out from **Standard and Poor's (S&P) as the LGD estimates. The categorization of LGD estimates per financial asset measured at amortized cost is disclosed in Note 21.**

Estimating loss allowance for ECL

The measurement of the ECL for financial assets measured at amortized cost and FVTOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior. Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in Note 21 Credit Risk - ECL measurement, which also sets out the key sensitivities of the ECL to changes in these elements.

A number of significant judgments are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL; and
- Establishing the number and relative weightings of forward-looking scenarios and the associated ECL.

The Company's ECL assessment on the financial assets measured at amortized cost is disclosed in Note 21.

Deferred tax asset

The Company reviews the carrying amount at the end of each reporting period and reduces deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Total deferred tax asset recognized in the statements of financial position as at December 31, 2021 and 2020 amounted to \$45,164 and \$101,839, respectively, as disclosed in Note 19.

Determining fair value of investments in special savings deposits classified as financial assets at FVTPL

The Company carries its investments in special savings deposits classified as financial assets at fair value, which requires use of accounting estimates and judgment. Since market interest rate is a significant component of fair value measurement, fair value would differ if the Company applied a different set of reference rates in the valuation methodology of the financial assets and financial liability, respectively. Any change in the fair value of these financial assets would affect profit or loss and equity.

As at December 31, 2021 and 2020, the carrying amounts of investments in special savings deposits classified as financial assets at FVTPL amounted to \$3,337,800 and \$12,002,500, respectively, as disclosed in Note 8.

6. CASH AND CASH EQUIVALENTS

This account consists of:

	2021	2020
Cash in banks	\$31,449,447	\$20,641,431
Cash equivalents	9,997,979	4,004,300
	<u>\$41,447,426</u>	<u>\$24,645,731</u>

Cash in banks earned interest amounting to \$185, \$567 and \$791 in 2021, 2020 and 2019, respectively, at an average rate of 0.00%, 0.01% and 0.10%, respectively, as disclosed in Note 16.

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. The Company classifies an investment as cash equivalent if that investment has a maturity of three months or less from the date of acquisition.

Cash equivalents earned interest amounting to \$1,780, \$13,852 and \$85,187 at an average interest rates of 0.28%, 0.23% and 0.53% in 2021, 2020 and 2019, respectively, as disclosed in Note 16. Accrued interest receivable amounted to nil and \$56,002 as at December 31, 2021 and 2020, respectively, as disclosed in Note 7.

7. ACCRUED INTEREST RECEIVABLE

This account consists of accrued interest on the following:

	Notes	2021	2020
Corporate bonds	9	\$1,046,820	\$338,555
Special savings deposits	8	7,174	-
Cash equivalents	6	-	56,002
		<u>\$1,053,994</u>	<u>\$394,557</u>

Collection of interest depends on the scheduled interest payments of each asset held.

8. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

This account consists of:

	2021	2020
Special savings deposits	\$3,337,800	\$ 12,002,500
Investments in unit investment trust funds (UITF)	201,270	9,464,678
	<u>\$3,539,070</u>	<u>\$21,467,178</u>

Financial assets at FVTPL are composed of investments in UITF and dollar-denominated special savings deposits.

Investments in UITF are placed in universal bank and are redeemable anytime. Special savings deposits have contractual maturities of more than three months.

The Company recognized dividend income from investments in UITF amounting to nil, \$3,139 and nil in 2021, 2020 and 2019, respectively.

Interest income earned on special savings deposits amounted to \$48,469, \$65,881 and \$57,630 in 2021, 2020 and 2019, respectively, as disclosed in Note 16. Average interest rates earned on these investments are also disclosed in Note 16. Accrued interest receivable amounted to \$7,174 and nil as at December 31, 2021 and 2020, respectively, as disclosed in Note 7.

Net gains and losses on investments recognized in profit or loss arising from financial assets at FVTPL are as follows:

	2021	2020	2019
Net realized gains (losses) on equity securities	\$ 33,846	(\$ 31,152)	\$20,031
Net unrealized gain (losses) on equity securities	(13,408)	(10,223)	22,923
Net unrealized gain on fixed-income securities	-	20,389	-
	(13,408)	10,166	22,923
	\$ 20,438	(\$ 20,986)	\$42,954

The movements in the financial assets at FVTPL are summarized as follows:

	2021	2020	2019
Balance, January 1	\$ 21,467,178	\$ 10,799,986	\$ 1,403,121
Additions	940,030,669	44,212,345	16,617,300
Disposal	(957,945,369)	(33,555,319)	(7,243,358)
Unrealized gains (losses)	(13,408)	10,166	22,923
	\$ 3,539,070	\$ 21,467,178	\$10,799,986

Special savings deposit amounting to \$3,337,800 and \$12,002,500 as at December 31, 2021 and 2020, respectively, are due in one year or less.

Realized gains from sale of financial assets at amortized cost amounting to \$206,833, \$77,972, and nil in 2021, 2020, and 2019, respectively, are part of the net realized gains on investment as presented in the statements of comprehensive income. The disposal of financial assets of the Company is attributable to an isolated event that is beyond the **Company's** control, is non-recurring and could not have been reasonably anticipated by the Company. The main reason for the disposal is to raise cash for anticipated redemptions or to shift to higher-rated securities to improve asset quality of the Company.

Interest income earned on financial assets at amortized cost investments amounted to \$1,541,216, \$1,057,473 and \$350,570 in 2021, 2020 and 2019, respectively, as disclosed in Note 16. The average interest rates of financial assets at amortized cost investments are also disclosed in Note 16. Accrued interest receivables amounted to \$1,046,820 and \$338,555 as at December 31, 2021 and 2020, respectively, as disclosed in Note 7.

The amortization of discount and premium of financial assets at amortized cost investments are summarized as follows:

	2021	2020
Amortization of premium	(\$52,820,945)	(\$839,287)
Amortization of discount	51,926,495	167,230

Details of the Company's related party transactions are as follows:

a) Investment Management

The Company appointed SLAMCI as its fund manager, adviser, administrator, distributor and transfer agent that provides management, distribution and all required operational services.

Under the Management and Distribution Agreement (MDA), SLAMCI receives aggregate fees for these services at an annual rate of 0.125% of the net assets attributable to shareholders on each valuation day. Moreover, under the Transfer Agency Agreement, SLAMCI receives aggregate fees for these services at an annual rate of 0.15% of the net assets attributable to shareholders on each valuation day.

On September 22, 2020, the Company and SLAMCI amended its MDA and Transfer Agency Agreement based on the provisions of ICA 2018 IRR (Implementing Rules and Regulations of the Investment Company Act 2018) published by the SEC on January 11, 2018. The agreements shall remain in effect for a period of 2 years from July 31, 2020 and shall continue in effect from year to year as approved by the respective Board of Directors of the Company and SLAMCI.

Management, transfer and distribution fees charged by SLAMCI to the Company in 2021, 2020 and 2019 amounted to \$581,511, \$264,492 and \$88,776, respectively. Accrued management fees as at December 31, 2021 and 2020 amounted to \$61,430 and \$29,597 shown as "Payable to fund manager" in the statements of financial position.

b) Remuneration of Directors

Remuneration of directors is presented in the statements of comprehensive income under "Directors' fees" amounting to \$7,976, \$6,362 and \$5,269 in 2021, 2020 and 2019, respectively, which are usually paid to directors based on the meetings held and attended. There were no accrued directors' fees as at December 31, 2021 and 2020.

Except for the Board of Directors, the Company has no key management personnel and employees. Pursuant to the Company's Management and Distribution Agreement with SLAMCI, the latter provides all the staff of the Company, including executive officers and other trained personnel.

c) Purchase and Sale of Investments

These types of transactions are buy and sell of the same security between portfolios of two separate affiliated legal entities and whose assets are managed by Investments Department until July 25, 2021 and Sun Life Investment Management and Trust Corporation from July 26, 2021 onwards. Portfolio Managers determine that this is appropriate and in the best interest of certain portfolios and ensure that the trade will be executed in a manner that is fair and equitable to both parties involved in the cross trade.

12. FINANCIAL LIABILITY AT FAIR VALUE THROUGH PROFIT OR LOSS

In 2019, the Company received DFFS amounting to \$3,714,046 equivalent to 3,581,184 shares, which were classified as liability since the Company does not have sufficient ACS to accommodate the subscriptions.

Accordingly, the Company designated the DFFS as financial liability measured at FVTPL amounting to \$3,714,404 as at December 31, 2019. The DFFS in 2019 was valued based on the December 31, 2019 net asset value per share (NAVPS) of \$1.0372 and the Company recognized a fair value loss on financial liability designated as FVTPL amounting to \$358 in 2019 as shown in the statements of comprehensive income.

In 2020, the Company reclassified to equity the deposit for future stock subscriptions recorded under this account since the Company has met all of the conditions required for such to be recognized as equity as disclosed in Note 13.

Redeemable shares

Redeemable shares carry one vote each, and are subject to the following:

- a. Distribution of dividends

Each shareholder has a right to any dividends declared by the Company's Board of Directors and approved by 2/3 of its outstanding shareholders.

b. Denial of pre-emptive rights

No shareholder shall, because of his ownership of the shares, has a pre-emptive or other right to purchase, subscribe for, or take any part of shares or of any other securities convertible into or carrying options or warrants to purchase shares of the registrant.

c. Right of redemption

The holder of any share, upon its presentation to the Company or to any of its duly authorized representatives, is entitled to receive, by way of redemption, **approximately his proportionate share of the Company's current net assets or the cash equivalent thereof.** Shares are redeemable at any time at their net assets value less any applicable sales charges and taxes.

14. ADDITIONAL PAID-IN CAPITAL

Additional paid-in capital of \$10,890,092, \$11,423,301 and \$11,672,732 as at December 31, 2021, 2020 and 2019, respectively, pertains to excess payments over par value from investors and from reissuance of treasury shares.

15. NET ASSET VALUE PER SHARE

NAVPS is computed as follows:

	Note	2021	2020
Total equity		\$185,719,103	\$92,538,210
Outstanding shares	13	175,080,242	87,830,338
		\$1.0608	\$1.0536

NAVPS is based on issued, outstanding and fully paid shares minus treasury shares plus deposits for future stock subscriptions classified as equity. The expected cash outflow on redemption of these shares is equivalent to computed NAVPS as at reporting period.

16. INTEREST INCOME

This account consists of interest income on the following:

	Notes	2021	2020	2019
Fixed-income securities	9	\$1,541,216	\$1,057,473	\$350,570
Special savings deposits	8	48,469	65,881	57,630
Cash equivalents	6	1,780	13,852	85,187
Cash in banks	6	185	567	791
		\$1,591,650	\$1,137,773	\$494,178

Interest income is recorded gross of final withholding tax which is shown as "Income tax expense (benefit)" account in the statements of comprehensive income.

Average interest rates of investments and cash and cash equivalents in 2021, 2020 and 2019 are as follows:

	Notes	2021	2020	2019
Fixed-income securities	9	1.66%	1.88%	2.72%
Special savings deposits	8	0.31%	0.11%	2.38%
Cash equivalents	6	0.28%	0.23%	0.53%
Cash in banks	6	0.00%	0.01%	0.10%

Interest income earned on financial assets, analyzed by category, is as follows:

	Notes	2021	2020	2019
Financial assets at amortized cost	9	\$1,541,216	\$1,057,473	\$350,570
Financial assets at FVTPL	8	48,469	65,881	57,630
Cash and cash equivalents	6	1,965	14,419	85,978
		\$1,591,650	\$1,137,773	\$494,178

17. EARNINGS PER SHARE

The calculation of the basic and diluted earnings per share is based on the following data:

	2021	2020	2019
Total comprehensive income for the year	\$871,108	\$883,893	\$420,053
Weighted average number of shares:			
Issued and outstanding	11,924,098	11,759,721	5,839,778
Potential dilutive shares	122,830,872	50,523,517	12,229,832
Weighted average number of outstanding shares	134,754,970	62,283,238	18,069,610
Basic earnings per share	\$0.073	\$0.075	\$0.072
Diluted earnings per share	\$0.007	\$0.017	\$0.023

The DFFS as at December 31, 2021, 2020 and 2019 are dilutive, therefore, diluted earnings per share is lower than the basic earnings per share.

18. FAIR VALUE OF FINANCIAL INSTRUMENTS

Assets and liabilities measured at fair value on a recurring basis

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into levels 1 to 3 based on the degree to which the inputs to fair value are observable.

	Notes	Level 1	Level 2	Total
December 31, 2021				
Financial Assets				
Special savings deposits	8	\$ -	\$3,337,800	\$3,337,800
Investments in UITF	8	201,270	-	201,270
		\$ 201,270	\$3,337,800	\$3,539,070

Special savings deposits	8	\$ -	\$12,002,500	\$12,002,500
Investments in UITF	8	9,464,678	-	9,464,678
		\$9,464,678	\$12,002,500	\$21,467,178

Investments in UITFs are valued at their published Net Asset Values per Unit (NAVPU) and NAVPS, respectively, as at reporting date.

The fair value of the special savings deposits is based on discounted cash flow analysis using prevailing market interest rates. However, due to their short term maturity, their carrying amounts approximate their fair values."

There were no transfers between Level 1 and 2 in 2021 and 2020.

Financial assets and liabilities not measured at fair value

The following financial assets and financial liabilities are not measured at fair values on recurring basis but the fair value disclosure is required:

		\$ 705,926	\$ -	\$ 705,926	\$ -	\$ 705,926

Cash in banks, cash equivalents, accrued interest receivable, accrued expenses and other payables, and payable to fund manager have short-term maturities, hence, their carrying amounts are considered their fair values.

The difference between the carrying amount of accrued expenses and other payables disclosed in the statements of financial position and the amount disclosed in this note pertains to withholding and documentary stamp taxes and filing and registration fees payable that are not considered financial liabilities.

The fair values of financial assets at amortized cost were determined based on the **discounted cash flow analysis using the Company's estimated cost of borrowing ranging** from 1.96% to 2.48% for loans with less than one year maturity and loans maturing in five years, respectively, for 2021 and 1.71% to 2.67% for loans with less than one year maturity and loans maturing in five years, respectively, for 2020.

There were no transfers between Levels 1, 2 and 3 in 2021. In 2020, transfer from Level 2 to Level 3 in financial assets at amortized cost is due to the unavailability of related **market prices sources, thus, the Company's estimated cost of borrowing was used.**

19. INCOME TAX EXPENSE (BENEFIT)

Details of income tax expense (benefit) are as follows:

On March 26, 2021, the Republic Act (RA) 11534 also known as **“Corporate Recovery and Tax Incentives for Enterprises Act”** or **“CREATE” Act** was passed into law which reduced the corporate income tax rates and rationalized the current fiscal incentives by making it time-bound, targeted and performance-based.

Among others, the Act includes the following significant revisions:

1. Effective July 1, 2020, domestic corporations with total assets not exceeding P100 million and net taxable income of P5 million and below shall be subject to 20% income tax rate while the other domestic corporations and resident foreign corporations will be subject to 25% tax income tax rate;
2. Minimum corporate income tax (MCIT) rate is reduced to from 2% to 1% from July 1, 2020 to June 30, 2023;

The tax rate used in the reconciliations above is the corporate tax rate of 25% in 2021 and 30% in 2020 and 2019 payable by the Company.

Deferred taxes

The following is the composition of deferred tax asset recognized by the Company:

		P9,361,938	P -	P -	P9,361,938	P -

Details of the Company's NOLCO covered by Revenue Regulation (RR) No. 25-2020 is as follows (in Philippine Peso) :

Year Incurred	Year of Expiry	Beginning Balance	Addition	Expired	Applied	2021 Balance
2020	2025	P6,981,168	P -	P -	P6,981,168	P -

Pursuant to Section 4 COVID-19 Response and recovery Interventions paragraph (bbbb) of Republic Act No. 11494 also known as "Bayanihan to Recover As One Act" and to RR No. 25-2020 of Bureau of Internal Revenue, the NOLCO incurred by the Company for taxable years 2020 and 2021 shall be carried over as a deduction from gross income for the next five consecutive taxable years immediately following the year of such loss.

Based on Management's expectation of the Company's future taxable income, the Company recognizes deferred tax asset only to the extent that future taxable income will be available against which it can be utilized.

The Company's interest income from cash in banks and cash equivalents is already subjected to final tax while interest income from fixed-income securities, except for foreign-issued debt instruments which are subject to RCIT, are tax-exempt.

Realized gains on redemption of investments in UITFs are exempted from tax and are therefore excluded from the computation of taxable income subject to RCIT.

20. CONTINGENCIES

The Company has no pending legal cases as at December 31, 2021 and 2020 that may have a material effect on the Company's financial position and results of operations.

21. FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: market risk, which includes interest rate risk and equity price risk, credit risk and liquidity risk. The Fund Manager exerts best efforts to anticipate events that would negatively affect the value of the Company's assets and takes appropriate actions to counter these risks. However, there is no guarantee that the strategies will work as intended. The policies for managing specific risks are summarized below.

Market risk

The Company's activities expose it primarily to the financial risks of changes in interest rates and movements in NAVPU of investment in UITF. The Company has insignificant exposure to foreign exchange risk since foreign currency denominated transactions are minimal. There has been no change on the manner in which the Company manages and measures these risks.

Interest rate risk

Interest rate risk refers to the possibility that the fair value or future cash flows of a financial instruments will fluctuate because of changes in market interest.

The primary source of the Company's interest rate risk relates to cash and cash equivalent, special savings deposits and fixed-income securities. The interest rates of these financial assets are disclosed in Notes 6 and 16.

The risk is managed by the Fund Manager by actively monitoring the prevailing interest rate environment. The duration of the portfolio is reduced during periods of rising rates and widening credit spreads to maximize interest income potential. Conversely, the same is increased during periods of falling rates and narrowing credit spreads.

A 50 basis points increase or decrease in the interest rates had been determined for sensitivity analysis based on the exposure to interest rates for financial assets at FVTPL and financial assets at amortized cost at the end of each reporting period. The same is used for reporting interest rate risk internally to key management personnel and **represents Management's assessment of the reasonable effect of the maximum possible movement in interest rates.**

The following table details the increase or decrease in net income after tax if interest rates had been 50 basis points higher or lower and all other variables are held constant, **the Company's profit or loss for the years ended 2021, 2020 and 2019:**

Change in Interest Rates	Increase (Decrease) in Net Profit(Loss)		
	2021	2020	2018
+50 basis	\$144,691	\$146,096	\$56,220
-50 basis	(\$144,691)	(\$146,096)	(\$56,220)

In **Management's opinion, the** sensitivity analysis is unrepresentative of the inherent interest rate risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Equity price risk

The Company is exposed to equity price risks arising from investments in UITF.

The risk is managed by the Fund Manager by actively monitoring the movements in NAVPU of investments in UITF.

Based on the exposure to equity price risk at the end of each reporting period, if NAVPU investments had been 2% higher or lower, profit or loss would have increased or decreased by \$4,007, \$188,446 and \$202,080 in 2021, 2020 and 2019, respectively.

Other than interest rate and equity price risks discussed above, there are no other market risks which significantly **affect the Company's performance.**

In **Management's opinion, the sensitivity analysis is a representative of the inherent equity price risk** because the exposure at the end of the reporting period does not reflect the credit exposure during the year.

Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of dealing only with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults, and transacts only with entities that are rated with the **equivalent of investment grade of "High" down to "Low". This information is supplied by independent rating agencies, when available.** If the information is not available, the Company uses other publicly available financial information and its own trading records **to rate its major counterparties. The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread among approved counterparties.**

The carrying amounts of financial assets recorded in the financial statements represent **the Company's maximum exposure to credit risk:**

	Notes	2021	2020
Cash in banks	6	\$ 31,449,447	\$20,641,432
Cash equivalents	6	9,997,979	4,004,300
Special savings deposits	8	3,337,800	12,002,500
Financial assets at amortized cost	9	139,916,394	46,718,149
Accrued interest receivable	7	1,053,994	394,557
		\$185,755,614	\$83,760,938

ECL measurement

In 2021 and 2020, ECLs are a probability-weighted estimate of credit losses (i.e. the present value of all cash shortfalls) over the expected life of the financial instrument.

PFRS 9 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition. The Company's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognizing expected credit losses
Stage 1	The counterparty has a low risk of default and does not have any past-due amounts or that the financial instrument is not credit-impaired on initial recognition	12m ECL
Stage 2	There has been a significant increase in credit risk since initial recognition but not yet deemed to be credit-impaired	Lifetime ECL - not credit-impaired
Stage 3	There is evidence indicating that the debtor is in severe financial difficulty and the Company has no realistic prospect of recovery or that the financial instrument is credit-impaired	Lifetime ECL - credit-impaired

Measuring ECL – Explanation of inputs, assumptions and estimation techniques

The ECL is determined by projecting the PD, LGD and exposure at default (EAD) for each future month and for each individual exposure or collective segment. These three components are multiplied together and adjusted for the likelihood of survival (i.e. the exposure has not prepaid or defaulted in an earlier month). This effectively calculates an ECL for each future month, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio and credit grade band. This is supported by historical analysis.

Given that the Company currently has no history of default on their portfolio, a model which incorporates internal default experience is not feasible. For the 12M and Lifetime PD, the Company use external benchmarking of current internal credit ratings to **Standard and Poor's using one-year transition matrices in S&P's Annual Global Corporate Default Study and Rating Transition reports**. From the transition matrices, cumulative PDs are identified. The overall PD for a specific time horizon is calculated from the cumulative PD, by determining the marginal PD and taking the conditional probability of default given that it has not yet defaulted prior to the said time horizon. The resulting overall PDs are the values that will act as components in ECL calculation. The Lifetime PD is developed by analysis of the transition matrices over the maximum life of active loans, which is 12 years.

The table below summarizes the current internal credit rating equivalence system of the Company.

Summary rating	Internal credit rating	S&P rating
High	AAA	AAA
High	AA	AA- to AA+
High	A	A- to A+
High	BBB	BBB- to BBB+
Satisfactory	BB	BB- to B+
Acceptable	B	B- to B+
Low	CCC/C	CCC- to CCC+

The 12M and lifetime EADs are determined based on the contractual repayments owed by the borrower over the 12month or lifetime basis. This will also be adjusted for any expected overpayments made by the borrower. The Company does not have an undrawn component for any of its debt instruments.

For the 12M and lifetime LGDs, considering the availability of related information, the Company use the external estimates sourced from **Standard and Poor's**.

The table below summarized the LGD value for each category of financial assets at amortized costs.

Category	LGD value
Term Loans	27.00%
Senior Secured Bonds	35.00%
Senior Unsecured Bonds	48.00%
Subordinated Bonds	71.00%
Junior Subordinated Bonds	82.00%

Forward-looking information incorporated in the ECL models

The assessment of significant increase in credit rating and the calculation of ECL both incorporate forward-looking information. The Company has performed historical analysis and identified the key economic variables impacting credit risk and ECL for each portfolio. The Company assessed that the key economic variables are unemployment rates for 2021 and 2020.

These economic variables and their associated impact on the PD, EAD and LGD vary by financial instrument. Expert judgment has also been applied in this process. Forecasts **of these economic variables (the "base economic scenario") are based on the economic data from the International Monetary Fund (IMF) from year 2022 until 2026.** The impact of these economic variables on the PD, EAD and LGD has been determined by performing statistical regression analysis to understand the impact changes in these variables have had historically on default rates and on the components of EAD and LGD.

In addition to the base economic scenario, the best value economically spanning from the historical years is taken (upside forecasts). A similar approach applies for the downside forecasts. The scenario weightings are determined by a combination of statistical analysis and expert credit judgement, taking account of the range of possible outcomes each chosen scenario is representative of. The per-scenario Forward Looking Adjustments were assigned probability weights of 70% for the base scenario and 15% for each of the upside and downside forecast in 2021 and 50% for the base scenario, and 25% for each of the upside and downside forecast in 2020.

As with any economic forecasts, the projections and likelihoods of occurrence are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected. The Company considers these forecasts to represent its best estimate of the possible outcomes and has analyzed the non-linearities **and asymmetries within the Company's different portfolios to establish that the chosen scenarios are appropriately representative of the range of possible scenarios.**

The following table details the credit quality of the Company's financial assets and other items, as well as the Company's maximum credit exposure to credit risk by credit risk rating grades as at December 31, 2021 and 2020:

	Notes	Internal Credit rating	Category	12m or lifetime ECL?	Gross carrying amount	Loss allowance	Net carrying amount

Liquidity risk

Liquidity risk arises when the Company encounters difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The Company aims to maintain an appropriate level of liquidity which means having sufficient liquidity to be able to meet all obligations promptly under foreseeable adverse circumstances, while not having excessive liquidity.

The Company maintains at least ten percent of the fund in liquid/semi-liquid assets in the form of cash and cash equivalents, investments in UITF and accrued interest receivable to assure necessary liquidity. This is also in compliance to Section 6.10 of the Implementing Rules and Regulations of the Investment Company Act series of 2018.

The fund manager manages liquidity risks by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The following table details the Company's remaining contractual maturity for its non-derivative financial liabilities. The table had been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

	Less than One Month	One Month to One Year	Total
2021			
Accrued expenses and other payables	\$25,535	\$5,191	\$ 30,726
Payable to fund manager	61,430	-	61,430
	\$86,965	\$5,191	\$ 92,156
2020			
Accrued expenses and other payables	\$673,165	\$3,164	\$676,329
Payable to fund manager	29,597	-	29,597
	\$702,762	\$3,164	\$705,926

The difference between the carrying amount of accrued expenses and other payables disclosed in the statements of financial position and the amount disclosed in this note pertains to withholding and documentary stamp taxes and filing and registration fees payable that are not considered financial liabilities.

The following table details the Company's expected maturity for its financial asset. The table had been drawn up based on the contractual maturities of the financial asset including interest that will be earned on that asset, except when the Company anticipates that the cash flows will occur in a different period.

	Average Effective Interest Rate	Less than One Year	One Year to Five Years	Five Years to Ten Years	Total

		\$58,789,194	\$27,452,923	\$-	\$86,242,117

The Company expects to meet its obligations from operating cash flows and proceeds from maturing financial asset and sales of financial assets at FVTPL.

22. CAPITAL RISK MANAGEMENT

The Fund Manager manages the Company's capital to ensure that the Company will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the mix of high quality financial instruments.

The Company is guided by its Investment Policies and Legal Limitations. All the proceeds from the sale of shares, including the original subscription payments at the time of incorporation constituting the paid-in capital, is held by custodian banks.

The capital structure of the Company consists of issued capital as disclosed in Note 13.

The Fund Manager manages the Company's capital and NAVPS, as disclosed in Notes 13 and 15 to ensure that the Company's net asset value remains competitive and appealing to prospective investors.

The Company is also governed by the following fundamental investment policies:

- It does not issue senior securities;
- It does not intend to incur any debt or borrowing. In the event that borrowing is necessary, it can do so only if, at the time of its incurrence or immediately thereafter, there is asset coverage of at least 300% for all its borrowings;

- c. It does not participate in any underwriting or selling group in connection with the public distribution of securities, except for its own share capital;
- d. It generally maintains a diversified portfolio. Industry concentrations may vary at any time depending on the investment **manager's view on the prospects**;
- e. It does not invest directly in real estate properties and developments;
- f. It does not purchase or sell commodity futures contracts;
- g. It does not engage in lending operations to related parties such as the members of the Board of Directors, officers of the Company and any affiliates, or affiliated corporations of the Company;
- h. The asset mix in each type of security is determined from time to time, as warranted by economic and investment conditions; and
- i. It does not change its investment objectives without the prior approval of a majority of its shareholders.

The Investment Policies refer to the following:

- a. Investment Objective - to provide regular returns through investments in a diversified portfolio of US Dollar-denominated fixed income instruments issued by the Philippine government, other major economies, or corporations operating therein or through diversified investment companies invested in such.
- b. Benchmark - 100% 30-day US Dollar Deposit Rate.
- c. Asset Allocation Range - the Company allocates its funds available for investments among cash and other deposit substitutes and fixed-income securities based on certain proportion as approved by Management.

Other matters covered in the investment policy include the fees due to be paid to the Fund Manager with management and distribution fees each set at an annual rate of 0.125% of the net assets attributable to shareholders on each valuation day.

In compliance to SEC Memorandum Circular No. 21, Series of 2019 signed on September 24, 2019 in relation to independent Net Asset Value (NAV) calculation, SLAMCI (Fund Manager) engaged Citibank, N.A. Philippines to service its fund accounting functions including calculation of its NAV every dealing day. In December 2020, SLAMCI implemented the outsourced fund accounting to all Sun Life Prosperity Funds.

As at December 31, 2021 and 2020, the Company is in compliance with the above requirements and minimum equity requirement of the SEC of P50,000,000.

The equity ratio at year-end is as follows:

	2021	2020
Total equity	\$185,719,103	\$92,538,210
Total assets	186,002,048	93,327,454
Equity ratio	\$0.9985:1	\$0.9915:1

Management believes that the above ratios are within the acceptable range.

23. EVENTS AFTER THE REPORTING PERIOD

On January 6, 2022, the SEC’s Commission en Banc, issued Financial Reporting Bulletin (FRB) No. 6 - Deposit For Future Stock Subscription (DFFS) which imposed the prohibition on Investment Companies to accept DFFS.

On March 14, 2022, Management filed a Request for Exemptive Relief from the amended FRB No. 6 with the SEC. Consequently, the Commission en Banc in its meeting held on 28 April 2022 approved said request to temporarily allow the acceptance of DFFS during the pendency of the applications for increase of authorized capital stock of the Company, subject to compliance with the following conditions:

- a) That the Company will only temporarily accept DFFS up to the maximum number of shares covered by the respective pending applications for increase of authorized capital stock:

Name of Fund	Period	Total ACS Increase
Dollar Starter	As of March 31, 2022	491 Million

- b) To expedite the subsequent securities registration process, the Company shall likewise be required to submit, within thirty (30) days from receipt of the letter granting its herein request, the corresponding SEC Form 12-1-ICA for the registration of additional registration of shares covered by the abovementioned ACS applications pursuant to ICA and SRC for concurrent processing, approval of which shall be made subject to the approval of the increase; and

- c) That no DFFS shall be accepted beyond the number of shares mentioned in item (a).

24. SUPPLEMENTARY INFORMATION REQUIRED BY THE BUREAU OF INTERNAL REVENUE (BIR) UNDER REVENUE REGULATIONS NO. 15-2010

The following information on taxes, duties and license fees paid or accrued during the 2021 taxable year is presented for purposes of filing with the BIR and is not a required part of the basic financial statements.

Documentary stamp tax

Documentary stamp taxes incurred by the Company during 2021 amounted to P14,457 representing taxes paid in connection with the issuance of stock certificates by the Company to its shareholders. The documentary stamp tax being paid by the **Company to the BIR includes those charged against the shareholder’s investments in excess of 10 (ten) inter-fund transfers per calendar year, if any.**

Other taxes and licenses

Details of other taxes and licenses and permit fees paid or accrued in 2021 are as follows:

Charged to Operating Expenses	
Business tax	P110,556
Filing and registration fees	33,039
Residence or community tax	10,500
P154,095	

The difference between the taxes and licenses disclosed in the statements of comprehensive income and the amount disclosed in this note pertains to the accrued filing and **registration payable to SEC in relation to the Company’s authorized capital stock increase application.**

Withholding taxes

Withholding taxes paid and accrued and/or withheld consist of:

	Paid	Accrued	Total
Expanded withholding taxes	P2,508,165	P348,560	P2,856,725

Deficiency tax assessments

The Company has no tax assessments and tax cases in 2021.

25. APPROVAL OF FINANCIAL STATEMENTS

The financial statements of the Company were reviewed and endorsed by the Audit and Compliance Committee for the approval of the Board of Directors on March 9, 2022.

The Board of Directors approved the issuance of the financial statements also on March 9, 2022.

To the Board of Directors and Shareholders
SUN LIFE PROSPERITY DOLLAR STARTER FUND, INC.
(An Open-end Investment Company)
Sun Life Centre, 5th Avenue corner Rizal Drive
Bonifacio Global City, Taguig City

We have audited the financial statements of Sun Life Prosperity Dollar Starter Fund, Inc. (the "Company") as at December 31, 2021 and 2020 and for the years ended December 31, 2021, 2020 and 2019, in accordance with Philippine Standards on Auditing on which we have rendered an unqualified opinion dated May 6, 2022.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information on the attached schedule showing the reconciliation of the retained earnings available for dividend declaration and other supplementary information shown in schedules A-H, as required by the Securities and Exchange Commission under the SRC Rule 68, as Revised, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information are the responsibility of Management and have been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Annex A: 2021 Annual Stockholders' Meeting Internal Procedures

1. **Date, Time and Venue of the Meeting.** The 2021 Sun Life Prosperity Funds Annual Stockholders' Meeting ("ASHM") will be held at 02:00 P.M. on Wednesday, 14 July 2021 via *Zoom Video Communications* ("*Zoom*"). Present during the said meeting will be the Board of Directors, Officers, and Stockholders of the Sun Life Prosperity Funds ("Funds").
2. **Notices of the Meeting.** The investors of the Funds as of 30 April 2021 ("Record Date") will be notified of the date, time, *Zoom* link, and other relevant information related to the ASHM no later than 14 June 2021 through electronic mail for investors with e-mail address/es on record. Notices of the Meeting will also be published in the website of Sun Life Asset Management (www.sunlifefunds.com), and in the business section of two (2) newspaper of general circulation, in print and online format, for two (2) consecutive dates prior to 14 June 2021.
3. **Registration.** Prior the ASHM, investors as of Record Date should pre-register using the link that will be provided through various communication channels. Client identification may be verified during the pre-registration process.
4. **Right to Vote.** The right to vote of investors as of the Record Date may be exercised in person, through proxy, or so when so authorized in the bylaws, through remote communication or *in absentia*. The Funds will accept votes from its stockholders by emailing SunLifeFunds@sunlife.com until Tuesday, 13 July 2021 (one business day prior to the ASHM). Investors who will decide to attend the ASHM via *Zoom* may also exercise their right to vote via the *Zoom* poll functionality available during the conduct of the ASHM.
5. **ASHM Conduct.** Suitable equipment and facilities will be available during the conduct of the ASHM. Participating investors will have the opportunity to read and hear the discussions substantially using *Zoom*. There will be both live and pre-recorded audio and visual presentations from the Officers and Directors of the Funds. Investors may be able to ask questions during the entire conduct of the ASHM. The audio and video of the ASHM via *Zoom* will be recorded, and this will be made available to clients after the meeting for thirty (30) days via the official Sun Life You Tube Channel.
6. **Quorum and Minutes of the Meeting.** The Corporate Secretary of the Funds will determine quorum in the meetings, as well as the voting results regarding the matters discussed in the ASHM. She will also be responsible for the preparation of the Minutes of the Meeting, and this will be forwarded to the stockholders for their approval in the next ASHM.
7. **Others.** Sun Life shall address any administrative, technical and logical issues as to the conduct of the said meeting. Should any stoppage or stoppage occur, the audio and visual recording shall start where it was interrupted, with the Chairman/Corporate Secretary acknowledging where in the agenda they left off.

CANDY S. ESTEBAN

Academic Background

Candy is a Master of Business Administration (MBA) from INSEAD. She also holds a bachelor's degree in Management Engineering from the Ateneo De Manila University.

Professional Career

Candy was the Head for Financial Planning and Analysis for the Sun Life group of companies where she led strategic and business planning, management reporting and expense management activities. She was also the Treasurer for Sun Life of Asset Management Company, Inc. (SLAMCI) and the 16 Sun Life Prosperity Funds (SLP Funds). In this role, Candy co-managed the day to day activities of treasury operations, as well as financial accounting and reporting for SLAMCI and the SLP Funds.

Before joining Sun Life, Candy held various positions in the Philippine business of Citigroup. From 2006 to 2014 – she led business planning and analysis functions for the Wealth Management business of Citibank Philippines covering the Deposits, Investments, Personal Loans and Insurance. Candy was also the Chief Financial Officer for Citibank Savings Incorporated (CSI) from 2011 to March 2014 where she covered the financial management of the legal vehicle CSI, including local regulatory, US GAAP reporting, and compliance to internal and external regulations. She was one of the key members in the sale and transition of CSI to a local Philippine bank in 2014.

Candy also held the position of Lead Finance Office at American Express Bank from 2004-2006 where she supported the Commercial Cards business for the Philippines, Thailand, Indonesia and Malaysia, and the Wealth Management business in the Philippines. Her first role after graduating from the Ateneo was as a Management Reporting Officer/Business Process Analyst for the financial reporting shared services division of Citigroup where she led automation and financial reporting for various countries in the Central and Eastern Europe, Middle East and Africa (CEEMEA), and Southeast Asia region.

SHERWIN S. SAMPANG

Mr. Sherwin S. Sampang is Sun Life PH's Head of Financial Planning & Analysis (October 2021 to present). Concurrently, Mr. Sampang is the Treasurer of Sun Life Financial Plans, Inc. (October 2017 to present). He joined Sun Life as Head of Finance Systems, Processes and Internal Controls (September 2016 to October 2018). He later assumed the role of Head of Accounting and Controllershship (November 2018 to September 2021).
